NOTICE IS GIVEN THAT THE CITY COUNCIL OF THE CITY OF LAMESA, TEXAS, WILL MEET IN A REGULARLY SCHEDULED MEETING AT 5:30 P.M. ON TUESDAY, MARCH 21, 2017, 601 SOUTH FIRST STREET, FOR THE PURPOSE OF CONSIDERING AND TAKING OFFICIAL ACTION ON THE FOLLOWING ITEMS:

1. CALL TO ORDER:

2. INVOCATION:

3. CONSENT AGENDA: All consent agenda items listed are considered to be routine by the City Council and will be enacted by one motion. There will be no separate discussion of these items unless a Council Member so requests, in which event the item will be removed from the Consent Agenda and considered in its normal sequence on the agenda. Information concerning consent agenda items is available for public review.

   a. APPROVAL OF THE MINUTES: Approval of the minutes of the council meetings held on March 21, 2017.

   b. BILLS FOR FEBRUARY 2017: Approval of the bills paid by the City of Lamesa for the months of February, 2017.

   c. APPOINTMENT TO BOARDS:

      • APPOINTMENT – ZONING BOARD OF ADJUSTMENT BOARD MEMBER: Consider appointing Scott Seymour to the Zoning Board of Adjustment, for a two (2) year term ending on December 2019. (Mr. Seymour has agreed to serve.)

      • APPOINTMENT – ZONING BOARD OF ADJUSTMENT BOARD ALTERNATE MEMBER: Consider appointing Kim Bairington to the Zoning Board of Adjustment, for a two (2) year term ending on December 2019. (Ms. Bairington has agreed to serve.)

      • APPOINTMENT – PLANNING AND ZONING BOARD MEMBER: Consider appointing Scott Seymour to the Planning and Zoning Board, for an unexpired term ending on December 2017. (Mr. Seymour has agreed to serve.)

      • APPOINTMENT – PLANNING AND ZONING BOARD ALTERNATE MEMBER: Consider appointing Kim Bairington to the Planning and Zoning Board, for an unexpired term ending on December 2017. (Ms. Bairington has agreed to serve.)

4. GENERAL ELECTION: Consider passing an ordinance on first reading declaring the unopposed candidate for District 6 for the 2017 City of Lamesa General Election, to be held on May 6, 2017, elected to office. (City Secretary)

5. APPOINTMENTS - ELECTION OFFICIALS: Consider passing resolution appointing a presiding judge and alternate judge for the 2017 City General Election and a presiding judge for the Early Voting Ballot Board; clerks for early balloting; and to provide for compensation of services for the 2017 City Elections to be held on May 6, 2017. (City Secretary)

6. AMEND JOINT ELECTION AGREEMENT WITH LAMESA ISD TO INCLUDE DAWSON COUNTY HOSPITAL DISTRICT: Consider passing a resolution approving a Joint Election Agreement between the Lamesa Independent School District, Dawson County Hospital District, and the City of Lamesa to share the use of Forrest Park Community Center at 814 S. Houston, Lamesa, Texas for holding elections. (City Secretary)
7. OPEN BID – CITY-WIDE WATER METER REPLACEMENT & RELATED SOFTWARE: City Council to open bids for City-wide Water Meter Replacement and related software to be reviewed by City staff and City Engineer. [Director of Water/Wastewater, City Manager, Finance Director and Mr. Holly Holder, City Engineer (Parkhill Smith & Cooper)]

8. CALL FOR CONSTRUCTION BIDS FOR 2016 CDBG WATER LINE PROJECT: City Council to consider approval of a call for construction bids to install 2016 CDBG water line project. [Director of Water/Wastewater, City Manager, Finance Director and Mr. Holly Holder, City Engineer (Parkhill Smith & Cooper)]

9. AMEND CODE OF ORDINANCES BY ADDING SECTION 1.08.006 (a) PARK FEES FOR USE OF THE WEAVER SPORTS COMPLEX: City Council to consider adding Section 1.08.006 (a) Park Fees to the Code of Ordinances on second reading for use of the Weaver Sports Complex. (City Manager)

10. AMEND CODE OF ORDINANCES BY ADDING SECTION 1.08.006 (b) PARK FEES FOR USE OF THE CITY SWIMMING POOL: City Council to consider adding Section 1.08.006 (b) Park Fees to the Code of Ordinances on first reading for use of the City Swimming Pool. (City Manager)

11. BUDGET AMENDMENT I: City Council to consider amending Ordinance O-18-16 on second reading with respect to October 1, 2016 fiscal year budget. (City Manager & Finance Director)

12. LEASE OF TORO FAIRWAY MOWER FOR LAMESA MUNICIPAL GOLF COURSE: City Council to consider authorizing a lease agreement with Toro for a 5 year lease of a fairway mower for the Lamesa Municipal Golf Course. This is a Buyboard lease replacing current leased equipment. (Golf Course Manager/Supervisor)

13. LEASE OF GOLF CARTS FOR LAMESA MUNICIPAL GOLF COURSE: City Council to consider authorizing a lease agreement with Club Car for a 60 month lease term for golf carts for the Lamesa Municipal Golf Course. This is a US Communities Government Purchasing Alliance (component of National League of Cities) lease agreement replacing current leased equipment. (Golf Course Manager/Supervisor)

14. BUDGET AMENDMENT II: City Council to consider amending Ordinance O-18-16 on first reading with respect to October 1, 2016 fiscal year budget. (City Manager & Finance Director)

15. RESOLUTION FOR PORTS-TO-PLAINS - TxDOT EXTENSION OF INTERSTATE 27: City Council to approve a resolution authorizing TxDOT to extend Interstate 27 along the Ports-To-Plains Corridor south of Lubbock.

16. APPROVAL OF AGREEMENT FOR MONITORING WELLS TO BE PLACED CITY RIGHT OF WAY: City Council to approve a resolution authorizing Ranger Environmental working on behalf of TCEQ to place two monitoring wells in the City alley between S. 1st and S. 2nd between S. Lynn and S. Dallas.

17. DESIGNATE REGULARLY SCHEDULED MEETINGS FOR ECONOMIC DEVELOPMENT PROJECT & OTHER REGULAR AGENDA ITEMS AS NECESSARY: City Council to take action to designate the regularly scheduled City Council meetings for March and April, 2017.
   - March 28, 2017
   - April 4, 2017
• April 11, 2017
• April 18, 2017
• April 25, 2017
• May 2, 2017
• May 9, 2017
• May 16, 2017

18. CITY STAFF REPORTS:
   a. UTILITIES DIRECTOR REPORT: Utilities Director to report on the city’s recent events.

19. FINANCIAL REPORT: Finance Director to report on the city’s finances.

20. CITY MANAGER REPORT: City Manager to report on current activities and answer questions from the City Council.

21. MAYOR’S REPORT: Mayor to report on future events.
   • “Meet the Candidates Forum” (sponsored by the Lamesa Chamber of Commerce) to be held at the Forrest Park Community Center, April 13, 2017, Time: TBD.

22. ADJOURNMENT: The next regularly scheduled meeting of the City Council of the City of Lamesa will be March 21st, 2017 at 5:30 P.M.
### CLOSED MEETINGS

The City Council reserves the right to adjourn into closed session at any time during the course of this meeting to discuss any of the matters listed above, as authorized by Texas Government Code Section 551.071 (Consultation with Attorney), 551.072 (Deliberations about Real Property), 551.073 (Deliberations about Gifts and Donations), 551.074 (Personnel Matters), 551.076 (Deliberations about Security Devices) and 551.087 (Economic Development).

### PUBLIC PARTICIPATION

The meeting will be held pursuant to the provisions of the Texas Open Meetings Act (Govt. Code, Chapter 551). Discussion and actions are limited to the agenda items listed above. Persons desiring to address the City Council or express their opinion about a particular item on this agenda should notify the City Secretary before the meeting. Persons desiring to present other business or discuss matters not on this agenda should submit a request in writing to the City Secretary by the end of business hours on the Wednesday before the next meeting in order to be considered for inclusion on that agenda.

### MEETING ACCESSIBILITY

Upon request, auxiliary aids and services will be provided to an individual with a disability in order to allow them to effectively participate in the city council meeting. Those requesting auxiliary aids or services should notify the contact person listed below at least twenty-four hours prior to the meeting by mail, telephone or RELAY Texas (1-800-735-2989).

**Contact: Norma Garcia at 806-872-4322**

DATE OF MEETING: MARCH 21, 2017
AGENDA ITEM: 4

SUBJECT: 2017 GENERAL ELECTION
PROCEEDING: Ordinance, 1st reading
SUBMITTED BY: City Secretary
EXHIBIT: Ordinance
AUTHORITY: State Law; Texas Election Code; Section 2.051, 2.052, and 2.053

SUMMARY STATEMENT

Consider passing an ordinance on first reading declaring the unopposed candidate for District 6 for the 2017 City of Lamesa General Election, to be held on May 6, 2017, elected to office. (City Secretary)

COUNCIL ACTION

DISCUSSION

Motion by Council Member _____ to pass an ordinance on first reading declaring the unopposed candidate for the 2017 City of Lamesa General Election, to be held on May 6, 2017. Council Member District 6, Douglas Morris elected to office. Motion seconded by Council Member ______ and upon being put to a vote the motion ______.

VOTING: "AYE" ______ "NAY" ______ "ABSTAIN" ______

CITY MANAGER'S MEMORANDUM

The Texas Election Code allows the City Council to cancel its election where the candidate for office is unopposed. Enclosed is a certification from the City Secretary certifying that the candidate for City Council Member District 6 was unopposed for the May 6th City election. You have the option to pass an ordinance declaring the candidates elected to office. If you do so, they will take office in May. The time has also passed for the filing of write-in candidates. Recommend approval.
ORDINANCE NO. ______

AN ORDINANCE DECLARING AN UNOPPOSED CANDIDATE IN THE
MAY 6, 2017, GENERAL CITY ELECTION ELECTED TO OFFICE;
CANCELLING THE ELECTION IN DISTRICT SIX (6); PROVIDING A
SEVERABILITY CLAUSE; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the general city election was called for May 6, 2017, for the purpose
of electing members to the city council; and

WHEREAS, the City Secretary has certified in writing that there is no proposition
on the ballot, that no person has made a declaration of write-in candidacy, and that the
candidate on the ballot for District Six is unopposed for election to office; and

WHEREAS, under these circumstances, Subchapter C, Chapter 2, Texas Election
Code, authorizes the City Council to declare the candidate elected to office and cancel
the election,

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY
OF LAMESA, TEXAS;

Section 1. The following candidate, who is unopposed in the May 6, 2017, general
city election, is declared elected to office, and shall be issued a certificate of election
following the time the election would have been canvassed:

City Council Member
District 6: Douglas Morris

Section 2. The May 6, 2017, District 6 Council Member election is hereby
canceled and the City Secretary is directed to cause a copy of this ordinance to be posted
on election day at each polling place that would have been used in the election.

Section 3. It is declared to be the intent of the City Council that the phrases,
clauses, sentences, paragraphs, and sections of this ordinance are severable, and if any
phrase, clause, sentence paragraph, or section of this ordinance is declared invalid by
the judgment or decree of a court of competent jurisdiction, the invalidity shall not affect
any of the remaining phrases, clauses, sentences, paragraphs, or sections of this
ordinance since the City Council would have enacted them without the invalid portion.

Section 4. This ordinance shall take effect upon its final passage, and it is so
ordained.

Upon being put to a vote the foregoing ordinance was Passed on First Reading on
the 21st day of March, 2017, by a majority vote; and then on the 18th day of April, 2017,
there came on and was held at the regular meeting place, the City Hall, an open meeting
of the City Council of the City of Lamesa, Texas, held pursuant to the provisions of the
Texas Open Meetings Act, there being a quorum present and acting throughout the
meeting, the foregoing ordinance was formally submitted by motion and duly seconded
for the consideration and action of the meeting, and upon being put to a vote, the
foregoing ordinance was Passed on Second and Final Reading and Adopted this 18th day
of April, 2017, by a majority vote and ordered to be spread upon the minutes of the City
Council of the City of Lamesa, Texas and recorded in the ordinance book thereafter.
ATTEST:

Norma Garcia
City Secretary

APPROVED:

Josh Stevens
Mayor
2017 CERTIFICATE OF UNOPPOSED CANDIDATES
2017 CERTIFICACIÓN DE CANDIDATOS ÚNICOS

To: Lamesa City Council
    Al: Concilio de la Ciudad de Lamesa

As the authority, responsible for having the official ballot prepared, I hereby certify that the following candidates are unopposed for election to office for the election scheduled to be held on May 6, 2017.

Como autoridad a cargo de la preparación de la boleta de votación oficial, por la presente certifico que los siguientes candidatos únicos para elección para un cargo en la elección que se llevará a cabo el 6 de Mayo de 2017.

CITY SECRETARY
Title (Puesto)

MARCH 21, 2017
Date of signing (Fecha de firma)
DATE OF MEETING: MARCH 21, 2017

SUBJECT: APPOINTMENT – ELECTION OFFICIALS
PROCEEDING: Appointment
SUBMITTED BY: City Secretary
EXHIBITS: Resolution
AUTHORITY: State Law; Texas Election Code, Section 32.005

SUMMARY STATEMENT

Consider passing resolution appointing a presiding judge and alternate judge for the 2017 City General Election and a presiding judge for the Early Voting Ballot Board; clerks for early balloting; and to provide for compensation of services for the 2017 City Elections to be held on May 6, 2017. (City Secretary)

COUNCIL ACTION

DISCUSSION

Motion by Council Member _________ to pass a resolution appointing Elda Barrera as Presiding Judge, Lisa Gonzales as Alternate Presiding Judge and Susie Brown as Presiding Judge of the Early Voting Ballot Board for the 2017 City of Lamesa General Election and setting compensation ($11.00 per hour per election worker) for same. Motion seconded by Council Member _________ and upon being put to a vote the motion _________.

VOTING: "AYE" _______ "NAY" _______ "ABSTAIN" _______

CITY MANAGER'S MEMORANDUM

Elda Barrera has agreed to serve as Presiding Judge with Lisa Gonzales as Alternate Judge; Susie Brown has agreed to serve as Judge of the Early Voting Ballot Board. They have worked in previous elections and I recommend passing a resolution making these appointments. The rate of pay for all election day workers to be $11.00 per hour. (NG)

Recommend approval.
RESOLUTION NO.

A RESOLUTION APPOINTING ELECTION OFFICIALS FOR THE 2017 CITY OF LAMESA GENERAL ELECTIONS.

On this the 21st day of March, 2017, there came on and was held at the regular meeting place, the City Hall, an open meeting of the City Council of the City of Lamesa, Texas held pursuant to the provisions of the Texas Open Meetings Act; there being a quorum present and acting throughout the meeting, the following resolution was formally submitted by motion and duly seconded for the consideration and action of the meeting, to wit:

WHEREAS, the terms of the Federal Court Order resolving Civil Action Number CA 5-91-0153, the laws of the State of Texas and the Charter of the City of Lamesa, Texas provide that on May 6, 2017, there shall be elected the following officials for this City.

One (1) “Council Member” in District 2
One (1) “Council Member” in District 3
for three (3) year terms expiring in 2020; and

WHEREAS, the terms of the Federal Court Order resolving Civil Action Number CA 5-91-0153, the laws of the State of Texas and the Charter of the City of Lamesa, Texas further provide that the Election code of the State of Texas is applicable to said election, and that Section 32.005 of said Code provides that the judges of said election may be appointed for a single election; and

WHEREAS, it is in the public interest and welfare that said resolution be passed.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF LAMESA, TEXAS:

I. That the City of Lamesa, Texas having six election districts, said election shall be held at the following place in said City.

Forrest Park Community Center
814 South Houston Avenue

II. That the following named persons are hereby appointed officers for said election:

(A). For the 2017 City of Lamesa General Election, Elda Barrera shall serve as Presiding Judge and Lisa Gonzales shall serve as Alternate Presiding Judge, and the Clerks for said election shall be appointed by the Presiding Judge in a number not to exceed six (6) clerks.
(B). Susie Brown shall serve as Presiding Judge of the Early Voting Ballot Board and the Clerks for said election shall be appointed by the Presiding Judge in a number not to exceed two (2) clerks. Lisa Gonzales shall serve as Alternate Presiding Judge for the Early Voting Ballot Board.

(C). Norma Garcia is hereby appointed Clerk for Early Balloting and Sandy Trevino and Terri Stahl are appointed as Deputy Clerks for early balloting. One additional deputy clerk may be employed and appointed on a temporary basis for said election.

(D). The term of office for said appointments shall be for the period of the 2017 City Officer's Election including any runoff Election.

(E). Compensation for said election officials and clerks shall be Eleven Dollars ($11.00) per hour, as provided for in Section 32.091 of the Election Code; and the Election judge or clerk who delivers the Election records, keys, and ballot boxes to the Mayor, City Secretary, and County Voter Registrar is entitled to compensation for that service in the amount of Twenty-Five Dollars ($25.00), as provided for in Section 32.093 of said Code.

(F). Notice of said appointment shall be given to the presiding election judges in accordance with the provisions of Section 4.007 of the Election Code.

Upon being put to a vote, the resolution was Passed, Approved, and Adopted this 21st day of March, 2017, by a majority vote and ordered to be spread upon the minutes of the City Council of the City of Lamesa, Texas and recorded in the resolution book thereafter.

AMENDED RESOLUTION NO. R-2-17

RESOLUTION OF THE CITY OF LAMESA, TEXAS, REGARDING HOLDING A JOINT ELECTION WITH LAMESA INDEPENDENT SCHOOL DISTRICT AND DAWSON COUNTY HOSPITAL DISTRICT

At a lawfully called meeting on January 17, 2017, held in accordance with Chapter 551 of the Texas Government Code, the City Council of the City of Lamesa, Texas does hereby make the following Resolution regarding the City’s upcoming general election:

WHEREAS, the Lamesa Independent School District ("District"), Dawson County Hospital District ("Hospital District"), and the City of Lamesa ("City") are each political subdivisions of the State of Texas;

WHEREAS, Texas Education Code §11.0581(a) requires that an election for trustees of an independent school district be held on the same date as the election for the members of the governing body of a municipality located in the school district or the general election for state and county officers;

WHEREAS, Texas Education Code §11.0581(b) requires that District trustee elections under §11.0581(a) be conducted jointly, and in accordance with Chapter 271 of the Election Code;

WHEREAS, May 6, 2017, is a uniform Election Date under Texas Election Code §41.001 ("Election Day");

WHEREAS, the City intends to hold a regular election on Election Day, May 6, 2017;

WHEREAS, the Lamesa Independent School District’s Board of Trustees intends for the District to hold a general trustee election on Election Day, May 6, 2017;

WHEREAS, Texas Election Code § 271.002(a) authorizes the governing bodies of political subdivisions to enter into an agreement to hold joint elections in election precincts that can be served by common polling places;

WHEREAS, the governing bodies of the District, Hospital District, and City desire to hold a joint election as set forth in the Joint Election Agreement attached hereto and fully incorporated as if set forth herein, and as permitted by Chapter 271 of the Texas Election Code; and

WHEREAS, it will benefit the District, Hospital District, and City, and the citizens and voters thereof, to hold the elections jointly in the election precincts that can be served by common polling places insofar as possible.
NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Lamesa, Texas hereby adopts the above recitals as findings of fact and operative provisions hereof the same as if set out in full;

RESOLVED FURTHER, that the May 6 2017, election, and future elections, shall be jointly held by the District, Hospital District, and City in accordance with, and as permitted under, Texas Election Code §271.002, and as required by Texas Education Code §11.0581; and

RESOLVED FURTHER, that the City Council authorizes the Mayor to enter into execute Joint Election Agreement.

Upon being put to a vote, the foregoing resolution was, passed, approved and adopted this 21ST day of March, 2017, by a majority vote of the City Council and ordered to be spread upon the minutes of the City Council of the City of Lamesa, Texas, and recorded in the Resolution Book thereafter.

City of Lamesa, Texas
Water System Improvements
Water Line Replacement
TxCDBG No. 7216280
TCEQ Review

March 2017
PSC Project # 01277517
Sealed proposals addressed to City of Lamesa will be received at Lamesa City Hall, 601 South 1st Street, Lamesa, Texas 79331, until [date] at [time] for City of Lamesa Water System Improvements, Water Line Replacement, TxCDBG No. 7216280.

Proposals will be publicly opened and read aloud during the regular Lamesa City Council meeting. Any bid received after closing time will be returned unopened. Bids will be tabulated and presented to City of Lamesa for action at a later date.

Information for bidders, proposal forms, specifications and plans are on file at City of Lamesa and the office of Parkhill, Smith & Cooper, Inc., (PSC) Consulting Engineers, 4222 85th Street, Lubbock, Texas, 79423.

Bidders must submit a cashier's or certified check issued by a bank satisfactory to Owner, or Proposal Bond from a reliable Surety Company, payable without recourse to the order of City of Lamesa in an amount not less than 5 percent of the bid submitted as a guarantee Bidder will enter into a contract and execute bonds in forms provided within 15 days' after notice of award of contract to him. Bids without the required check or Proposal Bond will not be considered.

The successful Bidder will be required to furnish a Performance Bond and Payment Bond, each in the amount of the contract, written by a responsible Surety Company authorized to do business in the State of Texas, and satisfactory to the Owner, as required by Article 5160, V.A.T.C.S., as amended by H.B.344, passed by the 56th Legislature, Regular Session 1959.

Bidders are expected to inspect the site of the work and to inform themselves regarding all local conditions.

Copies of the plans, specifications and contract documents may be secured at the PSC office, 4222 85th Street, Lubbock Texas, 79423 (806.473.2200) as follows:

1. Download documents (PDF file extension format) from the PSC Info Exchange web site after registering as a plan holder with issuing PSC office. No cost or deposit required for this option.
2. One set of paper copies for a non-refundable deposit of $50.00.
3. A digital copy (PDF file extension format) upon a non-refundable deposit of $20.00 per each CD.

Deposit shall be company or cashiers' check made payable to Parkhill, Smith & Cooper, Inc. No partial sets issued.
CONTRACTOR'S CERTIFICATION
of RECOVERED MATERIAL

ACKNOWLEDGEMENT

I, ____________________________ (Principal's Name) of ____________________________, (hereinafter called "Contractor"), acknowledge the recovered material bidding requirements found in 2 CFR 200.322 that requires the Contractor to procure those items designated in the guidelines of the Environmental Protection Agency (EPA) at 40 CFR 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition.

I also acknowledge that this requirement shall apply to items purchased (1) where the Contractor purchases in excess of $10,000 of the item under this contract; or (2) where during the preceding fiscal year, the value of the quantity acquired was in excess of $10,000.

Finally, I acknowledge the attached list of recovered materials included in the bid documents. (For up-to-date listing, please go to https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program#directory)

APPENDICES

APPENDIX A – OSHA SUBPART P
SECTION 00200 - INSTRUCTIONS TO BIDDERS

ARTICLE 1 – DEFINED TERMS

1.01 Terms used in these Instructions to Bidders have the meanings indicated in the General Conditions and Supplementary Conditions. Additional terms used in these Instructions to Bidders have the meanings indicated below:

A. Issuing Office – The office from which the Bidding Documents are to be issued and where the bidding procedures are to be administered.

ARTICLE 2 – COPIES OF BIDDING DOCUMENTS

2.01 Complete sets of the Bidding Documents in the form stated in the advertisement and invitation to bid may be obtained from the Issuing Office.

2.02 Complete sets of Bidding Documents shall be used in preparing Bids; neither Owner nor Engineer assumes any responsibility for errors or misinterpretations resulting from the use of incomplete sets of Bidding Documents.

2.03 Owner and Engineer, in making available Bidding Documents on the above terms, do so only for the purpose of obtaining Bids for the Work and do not authorize or confer a license for any other use.

ARTICLE 3 – QUALIFICATIONS OF BIDDERS

3.01 To demonstrate Bidder’s qualifications to perform the Work, Bidder shall submit written evidence such as financial data, previous experience, present commitments, and such other data as may be called for in Section 00631 - Bidder’s Qualification Statement.

3.02 Bidder is advised to carefully review those portions of the Bid Form requiring Bidder’s representations and certifications.

ARTICLE 4 – EXAMINATION OF BIDDING DOCUMENTS, OTHER RELATED DATA, AND SITE

4.01 Subsurface and Physical Conditions

A. The Supplementary Conditions identify:

1. Those reports known to Owner of explorations and tests of subsurface conditions at or contiguous to the Site.

2. Those drawings known to Owner of physical conditions relating to existing surface or subsurface structures at the Site (except Underground Facilities).

B. Copies of reports and drawings referenced in Paragraph 4.01.A, if any, are included as an Appendix to these documents. Those reports and drawings are not part of the Contract Documents. Bidder is responsible for any interpretation or conclusion Bidder draws from any “technical data” or any other data, interpretations, opinions, or information contained in such reports or shown or indicated in such drawings.
4.02 Underground Facilities

A. Information and data shown or indicated in the Bidding Documents with respect to existing Underground Facilities at or contiguous to the Site is based upon information and data furnished to Owner and Engineer by owners of such Underground Facilities, including Owner, or others.

4.03 Hazardous Environmental Condition

A. Copies of reports and drawings known to Owner relating to a Hazardous Environmental Condition identified at the Site, if any, are included as an Appendix to these documents. Those reports and drawings are not part of the Contract documents. Bidder is responsible for any interpretation or conclusion Bidder draws from any “technical data” or any other data, interpretations, opinions, or information contained in such reports or shown or indicated in such drawings.

4.04 Provisions concerning responsibilities for the adequacy of data furnished to prospective Bidders with respect to subsurface conditions, other physical conditions, and Underground Facilities, and possible changes in the Bidding Documents due to differing or unanticipated subsurface or physical conditions appear in Paragraph 107 of the General Conditions.

4.05 On request, Owner will provide Bidder access to the Site to conduct such examinations, investigations, explorations, tests, and studies as Bidder deems necessary for submission of a Bid. Bidder shall fill all holes and clean up and restore the Site to its former condition upon completion of such explorations, investigations, tests, and studies. Bidder shall comply with all applicable Laws and Regulations relative to excavation and utility locates.

4.06 It is the responsibility of each Bidder before submitting a Bid to:

A. Examine and carefully study the Bidding Documents, and the other related data identified in the Bidding Documents;

B. Visit the Site and become familiar with and satisfy Bidder as to the general, local, and Site conditions that may affect cost, progress, and performance of the Work;

C. Become familiar with and satisfy Bidder as to all federal, state, and local Laws and Regulations that may affect cost, progress, and performance of the Work;

D. Carefully study all: (1) reports of explorations and tests of subsurface conditions at or contiguous to the Site and all drawings of physical conditions relating to existing surface or subsurface structures at the Site (except Underground Facilities) and (2) reports and drawings of Hazardous Environmental Conditions, if any, at the Site;

E. Consider the information known to Bidder; information commonly known to contractors doing business in the locality of the Site; information and observations obtained from visits to the Site; the Bidding Documents; and the Site-related reports and drawings identified in the Bidding Documents, with respect to the effect of such information, observations, and documents on (1) the cost, progress, and performance of the Work; (2) the means, methods, techniques, sequences, and procedures of construction to be employed by Bidder, including applying any specific means, methods, techniques, sequences, and procedures of construction
expressly required by the Bidding Documents; and (3) Bidder's safety precautions and programs;

F. Agree at the time of submitting its Bid that no further examinations, investigations, explorations, tests, studies, or data are necessary for the determination of its Bid for performance of the Work at the price(s) bid and within the times required, and in accordance with the other terms and conditions of the Bidding Documents;

G. Become aware of the general nature of the work to be performed by Owner and others at the Site that relates to the Work as indicated in the Bidding Documents;

H. Promptly give Engineer written notice of all conflicts, errors, ambiguities, or discrepancies that Bidder discovers in the Bidding Documents and confirm that the written resolution thereof by Engineer is acceptable to Bidder; and

I. Determine that the Bidding Documents are generally sufficient to indicate and convey understanding of all terms and conditions for the performance of the Work.

4.07 The submission of a Bid will constitute an incontrovertible representation by Bidder that Bidder has complied with every requirement of this Article 4, that without exception the Bid is premised upon performing and furnishing the Work required by the Bidding Documents and applying any specific means, methods, techniques, sequences, and procedures of construction that may be shown or indicated or expressly required by the Bidding Documents, that Bidder has given Engineer written notice of all conflicts, errors, ambiguities, and discrepancies that Bidder has discovered in the Bidding Documents and the written resolutions thereof by Engineer are acceptable to Bidder, and that the Bidding Documents are generally sufficient to indicate and convey understanding of all terms and conditions for performing and furnishing the Work.

ARTICLE 5 – PREBID CONFERENCE

5.01 A prebid conference, if any, will be held as stated in the Advertisement. Representatives of Owner and Engineer will be present to discuss the Project. Engineer will transmit to all prospective Bidders of record such Addenda as Engineer considers necessary in response to questions arising at the conference. Oral statements may not be relied upon and will not be binding or legally effective.

ARTICLE 6 – SITE AND OTHER AREAS

6.01 The Site is identified in the Bidding Documents. Easements for permanent structures or permanent changes in existing facilities are to be obtained and paid for by Owner unless otherwise provided in the Bidding Documents. All additional lands and access thereto required for temporary construction facilities, construction equipment, or storage of materials and equipment to be incorporated in the Work are to be obtained and paid for by Contractor.

ARTICLE 7 – INTERPRETATIONS AND ADDENDA

7.01 All questions about the meaning or intent of the Bidding Documents are to be submitted to Engineer in writing. Interpretations or clarifications considered necessary by Engineer in response to such questions will be issued by Addenda via the Engineer's Newforma Info Exchange website or via mail (if internet service is not available) to all parties recorded by Engineer as having received the Bidding Documents. Questions received less than seven days prior to the date for
opening of Bids may not be answered. Only questions answered by Addenda will be binding. Oral and other interpretations or clarifications will be without legal effect.

7.02 Addenda may be issued to clarify, correct, or change the Bidding Documents as deemed advisable by Owner or Engineer.

ARTICLE 8 – BID SECURITY

8.01 A Bid must be accompanied by Bid security made payable to Owner in an amount of 5 percent of Bidder's maximum Bid price and in the form of a certified check, bank money order, or a Bid bond (See Section 00430, Bid Bond) issued by a surety meeting the requirements of Paragraph 141 of the General Conditions.

8.02 The Bid security of the Successful Bidder will be retained until such Bidder has executed the Contract Documents, furnished the required contract security and met the other conditions of the Notice of Award, whereupon the Bid security will be returned. If the Successful Bidder fails to execute and deliver the Contract Documents and furnish the required contract security within 15 days after the Notice of Award, Owner may consider Bidder to be in default, annul the Notice of Award, and the Bid security of that Bidder will be forfeited. Such forfeiture shall be Owner's exclusive remedy if Bidder defaults. The Bid security of other Bidders whom Owner believes to have a reasonable chance of receiving the award may be retained by Owner until the earlier of seven days after the Effective Date of the Agreement or 61 days after the Bid opening, whereupon Bid security furnished by such Bidders will be returned.

8.03 Bid security of other Bidders whom Owner believes do not have a reasonable chance of receiving the award will be returned within seven days after the Bid opening.

ARTICLE 9 – CONTRACT TIMES

9.01 The number of days within which, or the dates by which the Work is to be substantially completed and ready for final payment are set forth in the Agreement.

ARTICLE 10 – LIQUIDATED DAMAGES

10.01 Provisions for liquidated damages, if any, are set forth in the Agreement.

ARTICLE 11 – SUBSTITUTE AND "OR-EQUAL" ITEMS

11.01 The Contract, if awarded, will be on the basis of materials and equipment specified or described in the Bidding Documents without consideration of possible substitute or "or-equal" items. Whenever it is specified or described in the Bidding Documents that a substitute or "or-equal" item of material or equipment may be furnished or used by Contractor if acceptable to Engineer, application for such acceptance will not be considered by Engineer until after the Effective Date of the Agreement.

ARTICLE 12 – SUBCONTRACTORS, SUPPLIERS AND OTHERS

12.01 If the Supplementary Conditions require the identity of certain Subcontractors, Suppliers, individuals, or entities to be submitted to Owner in advance of a specified date prior to the Effective Date of the Agreement, the apparent Successful Bidder, and any other Bidder so requested, shall within five days after Bid opening, submit to Owner a list of all such
Subcontractors, Suppliers, individuals, or entities proposed for those portions of the Work for which such identification is required. Such list shall be accompanied by an experience statement with pertinent information regarding similar projects and other evidence of qualification for each such Subcontractor, Supplier, individual, or entity if requested by Owner. If Owner or Engineer, after due investigation, has reasonable objection to any proposed Subcontractor, Supplier, individual, or entity, Owner may, before the Notice of Award is given, request apparent Successful Bidder to submit a substitute in which case apparent Successful Bidder shall submit an acceptable substitute, Bidders’ Bid price will be increased (or decreased) by the difference in cost occasioned by such substitution, and Owner may consider such price adjustment in evaluating Bids and making the Contract award.

12.02 If apparent Successful Bidder declines to make any such substitution, Owner may award the Contract to the next lowest Bidder that proposes to use acceptable Subcontractors, Suppliers, individuals, or entities. Declining to make requested substitutions will not constitute grounds for forfeiture of the Bid security of any Bidder. Any Subcontractor, Supplier, individual, or entity so listed and against which Owner or Engineer makes no written objection prior to the giving of the Notice of Award will be deemed acceptable to Owner and Engineer subject to revocation of such acceptance after the Effective Date of the Agreement.

12.03 Contractor shall not be required to employ any Subcontractor, Supplier, individual, or entity against whom Contractor has reasonable objection.

ARTICLE 13 – PREPARATION OF BID

13.01 The Bid Form is included with the Bidding Documents.

13.02 All blanks on the Bid Form shall be completed and the Bid Form signed in ink. Erasures or alterations shall be initialed in ink by the person signing the Bid Form. A Bid price shall be indicated for each Bid item, listed therein. In the case of optional alternatives the words “No Bid,” may be entered.

13.03 A Bid by a corporation shall be executed in the corporate name by the president or a vice-president or other corporate officer accompanied by evidence of authority to sign. The corporate seal shall be affixed and attested by the secretary or an assistant secretary. The corporate address and state of incorporation shall be shown.

13.04 A Bid by a partnership shall be executed in the partnership name and signed by a partner (whose title must appear under the signature), accompanied by evidence of authority to sign. The official address of the partnership shall be shown.

13.05 A Bid by a limited liability company shall be executed in the name of the firm by a member and accompanied by evidence of authority to sign. The state of formation of the firm and the official address of the firm shall be shown.

13.06 A Bid by an individual shall show the Bidder’s name and official address.

13.07 A Bid by a joint venture shall be executed by each joint venturer in the manner indicated on the Bid Form. The official address of the joint venture shall be shown.

13.08 All names shall be printed below the signatures.
13.09 The Bid shall contain an acknowledgment of receipt of all Addenda, the numbers of which shall be filled in on the Bid Form.

13.10 Postal and e-mail addresses and telephone number for communications regarding the Bid shall be shown.

13.11 The Bid shall contain evidence of Bidder's authority and qualification to do business in the state where the Project is located, or Bidder shall covenant in writing to obtain such authority and qualification prior to award of the Contract and attach such covenant to the Bid. Bidder's state contractor license number, if any, shall also be shown on the Bid Form.

ARTICLE 14 – BASIS OF BID; COMPARISON OF BIDS

14.01 Lump Sum

A. Bidders shall submit a Bid on a lump sum basis for the base Bid and include a separate price for each alternate described in the Bidding Documents if provided in the Bid Form. The price for each alternate will be the amount added to or deleted from the base Bid if Owner selects the alternate. In the comparison of Bids, alternates will be applied in the same order as listed in the Bid form.

B. Bidders shall submit a Bid on individual sections or any combination of sections as set forth in the Bid Form.

1. Bidders may submit a Bid for any of the separate sections or any combination of sections as provided in the Bid Form. Submission of a Bid on any section signifies Bidder's willingness to enter into a Contract for that section alone at the price offered.

2. Bidders offering a Bid on one or more sections shall be capable of completing the Work within the time period stated in the Agreement.

14.02 Unit Price

A. Bidders shall submit a Bid on a unit price basis for each item of Work listed in the Bid schedule.

B. The total of all estimated prices will be the sum of the products of the estimated quantity of each item and the corresponding unit price.

C. Discrepancies between the multiplication of units of Work and unit prices will be resolved in favor of the unit prices. Discrepancies between the indicated sum of any column of figures and the correct sum thereof will be resolved in favor of the correct sum.

ARTICLE 15 – SUBMITTAL OF BID

15.01 A Bid shall be submitted no later than the date and time prescribed and at the place indicated in the advertisement or invitation to bid and shall be enclosed in a plainly marked package with the Project title (and, if applicable, the designated portion of the Project for which the Bid is submitted), the name and address of Bidder, and shall be accompanied by the Bid security and other required documents (See Section 00410, Article 7). If a Bid is sent by mail or other delivery system, the sealed envelope containing the Bid shall be enclosed in a separate package plainly
marked on the outside with the notation “BID ENCLOSED” to the owner as noted in the Advertisement.

ARTICLE 16 – MODIFICATION AND WITHDRAWAL OF BID

16.01 A Bid may be modified or withdrawn by an appropriate document duly executed in the same manner that a Bid must be executed and delivered to the place where Bids are to be submitted prior to the date and time for the opening of Bids.

16.02 If within 24 hours after Bids are opened any Bidder files a duly signed written notice with Owner and promptly thereafter demonstrates to the reasonable satisfaction of Owner that there was a material and substantial mistake in the preparation of its Bid, that Bidder may withdraw its Bid, and the Bid security will be returned. Thereafter, if the Work is rebid, that Bidder will be disqualified from further bidding on the Work.

ARTICLE 17 – OPENING OF BIDS

17.01 Bids will be opened at the time and place indicated in the Advertisement and Invitation to Bid and, unless obviously non-responsive, read aloud publicly. An abstract of the amounts of the base Bids and major alternates, if any, will be made available to Bidders after the opening of Bids.

ARTICLE 18 – BIDS TO REMAIN SUBJECT TO ACCEPTANCE

18.01 All Bids will remain subject to acceptance for the period of time stated in the Bid Form, but Owner may, in its sole discretion, release any Bid and return the Bid security prior to the end of this period.

ARTICLE 19 – EVALUATION OF BIDS AND AWARD OF CONTRACT

19.01 Owner reserves the right to reject any or all Bids, including without limitation, nonconforming, nonresponsive, unbalanced, or conditional Bids. Owner further reserves the right to reject the Bid of any Bidder whom it finds, after reasonable inquiry and evaluation, to not be responsible. Owner may also reject the Bid of any Bidder if Owner believes that it would not be in the best interest of the Project to make an award to that Bidder. Owner also reserves the right to waive all informalities not involving price, time, or changes in the Work and to negotiate contract terms with the Successful Bidder.

19.02 More than one Bid for the same Work from an individual or entity under the same or different names will not be considered. Reasonable grounds for believing that any Bidder has an interest in more than one Bid for the Work may be cause for disqualification of that Bidder and the rejection of all Bids in which that Bidder has an interest.

19.03 In evaluating Bids, Owner will consider whether or not the Bids comply with the prescribed requirements, and such alternates, unit prices and other data, as may be requested in the Bid Form or prior to the Notice of Award.

19.04 In evaluating Bidders, Owner will consider the qualifications of Bidders and may consider the qualifications and experience of Subcontractors, Suppliers, and other individuals or entities proposed for those portions of the Work for which the identity of Subcontractors, Suppliers, and other individuals or entities must be submitted as provided in the Supplementary Conditions.
19.05 Owner may conduct such investigations as Owner deems necessary to establish the responsibility, qualifications, and financial ability of Bidders, proposed Subcontractors, Suppliers, individuals, or entities proposed for those portions of the Work in accordance with the Contract Documents.

19.06 If the Contract is to be awarded, Owner will award the Contract to the Bidder whose Bid is in the best interests of the Project.

ARTICLE 20 – CONTRACT SECURITY AND INSURANCE

20.01 Paragraph 141 of the General Conditions, as may be modified by the Supplementary Conditions, sets forth Owner’s requirements as to performance and payment bonds and insurance. When the Successful Bidder delivers the executed Agreement to Owner, it shall be accompanied by such bonds.

ARTICLE 21 – SIGNING OF AGREEMENT

21.01 When Engineer issues a Notice of Award to the Successful Bidder, it shall be accompanied by the required number of unsigned counterparts of the Agreement along with the other Contract Documents which are identified in the Agreement as attached thereto. Within 15 days thereafter, Successful Bidder shall sign and deliver the required number of counterparts of the Agreement and attached documents to Engineer. Within ten days thereafter, Engineer shall deliver two fully signed counterparts to Successful Bidder.

ARTICLE 22 – SALES AND USE TAXES

22.01 Owner is exempt from state sales and use taxes on materials and equipment to be incorporated in the Work. Said taxes shall not be included in the Bid.

ARTICLE 23 – RETAINAGE

23.01 Provisions concerning retainage are set forth in the Agreement.

ARTICLE 24 – WAGES AND SALARIES

CONTRACTOR MUST PAY WORKERS NOT LESS THAN THE GENERAL PREVAILING RATES PER DIEM WAGES AS INDICATED ON A WAGE DECISION FURNISHED BY THE OWNER FOR ALL WORK PERFORMED ON THIS PROJECT, IN ACCORDANCE WITH DAVIS-BACON AND RELATED ACTS.

ARTICLE 25 – EQUAL EMPLOYMENT OPPORTUNITY

ALL QUALIFIED APPLICANTS WILL RECEIVE CONSIDERATION FOR EMPLOYMENT WITHOUT REGARD TO RACE, COLOR, RELIGION, SEX, AGE, HANDICAP, OR NATIONAL ORIGIN. BIDDERS ON THIS WORK WILL BE REQUIRED TO COMPLY WITH THE PRESIDENT’S EXECUTIVE ORDER NO. 11246, AS AMENDED BY EXECUTIVE ORDER 11375, AND AS SUPPLEMENTED IN THE DEPARTMENT OF LABOR REGULATIONS 41 CFR PART 60.
SECTION 00410 - BID FORM

ARTICLE 1 – BID RECIPIENT

1.01 This Bid is submitted to:

City of Lamesa
601 South 1st Street
Lamesa Texas 79331

1.02 The undersigned Bidder proposes and agrees, if this Bid is accepted, to enter into an Agreement with Owner in the form included in the Bidding Documents to perform all Work as specified or indicated in the Bidding Documents for the prices and within the times indicated in this Bid and in accordance with the other terms and conditions of the Bidding Documents.

ARTICLE 2 – BIDDER’S ACKNOWLEDGEMENTS

2.01 Bidder accepts all of the terms and conditions of the Instructions to Bidders, including without limitation those dealing with the disposition of Bid security. This Bid will remain subject to acceptance for 60 days after the Bid opening, or for such longer period of time that Bidder may agree to in writing upon request of Owner.

ARTICLE 3 – BIDDER’S REPRESENTATIONS

3.01 In submitting this Bid, Bidder represents that:

A. Bidder has examined and carefully studied the Bidding Documents, other related data identified in the Bidding Documents, and the following Addenda, receipt of which is hereby acknowledged:

<table>
<thead>
<tr>
<th>Addendum No.</th>
<th>Addendum Date</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

B. Bidder has visited the Site and become familiar with and is satisfied as to the general, local, and Site conditions that may affect cost, progress, and performance of the Work.

C. Bidder is familiar with and is satisfied as to all Laws and Regulations that may affect cost, progress, and performance of the Work.

D. Bidder has carefully studied all: (1) reports of explorations and tests of subsurface conditions at or contiguous to the Site and all drawings of physical conditions relating to existing surface or subsurface structures at the Site (except Underground Facilities), and (2) reports and drawings of Hazardous Environmental Conditions, if any, at the Site.

E. Bidder has considered the information known to Bidder; information commonly known to contractors doing business in the locality of the Site; information and observations obtained from visits to the Site; the Bidding Documents; and the Site-related reports and drawings, if any, identified in the Bidding Documents, with respect to the effect of such information,
observations, and documents on (1) the cost, progress, and performance of the Work; (2) the means, methods, techniques, sequences, and procedures of construction to be employed by Bidder, including applying the specific means, methods, techniques, sequences, and procedures of construction expressly required by the Bidding Documents; and (3) Bidder’s safety precautions and programs.

F. Based on the information and observations referred to in Paragraph 3.01.E above, Bidder does not consider that further examinations, investigations, explorations, tests, studies, or data are necessary for the determination of this Bid for performance of the Work at the price(s) bid and within the times required, and in accordance with the other terms and conditions of the Bidding Documents.

G. Bidder is aware of the general nature of work to be performed by Owner and others at the Site that relates to the Work as indicated in the Bidding Documents.

H. Bidder has given Engineer written notice of all conflicts, errors, ambiguities, or discrepancies that Bidder has discovered in the Bidding Documents, and the written resolution thereof by Engineer is acceptable to Bidder.

I. The Bidding Documents are generally sufficient to indicate and convey understanding of all terms and conditions for the performance of the Work for which this Bid is submitted.

ARTICLE 4 – BIDDER'S CERTIFICATION

4.01 Bidder certifies that:

A. This Bid is genuine and not made in the interest of or on behalf of any undisclosed individual or entity and is not submitted in conformity with any collusive agreement or rules of any group, association, organization, or corporation;

B. Bidder has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid;

C. Bidder has not solicited or induced any individual or entity to refrain from bidding; and

D. Bidder has not engaged in corrupt, fraudulent, collusive, or coercive practices in competing for the Contract. For the purposes of this Paragraph 4.01.D:

1. “Corrupt practice” means the offering, giving, receiving, or soliciting of anything of value likely to influence the action of a public official in the bidding process;

2. “Fraudulent practice” means an intentional misrepresentation of facts made (a) to influence the bidding process to the detriment of Owner, (b) to establish bid prices at artificial non-competitive levels, or (c) to deprive Owner of the benefits of free and open competition;

3. “Collusive practice” means a scheme or arrangement between two or more Bidders, with or without the knowledge of Owner, a purpose of which is to establish bid prices at artificial, non-competitive levels; and
4. “Coercive practice” means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the bidding process or affect the execution of the Contract.

ARTICLE 5 – BASIS OF BID

5.01 Bidder will complete the Work in accordance with the Contract Documents for the following price(s):

**TOTAL BASE BID** $ 

Bidder acknowledges that estimated quantities are not guaranteed, and are solely for the purpose of comparison of Bids, and final payment for all unit price Bid items will be based on actual quantities, determined as provided in the Contract Documents.

ARTICLE 6 – TIME OF COMPLETION

6.01 Bidder agrees that the Work will be substantially complete and will be completed and ready for final payment in accordance with Paragraph 105.2 of the General Conditions on or before the dates or within the number of calendar days indicated in the Agreement.

6.02 Bidder accepts the provisions of the Agreement as to liquidated damages.
ARTICLE 7 – ATTACHMENTS TO THIS BID

7.01 The following documents are submitted with and made a condition of this Bid:

A. Required Bid security;
B. List of Proposed Subcontractors;
C. List of Proposed Suppliers;
D. List of Project References;
E. Certification of Bidder;
F. Required Bidder Qualification Statement with Supporting Data.

ARTICLE 8 – DEFINED TERMS

8.01 The terms used in this Bid with initial capital letters have the meanings stated in the Instructions to Bidders, the General Conditions, and the Supplementary Conditions.

ARTICLE 9 – BID SUBMITTAL

9.01 This Bid is submitted by:

If Bidder is:

(Each joint venturer must sign. The manner of signing for each individual, partnership, and corporation that is a party to the joint venture should be in the manner indicated above.)
SECTION 00420 - CERTIFICATION OF BIDDER OF COMPLIANCE TO TEXAS STATE LAW

Art. 601g of V.A.C.S. applies to non-resident bidders and defines a non-resident as a bidder whose principal place of business is not in this state, but excludes a contractor whose ultimate parent company or majority owner has its principal place of business in this state. The appropriate blanks in Section A must be filled out by all out-of-state or non-resident bidders in order for your bid to meet specifications. The failure of out-of-state or non-resident contractors to do so will automatically disqualify that Bidder. Resident Bidders must check the box in Section B.

☐ A. Non-resident bidders in _____________ (give state), our principal place of business, are required to be __________ percent lower than the lowest bid of resident bidders by said state law to obtain a comparable contract in the state in which the undersigned non-resident’s principal place of business is located. A copy of the statute is attached.

Non-resident bidders in _____________ (give state), our principal place of business, are not required to underbid resident bidders.

☐ B. Our principal place of business or corporate offices are in the State of Texas.

01277517  BID BOND  00430 - 1
03/17
Note: Above addresses are to be used for giving any required notice. Provide execution by any additional parties, such as joint venturers, if necessary.

1. Bidder and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to pay to Owner upon default of Bidder the penal sum set forth on the face of this Bond. Payment of the penal sum is the extent of Bidder’s and Surety’s liability. Recovery of such penal sum under the terms of this Bond shall be Owner’s sole and exclusive remedy upon default of Bidder.

2. Default of Bidder shall occur upon the failure of Bidder to deliver within the time required by the Bidding Documents (or any extension thereof agreed to in writing by Owner) the executed Agreement required by the Bidding Documents and any performance and payment bonds required by the Bidding Documents.

3. This obligation shall be null and void if:

   3.1 Owner accepts Bidder’s Bid and Bidder delivers within the time required by the Bidding Documents (or any extension thereof agreed to in writing by Owner) the executed Agreement required by the Bidding Documents and any performance and payment bonds required by the Bidding Documents, or

   3.2 All Bids are rejected by Owner, or

   3.3 Owner fails to issue a Notice of Award to Bidder within the time specified in the Bidding Documents (or any extension thereof agreed to in writing by Bidder and, if applicable, consented to by Surety when required by Paragraph 5 hereof).

4. Payment under this Bond will be due and payable upon default of Bidder and within 30 calendar days after receipt by Bidder and Surety of written notice of default from Owner, which notice will be given with reasonable promptness, identifying this Bond and the Project and including a statement of the amount due.

5. Surety waives notice of any and all defenses based on or arising out of any time extension to issue Notice of Award agreed to in writing by Owner and Bidder, provided that the total time for issuing Notice of Award including extensions shall not in the aggregate exceed 120 days from Bid due date without Surety’s written consent.

6. No suit or action shall be commenced under this Bond prior to 30 calendar days after the notice of default required in Paragraph 4 above is received by Bidder and Surety and in no case later than one year after Bid due date.
7. Any suit or action under this Bond shall be commenced only in a court of competent jurisdiction located in the state in which the Project is located.

8. Notices required hereunder shall be in writing and sent to Bidder and Surety at their respective addresses shown on the face of this Bond. Such notices may be sent by personal delivery, commercial courier, or by United States Registered or Certified Mail, return receipt requested, postage pre-paid, and shall be deemed to be effective upon receipt by the party concerned.

9. Surety shall cause to be attached to this Bond a current and effective Power of Attorney evidencing the authority of the officer, agent, or representative who executed this Bond on behalf of Surety to execute, seal, and deliver such Bond and bind the Surety thereby.

10. This Bond is intended to conform to all applicable statutory requirements. Any applicable requirement of any applicable statute that has been omitted from this Bond shall be deemed to be included herein as if set forth at length. If any provision of this Bond conflicts with any applicable statute, then the provision of said statute shall govern and the remainder of this Bond that is not in conflict therewith shall continue in full force and effect.

11. The term “Bid” as used herein includes a Bid, offer, or proposal as applicable.
SECTION 00520 – AGREEMENT BETWEEN OWNER AND CONTRACTOR FOR CONSTRUCTION CONTRACT

THIS AGREEMENT is by and between ___________________________________________ (“Owner”) and ___________________________________________ (“Contractor”).

Owner and Contractor hereby agree as follows:

ARTICLE 1 – WORK

1.01 Contractor shall complete all Work as specified or indicated in the Contract Documents. The Work is generally described as replacing 6-inch water line along NE 3rd Street and NE 1st Street, including remove and replace fire hydrants and asphalt pavement, reconnect existing services, and all other necessary appurtenances required for a complete water line.

ARTICLE 2 – THE PROJECT

1.02 The Project for which the Work under the Contract Documents may be the whole or only a part is generally described as City of Lamesa Water System Improvements, Water Line Replacement, TxCDBG No. 7216280.

ARTICLE 3 – ENGINEER

3.01 The Project has been designed by Parkhill, Smith & Cooper, Inc. (Engineer), which is to act as Owner’s representative, assume all duties and responsibilities, and have the rights and authority assigned to Engineer in the Contract Documents in connection with the completion of the Work in accordance with the Contract Documents.

ARTICLE 4 – CONTRACT TIMES

4.01 Days to Achieve Substantial Completion and Final Payment

A. The Work will be substantially completed within 120 days after the date when the Contract Times commence to run, and completed and ready for final payment within 180 days after the date when the Contract Times commence to run.

4.02 Liquidated Damages

A. Contractor and Owner recognize that time is of the essence and that Owner will suffer financial loss if the Work is not completed within the times specified in Paragraph 4.01 above, plus any extensions thereof allowed in accordance with Paragraph 108 of the General Conditions. The parties also recognize the delays, expense, and difficulties involved in proving in a legal or arbitration proceeding the actual loss suffered by Owner if the Work is not completed on time. Accordingly, instead of requiring any such proof, Owner and Contractor agree that as liquidated damages for delay (but not as a penalty), Contractor shall pay Owner $150.00 for each day that expires after the time specified in Paragraph 4.01 above for Substantial Completion until the Work is substantially complete. After Substantial Completion, if Contractor shall neglect, refuse, or fail to complete the remaining Work within the Contract Time or any proper
extension thereof granted by Owner, Contractor shall pay Owner $150.00 for each day that expires after the time specified in Paragraph 4.01 above for completion and readiness for final payment until the Work is completed and ready for final payment.

ARTICLE 5 – CONTRACT PRICE

5.01 Owner shall pay Contractor for completion of the Work in accordance with the Contract Documents an amount in current funds equal to the sum of the amounts determined pursuant below:

<table>
<thead>
<tr>
<th>BASE BID</th>
<th>Amount</th>
<th>Awarded</th>
<th>Not Awarded</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**TOTAL AWARDED** $________

ARTICLE 6 – PAYMENT PROCEDURES

6.01 Submittal and Processing of Payments

A. Contractor shall submit Applications for Payment in accordance with Article 14 of the General Conditions. Applications for Payment will be processed by Engineer as provided in the General Conditions.

6.02 Progress Payments, Retainage

A. Owner shall make progress payments on account of the Contract Price on the basis of Contractor’s Applications for Payment on or about the 20th day of each month during performance of the Work as provided in Paragraph 6.02.A.1 below. All such payments will be measured by the schedule of values established (and in the case of Unit Price Work based on the number of units completed) or, in the event there is no schedule of values, as provided in the General Requirements.

1. Prior to Final Completion, progress payments will be made in an amount equal to the percentage indicated below but, in each case, less the aggregate of payments previously made and less such amounts as Engineer may determine or Owner may withhold, including but not limited to liquidated damages, in accordance with Paragraph 105 of the General Conditions.

a. 90 percent of Work completed (with the balance being retainage). If the Work has been 50 percent completed as determined by Engineer, and if the character and progress of the Work have been satisfactory to Owner and Engineer, then as long as the character and progress of the Work remain satisfactory to Owner and Engineer, there will be no additional retainage; and

b. 90 percent of cost of materials and equipment not incorporated in the Work (with the balance being retainage).
6.03 Final Payment

A. Upon final completion and acceptance of the Work, Owner shall pay the remainder of the Contract Price as recommended by Engineer.

ARTICLE 7 – CONTRACTOR’S REPRESENTATIONS

7.01 In order to induce Owner to enter into this Agreement, Contractor makes the following representations:

A. Contractor has examined and carefully studied the Contract Documents and the other related data identified in the Bidding Documents.

B. Contractor has visited the Site and become familiar with and is satisfied as to the general, local, and Site conditions that may affect cost, progress, and performance of the Work.

C. Contractor is familiar with and is satisfied as to all federal, state, and local Laws and Regulations that may affect cost, progress, and performance of the Work.

D. Contractor has carefully studied all: (1) reports of explorations and tests of subsurface conditions at or contiguous to the Site and all drawings of physical conditions relating to existing surface or subsurface structures at the Site (except Underground Facilities), if any, and (2) reports and drawings of Hazardous Environmental Conditions, if any, at the Site.

E. Contractor has considered the information known to Contractor; information commonly known to contractors doing business in the locality of the Site; information and observations obtained from visits to the Site; the Contract Documents; and the Site-related reports and drawings, if any, identified in the Contract Documents, with respect to the effect of such information, observations, and documents on (1) the cost, progress, and performance of the Work; (2) the means, methods, techniques, sequences, and procedures of construction to be employed by Contractor, including any specific means, methods, techniques, sequences, and procedures of construction expressly required by the Contract Documents; and (3) Contractor’s safety precautions and programs.

F. Based on the information and observations referred to in Paragraph 7.01.E above, Contractor does not consider that further examinations, investigations, explorations, tests, studies, or data are necessary for the performance of the Work at the Contract Price, within the Contract Times, and in accordance with the other terms and conditions of the Contract Documents.

G. Contractor is aware of the general nature of work to be performed by Owner and others at the Site that relates to the Work as indicated in the Contract Documents.

H. Contractor has given Engineer written notice of all conflicts, errors, ambiguities, or discrepancies that Contractor has discovered in the Contract Documents, and the written resolution thereof by Engineer is acceptable to Contractor.

I. The Contract Documents are generally sufficient to indicate and convey understanding of all terms and conditions for performance and furnishing of the Work.
ARTICLE 8 – CONTRACT DOCUMENTS

8.01 Contents

A. The Contract Documents consist of the following:

1. Contractor’s executed Bid Form.

2. This Agreement.

4. Payment bond.

5. Certification of Bidder of Compliance to Texas State Law.

12. Noncollusion Affidavit of Subcontractor.

14. Certification of Proposed Contractor Regarding Section 3 and Segregated Facilities.

15. General Conditions.

16. Supplementary Conditions.

17. Specifications as listed in the table of contents of the Project Specifications.

18. Drawings bearing the following general title: City of Lamesa Water System Improvements, Water Line Replacement, TxCDBG No. 7216280.

19. Addenda (numbers to , inclusive).

20. Documentation submitted by Contractor prior to Notice of Award.

21. The following which may be delivered or issued on or after the Effective Date of the Agreement and are not attached hereto:

   a. Notice to Proceed.
b. Work Change Directives.

c. Change Orders.

B. The documents listed in Paragraph 8.01.A are attached to this Agreement (except as expressly noted otherwise above).

C. There are no Contract Documents other than those listed above in this Article 8.

D. The Contract Documents may only be amended, modified, or supplemented as provided in Paragraph 106 of the General Conditions.

ARTICLE 9 – MISCELLANEOUS

9.01 Terms

A. Terms used in this Agreement will have the meanings stated in the General Conditions and the Supplementary Conditions.

9.02 Assignment of Contract

A. No assignment by a party hereto of any rights under or interests in the Contract will be binding on another party hereto without the written consent of the party sought to be bound; and, specifically but without limitation, moneys that may become due and moneys that are due may not be assigned without such consent (except to the extent that the effect of this restriction may be limited by law), and unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under the Contract Documents.

9.03 Successors and Assigns

A. Owner and Contractor each binds itself, its partners, successors, assigns, and legal representatives to the other party hereto, its partners, successors, assigns, and legal representatives in respect to all covenants, agreements, and obligations contained in the Contract Documents.

9.04 Severability

A. Any provision or part of the Contract Documents held to be void or unenforceable under any Law or Regulation shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon Owner and Contractor, who agree that the Contract Documents shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.
9.05 Contractor’s Certifications

A. Contractor certifies that it has not engaged in corrupt, fraudulent, collusive, or coercive practices in competing for or in executing the Contract. For the purposes of this Paragraph 9.05:

1. “corrupt practice” means the offering, giving, receiving, or soliciting of anything of value likely to influence the action of a public official in the bidding process or in the Contract execution;

2. “fraudulent practice” means an intentional misrepresentation of facts made (a) to influence the bidding process or the execution of the Contract to the detriment of Owner, (b) to establish Bid or Contract prices at artificial non-competitive levels, or (c) to deprive Owner of the benefits of free and open competition;

3. “collusive practice” means a scheme or an arrangement between two or more Bidders, with or without the knowledge of Owner, a purpose of which is to establish Bid prices at artificial, non-competitive levels; and

1. “coercive practice” means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the bidding process or affect the execution of the Contract.

9.06 Other Provisions
IN WITNESS WHEREOF, Owner and Contractor have signed this Agreement. Counterparts have been delivered to Owner and Contractor. All portions of the Contract Documents have been signed or have been identified by Owner and Contractor or on their behalf.

This Agreement will be effective on _____ (which is the Effective Date of the Agreement).

Note: Provide execution by additional parties, such as joint venturers, if necessary.
1. Contractor and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to Owner for the performance of the Contract, which is incorporated herein by reference.

2. If Contractor performs the Contract, Surety and Contractor have no obligation under this Bond, except to participate in conferences as provided in Paragraph 2.1.

3. If there is no Owner Default, Surety’s obligation under this Bond shall arise after:

3.1 Owner has notified Contractor and Surety, at the addresses described in Paragraph 9 below, that Owner is considering declaring a Contractor Default and has requested and attempted to arrange a conference with Contractor and Surety to be held not later than 15 days after receipt of such notice to discuss methods of performing the Contract. If Owner, Contractor, and Surety agree, Contractor shall be allowed a reasonable time to perform the Contract, but such an agreement shall not waive Owner’s right, if any, subsequently to declare a Contractor Default;

3.2 Owner has declared a Contractor Default and formally terminated Contractor’s right to complete the Contract. Such Contractor Default shall not be declared earlier than 20 days after Contractor and Surety have received notice as provided in Paragraph 2.1, and

3.3 Owner has agreed to pay the Balance of the Contract Price to:

1. Surety in accordance with the terms of the Contract; or

2. Another contractor selected pursuant to Paragraph 3.3 to perform the Contract.

4. When Owner has satisfied the conditions of Paragraph 2, Surety shall promptly, and at Surety’s expense, take one of the following actions:

4.1 Arrange for Contractor, with consent of Owner, to perform and complete the Contract; or

4.2 Undertake to perform and complete the Contract itself, through its agents or through independent contractors;

4.3 Obtain bids or negotiated proposals from qualified contractors acceptable to Owner for a contract for performance and completion of the Contract, arrange for a contract to be prepared for execution by Owner and contractor selected with Owner’s concurrence, to be secured with performance and payment bonds executed by a qualified surety equivalent to the bonds issued on the Contract, and pay to Owner the amount of damages as described in Paragraph 5 in excess of the Balance of the Contract Price incurred by Owner resulting from Contractor Default; or

4.4 Waive its right to perform and complete, arrangement for completion, or obtain a new contractor, and with reasonable promptness under the circumstances:

1. After investigation, determine the amount for which it may be liable to Owner and, as soon as practicable after the amount is determined, tender payment therefor to Owner; or

2. Deny liability in whole or in part and notify Owner citing reasons therefor.

5. If Surety does not proceed as provided in Paragraph 3 with reasonable promptness, Surety shall be deemed to be in default on this Bond 15 days after receipt of an additional written notice from Owner to Surety demanding that Surety perform its obligations under this Bond, and Owner shall be entitled to enforce any remedy available to Owner. If Surety proceeds as provided in Paragraph 3, and Owner refuses the payment tendered or Surety has denied liability, in whole or in part, without further notice Owner shall be entitled to enforce any remedy available to Owner.

6. After Owner has terminated Contractor’s right to complete the Contract, and if Surety elects to act under Paragraph 3.1, 3.2, or 3.3 above, then the responsibilities of Surety to Owner shall not be greater than those of Contractor under the Contract, and the responsibilities of Owner to Surety shall not be greater than those of Owner under the Contract. To the limit of the amount of this Bond, but subject to commitment by Owner of the Balance of the Contract Price to mitigation of costs and damages on the Contract, Surety is obligated without duplication for:

6.1 The responsibilities of Contractor for correction of defective Work and completion of the Contract;

6.2 Additional legal, design professional, and delay costs resulting from Contractor’s Default, and resulting from the actions of or failure to act of Surety under Paragraph 3; and

6.3 Liquidated damages, or if no liquidated damages are specified in the Contract, actual damages caused by delayed performance or non-performance of Contractor.

7. Surety shall not be liable to Owner or others for obligations of Contractor that are unrelated to the Contract, and the Balance of the Contract Price shall not be reduced or set off on account of any such unrelated obligations. No right of action shall accrue on this Bond to any person or entity other than Owner or its heirs, executors, administrators, or successors.

8. Surety hereby waives notice of any change, including changes of time, to Contract or to related subcontracts, purchase orders, and other obligations.

9. Any proceeding, legal or equitable, under this Bond may be instituted in any court of competent jurisdiction in the location in which the Work or part of the Work is located, and shall be instituted within two years after Contractor Default or within two years after Contractor ceased working or within two years after Surety refuses or fails to perform its obligations under this Bond, whichever occurs first. If the provisions of this paragraph are void or prohibited by law, the minimum period of limitation available to sureties as a defense in the jurisdiction of the suit shall be applicable.

10. Notice to Surety, Owner, or Contractor shall be mailed or delivered to the address shown on the signature page.

11. When this Bond has been furnished to comply with a statutory requirement in the location where the Contract was to be performed, any provision in this Bond conflicting with said statutory requirement shall be deemed deleted herefrom and provisions conforming to such statutory requirement shall be deemed incorporated herein. The intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

12. Definitions

12.1 Balance of the Contract Price: The total amount payable by Owner to Contractor under the Contract after all proper adjustments have been made, including allowance to Contractor of any amounts received or to be received by Owner in settlement of insurance or other Claims for damages to which Contractor is entitled, reduced by all valid and proper payments made to or on behalf of Contractor under the Contract.

12.2 Contract: The agreement between Owner and Contractor identified on the signature page, including all Contract Documents and changes thereto.

12.3 Contractor Default: Failure of Contractor, which has neither been remedied nor waived, to perform or otherwise to comply with the terms of the Contract.

12.4 Owner Default: Failure of Owner, which has neither been remedied nor waived, to pay Contractor as required by the Contract or to perform and complete or otherwise comply with the other terms thereof.

PERFORMANCE BOND

00610 - 2

03/17
1. Contractor and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to Owner for the performance of the Contract, which is incorporated herein by reference.

2. If Contractor performs the Contract, Surety and Contractor have no obligation under this Bond, except to participate in conferences as provided in Paragraph 2.1.

3. If there is no Owner Default, Surety’s obligation under this Bond shall arise after:

3.1 Owner has notified Contractor and Surety, at the addresses described in Paragraph 9 below, that Owner is considering declaring a Contractor Default and has requested and attempted to arrange a conference with Contractor and Surety to be held not later than 15 days after receipt of such notice to discuss methods of performing the Contract. If Owner, Contractor, and Surety agree, Contractor shall be allowed a reasonable time to perform the Contract, but such an agreement shall not waive Owner’s right, if any, subsequently to declare a Contractor Default; and

3.2 Owner has declared a Contractor Default and formally terminated Contractor’s right to complete the Contract. Such Contractor Default shall not be declared earlier than 20 days after Contractor and Surety have received notice as provided in Paragraph 2.1; and

3.3 Owner has agreed to pay the Balance of the Contract Price to:

1. Surety in accordance with the terms of the Contract; or

2. Another contractor selected pursuant to Paragraph 3.3 to perform the Contract.

4. When Owner has satisfied the conditions of Paragraph 2, Surety shall promptly, and at Surety’s expense, take one of the following actions:

4.1 Arrange for Contractor, with consent of Owner, to perform and complete the Contract, or

4.2 Undertake to perform and complete the Contract itself, through its agents or through independent contractors, or

4.3 Obtain bids or negotiated proposals from qualified contractors acceptable to Owner for a contract for performance and completion of the Contract, arrange for a contract to be prepared for execution by Owner and contractor selected with Owner’s concurrence, to be secured with performance and payment bonds executed by a qualified surety equivalent to the bonds issued on the Contract, and pay to Owner the amount of damages as described in Paragraph 5 in excess of the Balance of the Contract Price incurred by Owner resulting from Contractor Default; or

4.4 Waive its right to perform and complete, arrange for completion, or obtain a new contractor, and with reasonable promptness under the circumstances:

1. After investigation, determine the amount for which it may be liable to Owner and, as soon as practicable after the amount is determined, tender payment thereof to Owner; or

2. Deny liability in whole or in part and notify Owner citing reasons therefor.

5. If Surety does not proceed as provided in Paragraph 3 with reasonable promptness, Surety shall be deemed to be in default on this Bond 15 days after receipt of an additional written notice from Owner to Surety demanding that Surety perform its obligations under this Bond, and Owner shall be entitled to enforce any remedy available to Owner. If Surety proceeds as provided in Paragraph 3, and Owner refuses the payment tendered or Surety has denied liability, in whole or in part, without further notice Owner shall be entitled to enforce any remedy available to Owner.

6. After Owner has terminated Contractor’s right to complete the Contract, and if Surety elects to act under Paragraph 3.1, 3.2, or 3.3 above, then the responsibilities of Surety to Owner shall not be greater than those of Contractor under the Contract, and the responsibilities of Owner to Surety shall not be greater than those of Owner under the Contract. To the limit of the amount of this Bond, but subject to commitment by Owner of the Balance of the Contract Price to mitigation of costs and damages on the Contract, Surety is obligated without duplication for:

6.1 The responsibilities of Contractor for correction of defective Work and completion of the Contract;

6.2 Additional legal, design professional, and delay costs resulting from Contractor’s Default, and resulting from the actions of or failure to act of Surety under Paragraph 3; and

6.3 Liquidated damages, or if no liquidated damages are specified in the Contract, actual damages caused by delayed performance or non-performance of Contractor.

7. Surety shall not be liable to Owner or others for obligations of Contractor that are unrelated to the Contract, and the Balance of the Contract Price shall not be reduced or set off on account of any such unrelated obligations. No right of action shall accrue on this Bond to any person or entity other than Owner or its heirs, executors, administrators, or successors.

8. Surety hereby waives notice of any change, including changes of time, to Contract or to related subcontracts, purchase orders, and other obligations.

9. Any proceeding, legal or equitable, under this Bond may be instituted in any court of competent jurisdiction in the location in which the Work or part of the Work is located, and shall be instituted within two years after Contractor Default or within two years after Contractor ceased working or within two years after Surety refuses or fails to perform its obligations under this Bond, whichever occurs first. If the provisions of this paragraph are void or prohibited by law, the minimum period of limitation available to sureties as a defense in the jurisdiction of the suit shall be applicable.

10. Notice to Surety, Owner, or Contractor shall be mailed or delivered to the address shown on the signature page.

11. When this Bond has been furnished to comply with a statutory requirement in the location where the Contract was to be performed, any provision in this Bond conflicting with said statutory requirement shall be deemed deleted herefrom and provisions conforming to such statutory requirement shall be deemed incorporated herein. The intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

12. Definitions.

12.1 Balance of the Contract Price: The total amount payable by Owner to Contractor under the Contract after all proper adjustments have been made, including allowance to Contractor of any amounts received or to be received by Owner in settlement of insurance or other Claims for damages to which Contractor is entitled, reduced by all valid and proper payments made to or on behalf of Contractor under the Contract.

12.2 Contract: The agreement between Owner and Contractor identified on the signature page, including all Contract Documents and changes thereto.

12.3 Contractor Default: Failure of Contractor, which has neither been remedied nor waived, to perform or otherwise to comply with the terms of the Contract.

12.4 Owner Default: Failure of Owner, which has neither been remedied nor waived, to pay Contractor as required by the Contract or to perform and complete or otherwise comply with the other terms thereof.

PAYMENT BOND  
00615 - 1
1. Contractor and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to Owner to pay for labor, materials, and equipment furnished by Claimants for use in the performance of the Contract, which is incorporated herein by reference.

2. With respect to Owner, this obligation shall be null and void if Contractor:
   2.1 Promptly makes payment, directly or indirectly, for all sums due Claimants, and
   2.2 Defends, indemnifies, and holds harmless Owner from all claims, demands, liens, or suits alleging non-payment by Contractor by any person or entity who furnished labor, materials, or equipment for use in the performance of the Contract, provided Owner has promptly notified Contractor and Surety at the addresses described in Paragraph 12 of any claims, demands, liens, or suits to Contractor and Surety, and provided there is no Owner Default.

3. With respect to Claimants, this obligation shall be null and void if Contractor promptly makes payment, directly or indirectly, for all sums due.

4. Surety shall have no obligation to Claimants under this Bond until:
   4.1 Claimants who are employed by or have a direct contract with Contractor have given notice to Surety at the address described in Paragraph 12 and sent a copy, or notice thereof, to Owner, stating that a claim is being made under this Bond and, with substantial accuracy, the amount of the claim.
   4.2 Claimants who do not have a direct contract with Contractor:
      1. Have furnished written notice to Contractor and sent a copy, or notice thereof, to Owner, within 90 days after having last performed labor or last furnished materials or equipment included in the claim stating, with substantial accuracy, the amount of the claim and the name of the party to whom the materials or equipment furnished or supplied, or for whom the labor was done or performed, and
      2. Have either received a rejection in whole or in part from Contractor, or not received within 30 days of furnishing the above notice any communication from Contractor by which Contractor has indicated the claim will be paid directly or indirectly, and
      3. Not having been paid within the above 30 days, have sent a written notice to Surety at the address described in Paragraph 12 and sent a copy, or notice thereof, to Owner, stating that a claim is being made under this Bond and enclosing a copy of the previous written notice furnished to Contractor.

5. If a notice by a Claimant required by Paragraph 4 is provided by Owner to Contractor or to Surety, that is sufficient compliance.

6. Reserved.

7. Surety's total obligation shall not exceed the amount of this Bond, and the amount of this Bond shall be credited for any payments made in good faith by Surety.

8. Amounts owed by Owner to Contractor under the Contract shall be used for the performance of the Contract and to satisfy claims, if any, under any performance bond. By Contractor furnishing and Surety accepting this Bond, they agree that all funds earned by Contractor in the performance of the Contract are dedicated to satisfy obligations of Contractor and Surety under this Bond, subject to Owner's priority to use the funds for the completion of the Work.

9. Surety shall not be liable to Owner, Claimants, or others for obligations of Contractor that are unrelated to the Contract. Owner shall not be liable for payment of any costs or expenses of any Claimant under this Bond, and shall have under this Bond no obligations to make payments to, give notices on behalf of, or otherwise have obligations to Claimants under this Bond.

10. Surety hereby waives notice of any change, including changes of time, to the Contract or to related subcontracts, purchase orders, and other obligations.

11. No suit or action shall be commenced by a Claimant under this Bond other than in a court of competent jurisdiction in the location in which the Work or part of the Work is located or after the expiration of one year from the date (1) on which the Claimant gave the notice required by Paragraph 4.1 or Paragraph 4.2, or (2) on which the last labor or service was performed by anyone or the last materials or equipment were furnished by anyone under the Contract, whichever of (1) or (2) first occurs. If the provisions of this paragraph are void or prohibited by law, the minimum period of limitation available to sureties as a defense in the jurisdiction of the suit shall be applicable.

12. Notice to Surety, Owner, or Contractor shall be mailed or delivered to the addresses shown on the signature page. Actual receipt of notice by Surety, Owner, or Contractor, however accomplished, shall be sufficient compliance as of the date received at the address shown on the signature page.

13. When this Bond has been furnished to comply with a statutory requirement in the location where the Contract was to be performed, any provision in this Bond conflicting with said statutory requirement shall be deemed deleted herefrom and provisions conforming to such statutory requirement shall be deemed incorporated herein. The intent is that this Bond shall be construed as a statutory Bond and not as a common law bond.

14. Upon request of any person or entity appearing to be a potential beneficiary of this Bond, Contractor shall promptly furnish a copy of this Bond or shall permit a copy to be made.

15. Definitions

15.1 Claimant: An individual or entity having a direct contract with Contractor, or with a first-tier subcontractor of Contractor, to furnish labor, materials, or equipment for use in the performance of the Contract. The intent of this Bond shall be to include without limitation in the terms “labor, materials or equipment” that part of water, gas, power, light, heat, oil, gasoline, telephone service, or rental equipment used in the Contract, architectural and engineering services required for performance of the Work of Contractor and Contractor’s subcontractors, and all other items for which a mechanic’s lien may be asserted in the jurisdiction where the labor, materials, or equipment were furnished.

15.2 Contract: The agreement between Owner and Contractor identified on the signature page, including all Contract Documents and changes thereto.

15.3 Owner Default: Failure of Owner, which has neither been remedied nor waived, to pay Contractor as required by the Contract, or to perform and complete or otherwise comply with the other terms thereof.

PAYMENT BOND

00615 - 2
1. Contractor and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to Owner to pay for labor, materials, and equipment furnished by Claimants for use in the performance of the Contract, which is incorporated herein by reference.

2. With respect to Owner, this obligation shall be null and void if Contractor:

2.1 Promptly makes payment, directly or indirectly, for all sums due Claimants, and

2.2 Defends, indemnifies, and holds harmless Owner from all claims, demands, liens, or suits alleging non-payment by Contractor by any person or entity who furnished labor, materials, or equipment for use in the performance of the Contract, provided Owner has promptly notified Contractor and Surety (at the addresses described in Paragraph 12) of any claims, demands, liens, or suits and tendered defense of such claims, demands, liens, or suits to Contractor and Surety, and provided there is no Owner Default.

3. With respect to Claimants, this obligation shall be null and void if Contractor promptly makes payment, directly or indirectly, for all sums due.

4. Surety shall have no obligation to Claimants under this Bond until:

4.1 Claimants who are employed by or have a direct contract with Contractor have given notice to Surety (at the address described in Paragraph 12) and sent a copy, or notice thereof, to Owner, stating that a claim is being made under this Bond and, with substantial accuracy, the amount of the claim.

4.2 Claimants who do not have a direct contract with Contractor:

1. Have furnished written notice to Contractor and sent a copy, or notice thereof, to Owner, within 90 days after having last performed labor or last furnished materials or equipment included in the claim stating, with substantial accuracy, the amount of the claim and the name of the party to whom the materials or equipment were furnished or supplied, or for whom the labor was done or performed, and

2. Have either received a rejection in whole or in part from Contractor, or not received within 30 days of furnishing the above notice any communication from Contractor by which Contractor had indicated the claim will be paid directly or indirectly; and

3. Not having been paid within the above 30 days, have sent a written notice to Surety (at the address described in Paragraph 12) and sent a copy, or notice thereof, to Owner, stating that a claim is being made under this Bond and enclosing a copy of the previous written notice furnished to Contractor.

5. If a notice by a Claimant required by Paragraph 4 is provided by Owner to Contractor or to Surety, that is sufficient compliance.

6. Reserved.

7. Surety’s total obligation shall not exceed the amount of this Bond, and the amount of this Bond shall be credited for any payments made in good faith by Surety.

8. Amounts owed by Owner to Contractor under the Contract shall be used for the performance of the Contract and to satisfy claims, if any, under any performance bond. By Contractor furnishing and Owner accepting this Bond, they agree that all funds earned by Contractor in the performance of the Contract are dedicated to satisfy obligations of Contractor and Surety under this Bond, subject to Owner’s priority to use the funds for the completion of the Work.

9. Surety shall not be liable to Owner, Claimants, or others for obligations of Contractor that are unrelated to the Contract. Owner shall not be liable for payment of any costs or expenses of any Claimant under this Bond, and shall have under this Bond no obligations to make payments to, give notices on behalf of, or otherwise have obligations to Claimants under this Bond.

10. Surety hereby waives notice of any change, including changes of time, to the Contract or to related subcontracts, purchase orders, and other obligations.

11. No suit or action shall be commenced by a Claimant under this Bond other than in a court of competent jurisdiction in the location in which the Work or part of the Work is located or after the expiration of one year from the date (1) of which the Claimant gave the notice required by Paragraph 4.1 or Paragraph 4.2.3, or (2) on which the last labor or service was performed by anyone or the last materials or equipment were furnished by anyone under the Contract, whichever of (1) or (2) first occurs. If the provisions of these paragraphs are void or prohibited by law, the minimum period of limitation available to sureties as a defense in the jurisdiction of the suit shall be applicable.

12. Notice to Surety, Owner, or Contractor shall be mailed or delivered to the addresses shown on the signature page. Actual receipt of notice by Surety, Owner, or Contractor, however accomplished, shall be sufficient compliance as of the date received at the address shown on the signature page.

13. When this Bond has been furnished to comply with a statutory requirement in the location where the Contract was to be performed, any provision in this Bond conflicting with said statutory requirement shall be deemed deleted herefrom and provisions conforming to such statutory requirement shall be deemed incorporated herein. The intent is that this Bond shall be construed as a statutory Bond and not as a common law bond.

14. Upon request of any person or entity appearing to be a potential beneficiary of this Bond, Contractor shall promptly furnish a copy of this Bond or shall permit a copy to be made.

15. Definitions

15.1 Claimant: An individual or entity having a direct contract with Contractor, or with a first-tier subcontractor of Contractor, to furnish labor, materials, or equipment for use in the performance of the Contract. The intent of this Bond shall be to include without limitation in the terms “labor, materials or equipment” that part of water, gas, power, light, heat, oil, gasoline, telephone service, or rental equipment used in the Contract, architectural and engineering services required for performance of the Work of Contractor and Contractor’s subcontractors, and all other items for which a mechanic’s lien may be asserted in the jurisdiction where the labor, materials, or equipment were furnished.

15.2 Contract: The agreement between Owner and Contractor identified on the signature page, including all Contract Documents and changes thereto.

15.3 Owner Default: Failure of Owner, which has neither been remedied nor waived, to pay Contractor as required by the Contract, or to perform and complete or otherwise comply with the other terms thereof.

Owner’s Representative (Engineer or other):

01277517  PAYMENT BOND  00615 - 3
03/17
SECTION 00620 - SECTION 3 CLAUSE

All section 3 covered contracts shall include the following clause (referred to as the section 3 clause):

A. Work to be performed under this contract is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u (section 3). The purpose of section 3 is to ensure that employment and other economic opportunities generated by HUD assistance or HUD-assisted projects covered by section 3, shall, to the greatest extent feasible, be directed to low- and very low-income persons, particularly persons who are recipients of HUD assistance for housing.

B. The parties to this contract agree to comply with HUD's regulations in 24 CFR part 135, which implement section 3. As evidenced by their execution of this contract, the parties to this contract certify that they are under no contractual or other impediment that would prevent them from complying with the part 135 regulations.

C. Contractor agrees to send to each labor organization or representative of workers with which the contractor has a collective bargaining agreement or other understanding, if any, a notice advising the labor organization or workers' representative of the contractor's commitments under this section 3 clause, and will post copies of the notice in conspicuous places at the work site where both employees and applicants for training and employment positions can see the notice. The notice shall describe the section 3 preference, shall set forth minimum number and job titles subject to hire, availability of apprenticeship and training positions, the qualifications for each; and the name and location of the person(s) taking applications for each of the positions; and the anticipated date the work shall begin.

D. Contractor agrees to include this section 3 clause in every subcontract subject to compliance with regulations in 24 CFR part 135, and agrees to take appropriate action, as provided in an applicable provision of the subcontract or in this section 3 clause, upon a finding that the subcontractor is in violation of the regulations in 24 CFR part 135. The contractor will not subcontract with any subcontractor where the contractor has notice or knowledge that the subcontractor has been found in violation of the regulations in 24 CFR part 135.

E. Contractor will certify that any vacant employment positions, including training positions, that are filled (1) after the contractor is selected but before the contract is executed, and (2) with persons other than those to whom the regulations of 24 CFR part 135 require employment opportunities to be directed, were not filled to circumvent the contractor's obligations under 24 CFR part 135.

F. Noncompliance with HUD's regulations in 24 CFR part 135 may result in sanctions, termination of this contract for default, and debarment or suspension from future HUD assisted contracts.

G. With respect to work performed in connection with section 3 covered Indian housing assistance, section 7(b) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450e) also applies to the work to be performed under this contract. Section 7(b) requires that to the greatest extent feasible (i) preference and opportunities for training and employment shall be given to Indians, and (ii) preference in the award of contracts and subcontracts shall be given to Indian organizations and Indian-owned Economic Enterprises. Parties to this contract that are subject to the provisions of section 3 and section 7(b) agree to comply with section 3 to the maximum extent feasible, but not in derogation of compliance with section 7(b).
Equal Opportunity Guidelines for Construction Contractors

Note: To be included in bid packet and distributed at the preconstruction conference

1. What are the responsibilities of the offeror or bidder to insure equal employment opportunity?
The offeror or bidder must comply with the "Equal Opportunity Clause" and the "Standard Federal Equal Opportunity Construction Contract Specifications."

2. Are construction contractors required to insure a comfortable working environment for all employees?
Yes, it is the construction contractor's responsibility to provide an environment free of harassment, intimidation, and coercion to all employees and to notify all foremen and supervisors to carry out this obligation, with specific attention to minority or female individuals.

3. To alleviate developing separate facilities for men and women on all sites, can a construction contractor place all women employees on one site?
No, two or more women should be assigned to each site when possible.

4. Are construction contractors required to make special outreach efforts to Section 3 or minority and female recruitment sources?
Yes, construction contractors must establish a current list of Section 3, minority and female recruitment sources. Notification of employment opportunities, including the availability of on-the-job training and apprenticeship programs, should be given to these sources. The efforts of the construction contractors should be kept in file.

5. Should records be maintained on the number of Section 3 residents, minority and females applying for positions with construction contractors?
Yes, records must be maintained to include a current list of names, addresses and telephone numbers of all Section 3, minority and female applicants. The documentation should also include the results of the applications submitted.

6. What happens if a woman or minority is sent to the union by the Contractor and is not referred back to the Contractor for employment?
If the unions impede the construction contractor's responsibility to provide equal employment opportunity, a written notice should be submitted to TXCDBG.

7. What efforts are made by construction contractors to create entry-level positions for Section 3 residents, women and minorities?
Construction contractors are required to develop on-the-job training programs, or participate in training programs, especially those funded by the Department of Labor, to create positions for Section 3 residents, women and minorities and to meet employment needs.

8. Are any efforts made by the Contractor to publicize their Equal Employment Opportunity (EEO) policy?
Yes, the construction contractor is responsible for notifying unions and sources of training programs of their equal employment opportunity policy. Unions should be requested to cooperate in the effort of equal opportunity. The policy should be included in any appropriate manuals, or collective bargaining agreements. The construction contractor is encouraged to publicize the equal employment opportunity policy in the company.
newspaper and annual report. The Contractor is also responsible to include the EEO policy in all media advertisement.

9. **Are any in-service training programs provided for staff to update the EEO policy?**
   At least annually a review of the EEO policy and the affirmative action obligations are required of all personnel employees of a decision-making status. A record of the meeting including date, time, location, persons present, subject matter discussed, and disposition of the subject matter should be maintained.

10. **What recruitment efforts are made for Section 3 residents, minorities and women?**
    The construction contractor must notify both orally and in writing, Section 3, minority and female recruitment sources one month prior to the date of acceptance for apprenticeship or other training programs.

11. **Are any measures taken to encourage promotions for minorities and women?**
    Yes, an annual evaluation should be conducted for all minority and female personnel to encourage these employees to seek higher positions.

12. **What efforts are taken to insure that personnel policies are in accordance with the EEO policy?**
    Personnel policies in regard to job practices, work assignments, etc. should be continually monitored to insure that the EEO policy is carried out.

13. **Can women be excluded from utilizing any facilities available to men?**
    No, all facilities and company activities are non-segregated except for bathrooms or changing facilities to insure privacy.

14. **What efforts are made to utilize minority and female contractors and suppliers?**
    None, however records are kept of all offers to minority and female construction contractors.

15. **If a construction contractor participates in a business related association that does not comply with affirmative action standards, does that show his/her failure to comply?**
    No, the construction contractor is responsible for its own compliance.

16. **Will a construction contractor be in violation of EEO policy and affirmative action if he sets up one set of goals to include minorities and women?**
    Yes. There is a separate goal for minorities and a separate single goal for women. The construction contractor is required to provide equal employment opportunity and to take affirmative action for all minority groups, both male and female, and all women both minority and non-minority.

17. **Can a construction contractor hire a subcontractor who has been debarred from government contracts pursuant to EEO?**
    No. The construction contractor must suspend, terminate or cancel its contract with any Subcontractor who is in violation of the EEO policy.

18. **What effort has been taken by the construction contractor to monitor all employment to insure the company EEO policy is being carried out?**
    The construction contractor must designate a responsible individual to keep accurate records of all employees that includes specific information required by the government.
SECTION 00625 - POLICY-OWNER'S LOCAL OPPORTUNITY PLAN

In accordance with 12 U.S.C. 1701u, (Section 3), _______________ agrees to implement the following steps, which, to the greatest extent feasible, will provide job training, employment and contracting opportunities for Section 3 residents and Section 3 businesses of the areas in which the program/project is being carried out.

A. Introduce and pass a resolution adopting this plan as a policy to strive to attain goals for compliance to Section 3 regulations by increasing opportunities for employment and contracting for Section 3 residents and businesses.

B. Assign duties related to implementation of this plan to the designated Equal Rights Officer.

C. Notify Section 3 residents and business concerns of potential new employment and contracting opportunities as they are triggered by TxCDBG grant awards through the use of: Public Hearings and related advertisements; public notices; bidding advertisements and bid documents; notification to local business organizations such as the Chamber(s) of Commerce or the Urban League; local advertising media including public signage; project area committees and citizen advisory boards; local HUD offices; regional planning agencies; and all other appropriate referral sources. Include Section 3 clauses in all covered solicitations and contracts.

D. Maintain a list of those businesses that have identified themselves as Section 3 businesses for utilization in TxCDBG funded procurements, notify those businesses of pending contractual opportunities, and make this list available for general Grant Recipient procurement needs.

E. Maintain a list of those persons who have identified themselves as Section 3 residents and contact those persons when hiring/training opportunities are available through either the Grant Recipient or contractors.

F. Require that all Prime contractors and subcontractors with contracts over $100,000.00 commit to this plan as part of their contract work. Monitor the Contractors' performance with respect to meeting Section 3 requirements and require that they submit reports as may be required by HUD or TDRA to the Grant Recipient.

G. Submit reports as required by HUD or TDRA regarding contracting with Section 3 businesses and/or employment as they occur; and submit reports within 20 days of calendar year end which identify and quantify Section 3 businesses and employees.

H. Maintain records, including copies of correspondence, memoranda, etc., which document all actions taken to comply with Section 3 regulations.

As Officers and Representatives of ______________, we the undersigned have read and fully agree to this plan, and become a party to the full implementation of this program.

______________  ________________  ____________
Signature  Title  Date

01277517  POLICY-OWNER'S LOCAL OPPORTUNITY PLAN  00625 - 1
03/17
SECTION 00630 - CONSTRUCTION CONTRACTOR'S LOCAL OPPORTUNITY PLAN

____________________ agrees to implement the following specific affirmative action steps directed at increasing the utilization of lower income residents and businesses within the City of ________________.

A. To ascertain from the locality's TxCDBG program official the exact boundaries of the project area and, where advantageous, seek the assistance of local officials in preparing and implementing the affirmative action plan.

B. To attempt to recruit from the County the necessary number of lower income residents through: local advertising media, signs placed at the proposed site for the project, and community organizations and public or private institutions operating within and servicing the project area such as Service Employment and Redevelopment (SER), Opportunities Industrialization Center (OIC), Urban League, Concentrated Employment Program, Hometown Plan, or the U.S. Employment Service.

C. To maintain a list of all lower income residents who have applied either on their own or on referral from any source and to employ such persons if otherwise eligible and if a vacancy exists.

D. To insert this plan in all bid documents and to require all bidders on subcontracts to submit an affirmative action plan including utilization goals and the specific steps planned to accomplish these goals.

E. To insure that subcontracts (greater than $10,000.00) which are typically let on a negotiated rather than a bid basis in areas other than the covered project area are also let on a negotiated basis, whenever feasible, in a covered project area.

F. To formally contact unions, subcontractors, and trade associations to secure their cooperation in this effort.

G. To insure that all appropriate project area business concerns are notified of pending subcontractual opportunities.

H. To maintain records, including copies of correspondence, memoranda, etc., which document that all of the above affirmative action steps have been taken.

I. To appoint or recruit an executive official of the company or agency as Equal Opportunity Officer to coordinate the implementation of this plan.

J. To maintain records concerning the amount and number of contracts, subcontracts, and purchases which contribute to objectives.

K. To maintain records of all projected work force needs for all phases of the project by occupation, trade, skill level, and number of positions and to update these projections based on the extent to which hiring meets these Local Opportunity objectives.

As officers and representatives of ______________________, we, the undersigned, have read and fully agree to this Plan and become a party to the full implementation of the program and its provisions.

SECTION 00633 - CONFLICTS OF INTEREST

H.B. 914, passed during the 2005 Texas legislative session, as amended by H.B. 1491 passed in 2007, requires certain persons who wish to conduct business or be considered for business with a city to file a "conflict of interest questionnaire." The Texas Ethics Commission (TEC) created the conflict of interest questionnaire (FORM CIQ). These laws are codified in Chap. 176 of the Texas Local Government Code.

What vendors/persons are subject to Chapter 176?
• The word "person" includes a partnership, corporation or other corporate body, including those performing professional services. Such partnerships or corporations act through individuals, but it is the partnership or corporation that would be seeking to do business with the city.
• Any "person" who contracts or seeks to contract for the sale or purchase of property, goods, or services with a local governmental entity
• An agent of a person who contracts or seeks to contract for the sale or purchase of property, goods, or services with a local governmental entity
• A vendor shall file a completed conflict of interest questionnaire if the person has a business relationship with a local governmental entity and:
  (1) has an employment or other business relationship with an officer of that local governmental entity, or a family member of the officer that results in taxable income exceeding $2,500 during the 12 month period preceding the date a contract is executed or a contract is being considered; or
  (2) has given an officer of that local governmental entity, or a family member of the officer, one or more gifts with the aggregate value of more than $250 in the 12 month period preceding the date a contract is executed or a contract is being considered

What triggers the requirement to file a "conflict of interest questionnaire"?
When a person begins (1) contract discussions or negotiations with the city or (2) submits an application, response to request for proposals or bids, correspondence, or another writing related to a potential agreement, Form CIQ must be completed. Whether the person initiates the discussion or the city initiates the discussions, Form CIQ must be completed. Even if the vendor has no affiliation or business relationship with an officer or employee of the city, Form CIQ must be completed and submitted

To what type of contracts does the bill apply?
Any written contract and any implied contract, such as purchase orders, procurement card purchases, utility purchases, or any exchange of money or other consideration for some service or property. The monetary amount or value of the contract/purchase does not matter.

When must a vendor file the conflict of interest questionnaire?
No later than seven days after the date the person: (a) begins contract discussions or negotiations with the city, or (b) submits an application or response to a request for proposals or bids, correspondence, or another writing related to a potential agreement with a city, or (c) becomes aware of an employment relationship with a local government officer or family member of the officer, or (d) becomes aware of a qualifying gift.

What has to be revealed?
Section 176.006 requires disclosure of a person’s employment or business relationships. This includes each employment or business relationship with a corporation or other business entity with respect to which a local government officer services as an officer or director or holds an ownership interest of 10% or more.
How do I go about filling out the Conflict of Interest Questionnaire form?

Each number below corresponds with the number on FORM CIQ 2:

1. Fill in the full name of the person who is trying to do business with the City. If the person is a corporation, partnership, etc., then it is the name of that corporation, partnership, etc., that is required on Form CIQ.

2. Check box if the form is an update to a form previously completed. Updates are required by the 7th business day after an event that makes a statement in a previously filed questionnaire incomplete or inaccurate. Updates are also required by September 1 of each year in which the person submits a proposal, bid or response to the City of Waco or begins contract discussions or negotiations with the City.

3. Complete this Section by listing the name of the local government officer (member of City Council or City Manager) with whom there is an affiliation to or business relationship and you checked the “Yes” box in Section 3 A, B, or C.

If there is more than one local government officer (City Council or City Manager) with whom there is an affiliation or business relationship, more than one page two may be needed to provide information on each local government officer.

4. State whether the local government officer named on the form receives or is likely to receive taxable income, other than investment income, from the vendor filing the questionnaire.

5. State whether the filer receives or is likely to receive taxable income, other than investment income, from or at the direction of the local government officer named on the form AND the taxable income is not received from the local governmental entity.

6. State whether the filer is employed by a corporation or other business entity with which the local government officer serves as an officer or director or holds an ownership interest of 10% or more.

7. Describe each employment or business relationship with the local government officer named on the form.

8. Signature box. Person completing form must date and sign the form. If the form is being completed for a corporation, partnerships, etc., the person signing should be someone who is authorized to act on behalf of the corporation, partnership, etc.

A signature is required in box #4 regardless of any other entry on the form.

A copy of Chapter 176 of the Texas Local Government Code can be found at:

http://www.statutes.legis.state.tx.us/SOTWDocs/LG/htm/LG.176.htm
CONFLICT OF INTEREST QUESTIONNAIRE
For vendor or other person doing business with local governmental entity

This questionnaire reflects changes made to the law by H.B. 1491, 80th Leg., Regular Session. This questionnaire is being filed in accordance with Chapter 176, Local Government Code by a person who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the person meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the person becomes aware of facts that require the statement to be filed. See Section 176.006, Local Government Code.

A person commits an offense if the person knowingly violates Section 176.006, Local Government Code. An offense under this section is a Class C misdemeanor.

1. Name of person doing business with local governmental entity.

2. ☐ Check this box if you are filing an update to a previously filed questionnaire.

(The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date the originally filed questionnaire becomes incomplete or inaccurate.)

3. Name of local government officer with whom filer has employment or business relationship.

<table>
<thead>
<tr>
<th>Name of Officer</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
</tbody>
</table>

This section (item 3 including subparts A, B, C & D) must be completed for each officer with whom the filer has an employment or other business relationship as defined by Section 176.001(1-a), Local Government Code. Attach additional pages to this Form CIQ as necessary.

A. Is the local government officer named in this section receiving or likely to receive taxable income, other than investment income, from the filer of the questionnaire?

☐ Yes ☐ No

B. Is the filer of the questionnaire receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer named in this section AND the taxable income is not received from the local governmental entity?

☐ Yes ☐ No

C. Is the filer of this questionnaire employed by a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership of 10 percent or more?

☐ Yes ☐ No

D. Describe each employment or business relationship with the local government officer named in this section.

4.

# CERTIFICATION OF BIDDER REGARDING CIVIL RIGHTS LAWS AND REGULATIONS

## INSTRUCTIONS

CERTIFICATION OF BIDDER REGARDING Executive Order 11246 and Federal Laws Requiring Federal Contractor to adopt and abide by equal employment opportunity and affirmative action in their hiring, firing, and promotion practices. This includes practices related to race, color, gender, religion, national origin, disability, and veterans' rights.

**NAME AND ADDRESS OF BIDDER (include ZIP Code)**

## CERTIFICATION BY BIDDER

Bidder has participated in a previous contract or subcontract subject to Civil Rights Laws and Regulations.

- □ Yes
- □ No

The undersigned hereby certifies that:

- □ The **Provision of Local Training, Employment, and Business Opportunities** clause (Section 3 provision) is included in the Contract. A written Section 3 plan (Local Opportunity Plan) was prepared and submitted as part of the bid proceedings (if bid equals or exceeds $100,000).

- □ The **Non Segregated Facilities** clause (Section 109 provision) is included in the Contract. No segregated facilities will be maintained as required by Title VI of the Civil Rights Act of 1964.

- □ The **Equal Employment Opportunity** clause is included in the Contract (if bid equals or exceeds $10,000).

- □ The **Affirmative Action for Handicapped Workers** clause is included in the contract.

Have you ever been or are you being considered for sanction due to violation of Executive Order 11246, as amended?

- □ Yes
- □ No

SECTION 00645 - CERTIFICATION REGARDING LOBBYING FOR CONTRACTS, GRANTS, LOANS, AND COOPERATIVE AGREEMENTS

The undersigned ______________________ of ______________________ certifies, to the best of its knowledge and belief, that:

1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of an Federal contract, grant, loan or cooperative agreement.

2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form – LLL, “Disclosure Form to Report Lobbying,” in accordance with its instructions.

3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

Signed: ______________________  Date: ________________

Title: ______________________
DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subawardee or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to title 31 U.S.C. section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered Federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered Federal action.

2. Identify the status of the covered Federal action.

3. Identify the appropriate classification of this report. If this is a followup report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered Federal action.

4. Enter the full name, address, city, State and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be, a prime or subaward recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants and contract awards under grants.

5. If the organization filing the report in item 4 checks “Subawardee,” then enter the full name, address, city, State and zip code of the prime Federal recipient. Include Congressional District, if known.

6. Enter the name of the federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation, United States Coast Guard.

7. Enter the Federal program name or description for the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.

8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g., Request for Proposal (RFP) number; Invitations for Bid (IFB) number; grant announcement number; the contract, grant, or loan award number; the application/proposal control number assigned by the Federal agency). Included prefixes, e.g., “RFP-DE-90-001.”

9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.
10. (a) Enter the full name, address, city, State and zip code of the lobbying registrant under the Lobbying Disclosure Act of 1995 engaged by the reporting entity identified in item 4 to influence the covered Federal action.

(b) Enter the full names of the individual(s) performing services, and include full address if different from 10(a). Enter Last Name, First Name, and Middle Initial (MI).

11. The certifying official shall sign and date the form, print his/her name, title, and telephone number.

According to the Paperwork Reduction Act, as amended, no persons are required to respond to a collection of information unless it displays a valid OMB control Number. The valid OMB control number for this information collection is OMB No. 0348-0046. Public reporting burden for this collection of information is estimated to average 10 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0046), Washington, DC 20503.

**WARNING**

U.S. Criminal Code, Section 1010, Title 18, U.S.C., provides in part: “Whoever, . . . makes, passes, utters or publishes any statement, knowing the same to be false . . . shall be fined not more than $5,000 or imprisoned not more than two years, or both.”
SECTION 00665 – COMPLIANCE WITH AIR AND WATER ACTS

(a) In compliance with the Clean Air Act, as amended, 41 U.S.C. Sec. 7401 eq. seq., and the regulations of the Environmental Protection Agency with respect thereto, the Contractor agrees that:

1) Any facility to be utilized in the performance of this contract or any subcontract shall not be a facility listed on the EPA List of Violating Facilities pursuant to 40 CFR 15.20.
2) He will comply with all requirements of Section 114 of the Clean Air Act, as amended.
3) Materials utilized in the project shall be free of any hazardous materials, except as may be specifically provided for in the specifications.

(b) If the Contractor encounters existing material on sites owned or controlled by the Locality or in material sources that are suspected by visual observation or smell to contain hazardous materials, the Contractor shall immediately notify the Engineer and the Locality. The Locality will be responsible for testing and removal or disposition of hazardous materials on sites owned or controlled by the Locality. The Locality may suspend the work, wholly or in part during the testing, removal or disposition of hazardous materials on sites owned or controlled by the Locality.
SECTION 00670 - NONCOLLUSION AFFIDAVIT OF PRIME BIDDER

STATE OF ___________________________ §

SECTION 00690 - CERTIFICATION OF BIDDER REGARDING
EQUAL EMPLOYMENT OPPORTUNITY INSTRUCTIONS

CONTRACTOR CERTIFICATIONS

U.S. Department of Housing and Urban Development

This certification is required pursuant to Executive Order 11246 (30 F.R. 12319-25). The implementing rules and regulations provide that any bidder or prospective contractor, or any of their proposed subcontractors, shall state as an initial part of the bid or negotiations of the contract whether it has participated in any previous contract or subcontract subject to the equal opportunity clause; and, if so, whether it has failed all compliance reports due under applicable instructions.

Where the certification indicates that the bidder has not filed a compliance report due under applicable instructions, such bidder shall be required to submit a compliance report within seven calendar days after bid opening. No contract shall be awarded unless such report is submitted.

CERTIFICATION BY BIDDER

Name and Address of Bidder:

1. Bidder has participated in a previous contract or subcontract subject to the Equal Opportunity Clause.
   YES  NO

2. Compliance reports were required to be filed in connection with such contract or subcontract.
   YES  NO

3. Bidder has filed all compliance reports due under applicable instruction, including SF-100.
   YES  NO

4. Have you ever been or are you being considered for sanction due to violation of Executive Order 11246, as amended?
   YES  NO

________________________________________________________
Date
SECTION 00700 - GENERAL CONTRACT CONDITIONS

100. GENERAL

A. The project to be constructed pursuant to this contract will be financed with assistance from the Texas Community Development Block Grant Program (TxCDBG) and is subject to all applicable Federal, State and local laws and regulations.

101. DEFINITIONS

A.Whenever used in any of the Contract Documents, the following meanings shall be given to the terms herein defined:

1. "Contract" means the Contract executed by the Owner hereinafter called the Locality, and the Contractor, of which these GENERAL CONDITIONS, form a part.
2. "Project Area" means the area within which are the specified Contract limits of the Improvements contemplated to be constructed in whole or in part under this contract.
3. "Engineer" refers to Parkhill, Smith & Cooper, Inc., Consulting Engineers, Abilene, Amarillo, Austin, El Paso, Frisco, Lubbock, and Midland, Texas and Las Cruces, New Mexico, Engineer of the Owner, or such other Engineer, Supervisor or Inspector as may be authorized by said Owner to act in any particular.
4. "Contract Documents" means and shall include the following: Executed Contract, Addenda (if any), Invitation for Bids, Instructions to Bidders, Signed Copy of Bid, General Conditions, Supplementary General Conditions, Technical Specifications, and Drawings (as listed in the Schedule of Drawings).

102. SUPERVISION BY CONTRACTOR

A. Except where Contractor is an individual and gives his personal superintendence to the work, Contractor shall provide a competent superintendent, satisfactory to the Locality and Engineer, on the work at all times during working hours with full authority to act for him. Contractor shall also provide an adequate staff for the proper coordination and expediting of his work.

B. Contractor shall lay out his own work and he shall be responsible for all work executed by him under the Contract. He shall verify all figures and elevations before proceeding with the work and will be held responsible for any error resulting from his failure to do so.

103. SUBCONTRACTS

A. Contractor shall not execute an agreement with any subcontractor or permit any subcontractor to perform any work included in this contract until he has verified as eligible to participate in federally funded contracts.

B. No proposed subcontractor shall be disapproved by the Locality except for cause.

C. Contractor shall be as fully responsible to the Locality for the acts and omissions of his subcontractors, and of persons either directly or indirectly employed by them, as he is for the acts and omissions of persons directly employed by him.

D. Contractor shall cause appropriate provision to be inserted in all subcontracts relative to the work to require compliance by each subcontractor with the applicable provisions of the Contract.

E. Nothing contained in the Contract shall create any contractual relation between any subcontractor and the Locality.
104. FITTING AND COORDINATION OF WORK

A. Contractor shall be responsible for the proper fitting of all work and for the coordination of the operations of all trades, subcontractors, or material suppliers engaged upon this Contract.

105. PAYMENTS TO CONTRACTOR

A. Partial Payments
   1. Contractor shall prepare his requisition for partial payment as of the last day of the month and submit it, with the required number of copies, to Engineer for his approval. The amount of the payment due Contractor shall be determined by adding to the total value of work completed to date, the value of materials properly stored on the site and deducting (1) 10 percent of the total amount, to be retained until final payment and (2) the amount of all previous payments. The total value of work completed to date shall be based on the estimated quantities of work completed and on the unit prices contained in the agreement. The value of materials properly stored on the site shall be based upon the estimated quantities of such materials and the invoice prices. Copies of all invoices shall be available for inspection of the Engineer.
   2. Monthly or partial payments made by the Locality to Contractor are moneys advanced for the purpose of assisting Contractor to expedite the work of construction. Contractor shall be responsible for the care and protection of all materials and work upon which payments have been made until final acceptance of such work and materials by the Locality. Such payments shall not constitute a waiver of the right of the Locality to require the fulfillment of all terms of the Contract and the delivery of all improvements embraced in this Contract complete and satisfactory to the Locality in all details.

B. Final Payment
   1. After final inspection and acceptance by the Locality of all work under the Contract, Contractor shall prepare his requisition for final payment which shall be based upon the carefully measured or computed quantity of each item of work at the applicable unit prices stipulated in the Agreement. The total amount of the final payment due the Contractor under this contract shall be the amount computed as described above less all previous payments.
   2. The Locality, before paying the final estimate, may require Contractor to furnish releases or receipts from all subcontractors having performed any work and all persons having supplied materials, equipment (installed on the Project) and services to Contractor, if the Locality deems the same necessary in order to protect its interest. The Locality, however, may if it deems such action advisable make payment in part or in full to the Contractor without requiring the furnishing of such releases or receipts and any payments so made shall in no way impair the obligations of any surety or sureties furnished under this Contract.
   3. Any amount due Locality under Liquidated Damage, shall be deducted from the final payment.

C. Withholding Payments: The Locality may withhold from any payment otherwise due Contractor so much as may be necessary to protect the Locality and if so elects may also withhold any amounts due from Contractor to any subcontractors or material dealers, for work performed or material furnished by them. The foregoing provisions shall be construed solely for the benefit of the Locality and will not require the Locality to determine or adjust any claims or disputes between Contractor and his subcontractors or Material dealers, or to withhold any moneys for their protection unless the Locality elects to do so. The failure or refusal of the Locality to
withhold any moneys from Contractor shall in no way impair the obligations of any surety or
sureties under any bond or bonds furnished under this Contract.

D. Payments Subject to Submission of Certificates: Each payment to Contractor by the Locality
shall be made subject to submission by Contractor of all written certifications required of him
and his subcontractors.

106. CHANGES IN THE WORK

A. The Locality may make changes in the scope of the work required to be performed by
Contractor under the Contract or making the Contract, and without relieving or releasing
Contractor from any of his obligations under the Contract or any guarantee given by him
pursuant to the Contract provisions, and without affecting the validity of the guaranty bonds,
and without relieving or releasing the surety or sureties of said bonds. All such work shall be
executed under the terms of the original Contract unless it is expressly provided otherwise.
Additionally, all such change orders must be approved by the Texas Community Development
Block Grant Program (TxCDBG) prior to execution of same.

B. Except for the purpose of affording protection against any emergency endangering health, life,
limb or property, the Contractor shall make no change in materials used or in the specified
manner of constructing and/or installing the Improvements or supply additional labor, services
or materials beyond that actually required for the execution of the Contract, unless issuance of a
written order from the Locality authorizing Contractor to proceed with the change. No claim for
an adjustment of the Contract Price will be valid unless so ordered.

C. If applicable unit prices are contained in the Agreement (established as a result of either a unit
price bid of a Supplemental Schedule of Unit Prices) the Locality may order Contractor to
proceed with desired unit prices specified in the Contract; provided that in case of a unit price
contract the net value of all changes does not increase or decrease the original total amount
shown in the Agreement by more than 25 percent in accordance with the Section entitled Unit
Prices, under INSTRUCTIONS TO BIDDERS.

D. Each change order shall include in its final form:
   1. A detailed description of the change in the work.
   2. Contractor's proposal (if any) or a confirmed copy thereof.
   3. A definite statement as to the resulting change in the contract price and/or time.
   4. The statement that all work involved in the change shall be performed in accordance
      with contract requirements except as modified by the change order.

E. The procedures as outlined in this Section for a unit price contract also apply in the case of a
   lump sum contract.

107. CLAIMS FOR EXTRA COST

A. If Contractor claims that any instructions by Drawings or otherwise involve extra cost or
extension of time, he shall, within ten days after the receipt of such instructions, and in any
event before proceeding to execute the work, submit his protest thereto in writing to the
Locality, stating clearly and in detail the basis of his objections. No such claim will be
considered unless so made.

B. Claims for additional compensation for extra work, due to alleged errors in ground elevations,
contour lines, or bench marks, will not be recognized unless accompanied by certified survey
data, made prior to the time the original ground was disturbed, clearly showing that errors exist
which resulted, or would result, in handling more material, or performing more work, than
would be reasonably estimated from the Drawings and maps issued.
C. Any discrepancies which may be discovered between actual conditions and those represented by the Drawings and maps shall at once be reported to the Locality and work shall not proceed except at the Contractor's risk, until written instructions have been received by him from the Locality.

D. If, on the basis of the available evidence, the Locality determines that an adjustment of the Contract Price and/or time is justifiable, the procedure shall be as provided in Section 106 hereof.

108. TERMINATION, DELAYS, AND LIQUIDATED DAMAGES

A. Right of the Locality to Terminate Contract. In the event that any of the provisions of this contract are violated by Contractor, or by any of his subcontractors, the Locality may serve written notice upon Contractor and the Surety of its intention to terminate the contract, such notices to contain the reasons for such intention to terminate the contract, and unless within 10 days after the serving of such notice upon Contractor, such violation or delay shall cease and satisfactory arrangement of correction be made, the contract shall, upon the expiration of said 10 days, cease and terminate. In the event of any such termination, the Locality shall immediately serve notice thereof upon the Surety and Contractor and the Surety shall have the right to take over and perform the contract. Provided, however, that if the Surety does not commence performance thereof within 10 days from the date of the mailing to such Surety of notice of termination, the Locality may take over the work and prosecute the same to completion by contract or by force account for the account and at the expense of Contractor and Contractor and his Sureties shall be liable to the Locality for any excess cost occasioned the Locality thereby, and in such event the Locality may take possession of and utilize in completing the work, such materials, appliances, and plant as may be on the site of the work and necessary therefore.

B. Liquidated Damages for Delays. If the work is not completed within the time stipulated in the applicable Bid for Lump Sum or Unit Price Contract hereof, including any extensions of time for excusable delays as herein provided, Contractor shall pay to the Locality as fixed, agreed, and liquidated damages (it being impossible to determine the actual damages occasioned by the delay) for each calendar day of delay, until the work is completed, the amount as set forth in the applicable Bid for Lump Sum or Unit Price Contract hereof and Contractor and his sureties shall be liable to the Locality for the amount thereof.

C. Excusable Delays. The right of Contractor to proceed shall not be terminated nor shall Contractor be charged with liquidated damages for any delays in the completion of work due:
1. To any acts of the Government, including controls or restrictions upon or requisitioning of materials, equipment, tools, or labor by reason of war, National Defense, or any other national emergency;
2. To any acts of the Locality;
3. To causes not reasonably foreseeable by the parties to this Contract at the time of the execution of the Contract which are beyond the control and without the fault or negligence of Contractor, including, but not restricted to, acts of God or of the public enemy, acts of another Contractor in the performance of some other contract with the Locality, fires, floods, epidemics, quarantine, restrictions, strikes, freight embargoes, and weather of unusual severity such as hurricanes, tornadoes, cyclones and other extreme weather conditions; and
4. To any delay of any subcontractor occasioned by any of the caused specified in subparagraphs (1), (2), and (3) of this paragraph "c".

D. Provided, however, Contractor promptly notifies the Locality within 10 days in writing of the cause of delay. Upon receipt of such notification, the Locality shall ascertain the fact and the
cause and extent of delay. If, upon the basis of the facts and the terms of this contract, the delay is properly excusable, the Locality shall extend the time for completing the work for a period of time commensurate with the period of excusable delay.

109. ASSIGNMENT OR NOVATION

A. Contractor shall not assign or transfer, whether by an assignment or novation, any of its rights, duties, benefits, obligations, liabilities, or responsibilities under this Contract without the written consent of the Locality; provided, however, that assignments to banks, trust companies, or other financial institutions may be made without the consent of the Locality. No assignment or novation of this Contract shall be valid unless the assignment or novation expressly provides that the assignment of any of the Contractor's rights or benefits under the Contract is subject to a prior lien for labor performed, services rendered, and materials, tools, and equipment supplied for the performance of the work under this Contract in favor of all persons, firms, or corporations rendering such labor or services or supplying such materials, tools, or equipment.

110. DISPUTES

A. All disputes arising under this Contract or its interpretation except those disputes covered by FEDERAL LABOR-STANDARDS PROVISIONS under GENERAL CONDITIONS, whether involving law or fact or both, or extra work, and all claims for alleged breach of contract shall within 10 days of commencement of the dispute be presented by the Contractor to the Locality for decision. Any claim not presented within the time limit specified in this paragraph shall be deemed to have been waived, except that if the claim is of a continuing character and notice of the claim is not given within 10 days of its commencement, the claim will be considered only for a period commencing 10 days prior to the receipt of the Locality of notice thereof.

B. Contractor shall submit in detail his claim and his proof thereof.

C. If Contractor does not agree with any decision of the Locality, he shall in no case allow the dispute to delay the work but shall notify the Locality promptly that he is proceeding with the work under protest.

111. TECHNICAL SPECIFICATIONS AND DRAWINGS

A. Anything mentioned in the Technical Specifications and not shown on the Drawings or vice versa shall be of like effect as if shown on or mentioned in both. In case of any discrepancy in Drawings, or Technical Specifications, the matter shall be immediately submitted to the Locality, without whose decision, said discrepancy shall not be adjusted by Contractor, save only at his own risk and expense.

112. SHOP DRAWINGS

A. All required shop drawings, machinery details, layout drawings, etc. shall be submitted to the Engineer in three copies for approval sufficiently in advance of requirements to afford ample time for checking, including time for correcting, resubmitting and rechecking if necessary. Contractor may proceed, only at his own risk, with manufacture or installation of any equipment or work covered by said shop drawings, etc. until they are approved and no claim, by Contractor, for extension of the contract time shall be granted by reason of his failure in this respect.

B. Any drawings submitted without Contractor stamp of approval will not be considered and will be returned to him for proper resubmission. If any drawings show variations from the
requirements of the Contract because of standard shop practice or other reason, the Contractor shall make specific mention of such variation in his letter of transmittal in order that, if acceptable, suitable action may be taken for proper adjustment of contract price and/or time, otherwise Contractor will not be relieved of the responsibility for executing the work in accordance with the Contract even though the drawings have been approved.

C. If a shop drawing is in accordance with the contract or involves only a minor adjustment in the interest of the Locality not involving a change in contract price or time, Engineer may approve the drawing. The approval shall not relieve Contractor from his responsibility for adherence to the contract or for any error in the drawing.

113. REQUESTS FOR SUPPLEMENTARY INFORMATION

A. It shall be Contractor responsibility to make timely request of the Locality for any additional information not already in his possession which should be furnished by the Locality under the terms of this Contract, and which he will require in the planning and execution of the work. Such requests may be submitted from time to time as the need is approached, but each shall be filed in ample time to permit appropriate action to be taken by all parties involved so as to avoid delay. Each request shall be in writing, and list the various items and the latest date by which each will be required by Contractor. The first list shall be submitted within two weeks after Contract award and shall be as complete as possible at that time. The Contractor shall, if requested, furnish promptly any assistance and information Engineer may require in responding to these requests of Contractor. Contractor shall be fully responsible for any delay in his work or to others arising from his failure to comply fully with the provisions of this Section.

114. MATERIALS AND WORKMANSHIP

A. Unless otherwise specifically provided for in the Technical Specifications, all workmanship, equipment, materials and articles incorporated in the work shall be new and the best grade of the respective kinds for the purpose. Where equipment, materials, articles or workmanship are referred to in the Technical Specifications as "equal to" any particular standard, the Engineer shall decide the question of equality.

B. Contractor shall furnish to the Locality for approval the manufacturer's detailed specifications for all machinery, mechanical and other special equipment, which he contemplates installing together with full information as to type, performance characteristics, and all other pertinent information as required, and shall likewise submit for approval as required full information concerning all other materials or articles which he proposes to incorporate.

C. Machinery, mechanical and other equipment, materials or articles installed or used without such prior approval shall be at the risk of subsequent rejection.

D. Materials specified by reference to the number or symbol of a specific standard, shall comply with requirements in the latest revision thereof and any amendment or supplement thereto in effect on the date of the Advertisement for Bids, except as limited to type, class or grade, or modified in such reference. The standards referred to, except as modified in the Technical Specifications shall have full force and effect as though printed therein.

E. The Locality may require Contractor to dismiss from the work such employee or employees as the Locality or the Engineer may deem incompetent, or careless, or insubordinate.

115. SAMPLES, CERTIFICATES, AND TESTS

A. Contractor shall submit all material or equipment samples, certificates, affidavits, etc., as called for in the contract documents or required by the Engineer, promptly after award of the contract.
and acceptance of the Contractor's bond. No such material or equipment shall be manufactured or delivered to the site, except at Contractor risk, until the required samples or certificates have been approved in writing by Engineer. Any delay in the work caused by late or improper submission of samples or certificates for approval shall not be considered just cause for an extension of the contract time.

B. Each sample submitted by Contractor shall carry a label giving the name of Contractor, the project for which it is intended, and the name of the producer. The accompanying certificate or letter from Contractor shall state that the sample complies with contract requirements, shall give the name and brand of the product, its place of origin, the name and address of the producer and all specifications or other detailed information which will assist Engineer in passing upon the acceptability of the sample promptly. It shall also include the statement that all materials or equipment furnished for use in the project will comply with the samples and/or certified statements.

C. Approval of any materials shall be general only and shall not constitute a waiver of the Locality's right to demand full compliance with Contract requirements. After actual deliveries, Engineer will have such check tests made as he deems necessary in each instance and may reject materials and equipment and accessories for cause, even though such materials and articles have been given general approval. If materials, equipment or accessories which fail to meet check tests have been incorporated in the work, Engineer will have the right to cause their removal and replacement by proper materials or to demand and secure such reparation by Contractor as is equitable.

D. Except as otherwise specifically stated in the Contract, the costs of sampling and testing will be divided as follows:
1. Contractor shall furnish without extra cost, including packing and delivery charges, all samples required for testing purposes, except those samples taken on the project by Engineer;
2. Contractor shall assume all costs of re-testing materials which fail to meet contract requirements;
3. Contractor shall assume all costs of testing materials offered in substitution for those found deficient;
4. The Locality will pay all other expenses.

116. PERMITS AND CODES

A. Contractor shall give all notices required by and comply with all applicable laws, ordinances, and codes of the Local Government. All construction work and/or utility installations shall comply with all applicable ordinances, and codes including all written waivers. Before installing any work, the Contractor shall examine the Drawings and Technical Specifications and if the Drawings and Technical Specifications fail to comply with such applicable ordinances or codes, the Locality will adjust the Contract by Change Order to conform to such ordinances or codes (unless waivers in writing covering the difference have been granted by the governing body or department) and make appropriate adjustment in the Contract Price or stipulated unit prices.

B. Should Contractor fail to observe the foregoing provisions and proceed with the construction and/or install any utility at variance with any applicable ordinance or code, including any written waivers (notwithstanding the fact that such installation is in compliance with the Drawings and Technical Specifications), the Contractor shall remove such work without cost to the Locality.

C. Contractor shall at his own expense, secure and pay to the appropriate department of the Local Government the fees or charges for all permits for street pavement, sidewalks, shed, removal of
abandoned water taps, sealing of house connection drains, pavement cuts, buildings, electrical, plumbing, water, gas and sewer permits required by the local regulatory body or any of its agencies.

D. Contractor shall comply with applicable local laws and ordinances governing the disposal of surplus excavation, materials, debris and rubbish on or off the Project Area and commit no trespass on any public or private property in any operation due to or connected with the Improvements embraced in this Contract.

E. Contractor will be required to make arrangements for and pay the water, electrical power, or any other utilities required during construction.

F. During construction of this project, Contractor shall use every means possible to control the amount of dust created by construction. Prior to the close of a day’s work, Contractor, if directed by Owner, shall moisten the bank and surrounding area to prevent a dusty condition.

117. CARE OF WORK

A. Contractor shall be responsible for all damages to person or property that occur as a result of his fault or negligence in connection with the prosecution of the work and shall be responsible for the proper care and protection of all materials delivered and work performed until completion and final acceptance.

B. Contractor shall provide sufficient competent watchmen, both day and night, including Saturdays, Sundays, and holidays, from the time the work is commenced until final completion and acceptance.

C. In an emergency affecting the safety of life, limb or property, including adjoining property, the Contractor, without special instructions or authorization from the Locality, is authorized to act at his discretion to prevent such threatened loss or injury, and he shall so act. He shall likewise act if instructed to do so by the Locality.

D. Contractor shall avoid damage as a result of his operations to existing sidewalks, streets, curbs, pavements, utilities (except those which are to be replaced or removed), adjoining property, etc., and he shall at his own expense completely repair any damage thereto caused by his operations.

E. Contractor shall store up, brace, underpin, secure, and protect as may be necessary, all foundations and other parts of existing structures adjacent to, adjoining, and in the vicinity of the site, which may be in any way affected by the excavations or other operations connected with the construction of the Improvements embraced in this Contract. Contractor shall be responsible for the giving of any and all required notices to any adjoining or adjacent property owner or other party before the commencement of any work. Contractor shall indemnify and save harmless the Locality from any damages on account of settlements or the loss of lateral support of adjoining property and from all loss or expense and all damages for which the Locality may become liable in consequence of such injury or damage to adjoining an adjacent structures and their premises.

118. ACCIDENT PREVENTION

A. No laborer or mechanic employed in the performance of this Contract shall be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous to his health or safety as determined under construction safety and health standards promulgated by the Secretary of Labor.

B. Contractor shall exercise proper precaution at all times for the protection of persons and property and shall be responsible for all damages to persons or property, either on or off the site, which occur as a result of his prosecution of the work.
C. Contractor shall maintain an accurate record of all cases of death, occupational disease, or injury requiring medical attention or causing loss of time from work, arising out of and in the course of employment on work under the Contract. Contractor shall promptly furnish the Locality with reports concerning these matters.

D. Contractor shall indemnify and save harmless the Locality from any claims for damages resulting from property damage, personal injury and/or death suffered or alleged to have been suffered by any person as a result of any work conducted under this contract.

E. Contractor shall provide trench protection for all trenches in excess of a depth of 5 feet, in the manner specified in the technical specifications and drawings.

F. Contractor shall at all times conduct his work in such a manner as to insure the least possible inconvenience to vehicular and pedestrian traffic. At the close of the work each day, all streets, where possible in the opinion of Owner shall be opened to the public in order that persons living in the area may have access to their homes or businesses by the use of the streets. Barricades, warning signs, and necessary lighting shall be provided to the satisfaction of Owner at the expense of Contractor.

119. SANITARY FACILITIES

A. Contractor shall furnish, install and maintain ample sanitary facilities for the workmen. As the needs arise, a sufficient number of enclosed temporary toilets shall be conveniently placed as required by the sanitary codes of the state and local government. Drinking water shall be provided from an approved source, so piped or transported as to keep it safe and fresh and served from single service containers or satisfactory types of sanitary drinking stands or fountains. All such facilities and services shall be furnished in strict accordance with existing and governing health regulations.

120. USE OF PREMISES

A. Contractor shall confine his equipment, storage of materials, and construction operations to the Contract Limits as shown on the Drawings and as prescribed by ordinances or permits, or as may be desired by the Locality, and shall not unreasonably encumber the site or public rights of way with his materials and construction equipment.

B. Contractor shall comply with all reasonable instructions of the Locality and all existing state and local regulations regarding signs, advertising, traffic, fires, explosives, danger signals, and barricades.

121. REMOVAL OF DEBRIS, CLEANING, ETC.

A. Contractor shall, periodically or as directed during the progress of the work, remove and legally dispose of all surplus excavated material and debris, and keep the Project Area and public rights of way reasonably clear. Upon completion of the work, he shall remove all temporary construction facilities, debris and unused materials provided for the work, and put the whole site of the work and public rights of way in a neat and clean condition.

122. INSPECTION

A. All materials and workmanship shall be subject to inspection, examination, or test by the Locality and the Engineer at any and all times during manufacture or construction and at any and all places where such manufacture or construction is carried on. The Locality shall have the right to reject defective material and workmanship or require its correction. Unacceptable
workmanship shall be satisfactorily corrected. Rejected material shall be promptly segregated and removed from the Project Area and replaced with material of specified quality without charge therefore. If Contractor fails to proceed at once with the correction of rejected workmanship or defective material, the Locality may by contract or otherwise have the defects remedied or rejected materials removed from the Project Area and charge the cost of the same against any monies which may be due Contractor, without prejudice to any other rights or remedies of the Locality.

B. Contractor shall furnish promptly all materials reasonably necessary for any tests which may be required. All tests by the Locality will be performed in such manner as not to delay the work unnecessarily and will be made in accordance with the provisions of Technical Specifications.

C. Contractor shall notify the Locality sufficiently in advance of backfilling or concealing any facilities to permit proper inspection. If any facilities are concealed without approval or consent of the Locality, Contractor shall uncover for inspection and recover such facilities all at his own expense, when so requested by the Locality.

D. Should it be considered necessary or advisable by the Locality at any time before final acceptance of the entire work to make an examination of work already completed by uncovering the same, Contractor shall on request promptly furnish all necessary facilities, labor and material. If such work is found to be defective in any important or essential respect, due to fault of Contractor or his subcontractors, Contractor shall defray all the expenses of such examination and of satisfactory reconstruction. If, however, such work is found to meet the requirements of the Contract, the actual cost of labor and material necessarily involved in the examination and replacement shall be allowed Contractor and he shall, in addition, if completion of the work of entire Contract has been delayed thereby, be granted a suitable extension of time on account of the additional work involved.

E. Inspection of materials and appurtenances to be incorporated in the Improvements embraced in this Contract may be made at the place of production, manufacture of shipment, whenever the quantity justifies it, and such inspection and acceptance, unless otherwise stated in the Technical Specifications, shall be final, except as regards (1) latent defects, (2) departures from specific requirements of the Contract, (3) damage or loss in transit, or (4) fraud or such gross mistakes as amount to fraud. Subject to the requirements contained in the preceding sentence, the inspection of materials as a whole or in part will be made at the Project Site.

F. Neither inspection, testing, approval nor acceptance of the work in whole or in part, by the Locality or its agents shall relieve the Contractor or his sureties of full responsibility for materials furnished or work performed not in strict accordance with the Contract.

123. REVIEW BY LOCALITY

A. The Locality, its authorized representatives and agents shall, at all times have access to and be permitted to observe and review all work, materials, equipment, payrolls, personnel records, employment conditions, material invoices, and other relevant data and records pertaining to this Contract, provided, however, that all instructions and approval with respect to the work will be given to Contractor only by the Locality through its authorized representatives or agents.

124. FINAL INSPECTION

A. When the Improvements embraced in this Contract are substantially completed, Contractor shall notify the Locality in writing that the work will be ready for final inspection on a definite date which shall be stated in the notice. The Locality will make the arrangements necessary to have final inspection commenced on the date stated in the notice, or as soon thereafter as is practicable.
125. DEDUCTION FOR UNCORRECTED WORK

A. If Locality deems it not expedient to require Contractor to correct work not done in accordance with the Contract Documents, an equitable deduction from the Contract Price will be made by agreement between the Contractor and the Locality and subject to settlement, in case of dispute, as herein provided.

126. INSURANCE

A. Contractor shall not commence work under this contract until he has obtained all the insurance required under this paragraph and such insurance has been approved by the Locality.

1. Compensation Insurance: Contractor shall procure and shall maintain during the life of this contract Workmen's Compensation Insurance as required by applicable State or territorial law for all of his employees to be engaged in work at the site of the project under this contract and, in case of any such work sublet, Contractor shall require the subcontractor similarly to provide Workmen's Compensation Insurance for all of the latter's employees to be engaged in such work unless such employees are covered by the protection afforded by the Contractor's Workmen's Compensation Insurance.

2. Contractor's Public Liability and Property Damage Insurance and Vehicle Liability Insurance: Contractor shall procure and shall maintain during the life of this contract Contractor's Public Liability Insurance, Contractor's Property Damage Insurance and Vehicle Liability Insurance in the amounts specified in the Supplementary General Conditions.

3. Subcontractor's Public Liability and Property Damage Insurance and Vehicle Liability Insurance: Contractor shall require each of his subcontractors to procure and to maintain during the life of his subcontract, Subcontractor's Public Liability and Property Damage Insurance and Vehicle Liability Insurance of the type and in the amounts specified in the Special Provisions specified in subparagraph (b) hereof.

4. Scope of Insurance and Special Hazards: The insurance required under subparagraphs (b) and (c) hereof shall provide adequate protection for Contractor and his subcontractors, respectively, against damage claims which may arise from operations under this contract, whether such operations be by the insured or by anyone directly or indirectly employed by him and, also against any of the special hazards which may be encountered in the performance of this contract as enumerated in the Supplementary General Conditions.

5. Builder's Risk Insurance (Fire and Extended Coverage): Until the project is completed and accepted by Owner, Owner, or Contractor (at Owner option as indicated in the Special Provisions), is required to maintain Builder's Risk Insurance (fire and extended coverage) on a 100 percent completed value basis on the insurable portion of the project for the benefit of the Owner, the Contractor, subcontractors as their interests may appear. Contractor shall not include any costs for Builder's Risk Insurance (fire and extended coverage) premiums during construction unless Contractor is required to provide such insurance; however, this provisions shall not release Contractor from his obligation to complete, according to plans and specifications, the project covered by the contract, and Contractor and his Surety shall be obligated to full performance of Contractor's undertaking.

6. Proof of Carriage of Insurance: Contractor shall furnish the Locality with certificates showing the type, amount, class of operations covered, effective dates and date of expiration of policies. Such certificates shall also contain substantially the following
The insurance covered by this certificate will not be canceled or materially altered, except after ten (10) days written notice has been received by the Locality."

127. WARRANTY OF TITLE

A. No material, supplies, or equipment to be installed or furnished under this Contract shall be purchased subject to any chattel mortgage or under a conditional sale, lease-purchase or other agreement by which an interest therein or in any part thereof is retained by the seller or supplier. Contractor shall warrant good title to all materials, supplies, and equipment installed or incorporated in the work and upon completion of all work, shall deliver the same together with all improvements and appurtenances constructed or placed thereon by him to the Locality free from any claims, liens, or charges. Neither Contractor nor any person, firm, or corporation furnishing any material or labor for any work covered by this Contract shall have any right to a lien upon any improvement or appurtenance thereon. Nothing contained in this paragraph, however, shall defeat or impair the right to persons furnishing materials or labor to recover under any law permitting such persons to look to funds due Contractor in the hands of the Locality. The provisions of this paragraph shall be inserted in all subcontracts and material contracts and notice of its provisions shall be given to all persons furnishing materials for the work when no formal contract is entered into for such materials.

128. WARRANTY OF WORKMANSHIP AND MATERIAL

A. Neither the final certificate of payment nor any provision in the Contract nor partial or entire use of the Improvements embraced in this Contract by the Locality or the public shall constitute an acceptance of work not done in accordance with the Contract or relieve Contractor of liability in respect to any express warranties or responsibility for faulty materials or workmanship. Contractor shall promptly remedy any defects in the work and pay for any damage to other work resulting therefrom which shall appear within a period of 12 months from the date of final acceptance of the work.

129. COMPLIANCE WITH AIR AND WATER ACTS

A. In compliance with the Clean Air Act, as amended, 42 U.S.C. 1857 et. seq., the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et. seq., and the regulations of the Environmental Protection Agency with respect thereto the Contractor agrees that:
   1. Any facility to be utilized in the performance of this contract or any subcontract shall not be a facility listed on the EPA List of Violating Facilities pursuant to 40 CFR 15.20.
   2. He will comply with all requirements of Section 114 of the Clean Air Act, as amended (42 U.S.C. 1857c-8), and Section 308 of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251).
   3. Materials utilized in the project shall be free of any hazardous materials, except as may be specifically provided for in the specifications.
B. If Contractor encounters existing material on sites owned or controlled by Owner or in material sources that are suspected by visual observation or smell to contain hazardous materials, Contractor shall immediately notify the Engineer and Owner. Owner will be responsible for testing for and removal or disposition of hazardous materials on sites owned or controlled by Owner. Owner may suspend the work, wholly or in part during the testing, removal or disposition of hazardous materials on sites owned or controlled by Owner.
130. **EQUAL EMPLOYMENT OPPORTUNITY**

A. Contractor will not discriminate against any employee or the applicant for employment because of race, color, religion, sex, or national origin. Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: employment upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Locality.

B. Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.

C. Contractor will cause the foregoing provisions to be inserted in all subcontracts for any work covered by this contract so that such provisions will be binding upon each subcontractor, provided that the foregoing provisions shall not apply to contracts or subcontracts for standard commercial supplies or raw materials.

D. The goals and timetables for minority and female participation are as follows:

<table>
<thead>
<tr>
<th>Timetables</th>
<th>Goals for minority participation for each trade</th>
<th>Goals for each trade participation in female</th>
</tr>
</thead>
<tbody>
<tr>
<td>19.5%</td>
<td>6.9%</td>
<td></td>
</tr>
</tbody>
</table>

1. These goals are applicable to all Contractor construction work (whether Federal or federally-assisted) performed in the covered area.

E. Contractor shall take specific affirmative actions to ensure equal employment opportunity. The evaluation of Contractor compliance with these specifications shall be based upon its effort to achieve maximum results from its actions.

F. Contractors are encouraged to participate in voluntary associations which assist in fulfilling one or more of their affirmative action obligations.

G. A single goal for minorities and a separate single goal for women have been established. Contractor, however, is required to provide equal employment opportunity and to take affirmative action for all minority groups, both male and female, and all women both minority and non-minority.

H. Contractor shall not use the goals and timetables or affirmative action standards to discriminate against any person because of race, color, religion, sex, or national origin.

I. Contractor shall not enter into any Subcontract with any person or firm debarred from Government contracts.

J. Nothing herein provided shall be construed as a limitation upon the application of other laws which establish different standards of compliance or upon the application of requirements for the hiring of local or other area residents.

131. **AFFIRMATIVE ACTION FOR WORKERS WITH DISABILITIES**

A. Contractor will not discriminate against any employee or applicant for employment because of disability in regard to any position for which the employee or applicant for employment is qualified. Contractor agrees to take affirmative action to employ, advance in employment and otherwise treat qualified individuals with disabilities without discrimination based upon their disability in all employment practices such as the following: employment, promotion, demotion or transfer, recruitment, advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship.
132. PREVAILING WAGE RATES

A. Contractor must pay workers not less than the general prevailing rate of per diem wages as indicated on a wage decision furnished by Owner for all work performed on this project, in accordance with Davis-Bacon and Related Acts.

133. TDA PAYMENT CLAUSE

A. Payment under this contract must be processed through the Texas Department of Agriculture - Office of Rural Affairs. Receipt of payment from the Grant Recipient will take at least 45 days from the time of pay estimate approval by the project engineer.

134 SECTION 109 OF THE HOUSING AND COMMUNITY DEVELOPMENT ACT OF 1974

A. No person in the United States on the ground of race, color, national origin, or sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity funded in whole or in part with funds made available under this title.

135. THE PROVISION OF LOCAL TRAINING, EMPLOYMENT, AND BUSINESS OPPORTUNITIES

A. To the greatest extent feasible, opportunities for training and employment be given lower income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.
B. Contractor will include this clause in every subcontract for work in connection with the project.

136. NONSEGREGATED FACILITIES

A. Contractor certifies that he does not maintain or provide for his employees any segregated facilities at any of his establishments, and that he does not permit his employees any segregated facilities at any of his establishments, and that he does not permit his employees to perform their services at any location, under his control, where segregated facilities are maintained. As used in this paragraph the term "segregated facilities" means any waiting rooms, work areas, restrooms and washrooms, restaurants and other eating areas, time clocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees which are segregated by explicit directive or are in fact segregated on the basis of race, creed, color, or national origin, because of habit, local custom, or otherwise.

137. JOB OFFICES

A. Contractor and his subcontractors may maintain such office and storage facilities on the site as are necessary for the proper conduct of the work. These shall be located so as to cause no interference to any work to be performed on the site. The Locality shall be consulted with regard to locations.
B. Upon completion of the improvements, or as directed by the Locality, Contractor shall remove all such temporary structures and facilities from the site, same to become his property, and leave the site of the work in the condition required by the Contract.
138. PARTIAL USE OF SITE IMPROVEMENTS

A. The Locality may give notice to Contractor and place in use those sections of the improvements which have been completed, inspected and can be accepted as complying with the Technical Specifications and if in its opinion, each such section is reasonably safe, fit, and convenient for the use and accommodation for which it was intended, provided:

1. Use of such sections of the improvements shall in no way impede the completion of the remainder of the work by Contractor.
2. Contractor shall not be responsible for any damages or maintenance costs due directly to the use of such sections.
3. Period of guarantee stipulated in the Section 128 hereof shall not begin to run until the date of the final acceptance of all work which Contractor is required to construct under this Contract.

139. CONTRACT DOCUMENTS AND DRAWINGS

A. The Locality will furnish Contractor without charge five copies of the Contract Documents, including Technical Specifications and Drawings. Additional copies requested by Contractor will be furnished at cost.

140. CONTRACT PERIOD

A. Work to be performed under this contract shall commence within the time stipulated by the Locality in the Notice to Proceed, and shall be fully completed as stated in the Contract.

141. LIQUIDATED DAMAGES

A. Since the actual damages for any delay in completion of the work under this contract are impossible to determine, Contractor and his Sureties shall be liable for and shall pay to the Locality liquidated damages for each calendar day of delay from the time for completion as stated in the Contract.

142. RESTRICTIONS ON PUBLIC BUILDINGS AND PUBLIC WORKS PROJECTS

A. Definitions.

1. "Component," as used in this clause, means those articles, materials and supplies incorporated directly into the product.
2. "Contractor or sub-contractor of a foreign country," as used in this clause, means any contractor or subcontractor that is a citizen or national of a foreign country or is controlled directly or indirectly by citizens or nationals of a foreign country. A contractor or subcontractor shall be considered to be a citizen or national of a foreign country, or controlled directly or indirectly by citizens or nationals of a foreign country:
   a. If 50 percent or more of the contractor or subcontractor is owned by a citizen or national of a foreign country;
   b. If the title to 50 percent or more of the stock of the contractor or subcontractor is held subject to trust or fiduciary obligation in favor of citizens or nationals of a foreign country;
   c. If 50 percent or more of the voting power in the contractor or subcontractor is vested in or exercisable on behalf of a citizen or national of a foreign country;
   d. In the case of a partnership, if any general partner is a citizen of a foreign country;
e. In the case of a corporation, if its president or other chief executive officer or the chairman of its board of directors is a citizen of the foreign country or the majority of any number of its directors necessary to constitute a quorum are citizens of the foreign country or the corporation is organized under the laws of the foreign country or any subdivision, territory or possession thereof; or

f. In the case of a contractor or subcontractor who is a joint venture, if any participant firm is a citizen or national of a foreign country or meets any of the criteria in (a) through (f) of this clause.

3. "Product," as used in this clause, means construction materials—i.e., articles, materials and supplies brought to the construction site for incorporation into the public works project, including permanently affixed equipment, instruments, utilities, electronic or other devices, but not including vehicles or construction equipment. In determining the origin of a product, the Locality will consider a product as produced in a foreign country if it has been assembled or manufactured in the foreign country, or if the cost of the components mined, produced or manufactured in the foreign country exceed 50% of the cost of all its components.

B. Restrictions - Contractor shall not:

1. Knowingly enter into any subcontract under this contract with a subcontractor of a foreign country included on the list of countries that discriminate against U.S. firms published by the United States Trade Representative (USTR); or

2. Supply any product under this contract of a country included on the list of countries that discriminate against U.S. firms published by the USTR.

3. USTR List: The current list contains only Japan.

4. Certification: Contractor may rely upon the certification of a prospective subcontractor that it is not a subcontractor of a foreign country included on the list of countries that discriminate against U.S. firms published by the USTR and that products supplied by such subcontractor for use on the Federal public works project under this contract are not products of a foreign country included on the list of foreign countries that discriminate against U.S. firms published by the USTR, unless such contractor has knowledge that the certification is erroneous.

5. Subcontracts: Contractor shall incorporate this clause, including this paragraph, in all subcontracts.

143. PERFORMANCE, PAYMENT AND OTHER BONDS

A. Contractor shall furnish Performance and Payment Bonds, each in an amount at least equal to the Contract Price as security for the faithful performance and payment of all Contractor’s obligations under the Contract Documents. These Bonds shall remain in effect at least until one year after the date when final payment becomes due, except as provided otherwise by Laws or Regulations or by the Contract Documents.

144. SUBSTANTIAL COMPLETION:

A. When Contractor considers the entire Work ready for its intended use Contractor shall notify Owner and Engineer in writing that the entire Work is substantially complete (except for items specially listed by Contractor as incomplete) and request that Engineer issue a certificate of Substantial Completion. Within a reasonable time thereafter, Owner, Contractor, and Engineer shall make an inspection of the Work to determine the status of completion. If Engineer considers the Work substantially complete, Engineer will prepare and deliver to Owner a tentative certificate of Substantial Completion which shall fix the date of Substantial
Completion. There shall be attached to the certificate a tentative list of items to be completed or corrected before final payment. Owner shall have seven days after receipt of the tentative certificate during which to make written objection to Engineer as to any provisions of the certificate or attached list. If, after considering such objections, Engineer concludes that the Work is not substantially complete, Engineer will within fourteen days after submission of the tentative certificate to Owner notify Contractor in writing, stating the reasons therefor. If after consideration of Owner’s objection, Engineer considers the Work substantially complete, Engineer will within said fourteen days execute and deliver to Owner and Contractor a definitive certificate of Substantial Completion (with a revised tentative list of items to be completed or corrected) reflecting such changes from the tentative certificate as Engineer believes justified after consideration of any objections from Owner. At the time of delivery of the tentative certificate of Substantial Completion Engineer will deliver to Owner and Contractor a written recommendation as to division of responsibilities pending final payment between Owner and Contractor with respect to security, operation, safety, maintenance, heat, utilities, insurance and warranties and guarantees. Unless Owner and Contractor agree otherwise in writing and so inform engineer in writing prior to Engineers issuing the definitive certificate of Substantial Completion, Engineer’s aforesaid recommendation will be binding on Owner and Contractor until final payment.

END OF SECTION
Applicability

The Project or Program to which the construction work covered by this contract pertains is being assisted by the United States of America and the following Federal Labor Standards Provisions are included in this Contract pursuant to the provisions applicable to such Federal Labor Standards Provisions are included in this Contract pursuant to the provisions applicable to such Federal assistance.

A.1.(i) Minimum Wages. All laborers and mechanics employed or working upon the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), will be paid unconditionally and not less than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR Part 3), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics. Contributions made or costs reasonably anticipated for bona fide fringe benefits under Section 1(b)(2) of the Davis Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics subject to the provisions of 29 CFR 5.5(a)(1)(iv); also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs, which cover the particular weekly period, are deemed to be constructive made or incurred during such weekly period.

Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR Part 5.5(a)(4). Laborors or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided, that the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under 29 CFR Part 5.5(a)(1)(ii) and the Davis Bacon Poster (WH-1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

(ii)(a) Any class of laborers or mechanics which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage rate and fringe benefits therefore only when the following criteria have been met:

(1) The work to be performed by the classification requested is not performed by a classification in the wage determination; and

(2) The classification is utilized in the area by the construction industry; and

(3) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(b) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and HUD or its designee agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by HUD or its designee to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, D.C. 20210.
The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise HUD or its designee or will notify HUD or its designee within the 30-day period that additional time is necessary. (Approved by the Office of Management and Budget under OMB control number 1215-0140).

(c) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and HUD or its designee do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), HUD or its designee shall refer the questions, including the views of all interested parties and the recommendation of HUD or its designee, to the Administrator for determination. The Administrator, or an authorized representative will issue a determination within 30 days of receipt and so advise HUD or its designee or will notify HUD or its designee within the 30-day period that additional time is necessary. (Approved by the Office of Management and Budget under OMB Control Number 1215-0140).

(d) The wage rate (including fringe benefits where appropriate) determined pursuant to subparagraphs (1)(b) or (c) of this paragraph, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

(ii) Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.

(iv) If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of a laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program. Provided, that the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program. (Approved by the Office of Management and Budget under OMB Control Number 1215-0140).

2. Withholding. HUD or its designee shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from the contractor under this contract or any other Federal contract with the same prime contractor, or any other Federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract, in the event of failure to pay any laborer or mechanic, including any apprentice, trainee or helper, employed or working on the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), all or part of the wages required by the contract, HUD or its designee may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance or guarantee of funds until such violations have ceased. HUD or its designee may, after written notice to the contractor, disburse such amounts withheld for and on account of the contractor disburse such amounts withheld for and on account of the contractor or subcontractor to the respective employees to whom they are due. The Comptroller General shall make such disbursements in the case of the direct Davis-Bacon Act contracts.

3. (i) Payrolls and basic records. Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work preserved for a period of three years.
thereafter for all laborers and mechanics working at the site of the work (or under the United States Housing Act of 1937, or under the Housing Act of 1949, in the construction or development of the project). Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates or contributions or costs anticipated for bona fide fringe benefits or cash equivalents there of the types described in Section 1(b)(2)(B) of the Davis-Bacon Act, daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in Section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in proving such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs. (Approved by the Office of Management and Budget under OMB Control Numbers 1215-0140 and 1215-0017).

(ii)(a) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to HUD or its designee if the agency is a party to the contract, but if the agency is not such a party, the contractor will submit the payrolls to the applicant, sponsor, or owner, as the case may be, for transmission to HUD or its designee. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR Part 5.5(a)(3)(i). This information may be submitted in any form desired. Optional Form WH-347 is available for this purpose and may be purchased from the Superintendent of Documents (Federal Stock Number 029-005-0014-1), U.S. Government Printing Office, Washington, D.C. 20402. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. (Approved by the Office of Management and Budget under OMB Control Number 1215-0149).

(b) Each payroll submitted shall be accompanied by a “Statement of Compliance,” signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:

1. That the payroll for the payroll period contains the information required to be maintained under 29 CFR Part 5.5(a)(3)(i) and that such information is correct and complete;

2. That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in 29 CFR Part 3;

3. That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

(c) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the “Statement of Compliance” required by paragraph A.3.(ii)(b) of this section.

(d) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under Section 1001 of Title 18 and Section 231 of Title 31 of the United States Code.
(iii) The contractor or subcontractor shall make the records required under paragraph A.3.(i) of this section available for inspection, copying, or transcription by authorized representatives of HUD or its designee or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, HUD or its designee may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR Part 5.12.

(4) Apprentices and Trainees.

(i) Apprentices. Apprentices will be permitted to work at least the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Bureau of Apprenticeship and Training, or with State Apprenticeship Agency recognized by the Bureau, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Bureau of Apprenticeship and Training or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman’s hourly rate) specified in the contractor’s or subcontractor’s registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice’s level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination. In the event the Bureau of Apprenticeship and Training, or a State Apprenticeship Agency recognized by the Bureau, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(ii) Trainees. Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration. The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration. Every trainee must be paid at not less than the rate specified in the approved program for the trainee’s level of progress, expressed as a
percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training program approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(iii) Equal employment opportunity. The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR Part 30.

(5) Compliance with Copeland Act requirements. The contractor shall comply with the requirements of 29 CFR Part 3 which are incorporated by reference in this contract.

(6) Subcontracts. The contractor or subcontractor will insert in any subcontracts the clauses contained in 29 CFR 5.5(a)(1) through (10) and such other clauses as HUD or its designee may be appropriate instruction require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR Part 5.5.

(7) Contract termination; debarment. A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.

(8) Compliance with Davis-Bacon and Related Act Requirements. All rulings and interpretations of the Davis Bacon and Related Acts contained in 29 CFR Parts 1, 3, and 5 are herein incorporated by reference in this contract.

(9) Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR Parts 5.6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and HUD or its designee, the U.S. Department of Labor, or the employees or their representatives.

(10) (i) Certification of Eligibility. By entering into this contract, the contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of Section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1) or to be awarded Government contracts by virtue of Section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1) or to be awarded HUD contracts or participate in HUD programs pursuant to 24 CFR Part 24.

(ii) No part of this contract shall be subcontracted to any person or firm ineligible for award of a government contract by virtue of Section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1) or to be awarded HUD contracts or participate in HUD programs pursuant to 24 CFR Part 24.

(iii) The penalty for making false statements is prescribed in the U.S. Criminal
Criminal Code, Section 1010, Title 18, U.S.C.,
"Federal Housing Administration transactions",
provides in part "Whoever, for the purpose of . . .
influencing in any way the action of such
Administration . . . makes, utters or publishes
any statement, knowing the same to be false . . .
shall be fined not more than $5,000 or
imprisoned not more than two years, or both."

(11) A. Complaints, Proceedings, or
Testimony by Employees. No laborer or
mechanic to whom the wage, salary, or other
labor standards provisions of this Contract are
applicable shall be discharged or in any other
manner discriminated against by the Contractor
or any subcontractor because such employee has
filed any complaint or instituted or caused to be
instituted any proceeding or has testified or is
about to testify in any proceeding under or
relating to the labor standards applicable under
this contract to his employer.

B. Contract Work Hours and Safety
Standards Act. As used in this paragraph, the
terms "laborers" and "mechanics" include
watchmen and guards.

(1) Overtime requirements. No
contractor or subcontractor contracting for any
part of the contract work which may require or
involve the employment of laborers or
mechanics shall require or permit any such
laborer or mechanic in any workweek in which
he or she is employed on such work to work in
excess of eight hours in any calendar day in
excess of forty hours in such workweek unless
such laborer or mechanic receives compensation
at a rate not less than one and one-half times the
basic rate of pay for all hours worked in any
calendar day or in excess of forty hours in such
workweek, whichever is greater.

(2) Violation; liability for unpaid
wages; liquidated damages. In the event of any
violation of the clause set forth in subparagraph
(1) of this paragraph, the contractor and any
subcontractor responsible therefore shall be
liable for the unpaid wages. In addition, such
contractor and subcontractor shall be liable to
the United States (in the case of work done
under contract for the District of Columbia or a
territory, to such District or to such territory),
for liquidated damages. Such liquidated
damages shall be computed with respect to each
individual laborer or mechanic, including
watchmen and guards, employed in violation of
the clause set forth in subparagraph (1) of this
paragraph, in the sum of $10 for each calendar
day on which such individual was required or
permitted to work in excess of eight hours or in
excess of the standard workweek of forty hours
without payment of the overtime wages required
by the clause set forth in subparagraph (1) of
this paragraph.

(3) Withholding for unpaid wages and
liquidated damages. HUD or its designee shall
upon its own action or upon written request of
an authorized representative of the Department
of Labor withhold or cause to be withheld, from
any monies payable on account of work
performed by the contractor with the same
prime contract, or any other Federally-assisted
contract subject to the Contract Work Hours and
Safety Standards Act, which is held by the same
prime contractor such sums as may be
determined to be necessary to satisfy any
liabilities of such contractor or subcontractor for
unpaid wages and liquidated damages as
provided in the clause set forth in subparagraph
(2) of this paragraph.

(4) Subcontracts. The contractor or
subcontractor shall insert in any subcontracts
the clauses set forth in subparagraph (1) through
(4) of this paragraph and also a clause requiring
the subcontractors to include these clauses in
any lower tier subcontracts. The prime
contractor shall be responsible for compliance
by any subcontractor or lower tier subcontractor
with the clauses set forth in subparagraphs (1)
through (4) of this paragraph.

C. Health and Safety

(1) No laborer or mechanic shall be
required to work in surroundings or under
working conditions which are unsanitary,
hazardous, or dangerous to his health and safety
as determined under construction safety and
health standards promulgated by the Secretary
of Labor by regulation.
(2) The contractor shall comply with all regulations issued by the Secretary of Labor pursuant to Title 29 Part 1926 (formerly part 1518) and failure to comply may result in imposition of sanctions pursuant to the Contract Work Hours and Safety Standards Act (Public Law 91-54, 83 Stat.96).

(3) The Contractor shall include the provisions of this Article in every subcontract so that such provisions will be binding on each subcontractor. The contractor shall take such action with respect to any subcontract as the Secretary of Housing and Urban Development or the Secretary of Labor shall direct as a means of enforcing such provisions.

SOURCE: The provisions of this Part 3 appear at 29 F.R. 97, Jan. 4, 1964, unless otherwise noted.

Section 3.1 Purpose and Scope.

This part prescribes “anti-kickback” regulations under section 2 of the Act of June 13, 1934, as amended (40 U.S.C. 276c), popularly known as the Copeland Act. This part applies to any contract which is subject to Federal wage standards and which is for the construction, prosecution, completion, or repair of public buildings, public works or buildings or works financed in whole or in part by loans or grants from the United States. The part is intended to aid in the enforcement of the minimum wage provisions of the Davis-Bacon Act and the various statutes dealing with Federally-assisted construction that contain similar minimum wage provisions, including those provisions which are not subject to Reorganization Plan No. 14 (e.g., the College Housing Act of 1950, the Federal Water Pollution Control Act, and the Housing Act of 1959), and in the enforcement of the overtime provisions of the Contract Work Hours Standards Act whenever they are applicable to construction work. The part details the obligation of contractors and subcontractors relative to the weekly submission of statements regarding the wages paid on work covered thereby; sets forth the circumstances and procedures governing the making of payroll deductions from the wages of those employed on such work; and delineates the methods of payment permissible on such work.

Section 3.2 Definitions.

As used in the regulations in this part:

(a) The terms “building” or “work” generally include construction activity as distinguished from manufacturing, furnishing of materials, or servicing and maintenance work. The terms include, without limitation, buildings, structures, and improvements of all types, such as bridges, dams, plants, highways,
parkways, streets, subways, tunnels, sewers, mains, power lines, pumping stations, railways, airports, terminals, docks, piers, wharves, ways, lighthouses, buoys, jetties, breakwaters, levees, and canals; dredging, shoring, scaffolding, drilling, blasting, excavating, clearing, and landscaping. Unless conducted in connection with and at the site of such a building or work as is described in the foregoing sentence, the manufacture or furnishing of materials, articles, supplies, or equipment (whether or not a Federal or State agency acquires title to such materials, articles, supplies, or equipment during the course of the manufacture or furnishing, or owns the materials from which they are manufactured or furnished) is not a “building” or “work” within the meaning of the regulations in this part.

(b) The terms “construction,” “prosecution,” “completion,” or “repair” mean all types of work done on a particular building or work at the site thereof, including, without limitation, altering, remodeling, painting and decorating, the transporting of materials and supplies to or from the building or work by the employees of the construction contractor or construction subcontractor, and the manufacturing or furnishing of materials, articles, supplies, or equipment on the site of the building or work, by persons employed at the site by the contractor or subcontractor.

(c) The terms “public building” or “public work” include building or work for whose construction, prosecution, completion, or repair, as defined above, a Federal agency is a contracting party, regardless of whether title thereof is in a Federal agency.

(d) The term “building or work financed in whole or in part by loans or grants from the United States” includes building or work for whose construction, prosecution, completion, or repair, as defined above, payment or part payment is made directly or indirectly from funds provided by loans or grants by a Federal agency. The term includes building or work for which the Federal assistance granted is in the form of loan guarantees or insurance.

(e) Every person paid by a contractor or subcontractor in any manner for his labor in the construction, prosecution, completion, or repair of a public building or public work or building or work financed in whole or in part by loans or grants from the United States is “employed” and receiving “wages,” regardless of any contractual relationship alleged to exist between him and the real employer.

(f) The term “any affiliated person” includes a spouse, child, parent, or other close relative of the contractor or subcontractor; a partner or officer of the contractor or subcontractor; a corporation closely connected with the contractor or subcontractor as parent, subsidiary or otherwise, and an officer or agent of such corporation.

(g) The term “Federal agency” means the United States, the District of Columbia, and all executive departments, independent establishments, administrative agencies, and instrumentality’s of the United States and of the District of Columbia, including corporations, all or substantially all of the stock of which is beneficially owned by the United States, by the District of Columbia, or any of the foregoing departments, establishments, agencies, and instrumentality’s.

{29 FR 97, Jan. 4, 1964, as amended at 33 FR 32575, Nov. 27, 1973}

Section 3.3 Weekly statement with respect to payment of wages.

(a) As used in this section, the term “employee” shall not apply to persons in classifications higher than that of laborer or mechanic and those who are the immediate supervisors of such employees.

(b) Each contractor or subcontractor engaged in the construction, prosecution, completion, or repair of any public building or public work, or building or work financed in whole or in part by loans or grants from the United States, shall furnish each week a statement with respect to the wages paid each of its employees engaged on work covered by 29 CFR Parts 3 and 5 during the preceding weekly payroll period. This statement shall be executed by the contractor or subcontractor or by an authorized officer of employee of the contractor or subcontractor who supervises the payment of wages, and shall be on form WH 348, “Statement of Compliance,” or on an identical form on the back of WH 347, “Payroll (For Contractors Optional Use)” or on any form with identical wording. Sample copies of WH 347 and WH 348 may be obtained from the Government contracting or sponsoring agency, and copies of these forms may be purchased at the Government Printing Office.
The requirements of this section shall not apply to any contract of $2,000 or less.

Upon a written finding by the head of a Federal agency, the Secretary of Labor may provide reasonable limitations, variations, tolerances, and exemptions from the requirements of this section subject to such conditions as the Secretary of Labor may specify.

{29 F.R. 95, Jan. 4, 1964, as amended at 33 F.R. 10186, July 17, 1968}

Section 3.4 Submission of weekly statements and the preservation and inspection of weekly payroll records.

(a) Each weekly statement required under §3.3 shall be delivered by the contractor or subcontractor, within seven days after the regular payment date of the payroll period, to a representative of a Federal or State agency in charge at the site of the building or work, or if there is no representative of a Federal or State agency at the site of the building or work, the statement shall be mailed by the contractor or subcontractor, within such time, to a Federal or State agency contracting for or financing the building or work. After such examination and check as may be made, such statement, or a copy thereof, shall be kept available, or shall be transmitted together with a report of any violation, in accordance with applicable procedures prescribed by the United States Department of Labor.

(b) Each contractor or subcontractor shall preserve his weekly payroll records for a period of three years from date of completion of the contract. The payroll records shall set out accurately and completely the name and address of each laborer and mechanic, his correct classification, rate of pay, daily and weekly number of hours worked, deductions made, and actual wages paid. Such payroll records shall be made available at all times for inspection by the contracting officer or his authorized representative, and by authorized representatives of the Department of Labor.

Section 3.5 Payroll deductions permissible without application to or approval of the Secretary of Labor.

Deductions made under the circumstances or in the situations described in the paragraphs of this section may be made without application to and approval of the Secretary of Labor:

(a) Any deduction made in compliance with the requirements of Federal, State, or local law, such as Federal or State withholding income taxes and Federal social security taxes.

(b) Any deduction of sums previously paid to the employee as a bona fide prepayment of wages when such prepayment is made without discount or interest. A “bona fide prepayment of wages” is considered to have been made only when cash or its equivalent has been advanced to the person employed in such manner as to give him complete freedom of disposition of the advanced funds.

(c) Any deduction of amounts required by court process to be paid to another, unless, the deduction is in favor of the contractor, subcontractor or any affiliated person, or when collusion or collaboration exists.

(d) Any deduction constituting a contribution on behalf of the person employed to funds established by the employer or representatives of employees, or both, for the purpose of providing either from principal or income, or both, medical or hospital care, pensions, or annuities on retirement, death benefits, compensation for injuries, illness, accidents, sickness, or disability, or for insurance to provide any of the foregoing, or unemployment benefits, vacation pay, savings accounts, or similar payments for the benefit of employees, their families and dependents: Provided, however, That the following standards are met: (1) The deduction is not otherwise prohibited by law; (2) it is either: (i) Voluntarily consented to by the employee in writing and in advance of the period in which the work is to be done and such consent is not a condition either for the obtaining of or for the continuation of employment, or (ii) provided for in a bona fide collective bargaining agreement between the contractor or subcontractor and representatives of its employees; (3) no profit or other benefit is otherwise obtained, directly or indirectly, by the contractor or subcontractor or any affiliated person in the form of commission, dividend, or otherwise; and (4) the deductions shall serve the convenience and interest of the employee.
(e) Any deduction contributing toward the purchase of United States Defense Stamps and Bonds when voluntarily authorized by the employee.

(f) Any deduction requested by the employee to enable him to repay loans to or to purchase shares in credit unions organized and operated in accordance with Federal and State credit union statutes.

(g) Any deduction voluntarily authorized by the employee for the making of contributions to governmental or quasi-governmental agencies, such as the American Red Cross.

(h) Any deduction voluntarily authorized by the employee for the making of contributions to Community Chests, United Givers Funds, and similar charitable organizations.

(i) Any deductions to pay regular union initiation fees and membership dues, not including fines or special assessments: Provided, however, That a collective bargaining agreement between the contractor or subcontractor and representatives of its employees provides for such deductions and the deductions are not otherwise prohibited by law.

(j) Any deduction not more than for the "reasonable cost" of board, lodging, or other facilities meeting the requirements of section 3(m) of the Fair Labor Standards Act of 1938, as amended, and Part 531 of this title. When such a deduction is made the additional records required under §516.27(a) of this title shall be kept.

(k) Any deduction for the cost of safety equipment of nominal value purchased by the employee as his own property for his personal protection in his work, such as safety shoes, safety glasses, safety gloves, and hard hats, if such equipment is not required by law to be furnished by the employer, if such deduction is not violative of the Fair Labor Standards Act or prohibited by other law, if the cost on which the deduction is based does not exceed the actual cost to the employer where the equipment is purchased from him and does not include any direct or indirect monetary return to the employer where the equipment is purchased from a third person, and if the deduction is either (1) voluntarily consented to by the employee in writing and in advance of the period in which the work is to be done and such consent is not a condition either for the obtaining of employment or its continuance; or (2) provided for in a bona fide collective bargaining agreement between the contractor or subcontractor and representatives of its employees.

{36 F.R. 9770, May 28, 1971.}

Section 3.6 Payroll deductions permissible with the approval of the Secretary of Labor.

Any contractor or subcontractor may apply to the Secretary of Labor for permission to make any deduction not permitted under §3.5. The Secretary may grant permission whenever he finds that:

(a) The contractor, subcontractor, or any affiliated person does not make a profit or benefit directly or indirectly from the deduction either in the form of a commission, dividend, or otherwise;

(b) The deduction is not otherwise prohibited by law;

(c) The deduction is either (1) voluntarily consented to by the employee in writing and in advance of the period in which the work is to be done and such consent is not a condition either for the obtaining of employment or its continuance, or (2) provided for in a bona fide collective bargaining agreement between the contractor or subcontractor and representatives of its employees; and

(d) The deduction serves the convenience and interest of the employee.

Section 3.7 Applications for the approval of the Secretary of Labor.

Any application for the making of payroll deductions under §3.6 shall comply with the requirements prescribed in the following paragraphs of this section:

(a) The application shall be in writing and shall be addressed to the Secretary of Labor.

(b) The application need not identify the contract or contracts under which the work in question is to be performed. Permission will be given for deductions on all current and future contracts of the applicant for a period of 1 year. A renewal of permission to make such payroll deduction will be granted upon the submission of an application which makes reference to the original application, recites the date
of the Secretary of Labor's approval of such deductions, states affirmatively that there is continued compliance with the standards set forth in the provisions of §3.6, and specifies any conditions which have changed in regard to the payroll deductions.

{36 F.R. 9770, May 28, 1971.}

(c) The application shall state affirmatively that there is compliance with the standards set forth in the provisions of §3.6. The affirmation shall be accompanied by a full statement of the facts indicating such compliance.

(d) The application shall include a description of the proposed deduction, the purpose to be served thereby, and the classes of laborers or mechanics from whose wages the proposed deduction would be made.

(e) The application shall state the name and business of any third person to whom any funds obtained from the proposed deductions are to be transmitted and the affiliation of such person, if any, with the applicant.

Section 3.8 Action by the Secretary of Labor upon applications.

The Secretary of Labor shall decide whether or not the requested deduction is permissible under provisions of §3.6; and shall notify the applicant in writing of his decision.

Section 3.9 Prohibited payroll deductions.

Deductions not elsewhere provided for by this part and which are not found to be permissible under §3.6 are prohibited.

Section 3.10 Methods of payment of wages.

The payment of wages shall be by cash, negotiable instruments payable on demand, or the additional forms of compensation for which deductions are permissible under this part. No other methods of payment shall be recognized on work subject to the Copeland Act.

Section 3.11 Regulations part of contract.

All contracts made with respect to the construction, prosecution, completion, or repair of any public building or public work or building or work financed in whole or in part by loans or grants from the United States covered by the regulations in this part shall expressly bind the contractor or subcontractor to comply with such of the regulations in this part as may be applicable. In this regard, see §5.5(a) of this subtitle.

END OF SECTION
SECTION 00716 – PROVISION OF LOCAL TRAINING, EMPLOYMENT, AND BUSINESS OPPORTUNITIES

(a) To the greatest extent feasible opportunities for training and employment be given to lower income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in the area of the project.

(b) Contractor will include this clause in every subcontract for work in connection with the project.
SECTION 00720

SUBPART B – GENERAL LEAD-BASED PAINT REQUIREMENTS AND DEFINITIONS FOR ALL PROGRAMS
Subpart B—General Lead-Based Paint Requirements and Definitions for All Programs.

Source: 64 FR 50202, Sept. 15, 1999, unless otherwise noted.

§ 35.100 Purpose and applicability.

(a) Purpose. The requirements of subparts B through R of this part are promulgated to implement the Lead-Based Paint Poisoning Prevention Act, as amended (42 U.S.C. 4821 et seq.), and the Residential Lead-Based Paint Hazard Reduction Act of 1992 (42 U.S.C. 4851 et seq.).

(b) Applicability —(1) This subpart. This subpart applies to all target housing that is federally owned and target housing receiving Federal assistance to which subparts C, D, F through M, and R of this part apply, except where indicated.

(2) Other subparts —(i) General. Subparts C, D, and F through M of this part each set forth requirements for a specific type of Federal housing activity or assistance, such as multifamily mortgage insurance, project-based rental assistance, rehabilitation, or tenant-based rental assistance. Subpart R of this part provides standards and methods for activities required in subparts B, C, D, and F through M of this part.

(ii) Application to programs. Most HUD housing programs are covered by only one subpart of this part, but some programs can be used for more than one type of assistance and therefore are covered by more than one subpart of this part. A current list of programs covered by each subpart of this part is available on the internet at www.hud.gov, or by mail from the National Lead Information Center at 1-800-424-LEAD. Examples of flexible programs that can provide more than one type of assistance are the HOME Investment Partnerships program, the Community Development Block Grant program, and the Indian Housing Block Grant Program. Grantees, participating jurisdictions, Indian tribes and other entities administering such flexible programs must decide which subpart applies to the type of assistance being provided to a particular dwelling unit or residential property.

(iii) Application to dwelling units. In some cases, more than one type of assistance may be provided to the same dwelling unit. In such cases, the subpart or section with the most protective initial hazard reduction requirements applies. Paragraph (c) of this section provides a table that lists the subparts and sections of this part in order from the most protective to the least protective. (This list is based only on the requirements for initial hazard reduction. The summary of requirements on this list is not a complete list of requirements. It is necessary to refer to the applicable subparts and sections to determine all applicable requirements.)

(iv) Example. A multifamily building has 100 dwelling units and was built in 1965. The property is financed with HUD multifamily mortgage insurance. This building is covered by subpart G of this part (see §35.625—Multifamily mortgage insurance for properties constructed after 1959), which is at protectiveness level 5 in the table.
set forth in paragraph (c) of this section. In the same building, however, 50 of the 100 dwelling units are receiving project-based assistance, and the average annual assistance per assisted unit is $5,500. Those 50 units, and common areas servicing those units, are covered by the requirements of subpart H of this part (see §35.715—Project-based assistance for multifamily properties receiving more than $5,000 per unit), which are at protectiveness level 3. Therefore, because level 3 is a higher level of protectiveness than level 5, the units receiving project-based assistance, and common areas servicing those units, must comply at level 3, while the rest of the building can be operated at level 5. The owner may choose to operate the entire building at level 3 for simplicity.

(c) Table One. The following table lists the subparts and sections of this part applying to HUD programs in order from most protective to least protective hazard reduction requirements. The summary of hazard reduction requirements in this table is not complete. Readers must refer to relevant subpart for complete requirements.

§ 35.105 Effective dates.

The effective date for subparts B through R of this part is September 15, 2000, except that the effective date for prohibited methods of paint removal, described in §35.140, is November 15, 1999. Subparts F through M of this part provide further information on the application of the effective date to specific programs. Before September 15, 2000, a designated party has the option of following the procedures in subparts B through R of this part, or complying with current HUD lead-based paint regulations.

§ 35.106 Information collection requirements.

The information collection requirements contained in this part have been approved by the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 2501–3520), and have been assigned OMB control number 2539–0009. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid control number.

§ 35.110 Definitions.

Abatement means any set of measures designed to permanently eliminate lead-based paint or lead-based paint hazards (see definition of “permanent”). Abatement includes:

(1) The removal of lead-based paint and dust-lead hazards, the permanent enclosure or encapsulation of lead-based paint, the replacement of components or fixtures painted with lead-based paint, and the removal or permanent covering of soil-lead hazards; and

(2) All preparation, cleanup, disposal, and post abatement clearance testing activities associated with such measures.

Act means the Lead-Based Paint Poisoning Prevention Act, as amended, 42 U.S.C. 4822 et seq.

Bare soil means soil or sand not covered by grass, sod, other live ground covers, wood chips, gravel, artificial turf, or similar covering.

Certified means licensed or certified to perform such activities as risk assessment, lead-based paint inspection, or abatement supervision, either by a State or Indian tribe with a lead-based paint certification program authorized by the Environmental
Protection Agency (EPA), or by the EPA, in accordance with 40 CFR part 745, subparts L or Q.

*Chewable* surface means an interior or exterior surface painted with lead-based paint that a young child can mouth or chew. A chewable surface is the same as an “accessible surface” as defined in 42 U.S.C. 4851b(2)). Hard metal substrates and other materials that cannot be dented by the bite of a young child are not considered chewable.

*Clearance examination* means an activity conducted following lead-based paint hazard reduction activities to determine that the hazard reduction activities are complete and that no soil-lead hazards or settled dust-lead hazards, as defined in this part, exist in the dwelling unit or worksite. The clearance process includes a visual assessment and collection and analysis of environmental samples. Dust-lead standards for clearance are found at §35.1320.

*Common area* means a portion of a residential property that is available for use by occupants of more than one dwelling unit. Such an area may include, but is not limited to, hallways, stairways, laundry and recreational rooms, playgrounds, community centers, on-site day care facilities, garages and boundary fences.

*Component* means an architectural element of a dwelling unit or common area identified by type and location, such as a bedroom wall, an exterior window sill, a baseboard in a living room, a kitchen floor, an interior window sill in a bathroom, a porch floor, stair treads in a common stairwell, or an exterior wall.

*Composite sample* means a collection of more than one sample of the same medium (e.g., dust, soil or paint) from the same type of surface (e.g., floor, interior window sill, or window trough), such that multiple samples can be analyzed as a single sample.

*Containment* means the physical measures taken to ensure that dust and debris created or released during lead-based paint hazard reduction are not spread, blown or tracked from inside to outside of the worksite.

*Designated party* means a Federal agency, grantee, subrecipient, participating jurisdiction, housing agency, Indian Tribe, tribally designated housing entity (TDHE), sponsor, or property owner responsible for complying with applicable requirements.

*Deteriorated paint* means any interior or exterior paint or other coating that is peeling, chipping, chalking or cracking, or any paint or coating located on an interior or exterior surface or fixture that is otherwise damaged or separated from the substrate.

*Dry sanding* means sanding without moisture and includes both hand and machine sanding.
Dust-lead hazard means surface dust that contains a dust-lead loading (area concentration of lead) equal to or exceeding the levels promulgated by the EPA at 40 CFR 745.65 or, if such levels are not in effect, the standards for dust-lead hazards in §35.1320.

*Dwelling unit* means a:

1. Single-family dwelling, including attached structures such as porches and stoops; or

2. Housing unit in a structure that contains more than 1 separate housing unit, and in which each such unit is used or occupied, or intended to be used or occupied, in whole or in part, as the home or separate living quarters of 1 or more persons.

*Encapsulation* means the application of a covering or coating that acts as a barrier between the lead-based paint and the environment and that relies for its durability on adhesion between the encapsulant and the painted surface, and on the integrity of the existing bonds between paint layers and between the paint and the substrate. Encapsulation may be used as a method of abatement if it is designed and performed so as to be permanent (see definition of “permanent”).

*Enclosure* means the use of rigid, durable construction materials that are mechanically fastened to the substrate in order to act as a barrier between lead-based paint and the environment. Enclosure may be used as a method of abatement if it is designed to be permanent (see definition of “permanent”).

*Environmental intervention blood lead level means* a confirmed concentration of lead in whole blood equal to or greater than 20 µg/dL (micrograms of lead per deciliter) for a single test or 15–19 µg/dL in two tests taken at least 3 months apart.

*Evaluation* means a risk assessment, a lead hazard screen, a lead-based paint inspection, paint testing, or a combination of these to determine the presence of lead-based paint hazards or lead-based paint.

*Expected to reside* means there is actual knowledge that a child will reside in a dwelling unit reserved for the elderly or designated exclusively for persons with disabilities. If a resident woman is known to be pregnant, there is actual knowledge that a child will reside in the dwelling unit.

*Federal agency* means the United States or any executive department, independent establishment, administrative agency and instrumentality of the United States, including a corporation in which all or a substantial amount of the stock is beneficially owned by the United States or by any of these entities. The term “Federal agency” includes, but is not limited to, Rural Housing Service (formerly Rural Housing and Community Development Service that was formerly Farmer’s Home Administration), Resolution Trust Corporation, General Services
Administration, Department of Defense, Department of Veterans Affairs, Department of the Interior, and Department of Transportation.

_Federally owned property_ means residential property owned or managed by a Federal agency, or for which a Federal agency is a trustee or conservator.

_Firm commitment_ means a valid commitment issued by HUD or the Federal Housing Commissioner setting forth the terms and conditions upon which a mortgage will be insured or guaranteed.

_Friction surface_ means an interior or exterior surface that is subject to abrasion or friction, including, but not limited to, certain window, floor, and stair surfaces.

g means gram, \( mg \) means milligram (thousandth of a gram), and \( \mu g \) means microgram (millionth of a gram).

_Grantee_ means any state or local government, Indian Tribe, IHBG recipient, insular area or nonprofit organization that has been designated by HUD to administer Federal housing assistance under a program covered by subparts J and K of this part, except the HOME program.

_Hard costs of rehabilitation_ means:

(1) Costs to correct substandard conditions or to meet applicable local rehabilitation standards;

(2) Costs to make essential improvements, including energy-related repairs, and those necessary to permit use by persons with disabilities; and costs to repair or replace major housing systems in danger of failure; and

(3) Costs of non-essential improvements, including additions and alterations to an existing structure; but

(4) Hard costs do not include administrative costs (e.g., overhead for administering a rehabilitation program, processing fees, etc.).

_Hazard reduction_ means measures designed to reduce or eliminate human exposure to lead-based paint hazards through methods including interim controls or abatement or a combination of the two.

_HEPA vacuum_ means a vacuum cleaner device with an included high-efficiency particulate air (HEPA) filter through which the contaminated air flows, operated in accordance with the instructions of its manufacturer. A HEPA filter is one that captures at least 99.97 percent of airborne particles of at least 0.3 micrometers in diameter.
Housing for the elderly means retirement communities or similar types of housing reserved for households composed of one or more persons 62 years of age or more, or other age if recognized as elderly by a specific Federal housing assistance program.

Housing receiving Federal assistance means housing which is covered by an application for HUD mortgage insurance, receives housing assistance payments under a program administered by HUD, or otherwise receives more than $5,000 in project-based assistance under a Federal housing program administered by an agency other than HUD.

HUD means the United States Department of Housing and Urban Development.

HUD-owned property means residential property owned or managed by HUD, or for which HUD is a trustee or conservator.

Impact surface means an interior or exterior surface that is subject to damage by repeated sudden force, such as certain parts of door frames.

Indian Housing Block Grant (IHBG) recipient means a tribe or a tribally designated housing entity (TDHE) receiving IHBG funds.

Indian tribe means a tribe as defined in the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4101 et seq.)

Inspection (See Lead-based paint inspection).

Insular areas means Guam, the Northern Mariana Islands, the United States Virgin Islands and American Samoa.

Interim controls means a set of measures designed to reduce temporarily human exposure or likely exposure to lead-based paint hazards. Interim controls include, but are not limited to, repairs, painting, temporary containment, specialized cleaning, clearance, ongoing lead-based paint maintenance activities, and the establishment and operation of management and resident education programs.

Interior window sill means the portion of the horizontal window ledge that protrudes into the interior of the room, adjacent to the window sash when the window is closed. The interior window sill is sometimes referred to as the window stool.

Lead-based paint means paint or other surface coatings that contain lead equal to or exceeding 1.0 milligram per square centimeter or 0.5 percent by weight or 5,000 parts per million (ppm) by weight.

Lead-based paint hazard means any condition that causes exposure to lead from dust-lead hazards, soil-lead hazards, or lead-based paint that is deteriorated or
present in chewable surfaces, friction surfaces, or impact surfaces, and that would result in adverse human health effects.

*Lead-based paint inspection* means a surface-by-surface investigation to determine the presence of lead-based paint and the provision of a report explaining the results of the investigation.

*Lead hazard screen* means a limited risk assessment activity that involves paint testing and dust sampling and analysis as described in 40 CFR 745.227(c) and soil sampling and analysis as described in 40 CFR 745.227(d).

*Mortgagee* means a lender of a mortgage loan.

*Mortgagor* means a borrower of a mortgage loan.

*Multifamily property* means a residential property containing five or more dwelling units.

*Occupant* means a person who inhabits a dwelling unit.

*Owner* means a person, firm, corporation, nonprofit organization, partnership, government, guardian, conservator, receiver, trustee, executor, or other judicial officer, or other entity which, alone or with others, owns, holds, or controls the freehold or leasehold title or part of the title to property, with or without actually possessing it. The definition includes a vendee who possesses the title, but does not include a mortgagee or an owner of a reversionary interest under a ground rent lease.

*Paint stabilization* means repairing any physical defect in the substrate of a painted surface that is causing paint deterioration, removing loose paint and other material from the surface to be treated, and applying a new protective coating or paint.

*Paint testing* means the process of determining, by a certified lead-based paint inspector or risk assessor, the presence or the absence of lead-based paint on deteriorated paint surfaces or painted surfaces to be disturbed or replaced.

*Paint removal* means a method of abatement that permanently eliminates lead-based paint from surfaces.

*Painted surface to be disturbed* means a paint surface that is to be scraped, sanded, cut, penetrated or otherwise affected by rehabilitation work in a manner that could potentially create a lead-based paint hazard by generating dust, fumes, or paint chips.

*Participating jurisdiction* means any State or local government that has been designated by HUD to administer a HOME program grant.
Permanent means an expected design life of at least 20 years.

Play area means an area of frequent soil contact by children of less than 6 years of age, as indicated by the presence of play equipment (e.g. sandboxes, swing sets, sliding boards, etc.) or toys or other children's possessions, observations of play patterns, or information provided by parents, residents or property owners.

Project-based rental assistance means Federal rental assistance that is tied to a residential property with a specific location and remains with that particular location throughout the term of the assistance.

Public health department means a State, tribal, county or municipal public health department or the Indian Health Service.

Public housing development means a residential property assisted under the United States Housing Act of 1937 (42 U.S.C. 1437 et seq.), but not including housing assisted under section 8 of the 1937 Act.

Reevaluation means a visual assessment of painted surfaces and limited dust and soil sampling conducted periodically following lead-based paint hazard reduction where lead-based paint is still present.

Rehabilitation means the improvement of an existing structure through alterations, incidental additions or enhancements. Rehabilitation includes repairs necessary to correct the results of deferred maintenance, the replacement of principal fixtures and components, improvements to increase the efficient use of energy, and installation of security devices.

Replacement means a strategy of abatement that entails the removal of building components that have surfaces coated with lead-based paint and the installation of new components free of lead-based paint.

Residential property means a dwelling unit, common areas, building exterior surfaces, and any surrounding land, including outbuildings, fences and play equipment affixed to the land, belonging to an owner and available for use by residents, but not including land used for agricultural, commercial, industrial or other non-residential purposes, and not including paint on the pavement of parking lots, garages, or roadways.

Risk assessment means:

(1) An on-site investigation to determine the existence, nature, severity, and location of lead-based paint hazards; and

(2) The provision of a report by the individual or firm conducting the risk assessment explaining the results of the investigation and options for reducing lead-based paint hazards.
Single family property means a residential property containing one through four dwelling units.

Single room occupancy (SRO) housing means housing consisting of zero-bedroom dwelling units that may contain food preparation or sanitary facilities or both (see Zero-bedroom dwelling).

Soil-lead hazard means bare soil on residential property that contains lead equal to or exceeding levels promulgated by the EPA at 40 CFR 745.65 or, if such levels are not in effect, the standards for soil-lead hazards in §35.1320.

Sponsor means mortgagor (borrower).

Subrecipient means any nonprofit organization selected by the grantee or participating jurisdiction to administer all or a portion of the Federal rehabilitation assistance or other non-rehabilitation assistance, or any such organization selected by a subrecipient of the grantee or participating jurisdiction. An owner or developer receiving Federal rehabilitation assistance or other assistance for a residential property is not considered a subrecipient for the purposes of carrying out that project.

Standard treatments means a series of hazard reduction measures designed to reduce all lead-based paint hazards in a dwelling unit without the benefit of a risk assessment or other evaluation.

Substrate means the material directly beneath the painted surface out of which the components are constructed, including wood, drywall, plaster, concrete, brick or metal.

Target housing means any housing constructed prior to 1978, except housing for the elderly or persons with disabilities (unless a child of less than 6 years of age resides or is expected to reside in such housing for the elderly or persons with disabilities) or any zero-bedroom dwelling. In the case of jurisdictions which banned the sale or use of lead-based paint prior to 1978, HUD may designate an earlier date.

Tenant means the individual named as the lessee in a lease, rental agreement or occupancy agreement for a dwelling unit.

A visual assessment alone is not considered an evaluation for the purposes of this part. Visual assessment means looking for, as applicable:

(1) Deteriorated paint;

(2) Visible surface dust, debris, and residue as part of a risk assessment or clearance examination; or
(3) The completion or failure of a hazard reduction measure.

*Wet sanding* or *wet scraping* means a process of removing loose paint in which the painted surface to be sanded or scraped is kept wet to minimize the dispersal of paint chips and airborne dust.

*Window trough* means the area between the interior window sill (stool) and the storm window frame. If there is no storm window, the window trough is the area that receives both the upper and lower window sashes when they are both lowered.

*Worksite* means an interior or exterior area where lead-based paint hazard reduction activity takes place. There may be more than one worksite in a dwelling unit or at a residential property.

*Zero-bedroom dwelling* means any residential dwelling in which the living areas are not separated from the sleeping area. The term includes efficiencies, studio apartments, dormitory or single room occupancy housing, military barracks, and rentals of individual rooms in residential dwellings (see Single room occupancy (SRO)).

§ 35.115 Exemptions.

(a) Subparts B through R of this part do not apply to the following:

(1) A residential property for which construction was completed on or after January 1, 1978, or, in the case of jurisdictions which banned the sale or residential use of lead-containing paint prior to 1978, an earlier date as HUD may designate (see §35.160).

(2) A zero-bedroom dwelling unit, including a single room occupancy (SRO) dwelling unit.

(3) Housing for the elderly, or a residential property designated exclusively for persons with disabilities; except this exemption shall not apply if a child less than age 6 resides or is expected to reside in the dwelling unit (see definitions of “housing for the elderly” and “expected to reside” in §35.110).

(4) Residential property found not to have lead-based paint by a lead-based paint inspection conducted in accordance with §35.1320(a) (for more information regarding inspection procedures consult the 1997 edition of Chapter 7 of the HUD Guidelines). Results of additional test(s) by a certified lead-based paint inspector may be used to confirm or refute a prior finding.
(5) Residential property in which all lead-based paint has been identified, removed, and clearance has been achieved in accordance with 40 CFR 745.227(b)(e) before September 15, 2000, or in accordance with §§35.1320, 35.1325 and 35.1340 on or after September 15, 2000. This exemption does not apply to residential property where enclosure or encapsulation has been used as a method of abatement.

(6) An unoccupied dwelling unit or residential property that is to be demolished, provided the dwelling unit or property will remain unoccupied until demolition.

(7) A property or part of a property that is not used and will not be used for human residential habitation, except that spaces such as entryways, hallways, corridors, passageways or stairways serving both residential and nonresidential uses in a mixed-use property shall not be exempt.

(8) Any rehabilitation that does not disturb a painted surface.

(9) For emergency actions immediately necessary to safeguard against imminent danger to human life, health or safety, or to protect property from further structural damage (such as when a property has been damaged by a natural disaster, fire, or structural collapse), occupants shall be protected from exposure to lead in dust and debris generated by such emergency actions to the extent practicable, and the requirements of subparts B through R of this part shall not apply. This exemption applies only to repairs necessary to respond to the emergency. The requirements of subparts B through R of this part shall apply to any work undertaken subsequent to, or above and beyond, such emergency actions.

(10) If a Federal law enforcement agency has seized a residential property and owns the property for less than 270 days, §§35.210 and 35.215 shall not apply to the property.

(11) The requirements of subpart K of this part do not apply if the assistance being provided is emergency rental assistance or foreclosure prevention assistance, provided that this exemption shall expire for a dwelling unit no later than 100 days after the initial payment or assistance.

(12) Performance of an evaluation or lead-based paint hazard reduction or lead-based paint abatement on an exterior painted surface as required under this part may be delayed for a reasonable time during a period when weather conditions are unsuitable for conventional construction activities.

(13) Where abatement of lead-based paint hazards or lead-based paint is required by this part and the property is listed or has been determined to be eligible for listing in the National Register of Historic Places or contributing to a National Register Historic District, the designated party may, if requested by the State Historic Preservation Office, conduct interim controls in accordance with §35.1330 instead of abatement. If interim controls are conducted, ongoing lead-based paint maintenance and reevaluation shall be conducted as required by the applicable subpart of this part in accordance with §35.1355.
(b) For the purposes of subpart C of this part, each Federal agency other than HUD will determine whether appropriations are sufficient to implement this rule. If appropriations are not sufficient, subpart C of this part shall not apply to that Federal agency. If appropriations are sufficient, subpart C of this part shall apply.

§ 35.120 Options.

(a) Standard treatments. Where interim controls are required by this part, the designated party has the option to presume that lead-based paint or lead-based paint hazards or both are present throughout the residential property. In such a case, evaluation is not required. Standard treatments shall then be conducted in accordance with §35.1335 on all applicable surfaces, including soil. Standard treatments are completed only when clearance is achieved in accordance with §35.1340.

(b) Abatement. Where abatement is required by this part, the designated party may presume that lead-based paint or lead-based paint hazards or both are present throughout the residential property. In such a case, evaluation is not required. Abatement shall then be conducted on all applicable surfaces, including soil, in accordance with §35.1325, and completed when clearance is achieved in accordance with §35.1340. This option is not available in public housing, where inspection is required.

(c) Lead hazard screen. Where a risk assessment is required, the designated party may choose first to conduct a lead hazard screen in accordance with §35.1320(b). If the results of the lead hazard screen indicate the need for a full risk assessment (e.g., if the environmental measurements exceed levels established for lead hazard screens in §35.1320(b)(2)), a complete risk assessment shall be conducted. Environmental samples collected for the lead hazard screen may be used in the risk assessment. If the results of the lead hazard screen do not indicate the need for a follow-up risk assessment, a risk assessment is not required.

(d) Paint testing. Where paint stabilization or interim controls of deteriorated paint surfaces are required by this rule, the designated party has the option to conduct paint testing of all surfaces with non-intact paint. If paint testing indicates the absence of lead-based paint on a specific surface, paint stabilization or interim controls are not required on that surface.

§ 35.125 Notice of evaluation and hazard reduction activities.

The following activities shall be conducted if notice is required by subparts D and F through M of this part.

(a) Notice of evaluation or presumption. When evaluation is undertaken and lead-based paint or lead-based paint hazards are found to be present, or if a presumption is made that lead-based paint or lead-based paint hazards are present in accordance with the options described in §35.120, the designated party shall provide a notice to occupants within 15 calendar days of the date when the
designated party receives the report or makes the presumption. A visual assessment alone is not considered an evaluation for the purposes of this part. If only a visual assessment alone is required by this part, and no evaluation is performed, a notice of evaluation or presumption is not required.

(1) The notice of the evaluation shall include:

(i) A summary of the nature, dates, scope, and results of the evaluation;

(ii) A contact name, address and telephone number for more information, and to obtain access to the actual evaluation report; and

(iii) The date of the notice.

(2) The notice of presumption shall include:

(i) The nature and scope of the presumption;

(ii) A contact name, address and telephone number for more information; and

(iii) The date of the notice.

(b) Notice of hazard reduction activity. When hazard reduction activities are undertaken, each designated party shall:

(1) Provide a notice to occupants not more than 15 calendar days after the hazard reduction activities (including paint stabilization) have been completed. Notice of hazard reduction shall include, but not be limited to:

(i) A summary of the nature, dates, scope, and results (including clearance) of the hazard reduction activities;

(ii) A contact name, address, and telephone number for more information;

(iii) Available information on the location of any remaining lead-based paint in the rooms, spaces, or areas where hazard reduction activities were conducted, on a surface-by-surface basis; and

(iv) The date of the notice.

(2) Update the notice, based on reevaluation of the residential property and as any additional hazard reduction work is conducted.

(3) Provision of a notice of hazard reduction is not required if a clearance examination is not required.
(c) **Availability of notices of evaluation, presumption, and hazard reduction activities.** (1) The notices of evaluation, presumption, and hazard reduction shall be of a size and type that is easily read by occupants.

(2) To the extent practicable, each notice shall be made available, upon request, in a format accessible to persons with disabilities (e.g., Braille, large type, computer disk, audio tape).

(3) Each notice shall be provided in the occupants' primary language or in the language of the occupants' contract or lease.

(4) The designated party shall provide each notice to the occupants by:

(i) Posting and maintaining it in centrally located common areas and distributing it to any dwelling unit if necessary because the head of household is a person with a known disability; or

(ii) Distributing it to each occupied dwelling unit affected by the evaluation, presumption, or hazard reduction activity or serviced by common areas in which an evaluation, presumption or hazard reduction has taken place.

**§ 35.130 Lead hazard information pamphlet.**

If provision of a lead hazard information pamphlet is required in subparts D and F through M of this part, the designated party shall provide to each occupied dwelling unit to which subparts D and F through M of this part apply, the lead hazard information pamphlet developed by EPA, HUD and the Consumer Product Safety Commission pursuant to section 406 of the Toxic Substances Control Act (15 U.S.C. 2686), or an EPA-approved alternative; except that the designated party need not provide a lead hazard information pamphlet if the designated party can demonstrate that the pamphlet has already been provided in accordance with the lead-based paint notification and disclosure requirements at §35.88(a)(1), or 40 CFR 745.107(a)(1) or in accordance with the requirements for hazard education before renovation at 40 CFR part 745, subpart E.

**§ 35.135 Use of paint containing lead.**

(a) **New use prohibition.** The use of paint containing more than 0.06 percent dry weight of lead on any interior or exterior surface in federally owned housing or housing receiving Federal assistance is prohibited. As appropriate, each Federal agency shall include the prohibition in contracts, grants, cooperative agreements, insurance agreements, guaranty agreements, trust agreements, or other similar documents.
(b) Pre-1978 prohibition. In the case of a jurisdiction which banned the sale or residential use of lead-containing paint before 1978, HUD may designate an earlier date for certain provisions of subparts D and F through M of this part.

§ 35.140 Prohibited methods of paint removal.

The following methods shall not be used to remove paint that is, or may be, lead-based paint:

(a) Open flame burning or torching.

(b) Machine sanding or grinding without a high-efficiency particulate air (HEPA) local exhaust control.

(c) Abrasive blasting or sandblasting without HEPA local exhaust control.

(d) Heat guns operating above 1100 degrees Fahrenheit or charring the paint.

(e) Dry sanding or dry scraping, except dry scraping in conjunction with heat guns or within 1.0 ft. (0.30 m.) of electrical outlets, or when treating defective paint spots totaling no more than 2 sq. ft. (0.2 sq. m.) in any one interior room or space, or totaling no more than 20 sq. ft. (2.0 sq. m.) on exterior surfaces.

(f) Paint stripping in a poorly ventilated space using a volatile stripper that is a hazardous substance in accordance with regulations of the Consumer Product Safety Commission at 16 CFR 1500.3, and/or a hazardous chemical in accordance with the Occupational Safety and Health Administration regulations at 29 CFR 1910.1200 or 1926.59, as applicable to the work.

§ 35.145 Compliance with Federal laws and authorities.

All lead-based paint activities, including waste disposal, performed under this part shall be performed in accordance with applicable Federal laws and authorities. For example, such activities are subject to the applicable environmental review requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), the Toxic Substances Control Act, Title IV (15 U.S.C. 2860 et seq.), and other environmental laws and authorities (see, e.g., laws and authorities listed in §50.4 of this title).

§ 35.150 Compliance with other State, tribal, and local laws.

(a) HUD responsibility. If HUD determines that a State, tribal or local law, ordinance, code or regulation provides for evaluation or hazard reduction in a manner that provides a comparable level of protection from the hazards of lead-based paint poisoning to that provided by the requirements of subparts B, C, D, F through M and R of this part and that adherence to the requirements of subparts B, C, D, F through M, and R of this part, would be duplicative or otherwise cause
inefficiencies, HUD may modify or waive some or all of the requirements of the subparts in a manner that will promote efficiency while ensuring a comparable level of protection.

(b) **Participant responsibility.** Nothing in this part is intended to relieve any participant in a program covered by this subpart of any responsibility for compliance with State, tribal or local laws, ordinances, codes or regulations governing evaluation and hazard reduction. If a State, tribal or local law, ordinance, code or regulation defines lead-based paint differently than the Federal definition, the more protective definition (i.e., the lower level) shall be followed in that State, tribal or local jurisdiction.

§ 35.155 Minimum requirements.

(a) Nothing in subparts B, C, D, F through M, and R of this part is intended to preclude a designated party or occupant from conducting additional evaluation or hazard reduction measures beyond the minimum requirements established for each program in this regulation. For example, if the applicable subpart requires visual assessment, the designated party may choose to perform a risk assessment in accordance with §35.1320. Similarly, if the applicable subpart requires interim controls, a designated party or occupant may choose to implement abatement in accordance with §35.1325.

(b) To the extent that assistance from any of the programs covered by subparts B, C, D, and F through M of this part is used in conjunction with other HUD program assistance, the most protective requirements prevail.

§ 35.160 Waivers.

In accordance with §5.110 of this title, on a case-by-case basis and upon determination of good cause, HUD may, subject to statutory limitations, waive any provision of subparts B, C, D, F through M, and R of this part.

§ 35.165 Prior evaluation or hazard reduction.

If an evaluation or hazard reduction was conducted at a residential property or dwelling unit before the property or dwelling unit became subject to the requirements of subparts B, C, D, F through M, and R of this part, such an evaluation, hazard reduction or abatement meets the requirements of subparts B, C, D, F through M, and R of this part and need not be repeated under the following conditions:

(a) **Lead-based paint inspection.** (1) A lead-based paint inspection conducted before March 1, 2000, meets the requirements of this part if:

(i) At the time of the inspection the lead-based paint inspector was approved by a State or Indian tribe to perform lead-based paint inspections. It is not necessary
that the State or tribal approval program had EPA authorization at the time of the inspection.

(ii) Notwithstanding paragraph (a)(1)(i) of this section, the inspection was conducted and accepted as valid by a housing agency in fulfillment of the lead-based paint inspection requirement of the public and Indian housing program.

(2) A lead-based paint inspection conducted on or after March 1, 2000, must have been conducted by a certified lead-based paint inspector.

(b) Risk assessment. (1) A risk assessment must be no more than 12 months old to be considered current.

(2) A risk assessment conducted before March 1, 2000, meets the requirements of this part if, at the time of the risk assessment, the risk assessor was approved by a state or Indian Tribe to perform risk assessments. It is not necessary that the state or tribal approval program had EPA authorization at the time of the risk assessment.

(3) A risk assessment conducted on or after March 1, 2000, must have been conducted by a certified risk assessor.

(4) Paragraph (b) of this section does not apply in a case where a risk assessment is required in response to the identification of a child with an environmental intervention blood lead level. In such a case, the requirements in the applicable subpart for responding to a child with an environmental intervention blood lead level shall apply.

(c) Interim controls. If a residential property is under a program of interim controls and ongoing lead-based paint maintenance and reevaluation activities established pursuant to a risk assessment conducted in accordance with paragraph (b) of this section, the interim controls that have been conducted meet the requirements of this part if clearance was achieved after such controls were implemented. In such a case, the program of interim controls and ongoing activities shall be continued in accordance with the requirements of this part.

(d) Abatement. (1) An abatement conducted before March 1, 2000, meets the requirements of this part if:

(i) At the time of the abatement the abatement supervisor was approved by a State or Indian tribe to perform lead-based paint abatement. It is not necessary that the State or tribal approval program had EPA authorization at the time of the abatement.

(ii) Notwithstanding paragraph (d)(1)(i) of this section, it was conducted and accepted by a housing agency in fulfillment of the lead-based paint abatement requirement of the public housing program or by an Indian housing authority (as
formerly defined under the U.S. Housing Act of 1937) in fulfillment of the lead-based paint requirement of the Indian housing program formerly funded under the U.S. Housing Act of 1937.

(2) An abatement conducted on or after March 1, 2000, must have been conducted under the supervision of a certified lead-based paint abatement supervisor.

§ 35.170 Noncompliance with the requirements of subparts B through R of this part.

(a) Monitoring and enforcement. A designated party who fails to comply with any requirement of subparts B, C, D, F through M, and R of this part shall be subject to the sanctions available under the relevant Federal housing assistance or ownership program and may be subject to other penalties authorized by law.

(b) A property owner who informs a potential purchaser or occupant of lead-based paint or possible lead-based paint hazards in a residential property or dwelling unit, in accordance with subpart A of this part, is not relieved of the requirements to evaluate and reduce lead-based paint hazards in accordance with subparts B through R of this part as applicable.

§ 35.175 Records.

The designated party, as specified in subparts C, D, and F through M of this part, shall keep a copy of each notice, evaluation, and clearance or abatement report required by subparts C, D, and F through M of this part for at least three years. Those records applicable to a portion of a residential property for which ongoing lead-based paint maintenance and/or reevaluation activities are required shall be kept and made available for the Department’s review, until at least three years after such activities are no longer required.
SECTION 00800 - SUPPLEMENTARY GENERAL CONDITIONS

Supplementary General Conditions amend or supplement General Contract Conditions of Contract Documents and other provisions of Contract Documents as indicated. All provisions not so amended or supplemented, remain in full force and effect.

SGC-101. DEFINITIONS.

"Locality" and "Owner" in the Contract Documents both represent the OWNER defined in Section 00520, Standard Form of Agreement between Owner and Contractor on the Basis of a Stipulated Price.

"Hazardous Waste" shall have the meaning provide in Section 1004 of the Solid Waste Disposal Act (42 USC Section 6903) as amended from time to time.

SGC-110. DISPUTES. Add the following paragraph:

In an effort to resolve any conflicts that arise during the construction of the project or following the completion of the project, the Owner and the Contractor agree that all disputes between them be submitted to nonbinding mediation unless the parties mutually agree otherwise.

SGC-112. SHOP DRAWINGS. Add the following paragraphs:

ENGINEER will review and approve Shop Drawings and Samples in accordance with the schedule of Shop Drawings and Sample submittals accepted by ENGINEER as required. ENGINEER's review and approval will be only to determine if the items covered by the submittals will, after installation or incorporation in the Work, conform to the information given in the Contract Documents and be compatible with the design concept of the completed Project as a functioning whole as indicated by the Contract Documents. ENGINEER's review and approval will not extend to means, methods, techniques, sequences or procedures of construction (except where a particular means, method, technique, sequence or procedure of construction is specifically and expressly called for by the Contract Documents) or to safety precautions or programs incident thereto. The review and approval of a separate item as such will not indicate approval of the assembly in which the item functions. CONTRACTOR shall make corrections required by ENGINEER, and shall return the required number of corrected copies of Shop Drawings and submit as required new Samples for review and approval. CONTRACTOR shall direct specific attention in writing to revisions other than the corrections called for by ENGINEER on previous submittals.

ENGINEER's review and approval of Shop Drawings or Samples shall not relieve CONTRACTOR from responsibility for any variation from the requirements of the Contract Documents unless CONTRACTOR has in writing called ENGINEER's attention to each such variation at the time of submission. ENGINEER has not given written approval of each such variation by specific written notation thereof incorporated in or accompanying the Shop Drawing or Sample approval; nor will any approval by ENGINEER relieve CONTRACTOR from responsibility for complying with the requirements of this paragraph.

Where a Shop Drawing or Sample is required by the Contract Documents or the schedule of Shop Drawings and Sample submissions accepted by ENGINEER as required any related Work
performed prior to ENGINEER's review and approval of the pertinent submittal will be at the sole expense and responsibility of CONTRACTOR.

One initial submittal and one resubmittal will be reviewed by the ENGINEER at no cost to the CONTRACTOR. Subsequent reviews for resubmittals will be reviewed at a cost to the CONTRACTOR of $75.00 per hour.

SGC-116. PERMITS AND CODES. Add the following subparagraphs.

Permits required by and obtainable through the OWNER must be acquired by the CONTRACTOR, however, fees for such permits are waived for this project.

The Contractor is required to submit all forms specified in these Contract Documents including the Certification of Bidders of Compliance to Texas State Law.

SGC-120 USE OF PREMISES. Add the following subparagraphs:

The project is located on land owned by the Owner.

Contractor is responsible to locate and secure a project material storage location either in conjunction with the Owner or from a private property owner.

Contractor shall use the minimum area practicable for construction of the facilities, regardless of the type of lands, and shall be governed by the specific requirements for each type of lands. All access to the Owner's property shall be along routes designated.

SGC-126. INSURANCE. Add the following paragraphs:

CONTRACTOR shall purchase and maintain until final payment property insurance upon the Work at the site to the full insurable value thereof (subject to such deductible amounts as may be provided in these Supplementary General Conditions or required by Laws and Regulations). This insurance shall include the interests of OWNER, CONTRACTOR, Subcontractor, ENGINEER and Engineer's consultants in the Work (all of whom shall be listed as insureds or additional insured parties), shall insure against the perils of fire and extended coverage, shall include "all-risk" insurance for physical loss and damage including theft, vandalism and malicious mischief, collapse and water damage, and such other perils as may be provided in these Supplementary General Conditions, and shall include damages, losses and expenses arising out of or resulting from any insured loss or incurred in the repair or replacement of any insured property (including but not limited to fees and charges of engineers, architects, attorneys and other professionals). If not covered under the "all-risk" insurance or otherwise provided in these Supplementary General Conditions, CONTRACTOR shall purchase and maintain similar property insurance on portions of the Work stored on and off the site or in transit when such portions of the Work are to be included in an application for Payment. The policies of insurance required to be purchased and maintained by CONTRACTOR in accordance with this paragraph shall comply with the requirements of the following paragraph.
All the policies of insurance (or the certificates or other evidence thereof) required to be purchased and maintained by CONTRACTOR in accordance with above paragraph will contain a provision or endorsement that the coverage afforded will not be canceled or materially changed or renewal refused until at least thirty (30) days prior written notice has been given to OWNER by certified mail and will contain the following waiver provisions.

OWNER waives all rights against CONTRACTOR, Subcontractors, ENGINEER, ENGINEER's Consultants and the officers, directors, employees and gents of any of them, for:

loss due to business interruption, loss of use or other consequential loss extending beyond direct physical loss or damage to OWNER's property or the Work caused by, arising out of or resulting from fire or other peril, whether or not insured by OWNER; and

loss or damage to completed Project or part thereof caused by, arising out of or resulting from fire or other insured peril covered by any property insurance maintained on the completed Project or part thereof by OWNER during partial utilization and after substantial completion and after final payment.

Any insurance policy maintained by OWNER covering any loss, damage or consequential loss referred to in this paragraph shall contain provisions to the effect that in the event of payment of any such loss, damage or consequential loss the insurers will have no rights of recovery against any of CONTRACTOR, Subcontractors, ENGINEER, ENGINEER's Consultants and other officers, directors, employees and agents of any of them.

If OWNER has any objection to the coverage afforded by or other provisions of the insurance required to be purchased and maintained by CONTRACTOR in accordance with General Contract Condition and Supplementary General Conditions on the basis of its not complying with the Contract Documents, Owner shall notify CONTRACTOR in writing thereof within fifteen (15) days of the date of delivery of such certificate to OWNER. Failure by OWNER to give any such notice of objection within the time provided shall constitute acceptance of such insurance purchased as complying with the Contract Documents.

SGC-137. CONTRACT DOCUMENTS AND DRAWINGS. Add the following paragraph:

This shall include all plans and specifications furnished to material suppliers and subcontractors but does not include the executed contract copies. Plans and specifications for use during construction will be furnished directly only to the Contractor. The Contractor shall then distribute copies of plans and specifications to suppliers, subcontractors, or others, as required for proper execution of the work. Should additional sets of documents be desired, they may be purchased by the Contractor only, in the same manner as mentioned in the Advertisement.

SGC-201. SIGNAGE REQUIREMENT AT CONSTRUCTION SITE.

A. Temporary Project Signage

All TxCDBG construction projects utilizing TxCDBG funding must have temporary signage erected in a prominent location at the construction project site or along a major thoroughfare within the community as directed by the owner. A photo of this signage must be submitted to TDA prior to the release of construction funds.
Requirements of temporary signage include:
1. Placement in a prominent visible public area that is not blocked or obscured;
2. Construction of durable materials;
3. Minimum size of 12” x 18” with lettering no smaller than 1/2”;
4. Required text:

“This project is funded by the Texas Department of Agriculture, to strengthen and enhance the quality of life in smaller and rural communities with funds allocated by the United States Department of Housing and Urban Development through the Community Development Block Grant Program.”

Temporary signage may be reused for future TxCDBG projects as appropriate.

B. Projects Requiring Permanent Signage

Permanent signage identifying the location as a TxCDBG-funded project is required for any TxCDBG funded public structure or project that is located above ground and enclosed by a fence. Some examples of projects requiring permanent signage include water pump stations, water wells, water storage tanks, wastewater treatment facilities, lift stations, community centers, fire stations, and significant improvements to existing facilities (e.g., installation of new electrical controls, SCADA systems, pumps, etc.). Project signage is an eligible construction cost.

Requirements of permanent signage include:
1. Placement in a prominent visible public area that is not blocked or obscured;
2. Construction of permanent materials;
3. Minimum size of 12” x 18” with lettering no smaller than 1/2”;
4. Required text:

“This project is funded by the Texas Department of Agriculture, to strengthen and enhance the quality of life in smaller and rural communities with funds allocated by the United States Department of Housing and Urban Development through the Community Development Block Grant Program.”

SGC-301. BEFORE STARTING CONSTRUCTION.

A preliminary list of proposed Subcontractors with a brief description of the portions of the Work to be performed by each.

A preliminary schedule of Materials and Equipment Suppliers and delivery dates for major equipment.

Before any work at the site is started, CONTRACTOR shall deliver to OWNER, with a copy to ENGINEER, certificates of insurance which CONTRACTOR is required to purchase and maintain in accordance with General Contract Conditions.

SGC-302. SUBSURFACE CONDITIONS.

No reports of explorations and test of subsurface conditions at or contiguous to the site have been utilized.
SGC-303. PERFORMANCE, PAYMENT AND OTHER BONDS.

Sureties shall also be listed on the current Department of the Treasury Federal Register of companies holding certificates of authority as acceptable sureties. The bond shall not exceed the underwriting limitation established by the Department of Treasury Federal Register. The surety company shall also be satisfactory to the Owner and authorized to do business in the State of Texas.

SGC-304. CONTRACTOR'S LIABILITY INSURANCE.

The limits of liability for the insurance required by paragraph 126 of the General Contract Conditions shall provide coverage for not less than the following amounts or greater where required by Laws and Regulations:

Workers' Compensation, etc. under paragraphs 126.a. of the General Contract Conditions:

(1) State:                        Statutory
(2) Applicable Federal (e.g. Longshoreman's): Statutory
(3) Employer's Liability:
   Each accident                     $ 100,000.00
   Each employee disease             $ 100,000.00
   Per Policy disease                $ 500,000.00

Comprehensive or Commercial General Liability under Paragraphs 126.b. of the General Contract Conditions. Bodily Injury and Property Damage Combined Single Liability Insurance Including Completed Operations, Products, Personal Injury, Contractual and, where applicable, Explosion, Collapse and Underground Coverages:

Bodily Injury:                        $ 500,000.00 Each Occurrence
                                         $ 500,000.00 Annual Aggregate

Property Damage:                      (including explosion, collapse and underground coverage)
                                           $ 500,000.00 Each Occurrence
                                           $ 500,000.00 Annual Aggregate

Personal Injury:                     (employment exclusion deleted):
                                          $ 500,000.00 Annual Aggregate

Comprehensive (Business) Automobile Liability under paragraph 126.b. of the General Contract Conditions:

Bodily Injury:                        $ 100,000.00 Each Person
                                         $ 500,000.00 Each Occurrence

Property Damage:                     $ 100,000.00 Each Occurrence
SGC-305. REQUIRED WORKERS’ COMPENSATION COVERAGE

The law requires that each person working on this site or providing services related to this construction project must be covered by workers' compensation insurance. This includes persons providing, hauling, or delivering equipment or materials, or providing labor or transportation or other service related to the project, regardless of the identity of their employer or status as an employee.

Call the Texas Workers’ Compensation Commission at 512-440-3789 to receive information on the legal requirement for coverage, to verify whether your employer has provided the required coverage, or to report an employer's failure to provide coverage.

SGC-306. SALES TAXES.

Contracts for improvements to real property do not qualify for exemptions of Sales, Excise, and Use Taxes unless the Contractor elects to operate under a separated contract as defined by Section 3.291 of Chapter 3, Tax Administration of Title 34, Public Finance of the Texas Administrative Code, or such other rules or regulations as may be promulgated by the comptroller of Public Accounts of Texas.

If the low bidder elects to operate under a separated contract, he shall:

1. Obtain the necessary sales tax permits from the State Comptroller.
2. Identify the appropriate spaces in the proposal form the cost of materials physically incorporated into the project.
3. Provide resale certificates to suppliers.
4. Provide the City with copies of material invoices to substantiate the proposal value of materials.

If the low bidder does not elect to operate under a separated contract, he shall be responsible for all Sales, Excise and Use Taxes applicable to this project.

Subcontractors are eligible for sales tax exemptions if the subcontractor also complies with the above requirements. The contractor must issue a resale certificate to the subcontractor and the subcontractor, in turn, issues a resale certificate to his supplier.

SGC-307. INDEMNIFICATION.

Contractor agrees to notify Engineer or Owner immediately of the filing of any claims, demands, causes of action, and liens including, without limitation, laborer's, materialmen's and mechanics' liens, arising out of the services, labor and material furnished by Contractor or its subcontractors, under this contract. Owner may, upon receipt of notice of the filing of any such liens, at its option, require Contractor to furnish a bond in an amount and with such sureties as may be approved by Owner or Engineer, conditioned to indemnify and save harmless Owner or Engineer from all such liens upon or against Owner or Engineer's property. In the event Contractor fails or refuses to furnish such bond when so required, Owner or Engineer shall, in addition to any other remedies to which it may be entitled, have the right to pay any sums necessary to obtain the release of such liens and to deduct the amount paid therefore from the Contract price.
SGC-308. RESIDENT PROJECT REPRESENTATIVE. Add Exhibit A to the Supplementary General Conditions to define the Resident Project Representative's (RPR) responsibilities.

SGC-309. COST OF THE WORK.

The Contractor is to comply with the provisions of Article 5159A, "Construction of public works in State and municipal or political subdivisions; prevailing wage rates to be maintained."

SGC-310. UNIT PRICE WORK.

Where the Contract Documents provide that all or part of the Work is to be Unit Price Work, initially the Contract Price will be deemed to include for all Unit Price Work an amount equal to the sum of the established unit price for each separately identified item of Unit Price Work times the estimated quantity of each item as indicated in the Proposal. The estimated quantities of items of Unit Price Work are not guaranteed and are solely for the purpose of comparison of Bids and determining an initial Contract Price. Determinations of the actual quantities and classifications of Unit Price Work performed by CONTRACTOR will be made by ENGINEER.

Each unit price will be deemed to include an amount considered by CONTRACTOR to be adequate to cover CONTRACTOR's overhead and profit for each separately identified item.

OWNER or CONTRACTOR may make a claim for an adjustment in the Contract Price if:

a. Owner reserves and shall have the right to make such alterations in the work as may be necessary or desirable to complete the work originally intended in an acceptable manner. Unless otherwise specified herein, the Engineer shall be and is hereby authorized to make such alterations in the work as may increase or decrease the originally awarded contract quantities, provided that the cost or the total cost of any major contract item by more than 25 percent (total cost being based on the unit prices and estimated quantities in the awarded contract). Alterations which do not exceed the 25 percent limitation shall not invalidate the contract nor release the surety, and the Contractor agrees to accept payment for such alterations as if the altered work had been a part of the original contract. These alterations which are for work within the general scope of the contract shall be covered by "Change Orders" issued by the Engineer. Change orders for altered work shall include extensions of contract time where, in the Engineer's opinion, such extensions are commensurate with the amount and difficulty of added work, and

b. Should the aggregate amount of altered work exceed the 25 percent limitation hereinbefore specified, such excess altered work shall be covered by supplemental agreement. If the Owner and the Contractor are unable to agree on a unit adjustment for any contract item that requires a supplemental agreement, the Owner reserves the right to terminate the contract with respect to the item and make other arrangements for its completion.

c. If CONTRACTOR believes that CONTRACTOR is entitled to an increase in Contract Price as a result of having incurred additional expense or OWNER believes that OWNER is entitled to a decrease in Contract Price and the parties are unable to agree as to the amount of any such increase or decrease.
SGC-311. ASBESTOS, PCBs, PETROLEUM, HAZARDOUS WASTE, OR RADIOACTIVE MATERIAL.

Materials utilized in the project shall be free of any hazardous materials, except as specifically provided for in the specifications. OWNER responsible for any Asbestos, PCBs, Petroleum, Hazardous Waste, or Radioactive Material uncovered or revealed at the site not shown or indicated in Drawings or specifications or identified in Contract Documents to be within the scope of the Work and which may present a substantial danger to persons or property exposed thereto in connection with the Work at the site. OWNER not responsible for any such materials brought to the site by CONTRACTOR, subcontractor, suppliers, or anyone else for whom CONTRACTOR is responsible.

CONTRACTOR shall immediately: (i) stop all Work in connection with such hazardous conditions and in any area affected thereby (except in an emergency, and (ii) notify OWNER and ENGINEER (and thereafter confirm such notice in writing). OWNER shall promptly consult with ENGINEER concerning the necessity for OWNER to retain a qualified expert to evaluate such hazardous condition or take corrective action, if any. CONTRACTOR shall not be required to resume Work in connection with such hazardous condition or in any such affected area until after OWNER has obtained any required permits related thereto and delivered to CONTRACTOR special written notice: (i) specifying that such condition and any affected area is or has been rendered safe for resumption of Work, or (ii) specifying any special conditions under which such Work may be resumed safely. If OWNER and CONTRACTOR cannot agree as to entitlement to or the amount or extent of an adjustment, if any, in the Contract Price or Contract Times as a result of such Work stoppage or such special conditions under which Work is agreed by CONTRACTOR to be resumed, either party may make a claim therefor.

If after receipt of such special written notice CONTRACTOR does not agree to resume such work based on a reasonable belief it is unsafe, or does not agree to resume such Work under special conditions, OWNER may order such portion of Work in connection with such hazardous condition or in such affected area to be deleted from the Work. If OWNER and CONTRACTOR cannot agree as to entitlement to or the amount or extent of an adjustment, if any, in Contract Price or Contract Times as a result of deleting such portion of the Work, then either party may make a claim therefor. OWNER may have such deleted portion of the Work performed by OWNER's own forces or others.

To the fullest extent permitted by Laws and Regulations, OWNER shall indemnify and hold harmless CONTRACTOR, Subcontractors, ENGINEER, ENGINEER's Consultants and the officers, directors, employees, agents, other consultants and subcontractors of each and any of them from and against all claims, costs, losses, and damages arising out of or resulting from such hazardous condition, provided that: (i) any such claim, cost, loss or damage is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the Work itself), including the loss of use resulting therefrom, and (ii) nothing in this subparagraph shall obligate OWNER to indemnify any person or entity from and against the consequences of the person's or entity's own negligence.
SGC-312. PAYMENT.

Payment under this contract must be processed through the Texas Department of Rural Affairs. Receipt of payment from the Grant Recipient will take at least 45 days from the time of pay estimate approval by the Project Engineer.

END OF SECTION
EXHIBIT A TO SUPPLEMENTARY CONDITIONS
Listing of Duties, Responsibilities, and Limitations of Authority of the Resident Project Representative

1.1 GENERAL

A. RESIDENT PROJECT REPRESENTATIVE (RPR) is ENGINEER's agent at the site, will act as directed by and under the supervision of ENGINEER, and will confer with ENGINEER regarding RPR's actions. RPR's dealings in matters pertaining to the on-site work shall in general be with ENGINEER and CONTRACTOR keeping OWNER advised as necessary. RPR's dealings with subcontractors shall only be through or with the full knowledge and approval of CONTRACTOR. RPR shall generally communicate with OWNER with the knowledge of and under the direction of ENGINEER.

1.2 DUTIES AND RESPONSIBILITIES OF RPR

A. Schedules: Review the progress schedule, schedule of Shop Drawing submittals and schedule of values prepared by CONTRACTOR and consult with ENGINEER concerning acceptability.

B. Conferences and Meetings: Attend meetings with CONTRACTOR, such as preconstruction conferences, progress meetings, job conferences and other project-related meetings, and prepare and circulate copies of minutes thereof.

C. Liaison:
   1. Serve as ENGINEER's liaison with CONTRACTOR, working principally through CONTRACTOR's superintendent and assist in understanding the intent of the Contract Documents; and assist ENGINEER in serving as OWNER's liaison with CONTRACTOR when CONTRACTOR's operations affect OWNER's on-site operations.
   2. Assist in obtaining from OWNER additional details or information, when required for proper execution of the Work.

D. Shop Drawings and Samples:
   1. Record date of receipt of Shop Drawings and samples.
   2. Receive samples which are furnished at the site by CONTRACTOR, and notify ENGINEER of availability of samples for examination.
   3. Advise ENGINEER and CONTRACTOR of the commencement of any Work requiring a Shop Drawing or sample if the submittal has not been approved by ENGINEER.

E. Review of Work, Rejection of Defective Work, Inspections and Tests:
   1. Conduct on-site observations of the Work in progress to assist ENGINEER in determining if the Work is in general proceeding in accordance with the Contract Documents.
   2. Report to ENGINEER whenever RPR believes that any Work is unsatisfactory, faulty or defective or does not conform to the Contract Documents, or has been damaged, or does not meet the requirements of any inspection, test or approval required to be made; and advise ENGINEER of Work that RPR believes should be corrected or rejected or should be uncovered for observation, or requires special testing, inspection or approval.
   3. Verify that tests, equipment and systems startups and operating and maintenance training are conducted in the presence of appropriate personnel, and that CONTRACTOR maintains adequate records thereof; and observe, record and report to ENGINEER appropriate details relative to the test procedures and startups.
4. Accompany visiting inspectors representing public or other agencies having jurisdiction over the Project, record the results of these inspections and report to ENGINEER.

F. Interpretation of Contract Documents: Report to ENGINEER when clarifications and interpretations of the Contract Documents are needed and transmit to CONTRACTOR clarifications and interpretations as issued by ENGINEER.

G. Modifications: Consider and evaluate CONTRACTOR’s suggestions for modifications in Drawings or Specifications and report with RPR’s recommendations to ENGINEER. Transmit to CONTRACTOR decisions as issued by ENGINEER.

H. Records:
1. Maintain at the job site orderly files for correspondence, reports of job conferences, Shop Drawings and samples, reproductions of original Contract Documents including all Work Directive Changes, Addenda, Change Orders, Field Orders, additional Drawings issued subsequent to the execution of the Contract, ENGINEER’s clarifications and interpretations of the contract Documents, progress reports, and other Project related documents.
2. Keep a diary or log book, recording CONTRACTOR hours on the job site, weather conditions, data relative to questions of Work Directive Changes, Change Orders or changed conditions, list of job site visitors, daily activities, decisions, observations in general, and specific observations in more detail as in the case of observing test procedures; and send copies to ENGINEER.
3. Record names, addresses and telephone numbers of all CONTRACTORS, subcontractors and major suppliers of materials and equipment.

I. Reports:
1. Furnish ENGINEER periodic reports as required of progress of the Work and of CONTRACTOR’s compliance with the progress schedule and schedule of Shop Drawing and sample submittals.
2. Consult with ENGINEER in advance of scheduled major tests, inspections or start of important phases of the Work.
4. Report immediately to ENGINEER and OWNER upon the occurrence of any accident.

J. Payment Requests: Review applications for payment with CONTRACTOR for compliance with the established procedure for their submission and forward with recommendations to ENGINEER, noting particularly the relationship of the payment requested to the schedule of values, Work completed and materials and equipment delivered at the site but not incorporated in the Work.

K. Certificates, Maintenance and Operation Manuals: During the course of the Work, verify that certificates, maintenance and operation manuals and other data required to be assembled and furnished by CONTRACTOR are applicable to the items actually installed and in accordance with the Contract Documents, and have this material delivered to ENGINEER for review and forwarding to OWNER prior to final payment for the Work.

L. Completion:
1. Before ENGINEER issues a Certificate of Substantial completion, submit to CONTRACTOR a list of observed items requiring completion or correction.
2. Conduct final inspection in the company of ENGINEER, OWNER and CONTRACTOR and prepare a final list of items to be completed or corrected.
3. Observe that all items on final list have been completed or corrected and make recommendations to ENGINEER concerning acceptance.
1.3 LIMITATIONS OF AUTHORITY

A. Resident Project Representative:
   1. Shall not authorize any deviation from the Contract Documents or substitution of materials or equipment, unless authorized by ENGINEER.
   2. Shall not exceed limitations of ENGINEER's authority as set forth in the Agreement or the Contract Documents.
   3. Shall not undertake any of the responsibilities of CONTRACTOR, subcontractors or CONTRACTOR's superintendent.
   4. Shall not advise on, issue directions relative to or assume control over any aspect of the means, methods, techniques, sequences or procedures of construction unless such advice or directions are specifically required by the Contract Documents.
   5. Shall not advise on, issue directions regarding or assume control over safety precautions and programs in connection with the Work.
   6. Shall not accept Shop Drawing or sample submittals from anyone other than CONTRACTOR.
   7. Shall not authorize OWNER to occupy the Project in whole or in part.
   8. Shall not participate in specialized field or laboratory tests or inspections conducted by others except as specifically authorized by ENGINEER.

END OF SECTION
WORKERS COMPENSATION

INSURANCE COVERAGE

A. Definitions
1. Certificate of coverage ("certificate") - A copy of a certificate of insurance, a certificate of authority to self-insure issued by the commission, or a coverage agreement (TWCC-81, TWCC-82, TWCC-83, or TWCC-84), showing statutory workers' compensation insurance coverage for the person's or entity's employees providing services on a project, for the duration of the project.
2. Duration of the project - includes the time from the beginning of the work on the project until the contractor's/person's work on the project has been completed and accepted by the governmental entity.
3. Persons providing services on the project ("subcontractor" in '406.096) - includes all persons or entities performing all or part of the services the contractor has undertaken to perform on the project, regardless of whether that person contracted directly with the contractor and regardless of whether that person has employees. This includes, without limitation, independent contractors, subcontractors, leasing companies, motor carriers, owner-operators, employees of any such entity, or employees of any entity which furnishes persons to provide services on the project. "Services" include, without limitation, providing, hauling, or delivering equipment or materials, or providing labor, transportation, or other service related to a project. "Services" does not include activities unrelated to the project, such as food/beverage vendors, office supply deliveries, and delivery of portable toilets.

B. Contractor shall provide coverage, based on proper reporting of classification codes and payroll amounts and filing of any coverage agreements, which meets the statutory requirements of Texas Labor Code, Section 401.011(44) for all employees of the contractor providing services on the project, for the duration of the project.

C. Contractor must provide a certificate of coverage to the governmental entity prior to being awarded the contract.

D. If the coverage period shown on the contractor's current certificate of coverage ends during the duration of the project, the contractor must, prior to the end of the coverage period, file a new certificate of coverage with the governmental entity showing that coverage has been extended.

E. Contractor shall obtain from each person providing services on a project, and provide to the governmental entity:
1. Certificate of coverage, prior to that person beginning work on the project, so the governmental entity will have on file certificates of coverage showing coverage for all persons providing services on the project; and
2. No later than seven days after receipt by the contractor, a new certificate of coverage showing extension of coverage, if the coverage period shown on the current certificate of coverage ends during the duration of the project.

F. Contractor shall retain all required certificates of coverage for the duration of the project and for one year thereafter.

G. Contractor shall notify the governmental entity in writing by certified mail or personal delivery, within 10 days after the contractor knew or should have known, of any change that materially affects the provision of coverage of any person providing services on the project.

H. Contractor shall post on each project site a notice, in the text, form and manner prescribed by the Texas Worker's Compensation Commission, informing all persons providing services on the project.
project that they are required to be covered, and stating how a person may verify coverage and report lack of coverage.

I. Contractor shall contractually require each person with whom it contracts to provide services on a project, to:
   1. provide coverage, based on proper reporting of classification codes and payroll amounts and filing of any coverage agreements, which meets the statutory requirements of Texas Labor Code, Section 401.011(44) for all of its employees providing services on the project, for the duration of the project;
   2. provide to Contractor, prior to that person beginning work on the project, a certificate of coverage showing that coverage is being provided for all employees of the person providing services on the project, for the duration of the project;
   3. provide Contractor, prior to the end of the coverage period, a new certificate of coverage showing extension of coverage, if the coverage period shown on the current certificate of coverage ends during the duration of the project;
   4. obtain from each other person with whom it contracts, and provide to Contractor:
      a. certificate of coverage, prior to the other person beginning work on the project; and
      b. new certificate of coverage showing extension of coverage, prior to the end of the coverage period, if the coverage period shown on the current certificate of coverage ends during the duration of the project;
   5. retain all required certificates of coverage on file for the duration of the project and for one year thereafter;
   6. notify the governmental entity in writing by certified mail or personal delivery, within 10 days after the person knew or should have known, of any change that materially affects the provision of coverage of any person providing services on the project; and contractually require each person with whom it contracts, to perform as required by paragraph (1) - (7), with the certificates of coverage to be provided to the person for whom they are providing services.

J. By signing this contract or providing or causing to be provided a certificate of coverage, the contractor is representing to the governmental entity that all employees of the contractor who will provide services on the project will be covered by workers' compensation coverage for the duration of the project, that the coverage will be based on proper reporting of classification codes and payroll amounts, and that all coverage agreements will be filed with the appropriate insurance carrier or, in the case of a self-insured, with the commission's Division of Self-Insurance Regulation. Providing false or misleading information may subject the contractor to administrative penalties, criminal penalties, civil penalties or other civil actions.

K. Contractor failure to comply with any provision is a breach of contract by the contractor which entitles the governmental entity to declare the contract void if Contractor does not remedy the breach within ten days after receipt of notice of breach from the governmental entity.

REQUIRED WORKERS' COMPENSATION COVERAGE

A. "The law requires that each person working on this site or providing services related to this construction project must be covered by workers' compensation insurance. This includes persons providing, hauling, or delivering equipment or materials, or providing labor or transportation or other service related to the project, regardless of the identity of their employer or status as an employee."

B. "Call the Texas Workers' Compensation Commission at 512-440-3789 to receive information on the legal requirement for coverage, to verify whether your employer has provided the required coverage, or to report an employer's failure to provide coverage."
WAGE RATES
General Decision Number: TX170122 01/06/2017 TX122

Superseded General Decision Number: TX20160122

State: Texas

Construction Type: Heavy

Counties: Andrews, Borden, Brewster, Crane, Crockett, Dawson, Edwards, Gaines, Glasscock, Howard, Hudspeth, Jeff Davis, Loving, Martin, Presidio, Reagan, Reeves, Sutton, Terrell, Upton, Val Verde and Winkler Counties in Texas.

HEAVY CONSTRUCTION PROJECTS

Note: Under Executive Order (EO) 13658, an hourly minimum wage of $10.20 for calendar year 2017 applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least $10.20 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2017. The EO minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours worked.
they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (i) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "Identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date.
date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

=================================================================================================

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

* an existing published wage determination
* a survey underlying a wage determination
* a Wage and Hour Division letter setting forth a position on a wage determination matter
* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210
The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

END OF GENERAL DECISION
SECTION 01010 - SUMMARY OF WORK

PART 1 - GENERAL

1.1 SUMMARY

A. Section Includes:
   1. Project description and definitions.
   2. Permits, licenses, and warranty.
   3. Access to the site and security procedures.
   4. Coordination requirements and drawings.

B. Related Requirements:
   1. Other Division 01 Specification Sections apply to Work of this Section.

1.2 WORK COVERED BY CONTRACT DOCUMENTS

A. Identification: City of Lamesa Water System Improvements, Water Line Replacement, TxCDBG No. 7216280.
   1. Location: Lamesa, Texas. See Drawings Sheet G-002.
   2. Owner: City of Lamesa, Texas.

B. Verbal Summary: Without force or effect on requirements of the Contract Documents, a brief description of the Project is replacing 6-inch water line along NE 3rd Street and NE 1st Street, including remove and replace fire hydrants and asphalt pavement, reconnect existing services, and all other necessary appurtenances required for a complete water line.

C. Work will be constructed under a single prime contract.

1.3 DEFINITIONS

A. Furnish: Supply products to project site including delivery, ready for unloading, and replacing damaged and rejected products.

B. Install: Place products in work ready for intended use, including unloading, unpacking, handling, storing, assembling, installing, erecting, placing, applying, anchoring, working, finishing, curing, protecting, cleaning, and similar operations.

C. Provide: Furnish and install products.

D. Indicated: Shown, noted, scheduled, specified, or drawn, somewhere in contract documents.

1.4 REGULATORY REQUIREMENTS

A. Submit to directly Owner copies of all permits, licenses, similar permissions obtained, and receipts for fees paid.

1.5 ACCESS TO SITE AND USE OF PREMISES

A. Space available to Contractor for work performance, exclusively or in conjunction with others performing other construction as part of the project, is restricted to area shown on site plan of Contract Drawings unless Contractor makes arrangements with Owner to use additional space. An additional staging area will be made available if required.

B. Signs: Provide signs adequate to direct visitors.
   1. DO NOT install, or allow to be installed, signs other than those specified and signs identifying principal entities involved in project.
1.6 PROJECT IDENTIFICATION
   A. Project signs provided by Contractor.

PART 2 - PRODUCTS (Not Used)

PART 3 - EXECUTION

3.1 SECURITY PROCEDURES
   A. Limit access to site to persons involved in work.
   B. Provide secure storage for materials Owner has paid and are stored onsite.
   C. Secure completed work as required to prevent loss.
   D. Secure this site by fencing, security guards, or other means to prevent damage, theft, safety hazards or other problems onsite. Clear use of security personnel with Owner.

3.2 COORDINATION
   A. If necessary, inform each party involved, in writing, of procedures required for coordination.
      1. Include requirements for giving notice, submitting reports, and attending meetings.
      2. Inform Owner when coordination of his work is required.
   B. See other requirements in other portions of Contract Documents.
   C. Prepare coordination drawings specified in product sections.
      1. Where space is limited, show plan and cross-section dimensions of space available.
      2. Coordinate shop drawings prepared by separate entities.
      3. Show installation sequence when necessary for proper installation.
   D. Coordinate utility adjustments where applicable.

3.3 WARRANTY
   A. Contractor shall warrant 100 percent of project for one year after date of final acceptance of work.
   B. On the 11th month from date of final acceptance, Owner’s representative will schedule an annual inspection, in Contractor’s presence, to inspect for defects and assessment of work performed. Repair any work considered defective by Owner’s representative.
   C. Contractor shall remedy any defects in workmanship, and pay for any and all damages of any nature whatsoever resulting in defects, at no cost to Owner.

END OF SECTION
SECTION 01019 - CONTRACT CONSIDERATIONS

PART 1 - GENERAL

1.1 SUMMARY

A. Section Includes:
   1. Schedule of Values.
   2. Application for Payment.
   3. Change procedures.
B. Related Requirements:
   1. Other Division 01 Specification Sections apply to Work of this Section.

1.2 SCHEDULE OF VALUES

A. Submit printed schedule on Engineer-approved Contractor form or electronic media printout.
B. Submit Schedule of Values in duplicate within five days after receiving bid tabulation.
C. Revise schedule to list approved Change Orders with each Application for Payment.

1.3 APPLICATIONS FOR PAYMENT

A. Submit five copies of each application on Engineer-approved Contractor form or electronic media printout.
B. Content and Format: Utilize listed bid items for listing items in Application for Payment.
C. Payment Period: Monthly, submit application for payment on or about the first day of each month. Applications for payment submitted later than will be processed the following month.
D. Include an updated construction progress schedule, invoice for materials on hand, certified payroll reports, and documentation of weather days.
E. Submit the following along with application for final payment:
   1. Documentation for completed Project.
   2. Signed affidavit from Notary Public that all claims on this job are settled and all bills owed by Contractor for the project including materials and labor, have been paid.
   3. Contractor warranties for this job shall be signed and sealed by a Notary Public.

1.4 CHANGE PROCEDURES

A. Engineer will advise of minor changes in Work not involving an adjustment to Contract Sum/Price or Contract Time as authorized by General Conditions by issuing a work directive change.
B. Engineer may issue a Proposal Request which includes a detailed description of proposed change with supplementary or revised drawings and specifications, and a change in Contract Time for executing the change. Contractor will prepare and submit an estimate within seven days.
C. Contractor may propose a change by submitting request for change to Engineer, describing proposed change and the full effect on Work. Include a statement describing reason(s) for change, effect on Contract Price and Contract Time with full documentation, and statement describing effect on Work by separate or other contractors. Document any requested substitutions in accordance with Section 01300 "Submittals."
D. Stipulated Price Change Order is based on Proposal Request and Contractor's fixed price quotation or Contractor's request for a Change Order as approved by Engineer.

G. Maintain detailed records of work done on Time and Material basis. Provide full information required for evaluation of proposed changes, and to substantiate costs for changes in Work.

H. Change Order Forms: As specified by Owner.

I. Execution of Change Orders: Engineer will issue Change Orders for signatures of parties as provided in General Conditions of Contract.

PART 2 - PRODUCTS (Not Used)

PART 3 - EXECUTION (Not Used)

END OF SECTION
SECTION 01025 - MEASUREMENT AND PAYMENT

PART 1 - GENERAL

Bid price on each item, as stated in proposal, shall include furnishing all labor, superintendence, machinery, equipment, and materials necessary or incidental to complete various items of work in accordance with plans and specifications. Cost of work or materials shown on plans or called for in specifications and for which no separate payment is made, shall be included in prices on various items.

1.1 MOBILIZATION/DEMOBILIZATION

A. Payment will be made for mobilization and demobilization on a lump sum basis. Bid amount for mobilization/demobilization shall not exceed 5 percent of total bid price. Work covered under this item consists of preparatory work and operations, including but not limited to those necessary for movement of personnel, equipment, supplies, and incidentals to Project site; to establish all offices, buildings, and other facilities necessary for work on Project; and all other work and operations performed or costs incurred prior to beginning work on various items on Project site.

B. Contractor shall demobilize within 30 days after substantial completion of work.

C. No additional payment made for items overlooked in bid.

1.2 UNIT COST ITEMS

A. Unit cost items, not otherwise included in this section to be paid for at a unit cost per unit, shall include all work and materials involved in installation within limits designated on plans. Measurement shall be made in units shown on Bid Sheet. All work so included shall be installed, constructed, or performed as shown on drawings and/or specified.

1.3 LUMP SUM ITEMS

A. Lump sum items to be paid for at a lump sum price per job shall include all work and materials involved in installation within limits designated on plans. No measurement of work or material included in such items will be made. All work so included shall be installed, constructed, or performed as shown on drawings and specified herein.

1.4 PVC WATER LINES

A. Length of water lines to be paid for will be determined by measurement along center lines of pipe installed, measurement made from center of fitting to center of fitting or end of pipe, without any deduction for length of intermediate fittings or valves.

B. Furnishing and installing pipe of size and type specified and shown on drawings will be paid for at unit price bid per linear foot, furnishing and installing pipe at depths shown, complete, in place, and for which compensation is not otherwise provided in other bid items. Unit price bid shall be complete compensation for furnishing and installing pipe, complete, in place, including all relocation of utilities as shown on drawings, repair streets, drives, and other items shown on drawings, excavation, backfilling, testing, and disinfecting lines, and include any and all incidental work not otherwise included in bid items or otherwise provided for in specifications.
1.5 TAPPING SLEEVES
   A. All tapping sleeves will be paid for at unit price per item bid, including all associated installation, complete, in place. Such payment shall be complete for complete performance of work in accordance with drawings and these specifications.

1.6 DUCTILE IRON FITTINGS
   A. Ductile iron fittings required in construction of various size pipe lines as shown on plans or as required will be paid for at unit price per ton and include cost associated with excavation, backfilling, concrete blocking, and other incidental work required for complete installation.

1.7 GATE VALVES AND BOXES
   A. Furnishing and installing gate valves and valve boxes of types and sizes required in various locations as shown on plans, will be paid for at unit price bid each for furnishing and installing various size valves and boxes. Unit price bid shall be complete compensation for furnishing and installing valves and boxes, complete, in place.

1.8 SERVICE CONNECTIONS
   A. Connections to existing services will be paid for as a unit price bid per item. This price shall include all associated installation, complete, in place.

1.9 HEAVY POLYETHYLENE WARNING TAPE
   A. Furnishing and installing warning tape will be paid for at unit price bid per linear foot. Unit price work shall include all incidental work required for complete installation.

1.10 TRAFFIC CONTROL
   A. Payment will be made on a lump sum basis for preparing, implementing, and maintaining an approved traffic control plan as specified.

1.11 ASPHALT PAVEMENT REMOVAL AND REPAIR
   A. Area of pavement removal, disposal, and repair as shown on drawings and required will be determined by actual measurement of finished area. Asphalt pavement removal and repair will be paid for at unit price bid per square yard and complete compensation for cutting, removing, disposal, and repair of pavement and other incidental work.

1.12 FIRE HYDRANT REMOVAL
   A. Payment will be made on a per each unit basis for removing existing fire hydrant including all incidental work.

1.13 FIRE HYDRANTS
   A. Payment will be made on a per each unit basis for furnishing and installing fire hydrants, including valves and miscellaneous appurtenances, furnished and installed, complete, in place, including all work required, as specified and shown on plans.
1.14 ABANDON, CUT, AND PLUG EXISTING LINE
   A. Payment for abandoning, cutting, and plugging existing water line will be paid for on a unit price bid basis. Unit price bid shall include all incidental work required.

1.15 PERMANENT SIGN
   A. Payment for furnishing and installing permanent sign(s) will be paid for as a lump sum price bid. This price shall include all associated work, complete, in place.

1.16 FINAL CLEANUP
   A. Contractor shall make a final cleanup of all parts of work before final acceptance of work by Owner. This cleanup shall include, among other things, removing all construction materials, final grading of all trench surfaces and construction sites, and general preparing sites of work in an orderly manner.
   B. Cost of the cleanup shall be included as a part of cost of various items of work involved and no direct compensation will be made for this work.

PART 2 - PRODUCTS (Not Used)

PART 3 - EXECUTION (Not Used)

END OF SECTION
SECTION 01028 - CHANGE ORDER PROCEDURES

PART I - GENERAL

1.1 SUMMARY

A. Section Includes:
   1. Submittals and change procedures.
   3. Construction change authorization.
   4. Stipulated and unit price change orders.
   5. Time and material and execution of change order.
   6. Correlation of Contractor submittals.

B. Related Sections:
   1. Other Division 01 Specification Sections apply to Work of this Section.

1.2 SUBMITTALS

A. Submit name of individual authorized to receive change documents and be responsible for informing others in Contractor employ or subcontractors of changes to Work.

B. Change Order Forms.

1.3 DOCUMENTATION OF CHANGE IN CONTRACT SUM/PRICE AND CONTRACT TIME

A. Maintain detailed records of work done on a time and material basis. Provide full information required for evaluation of proposed changes and substantiate costs of changes in Work.

B. Document each quotation for a change in cost or time with sufficient data to allow quotation evaluation.

C. On request, provide additional data to support computations:
   1. Quantities of products, labor, and equipment.
   2. Taxes, insurance, and bonds.
   3. Overhead and profit.
   5. Credit for deletions from Contract, similarly documented.

D. Support each claim for additional costs and work done on a time and material basis, with additional information:
   1. Origin and date of claim.
   2. Dates, times, and by whom work was performed.
   3. Time records and wage rates paid.
   4. Invoices and receipts for products, equipment, and subcontracts, similarly documented.

1.4 CHANGE PROCEDURES

A. Engineer will advise of minor changes in Work not involving an adjustment to Contract Sum/Price or Contract Time as authorized by Contract by issuing supplemental instructions by letter.

B. Engineer may issue Proposal Request including a detailed description of proposed change with supplementary or revised Drawings and specifications, change in Contract Time for executing change. Contractor will prepare and submit an estimate within seven days.
C. Contractor may propose change by submitting a request for change to Engineer, describing proposed change and full effect on Work, with a statement describing reason for change and effect on Contract Sum/Price and Contract Time with full documentation and a statement describing effect on Work by separate or other contractors.

1.5 CONSTRUCTION CHANGE AUTHORIZATION

A. Engineer may issue a document, signed by Owner, instructing Contractor to proceed with a change in Work, for subsequent inclusion in Change Order.
B. Document will describe changes in Work and designate method of determining any change in Contract Sum/Price or Contract Time.
C. Promptly execute change in Work.

1.6 STIPULATED PRICE CHANGE ORDER

A. Based on Proposal Request and Contractor maximum price quotation or Contractor request for a Change Order as approved by Engineer.

1.7 UNIT PRICE CHANGE ORDER

A. For predetermined unit prices and quantities, Change Order will be executed on a fixed unit price basis.
B. For unit costs or quantities of units of work not predetermined, execute Work under a Construction Change Authorization.
C. Changes in Contract Sum/Price or Contract Time will be computed as specified for Time and Material Change Order.

1.8 TIME AND MATERIAL CHANGE ORDER

A. Submit itemized account and supporting data after completion of change, within time limits indicated in Conditions of Contract.
B. Engineer will determine change allowable in Contract Sum/Price and Contract Time as provided in Contract Documents.
C. Maintain detailed records of work done on Time and Material basis.
D. Provide full information required for evaluation of proposed changes and substantiate costs for changes in Work.

1.9 EXECUTION OF CHANGE ORDERS

A. Execution of Change Order: Engineer will issue Change Orders for signatures of parties as provided in Conditions of Contract.

1.10 CORRELATION OF CONTRACTOR SUBMITTALS

A. Promptly revise Schedule of Values and Application for Payment forms to records each authorized Change Order as a separate line item and adjust Contract Sum/Price.
B. Promptly revise progress schedules to reflect any change in Contract Time, revise sub-schedules to adjust time for other items of work affected by the change, and resubmit.
C. Promptly enter changes in Project Record Documents.
PART 2 - PRODUCTS (Not Used)

PART 3 - EXECUTION (Not Used)

END OF SECTION
SECTION 01039 - COORDINATION AND MEETINGS

PART 1 - GENERAL

1.1 SUMMARY

A. Section Includes:
   1. Coordination and field engineering.
   2. Preconstruction and progress meetings.
   3. Examination and preparation.
   4. Cutting and patching.

B. Related Requirements:
   1. Other Division 01 Specification Sections apply to Work of this Section.

1.2 COORDINATION

A. Coordinate scheduling, submittals, and Work of various Project Manual Sections to assure efficient and orderly sequence of interdependent construction element installation, with provisions for accommodating items installed later.

B. Follow routing shown for pipes, ducts, and conduit, as closely as practicable.

C. Coordinate completion and clean-up of Work of separate Sections in preparation for Substantial Completion.

D. After Owner occupancy of premises, coordinate access to site for correction of defective Work and Work not in accordance with Contract Documents, to minimize disruption of Owner activities.

1.3 FIELD ENGINEERING

A. Locate and protect survey control and reference points.

B. Control datum for survey is shown on Drawings.

C. Verify set-backs, easements, drawing dimensions, and elevations.

D. Provide field-engineering services: Establish elevations, lines, and levels, utilizing recognized engineering survey practices.

E. Submit a copy of registered site drawing and certificate signed by Land Surveyor that elevations and locations of Work are in conformance with Contract Documents.

1.4 PRECONSTRUCTION MEETING

A. Engineer will schedule a meeting after Notice to Proceed.

B. Attendance Required: Owner, Engineer, Contractor, and major subcontractors.

C. Agenda:
   1. Designation of personnel representing parties in Contract and Engineer.
   2. Procedures and processing of field decisions, submittals, substitutions, applications for payments, proposal request, Change Orders, and Contract closeout procedures.
   3. Scheduling:
      a. Use of premises by Owner and Contractor.
      b. Owner requirements.
      c. Construction facilities and controls provided by Owner.
      d. Survey and layout.
      e. Security and housekeeping procedures.
      f. Schedules.
g. Procedures for testing.

h. Procedures for maintaining record documents.

D. Engineer will record minutes and distribute copies to participants within five days after meeting.

1.5 PROGRESS MEETINGS

A. Schedule and administer meetings throughout progress of Work as required.
B. Make arrangements for meetings, prepare agenda with copies for participants, and preside at meetings.
C. Attendance Required: Job superintendent, major subcontractors and suppliers, Engineer, as appropriate to agenda topics for each meeting.
D. Agenda:
   1. Review minutes of previous meetings.
   2. Review of Work progress.
   3. Field observations, problems, and decisions.
   4. Identification of problems which impede planned progress.
   5. Review of submittals schedule and status of submittals.
   6. Review of off-site fabrication and delivery schedules.
   7. Maintenance of progress schedule.
   8. Corrective measures to regain projected schedules.
   9. Planned progress during succeeding work period.
  10. Coordination of projected progress.
  11. Maintenance of quality and work standards.
  12. Effect of proposed changes on progress schedule and coordination.
  13. Other business relating to Work.
E. Contractor will record minutes and distribute copies within five days.

PART 2 - PRODUCTS (Not Used)

PART 3 - EXECUTION

3.1 EXAMINATION

A. Verify existing site conditions and substrate surfaces are acceptable for subsequent Work. Beginning new Work means acceptance of existing conditions.
B. Examine and verify specific conditions described in individual specification sections.
C. Verify utility services are available, correct characteristics, and in correct location.

3.2 PREPARATION

A. Clean substrate surfaces prior to applying next material or substance.
B. Seal cracks or openings of substrate prior to applying next material or substance.
C. Apply any manufacturer required or recommended substrate primer, sealer, or conditioner prior to applying any new material or substance in contact or bond.

3.3 CUTTING AND PATCHING

A. Employ skilled and experienced installer to perform cutting and patching.
B. Submit written request in advance of cutting or altering elements which affects:
   1. Structural integrity of element.
   2. Integrity of weather-exposed or moisture-resistant elements.
   3. Efficiency, maintenance, or safety of element.
   5. Work of Owner or separate contractor.
C. Execute cutting, fitting, and patching, including excavation and fill, to complete Work and:
   1. Fit several parts together and integrate with other Work.
   2. Uncover Work to install or correct ill-dimed Work.
   3. Remove and replace defective and non-conforming Work.
   4. Remove samples of installed Work for testing.
D. Execute work by methods to avoid damage to other Work and provide proper surfaces to
   receive patching and finishing.
E. Cut rigid materials using masonry saw or core drill.
F. Restore Work with new products in accordance with requirements of Contract Documents.
G. Fit Work tight to pipes, sleeves, ducts, conduit, and other penetrations through surfaces.
H. Refinish surfaces to match adjacent finishes. For continuous surfaces, refinish to nearest
   intersection. For assembly, refinish entire unit.
I. Identify any hazardous condition exposed to Engineer during Work for decision or remedy.
SECTION 01090 - REFERENCE STANDARDS

PART 1 - GENERAL

1.1 SUMMARY

A. Section Includes: Quality assurance and schedule of references.
B. Related Requirements:
   1. Other Division 01 Specification Sections apply to Work of this Section.

1.2 QUALITY ASSURANCE

A. For products or workmanship specified by association, trade, or Federal Standards, comply with standard requirements, except when more rigid requirements are specified or required by applicable codes.
B. Conform to reference standard by date of issue current on date for receiving bids.
C. Obtain copies of standards when required by Contract Documents.
D. Should specified reference standards conflict with Contract Documents, request clarification from Engineer before proceeding.
E. DO NOT alter contractual relationship of parties to Contract from Contract Documents by mention or inference otherwise in any reference document.

PART 2 - PRODUCTS (Not Used)

PART 3 - EXECUTION (Not Used)

END OF SECTION
SECTION 01300 - SUBMITTALS

PART 1 - GENERAL

1.1 SUMMARY

A. Section Includes:
   1. Submittal procedures and resubmittal requirements.
   2. Construction progress schedules and proposed products list.
   3. Shop drawings and product data.
   4. Manufacturer instructions and certificates.
B. Related Requirements:
   1. Other Division 01 Specification Sections apply to Work of this Section.

1.2 SUBMITTAL PROCEDURES

A. Transmit each submittal using Engineer’s electronic site including Contractor name, address, and phone number.
B. Identify Project, Contractor, subcontractor or supplier, pertinent Drawing sheet and detail number(s), and specification Section number, as appropriate.
C. Apply Contractor stamp, signed or initials certifying review, verification of Products required, field dimensions, adjacent construction Work, and coordination of information, is in accordance with requirements of Work and Contract Documents.
D. Schedule submittals to expedite Project. Coordinate submission of related items.
E. Identify variations from Contract Documents and Product or system limitations detrimental to successful performance of completed Work.
F. Revise and resubmit submittals as required, identify all changes made since previous submittal.
G. Distribute copies of reviewed submittals to concerned parties. Instruct parties to promptly report any inability to comply with provisions.
H. Unrequested Submittals will not be recognized or processed.

1.3 RESUBMITTAL REQUIREMENTS

A. Revise initial submittal as required and resubmit to meet requirements as specified.
B. Mark as RESUBMITTAL.
C. Reuse original transmittal number and supplement with sequential alphabetical suffix for each resubmittal.

1.4 CONSTRUCTION PROGRESS SCHEDULES

A. Submit initial progress schedule electronically to Engineer if required.
B. Submit revised schedules with each Application for Payment, identifying changes since previous version.
C. Submit a horizontal bar chart with separate line for each section of Work, identifying first work day of each week.
D. Show complete sequence of construction by activity, identifying Work of separate stages and other logically grouped activities. Indicate early and late start, early and late finish, float dates, and duration.
E. Indicate estimated percentage of completion for each item of Work at each submission.
F. Indicate submittal dates required for shop drawings, product data, samples, and product delivery dates, including those furnished by Owner.

1.5 PROPOSED PRODUCTS LIST
   A. Within 15 days after date of Notice to Proceed, submit complete list of major products proposed for use, with name of manufacturer, trade name, and model number of each product.
   B. For products specified only by reference standards, give manufacturer, trade name, model or catalog designation, and reference standards.

1.6 SHOP DRAWINGS
   A. Submit all shop drawings electronically.
   B. Drawing size shall be minimum 8-1/2 x 11 inches and maximum of 30 x 42 inches.
   C. Draw details to a minimum size 2 inches equal to 1 foot.
   D. After review, produce copies and distribute in accordance with Article 1.2 “Submittal Procedures,” and record document purposes described in Section 01700 “Contract Closeout.”

1.7 PRODUCT DATA
   A. Mark submittal to identify applicable products, models, options, and other data. Supplement manufacturer-standard data to provide information unique to Project.
   B. Include recommendations for application and use, compliance with specified standards of trade associations and testing agencies.
   C. Include notation of special coordination requirements for interfacing with adjacent work.
   D. After review, distribute in accordance with Article on Procedures above and provide copies for Record Documents described in Section 01700 “Contract Closeout.”

1.8 MANUFACTURER’S INSTRUCTIONS
   A. When specified in individual specification Sections, submit manufacturer printed instructions for delivery, storage, assembly, installation, start-up, adjusting, and finishing, in quantities specified for Product Data.
   B. Identify conflicts between manufacturers’ instructions and Contract Documents.
   C. Indicate special procedures, conditions requiring special attention and special environmental criteria required for application or installation.

1.9 MANUFACTURER CERTIFICATES
   A. When specified in individual specification Sections, submit manufacturer certificate to Engineer for review, in quantities specified for Product Data.
   B. Indicate material or product conforms to or exceeds specified requirements. Submit supporting reference date, affidavits, and certifications as appropriate.
   C. Certificates may be recent or previous test results on material or Product, but must be acceptable to Engineer.

PART 2 - PRODUCTS (Not Used)

PART 3 - EXECUTION (Not Used)

END OF SECTION
SECTION 01400 - QUALITY CONTROL

PART 1 - GENERAL

1.1 SUMMARY

A. Section Includes:
   1. Quality assurance and control of installation.
   2. Inspection and testing laboratory services.
   3. Manufacturer field services and reports.

B. Related Requirements:
   1. Other Division 01 Specification Sections apply to Work of this Section.

1.2 QUALITY ASSURANCE/CONTROL OF INSTALLATION

A. Monitor quality control over suppliers, manufacturers, Products, services, site conditions, and
   workmanship, to produce Work of specified quality.

B. Comply fully with manufacturer instructions, including each step in sequence.

C. Should manufacturer instructions conflict with Contract Documents, request clarification from
   Engineer before proceeding.

D. Comply with specified standards as a minimum quality for Work except when more stringent
   tolerances, codes, or specified requirements indicate higher standards or more precise
   workmanship.

E. Perform work by persons qualified to produce workmanship of specified quality.

F. Secure Products in place with positive anchorage devices designed and sized to withstand
   stresses, vibration, physical distortion, or disfigurement.

1.3 INSPECTION AND TESTING LABORATORY SERVICES

A. Owner will appoint, employ, and pay an independent firm to perform inspection and testing.

B. Independent firm will perform inspections, tests, and other services specified in individual
   specification Sections and as required by Engineer.

C. Reports will be submitted by independent firm to Engineer, in triplicate, indicating observations
   and results of tests and indicating compliance or non-compliance with Contract Documents.

D. Cooperate with independent firm, furnish samples of materials, design mix, equipment, tools,
   storage and assistance as requested.
   1. Notify Engineer and independent firm 48 hours prior to expected time for operations
      requiring services.
   2. Make arrangements with independent firm and pay for additional samples and tests
      required for Contractor use.

E. Retesting required because of non-conformance to specified requirements shall be performed by
   same independent firm on instructions by Engineer. Payment for retesting will be charged to
   Contractor by deducting inspection or testing charges from Contract Sum/Price.

1.4 MANUFACTURER FIELD SERVICES AND REPORTS

A. Submit qualifications of observer to Engineer 30 days in advance of required observations.
   Observer subject to approval of Engineer.

B. When specified in individual specification Sections, require material or Product suppliers or
   manufacturer to provide qualified staff personnel to observe site conditions, conditions of
surfaces and installation, quality of workmanship, start-up of equipment, test, adjust, and balance of equipment as applicable, and initiate instructions when necessary.

C. Individuals to report observations and site decisions or instructions given to applicators or installers supplemental or contrary to manufacturer-written instructions.

D. Submit report in triplicate within 30 days of observation to Engineer for review.

PART 2 - PRODUCTS (Not Used)

PART 3 - EXECUTION (Not Used)

END OF SECTION
SECTION 01500 - TEMPORARY FACILITIES AND CONTROLS

PART 1 - GENERAL

1.1 SUMMARY

A. Section Includes
   1. Temporary Utilities: Electricity, lighting, heat, ventilation, telephone service, water, and
      sanitary facilities.
   2. Temporary Controls: Barriers, enclosures and fencing, protection of the Work, and water
      control.
   3. Construction Facilities: Access roads, parking, progress cleaning, project signage, and
      temporary buildings.

B. Related Requirements:
   1. Other Division 01 Specification Sections apply to Work of this Section.

1.2 TEMPORARY WATER SERVICE

A. Provide, maintain, and pay for suitable quality water service required for construction
   operations.
B. Exercise measures to conserve water.
C. Extend branch piping with outlets located so water is available by hose with threaded
   connections. Provide temporary pipe insulation to prevent freezing.

1.3 TEMPORARY SANITARY FACILITIES

A. Provide and maintain required facilities and enclosures.
B. DO NOT use permanent building facilities during construction operations. Daily maintain a
   clean and sanitary condition.

1.4 BARRIERS

A. Provide barriers to prevent unauthorized entry to construction areas to allow for Owner use of
   site and protect existing facilities and adjacent properties from damage from construction
   operations and demolition.
B. Provide protection for plant life designated to remain. Replace damaged plant life.
C. Protect non-owned vehicular traffic, stored materials, site, and structures from damage.

1.5 WATER CONTROL

A. Grade site to drain. Maintain excavations free of water. Provide, operate, and maintain pumping
   equipment.
B. Protect site from puddling or running water. Provide water barriers as required to protect site
   from soil erosion.

1.6 PROTECTION OF INSTALLED WORK

A. Protect installed Work and provide special protection where specified in individual
   specification Sections.
B. Provide temporary and removable protection for installed Products. Control activity in immediate work area to minimize damage.
C. Prohibit traffic from landscaped areas.

1.7 ACCESS ROADS
A. Construct and maintain temporary roads accessing public thoroughfares to serve construction area.
B. Extend and relocate as Work progress requires. Provide detours necessary for unimpeded traffic flow.
C. Provide and maintain access to fire hydrants, free of obstructions.
D. Existing onsite roads may be used for construction traffic.

1.8 PROGRESS CLEANING
A. Maintain areas free of waste materials, debris, and rubbish. Maintain a clean and orderly site.
B. Remove waste materials, debris, and rubbish from site and dispose off-site at intervals as required to maintain clean site.

1.9 PROJECT IDENTIFICATION
A. Contractor will provide project identification signs.

1.10 REMOVAL OF UTILITIES, FACILITIES, AND CONTROLS
A. Remove temporary above grade or buried utilities, equipment, facilities and materials as soon as permanent facilities can be utilized.
B. Remove underground installations to a minimum 2-foot depth.
C. Clean and repair damage caused by installation or use of temporary work.
D. Restore existing facilities used during construction to original condition. Restore permanent facilities used during construction to specified condition.

PART 2 - PRODUCTS (Not Used)

PART 3 - PRODUCTS (Not Used)

END OF SECTION
PART 1 - GENERAL

1.1 SUMMARY

A. Section Includes:
   1. Products, options, and substitutions.
   2. Transportation and handling.
   3. Storage and protection.

B. Related Requirements:
   1. Other Division 01 Specification Sections apply to Work of this Section.

1.2 PRODUCTS

A. Products: Means new material, machinery, components, equipment, fixtures, and systems forming Work. Does not include machinery and equipment used for preparation, fabrication, conveying and erection of Work. Products may also include existing materials or components required for reuse.

B. Do not use materials and equipment removed from existing premises, except as specifically permitted by Contract Documents.

C. Provide interchangeable components of same manufacturer, for similar components.

1.3 PRODUCT DELIVERY, STORAGE, AND HANDLING

A. Delivery
   1. Deliver materials, products, and equipment to project site in undamaged condition in manufacturer original, unopened containers or packaging, with identifying labels intact and legible.
   2. Promptly inspect shipments to assure products comply with requirements, quantities are correct, and products are undamaged.
   3. Provide equipment and personnel to handle products by methods to prevent soiling, disfigurement, or damage.
   4. Arrange deliveries in accordance with construction schedule and in ample time to facilitate inspection prior to installation to avoid unnecessary delays in construction process.

B. Storage
   1. Store and protect products in accordance with manufacturer instructions, with seals and labels intact and legible. Store sensitive products in weather-tight, climate-controlled enclosures.
   2. For exterior storage of fabricated products, place on sloped supports, above ground.
   3. Provide off-site storage and protection when site does not permit onsite storage or protection.
   4. Cover products subject to deterioration with impervious sheet covering. Provide ventilation to avoid condensation.
   6. Provide equipment and personnel to store products by methods to prevent soiling, disfigurement, or damage.
7. Arrange storage of products to permit access for inspection in local warehouse. Periodically inspect to assure products are undamaged and maintained under specified conditions.
8. Materials, products, and equipment may be stored off-site in bonded and insured local warehouse approved by Engineer and Owner. Pay all costs incurred for off-site storage facilities. Products properly stored in off-site storage facilities may be included in progress pay requests with written approval of Owner.
C. Handling: Handle materials, products, and equipment in a manner prescribed by manufacturer or specified to protect from damage during storage and installation.

1.4 PRODUCT OPTIONS
A. Products Specified by Reference Standards or by Description Only: Any product meeting those standards or description.
B. Products Specified by Naming One or More Manufacturers: Products of manufacturers named and meeting specifications, no options or substitutions allowed.
C. Products Specified by Naming One or More Manufacturers with a Provision for Substitutions: Submit a request for substitution for any manufacturer not named.

1.5 SUBSTITUTIONS
A. For bidding purposes as provided in "Information to Bidders."
B. Substitutions may be considered when a product becomes unavailable through no fault of Contractor.
C. Document each request with complete data substantiating compliance of proposed Substitution with Contract Documents.
D. A request constitutes a representation that Bidder:
   1. Has investigated proposed product and determined it meets or exceeds quality level of specified product.
   2. Will provide same warranty for Substitution as for specified product.
   3. Will coordinate installation and make changes to other Work be required for Work complete with no additional cost to Owner.
   4. Waives claims for additional costs or time extension which may subsequently become apparent.
   5. Will reimburse Owner for review or redesign services associated with re-approval by authorities.
E. Substitutions not considered when indicated or implied on shop drawing or product data submittals, without separate written request, or when acceptance will require revision to Contract Documents.
F. Substitution Submittal Procedure:
   1. Submit four copies of request for Substitution for consideration. Limit each request to one proposed Substitution.
   2. Submit shop drawings, product data, and certified test results attesting to proposed product equivalence.
   3. Engineer will notify Contractor, in writing, of decision to accept or reject request.
PART 2 - PRODUCTS (Not Used)

PART 3 - EXECUTION (Not Used)

END OF SECTION
SECTION 01700 - CONTRACT CLOSEOUT

PART 1 - GENERAL

1.1 SUMMARY

A. Section Includes
   1. Closeout procedures and final cleaning.
   2. Adjusting, spare parts, and maintenance materials.
   3. Project record documents and warranties.

B. Related Requirements:
   1. Other Division 01 Specification Sections apply to Work of this Section.

1.2 CLOSEOUT PROCEDURES

A. Submit written certification that Contract Documents were reviewed, Work was inspected and complete in accordance with Contract Documents, and ready for Engineer inspection.

B. Provide submittals to Engineer required by governing or other authorities.

C. Submit final Application for Payment identifying total adjusted Contract Sum, previous payments, and sum remaining due.

1.3 FINAL CLEANING

A. Execute final cleaning prior to final inspection.

B. Clean site. Sweep paved areas, rake, clean landscaped surfaces.

C. Remove waste and surplus materials, rubbish, and construction facilities from site.

D. Repair, patch, and touch-up marred surfaces to match adjacent finishes.

1.4 ADJUSTING

A. Adjust operating Products and equipment to ensure smooth and unhindered operation.

1.5 PROJECT RECORD DOCUMENTS

A. Maintain onsite, one set of the following record documents. Record actual revisions to Work:
   2. Specifications.
   3. Addenda.
   5. Reviewed shop drawings, product data, and samples.

B. Store Record Documents separate from documents used for construction.

C. Record information concurrent with construction progress.

D. Specifications: Legibly mark and record at each Product section description of actual Products installed, including:
   1. Manufacturer name, product model, and number.
   2. Product substitutions or alternates utilized.
   3. Changes made by Addenda and Modifications.
E. Record Documents and Shop Drawings. Legibly mark each item to record actual construction including:
   1. Measured horizontal and vertical locations of underground utilities and appurtenances referred to permanent surface improvements.
   2. Field changes of dimension and detail.
   3. Details not on original Contract Drawings.
   4. Changes made by addenda and modifications.
F. Submit documents to Engineer with claim for final Application for Payment.

1.6 WARRANTIES
   A. Provide duplicate notarized copies.
   B. Execute and assemble documents from subcontractors, suppliers, and manufacturers.
   C. Provide Table of Contents and assemble with metal prong binder in durable plastic presentation cover.
   D. Submit prior to final Application for Payment.
   E. For items of Work delayed beyond date of Substantial Completion, provide updated submittal within ten days after acceptance, listing date of acceptance as start of warranty period.

1.7 SPARE PARTS AND MAINTENANCE MATERIALS
   A. Provide products, spare parts, maintenance, and extra materials in quantities specified in individual specification Sections.
   B. Deliver to project site and place in location as directed. Obtain receipt prior to final payment.

PART 2 - PRODUCTS (Not Used)

PART 3 - EXECUTION (Not Used)

END OF SECTION
SECTION 02110 - SITE PREPARATION AND CLEARING

PART 1 - GENERAL

1.1 SUMMARY
A. Section Includes:
   1. Site preparation, excavation, grading, trenching and backfilling required for the project. Excavation, of whatever material encountered, for all structures in the project, shall be made as required by Drawings or as directed by Engineer. Material required to be moved during preparation of the site, excess excavated material or any material unsuitable for use in backfilling shall be disposed of by Contractor.
   2. Excavation will not be classified and no additional compensation will be allowed for rock. Bidders shall make such investigations of the nature of material to be encountered in excavations as they deem necessary and shall assume all responsibility for fully informing themselves of the character of such material.
   3. Contractor shall furnish all materials, equipment tools, labor, superintendence, and incidentals required to perform the Work as indicated on the drawings, as directed by the Engineer and as specified.
B. Related Sections:
   1. Division 01 Specification Sections apply to Work of this Section.
   3. Section 02730 – Potable Water Piping, Valves, Fittings, and Appurtenances.

1.2 TRENCH SAFETY
A. Contractor shall be responsible for complying with Texas House Bills 662 and 665 safety standards and with the applicable OSHA regulations concerning trench excavation, general excavation and construction safety.
B. Contractor shall be responsible for implementing a trench safety system wherever the trench depth exceeds 5 feet. Contractor shall refer to the section of the specifications Section 02151 - Trench Safety Systems, and to the details shown on the plans for approved trench safety methods for pipelines.

PART 2 - PRODUCTS (Not Used)

PART 3 - EXECUTION

3.1 CLEARING OF RIGHT-OF-WAY
A. Clearing shall consist of removal and lawful disposal of vegetation, rubble, trees, tree roots, down timbers, snags, brush, pavements of various types, and rubbish within the areas to be cleared. Individual trees, groups of trees or other vegetation not required to be removed and occurring outside the earthwork area shall be protected against unnecessary cutting, breaking or skimming of roots, skimming and brushing of bark, or smothering of trees by stockpiling construction materials or excavated materials within drip lines.
3.2 DISPOSAL
   A. Contractor shall lawfully dispose of all material removed from the job site.

3.3 TRENCHING AND BACKFILLING PIPELINES
   A. Excavation for pipe trenches shall be made to the lines and grades shown on the drawings and established in the field. Trenching and backfilling for water pipelines are specified in other sections of these specifications.

3.4 CLEAN UP
   A. After completion of all work in connection with the project, the entire work area and any adjacent areas disturbed by the construction shall be cleaned of all construction debris, rocks and excess materials and all such material shall be removed from the site or highway right-of-way and disposed of by Contractor. Any sod disturbed by the installation of these facilities shall be replaced. The entire area shall be graded to uniform surfaces and shall present a neat and clean appearance before final acceptance.

END OF SECTION
SECTION 02151 - TRENCH SAFETY SYSTEMS

PART 1 - GENERAL

1.1 SUMMARY

A. Section Includes:
   1. Trench safety systems for trench excavations greater than 5 feet in depth. All work performed under this section shall also comply with OSHA Part 1926, Subpart P and all state and local codes.
   2. Contractor shall be responsible for complying with the requirements of the specifications, drawings and all applicable codes. Contractor shall immediately notify the Engineer of any unforeseen field conditions which might affect the integrity of the trench safety system.

B. Related Sections:
   1. Division 04 Specification Sections apply to Work of this Section.
   2. Appendix A - OSHA Part 1926, Subpart P.

1.2 SCOPE OF WORK

A. Trench and excavation safety systems either by cut back method or braced excavation method for all trenches 5 feet and deeper whether indicated on the drawings or required by actual field conditions. Trenches not exceeding 5 feet in depth shall be protected as required by OSHA, state, and local standards.

B. Alternative methods of trench safety may be submitted for approval to Engineer, however alternative methods will not be reviewed or approved prior to bid opening.

C. Contractor holds responsibility to adhere to the latest version from OSHA.

1.3 SUBMITTALS

A. Provide detailed drawings for proposed trench safety systems. Clearly identify where each system is proposed for use and type of system to be used. Trench excavations cannot be started until trench safety systems have been submitted and approved by the Engineer.

B. Trench Boxes: Submit manufacturer's standard data sheet and certificate of compliance signed by a registered engineer stating the maximum allowable depth for the given design pressure for each type of trench box proposed for use.

C. Alternative Systems: If alternative systems composed of steel, aluminum, wood or a combination of materials are proposed, submit design calculations signed by a registered engineer showing all member properties, design strengths and any stress increases used with justification for their use.

1.4 QUALITY ASSURANCE

A. Trench safety systems shall be designed based on actual field conditions. Contractor shall review and determine the field conditions for the project.

B. Work shall be performed by forces having at least two years’ experience with similar types of trench safety systems. All prefabricated items used in trench safety systems shall be manufactured by a company with at least two years’ experience in fabricating the items.

C. Contractor shall be responsible for complying with all trench safety requirements and for the safety of trenches and excavations.
PART 2 - PRODUCTS

2.1 MATERIALS

A. Provide suitable materials capable of withstanding imposed loads without excessive deflections.
   Materials shall be clean, free of rust, holes, knots and other defects.
   1. Steel shall be of type and thickness as required by design and shall have a minimum
      yield stress of F_y = 36000 psi.
   2. Aluminum: Type 6061-T6, thickness as required by design.
   3. Wood in Contact with Earth: Pressure-treated soft woods or untreated hardwoods.
   4. Wood not in Contact with Earth: Soft or hardwood as required by design.

PART 3 - EXECUTION

3.1 JOB CONDITIONS

A. Prior to starting trench excavations, Contractor shall examine all site conditions and note any
   conditions in existing pavements, structures and other items which may be adversely affected
   by trenching operations. Prepare a written list of all such conditions and submit the list to
   Engineer. During trenching operations note any changes which occur to existing pavements or
   structures and submit a written report to the Engineer of all such changes.

3.2 EXISTING UTILITIES

A. Prior to starting trench excavations, chart and field locate all existing utilities. Notify owners of
   all utilities of work to be performed. Protect all existing utilities from damage. Provide
   additional support for utility lines which cannot span trench width. Do not interrupt existing
   services without written approval by Engineer and utility owner.

3.3 TRENCHING PROCEDURES

A. Provide shoring systems in accordance with the submitted design to adequately resist earth
   pressures indicated on the drawings.
B. Proceed with work in an orderly fashion. Install trench bracing systems as soon as possible after
   opening trenches. Do not allow workers in trench prior to installing trench bracing systems.
C. Backfill trenches as soon as possible after completion of work.
D. Stockpile excavated materials at 3 feet away from edge of trench.
E. Maintain barricades and signage as required by state and local codes to protect open
   excavations.
F. Do not allow surface water to enter excavations. Properly grade areas adjacent to trench
   excavations to control surface drainage away from excavations. Excavations which must remain
   open during periods of rainfall shall be covered with suitable material to prevent accumulations
   of water in excavation.
G. If cut back method is employed, maintain a clear distance of 3 feet from edge of cut to avoid
   allowing loose material to enter trench.
H. Do not operate heavy equipment except for trench digging equipment within 20 feet of edge of
   excavation.

END OF SECTION
SECTION 02510 - REMOVING AND REPLACING EXISTING ASPHALT PAVEMENT

PART 1 - GENERAL

1.1 SUMMARY

A. Section Includes:
   1. Furnishing all labor, materials and equipment required to make cuts in existing asphalt paving, remove the existing pavement and replace the pavement as specified herein and shown on Drawings.

B. Related Sections:
   1. Division 01 Specification Sections apply to Work of this Section.
   2. Section 02730 – Potable Water Piping, Valves, Fittings, and Appurtenances.

1.2 REFERENCED STANDARDS

A. AASHTO T96, Los Angeles Abrasion.
C. ASTM P946.

PART 2 - GENERAL

2.1 ASPHALT MATERIAL

A. Paving Mixture
   1. Asphalitic concrete surfacing shall consist of a mixture composed of mineral aggregate and asphaltic material, placed on a previously compacted base course. All methods employed in performing the work and all equipment, plant and machinery used for handling materials and executing any part of the work shall be subject to the approval of the Engineer before the work is started. Equipment, tools, machinery and plant shall be maintained in first class condition, and whenever found unsatisfactory shall be changed or improved as required.
   2. The surface course composed of mineral aggregate and bituminous material shall produce a mixture which, when designed and tested in accordance with these specifications and methods outlined in the Texas Department of Transportation Bulletin C-14, shall have the following laboratory density and stability:
      a. Density: Minimum 93 percent, maximum 95 percent.
      b. Stability: Not less than 40.
   3. Paving mixture shall be composed of a uniform mixture of coarse aggregate, fine aggregate, mineral filler and asphaltic cement. Material forming the mixture shall be proportioned by weight. Grading of each constituent shall be such as to produce, when proportioned, a mixture conforming to the limitations for grading of a Type D (Fine Grade Surface Course) meeting 1993 TxDOT Specifications. Asphalt material shall form approximately 6 percent of the mixture by weight. Mixture shall meet the requirements of SDHPT 1982 specifications Item 350. Thickness of the asphaltic concrete shall be as shown on Drawings or as specified.

B. Environmental Restrictions: Do not place asphaltic mixture when air temperature is below 45 degrees F and falling. Instead, place when air temperature is above 40 degrees F and rising.
with further provision that materials placed only when weather conditions, in Engineer’s opinion, are suitable.

2.2 TACK COAT

A. Tack Coat Material: Asphalt for tack coat shall be rapid-curing cutback asphalt and shall meet TxDOT specifications. Tack coat shall be RC-250.

B. Environmental Restrictions: Do not apply tack coat when air temperature is below 50 degrees F and falling, but placed when air temperature is 40 degrees F and rising. No tack coat shall be applied when weather conditions, in the opinion of the Engineer, are not suitable.

PART 3 - GENERAL

3.1 EXISTING PAVEMENT REMOVAL

A. Wherever necessary to make cuts in existing asphalt pavement, make to cause least amount of damage to adjoining surfaces. In removing asphalt pavement, surface shall be saw-cut along each side of trench ahead of trenching machine, remove width to be sufficient to allow a shoulder on each side of trench as shown on drawings, and surfacing and base removed with trenching machine as trench is excavated. Tunneling required under curb and gutter.

3.2 REPLACING ASPHALTIC PAVING CUTS

A. After completion of backfill in areas where an asphalt type of paving is removed and sufficient time passed for ponding water to leach out of backfill material, a lean concrete, two sack per CY, backfill is placed to width shown on plans. The 6-inch slab of lean concrete (minimum) shall be placed in trenched-out area and surface of concrete struck off to bottom of proposed HMAC pavement surface coarse. Slab shall be given rough but even finish with wood float. Use High Early Strength Cement. Surfacing may be applied 24 hours after completing the slab.

B. After completion of the base slab and ellipse of the required time, a surface course of asphaltic concrete as specified above shall be laid as specified herein. Immediately prior to placing surfacing, the existing surfacing shall be saw-cut back 3 inches from the edge of the concrete slab, the cut being vertical and in a straight line longitudinally, and the base shall be swept clean of all dirt and loose material. The base shall then be tacked by spraying with from 0.10 to 0.15 gallon per square yard of cut-back asphalt. Hand spraying or mopping will be permitted. The surfacing material shall then be applied; as the material is placed it shall be thoroughly raked and leveled. After the surfacing has been placed as described above, it shall be rolled with a suitable 8-ton (or larger) flat wheel roller. Care shall be taken to replace the pavement to the proper cross-section and elevation. In general, the new surfacing, after initial rolling, shall be from 1/4- to 3/8-inch above the old surfacing to allow for further compaction. If, after rolling, there are any high or low spots, such places shall be corrected by loosening the surface and then adding or removing the proper amount of asphaltic concrete and then recompacting the surface.

END OF SECTION
SECTION 02730 - POTABLE WATER PIPING, VALVES, FITTINGS, AND APPURTENANCES

PART 1 - GENERAL

1.1 SUMMARY

A. Section Includes:
   1. Constructing all piping and pipe accessories required for the project. Contractor shall furnish all materials, equipment, tools, labor, superintendence, and incidentals required for the complete construction of the Work as shown on the Drawings and as specified herein. All materials used in construction of the pipelines shall be new and of the size, type, and class as shown on the Plans and as specified herein for the various items of construction.

B. Related Sections:
   1. Division 01 Specification Sections apply to Work of this Section.
   3. Section 02750 - Pipe Installation.

1.2 SUBMITTALS

A. Submit all manufacturers’ data on all pipe, fittings, specials, service tape, valves, meters, and other materials specified herein to be used on the Project. Include pipe thickness class calculations, special coatings and lining information, and special embedment requirements differing from that indicated in the Plans and Specifications.

1.3 CERTIFICATION

A. Certifications properly executed by the manufacturer shall be furnished to Engineer showing compliance with the Specification requirements and standards sighted herein. Test data from tests performed shall be provided as requested by Engineer.

1.4 INSPECTION

A. Engineer and his representatives shall have access to all phases of Work. The manufacturer and Contractor shall provide proper facilities for access and inspection. Material, fabricated parts, and pipes which are discovered to be defective, or which do not conform to the requirements of this Specification, will be subject to rejection at any time prior to final acceptance of the pipe.

1.5 SCHEDULE OF PIPE

A. Only types of pipe considered for use on this project are those specified in this Section. Each specified type of pipe shall be used only on those pipelines for which designated.

<table>
<thead>
<tr>
<th>Size and Use</th>
<th>Type and Class</th>
</tr>
</thead>
<tbody>
<tr>
<td>Water Line 6&quot; (Potable)</td>
<td>PVC, C900, DR18</td>
</tr>
</tbody>
</table>
PART 2 - PRODUCTS

2.1 GENERAL

A. Contractor may select type of pipe to install on a particular pipeline, provided that type of pipe is specified herein for use on that pipeline. All pipe of like size and use, however, shall be of the same type and class. Only approved pipe shall be used in the construction of all pipelines and piping.

B. All pipe used in this Project must meet the requirements of American National Standards Institute/National Sanitation Foundation Standard 61 (ANSI/NSF 61).

2.2 POTABLE WATER PIPE

A. C900 Polyvinyl Chloride (PVC) Pipe (Potable Water):

1. PVC pressure pipe shall meet the requirements of ANSI/AWWA C900, latest revision and shall be Class 150 cell classification 12454-A or class 12454-B virgin compounds as defined in ASTM D1784 with an established hydrostatic-design-basis rating of 4000 psi for water at 73.4 degrees F, minimum D.I. of 18 with cast iron pipe o.d. Elastomeric gaskets shall be manufactured to conform with the requirements of ASTM F477. All pipe shall be suitable for use as pressure conduit. Bell section shall be designed at least as hydrostatically strong as the pipe. Joint shall be in compliance with the requirements for ASTM D3319.

2. AWWA C900 pipe shall be marked as prescribed by AWWA Standards including nominal size, dimension ratio, AWWA pressure class, manufacturer’s name and code, and seal of testing agency that verified the suitability of the pipe material for potable water service.

3. Each length of pipe (standard and random), including the integral bell, shall be pressure tested to four (4) times the rated pressure for a minimum of 5 seconds. Pipe shall meet all additional test requirements as described in AWWA C900.

B. C900 Restrained Joint PVC Pipe (Potable Water):

1. Pipe provided under this Section shall meet all requirements of AWWA C900 and Article 2.2B except as modified herein.

2. Restrained joint PVC pipe shall be Certa-Lok as manufactured by Certa Teed or equal.

3. Pipe shall be joined using separate couplings with bevelled edges, built-in sealing gaskets, and restraining grooves. Restraining splines shall be square and made of Nylon 101. Each pipe and coupling shall carry UL and FM listing labels and NSF approved as indicated in Article 2.1B.

2.3 PIPE FITTINGS

A. Ductile Iron Fittings:

1. Fittings for ductile iron pipe shall be cast iron or ductile iron, be mechanical joint, flanged, or a combination as shown or required, and conform to AWWA C110. In general, use flange fittings on all exposed piping. All other fittings shall be mechanical joints.

2. All ductile iron fittings shall be coated and lined in accordance with Article 2.2 for the service conditions to be experienced.

3. All ductile iron fittings shall be cast from the same quality of metal used in casting ductile iron pipe and shall be subjected to the same test requirements. Marking and sizing shall be as required for the ductile iron pipe.
4. All flanged fittings shall be faced and drilled in accordance with the standard drilling for 
ASA B16.1 Class 150 ductile iron fittings.
5. Bolts shall be of the length and diameter required by the ASA specification for Class 125 
flanges. Bolts and nuts shall be of best quality mild steel and shall be provided with 
hexagonal heads, except where other types of bolts are specified. Ring gaskets shall be 
used in all flanged joints and shall be of a rubber composition sheet packing and shall be 
as manufactured by Rainbow, Durable Barlock, or equal.

B. PVC Fittings: Fittings used with PVC water supply pipeline shall be ductile or cast iron 
conforming to requirements of ANSI/AWWA C110/A21.10-87 or ANSI/AWWA 
C153/A21.53-94, and suitable for use with the specified PVC pipe with which they are used.

C. Restraint Devices for PVC Pipe: Where indicated on Contract Drawings, use mechanical joint 
restraints. In lieu of concrete thrust blocking, unless indicated otherwise, Contractor shall have 
option of using restrained joints. Restraint mechanism shall consist of a plurality of 
individually-actuated gripping surfaces to maximize restraint capability. Glands shall be 
manufactured of ductile iron conforming to ASTM A536-80. The gland shall be such to replace 
the standardized mechanical joint gland and can be used with the standardized mechanical joint 
bell conforming to ANSI/AWWA C111/A21.11 and ANSI/AWWA C153/A21.53 or latest 
version. Use twist-off nuts, sized same as tee-head bolts, to ensure proper actuating of 
restraining devices. Restraining glands shall have a pressure rating equal to pipe used. 
Restraining glands shall have been tested to ASTM F1674-96, listed by Underwriters 
Laboratories, Inc., and approved by Factory Mutual. The restraint shall be the EBBA Iron 
Series 2000PV or approved equal.

D. Restraint shall be manufactured of ductile iron conforming to ASTM A536. Utilize a split ring 
behind pipe bell. Use serrated ring to grip pipe and use a sufficient number of bolts to connect 
belt and gripping ring. The combination shall have a minimum working pressure and test 
pressure rating to meet that specified for pipe. Restraint shall be Series 1600 (C900) or 6500 
(IPS) as manufactured by EBBA Iron Inc., or approved equal.

2.4 VALVES

A. Gate Valves:
   1. Install gate valves, of the size, type, and configuration indicated, where shown on Plans. 

Gate valves shall be flanged, mechanical joint, or hub end as shown on Drawings or as 
required by type of joint used in piping. All valves shall open by turning to the left and, 
unless otherwise specified, shall have non-rising stems and be furnished with a 2-inch 
operating nut when valves are buried, and furnished with hand wheels when above 
ground. In cases where operating nut is more than 3 feet below ground, valves shall be 
supplied with an operator extension to position the operating nut within 3 feet of the 
finished ground surface.

2. Gate valves shall be furnished with O-ring stem seals up to 12 inches in size; 16 inches 
and over shall have stuffing box type stem seals. Non-rising stem valves are to be in 
compliance with ANSI/AWWA C509.

3. Gate valves shall be designed for a working pressure of 150 psig and shall be as 
manufactured by Mueller, or approved equal.

4. See Article 2.3 for restraint joint requirements.

B. Valve Boxes and Extension Stems:
   1. Extension stems shall be furnished on buried valves where the top of the operating nut is 
more than 36 inches below finished grade. Top of the extension stem shall not be more 
than 9 inches below the top of the valve box.
2. Buried valves shall be provided with cast iron valve boxes. Boxes shall be designed to fit over a section of 6-inch C900 PVC rise pipe to use as an extension from the top of the valve to within 8 inches of the ground surface. The box shall have a heavy cast iron cover and flange type base, with base approximately 4 inches larger in diameter than the outside diameter of the barrel of the box. The necessary length of 6-inch C900 PVC riser pipe required for the extension shall be considered as a part of the box.

2.5 TAPPING VALVES

A. Tapping valves shall be resilient seat type with body and bonnet made of ductile iron and rated for 250 psi working pressure plus 75 psi surge allowance. The mating valve flange to the tapping sleeve outlet must have a raised male face, conforming to MSS SP-60 to ensure true alignment of valve and tapping machine. The outlet end of the valve shall have the desired joint connection for the intended pipe. All interior and exterior ferrous surfaces shall be protected against corrosion by fusion-bonded epoxy coating. Coating shall be applied prior to assembly to assure coverage of all exposed areas, including bolt holes. Tapping valves shall be those manufactured by American Flow Control, Kennedy, M&H, Mueller, or approved equal. Contractor shall provide a solid foundation for support of the tapping machine.

2.6 TAPPING SLEEVES

A. Tapping sleeves shall be full wrap-around type, cast iron, or approved equal, tapping sleeves as manufactured by Mueller, M&H, or Clow Corporation, and shall be Class 150.

2.7 FIRE HYDRANTS

A. Fire hydrants shall be iron body, bronze-mounted throughout, and designed for a working pressure of 150 lbs/in². Hydrants shall have a 5 1/4-inch valve opening, two 2 1/2-inch hose nozzles, and one 4 1/2-inch steamer nozzle. Four 1 2-inch hose threads for all nozzles shall be National Standard threads. Operating nut shall be standard 1 1/2-inch pentagon opening counter-clockwise. Hydrants shall be for 6-inch mains with a hub end shoe connection, and be for a 4-foot bury. Hydrants shall be compression type, opening against pressure have a breakable safety flange and a breakable stem coupling which breaks cleanly upon impact. Hydrants shall be dry-top design. Valve stem shall be equipped with a bronze sleeve at the stuffing box. Stuffing box shall be provided with O-ring seals. Hydrants shall be M&H-AWWA Traffic Model, Mueller Centurion, or approved equal.

2.8 EMBEDMENT MATERIAL

A. General: Embedment for flexible pipe is defined as portion of material from a point 4 inches below the bottom of the pipe to a point 6 inches above the top of pipe (12 inches for PVC pipe).

B. Embedment Material: Embedment material shall be type and class indicated on Drawings. No classification of embedment material. The most granular material removed from trench shall be used for bedding and embedment around the pipe.

PART 3 - EXECUTION

3.1 GENERAL

A. All pipe, fittings, valves, and accessories shall be furnished and installed as shown on Drawings and specified herein. All materials shall be installed in accordance with approved manufacturer
recommendations in accordance with these Specifications, and shall be accomplished by
workers skilled in this type of Work.
1. **Inspection of Material:** Inspect pipe, fittings, and accessories upon delivery and during
Work progress. Any material found defective will be rejected by Engineer, and
Contractor shall remove such defective material from site of Work.
2. **Responsibility for Materials:** Contractor is responsible for all materials furnished by him
and shall replace, at his own expense, all material found defective in manufacture or
damaged in handling after delivery.
3. **Handling Pipe and Accessories:** All pipe, fittings, and other accessories shall, unless
otherwise directed, be unloaded at point of delivery, hauled to and distributed at Work
site by Contractor. In loading and unloading, items shall be lifted by hoists, slid, or rolled
on skidways, to avoid shock or damage to the materials. Under no circumstances shall
they be dropped. Pipe handled on skidways must not be skidded or rolled against pipe
already on the ground.
4. **Connections to Existing Lines:** Connections between new Work and existing Work,
where required, shall be made using proper specials, transition sleeves, and fittings to
suit the actual conditions; additional bends may also be necessary to provide minimum
pipe separations as required by TCEQ. These fittings, special sleeves, and bends shall be
provided after verification from Engineer. When necessary to interrupt service to
existing facilities to make connection to an existing line, Contractor may be required to
make connections at a time designated by Owner at no additional cost to Owner.

3.2 **TRENCHING**

A. **Pipe trenches shall be excavated to lines and grades shown on Drawings or as established by
Engineer.** Before excavation begins in paved areas, existing pavement shall be cut or sawed to a
neat line by methods meeting Engineer approval. All trenching, shoring, side walls, and other
Work related to trenching shall be done in accordance with Section 02151 - Trench Safety
Systems, and Contractor-approved trench safety program. In some areas of limited right-of-way,
or when necessary to protect existing facilities, slope of trench wall shall be limited. Where
necessary to stay within maximum width limits at top of pipe, trench shall be adequately braced
and shored. Contractor shall be fully responsible for any damage to adjacent structures due to
inadequate trench shoring. Where grades for pipelines are not shown on the Plans, the depth
of the trench shall be a minimum of 4 feet plus pipe diameter.

B. Where special pipe embedment not required, trench shall be excavated to an even grade so
bottom of pipe will rest on bottom of trench throughout entire length of pipe. To obtain a true
even grade, trench shall be fine-graded and shaped to fit the bottom 90 degrees of pipe. Any
part of the trench excavated below grade shall be corrected by filling with approved materials
and thoroughly compacting. If clay, rock, or other unyielding material is encountered in bottom
of trench, remove to a depth of 6 inches below grade, refill with selected materials, and
thoroughly compact to grade.

C. **Dig bell holes of ample dimensions at each joint to permit jointing of pipe made properly.**

D. **Trench digging machinery may be used to make trench excavations except in places where
operation of same would cause damage to existing structures either above or below ground;** in
such instances, hand methods shall be employed. Contractor shall locate all existing
underground lines of which he has been advised, whether shown on Drawings, sufficiently in
advance of trenching operations to prevent any damage thereto and allow for any deviations that
may be required from the established lines and grades. Locations shown for existing
underground piping, utilities, and other underground structures and appurtenances are
approximate. Owner and Engineer do not assume responsibility for failure to show any or all of

0277517 POTABLE WATER PIPING, VALVES, FITTINGS, AND APPURTEANCES 02730 - 5
03/17
these underground facilities or to show them in the exact location. Contractor holds responsibility to field verify the actual locations of all existing structures and underground utilities that could affect Work prior to construction. Extreme care shall be used to prevent such damage and Contractor shall be fully responsible for damage to any such lines. Over-excavation not at the direction of Engineer is to be corrected by Contractor at Contractor expense. Any part of the trench excavated below grade shall be corrected by filling with approved materials and thoroughly compacting.

E. If existing utility line is damaged, Contractor shall immediately notify the proper utility company of any damage to utility line(s), in order that service may be established with the least possible delay. Any damage to existing lines shall be repaired or replaced by Contractor at his own expense and as directed by an official representative of the owner of the damaged line.

F. There will be no classification of, or extra payment for, excavated materials, and all materials encountered shall be excavated as required. Adjacent structures shall be protected from damage by construction equipment. All excavated material shall be piled along the trench in a manner which will not endanger the Work, construction employees, or existing structures, and which will cause the least obstruction to roadways.

G. Contractor shall take all necessary precautions for protecting paved areas from damage by his equipment. Any damage done to such areas as a result of the construction Work, outside the area designated in the Drawings, shall be repaired by Contractor at his own expense.

H. Use of explosives not permitted.

I. Excess trench excavation, not used for backfilling, shall be disposed of by Contractor or as directed by Engineer, at Contractor expense.

3.3 INSTALLING PIPE IN TRENCH

A. After trench is excavated and pipe bed properly prepared, lay pipe in accordance with manufacturer's recommendations and specifications. Inspect each length of pipe for defects immediately before laid. Any defective pipe, damaged by mishandling or any other cause, shall be replaced with satisfactory pipe by Contractor at his expense.

B. Lay pipe true to line and to a uniform grade with no sharp changes in grade. All pipes shall rest on bottom of trench throughout length of pipe and bell holes shall be provided, where required.

C. Pipes shall be clean inside before being lowered into trench and shall be maintained free of water, soil, and all other foreign matter that could injure or obstruct operation of valves or other equipment. All openings to the pipe shall be closed by suitable means at all time except as the actual progress of the work may require. Changes in line or grade that exceed the limitations specified above shall be made with suitable fittings or special herein before specified.

3.4 EMBEDMENT

A. Place required embedment in the trench following placement of the pipe to the haunch of the pipe and thoroughly consolidated by vibratory compactors.

B. From haunch of pipe or top of required embedment to a depth of 6 inches (12 inches for PVC pipe) above top of pipe, trench shall be backfilled by hand or by approved mechanical methods. Material shall be moistened and placed in lifts not exceeding 6 inches in thickness and compacted by tamping. Use special care in placing this portion of the backfill to ensure placement under and around the pipe and to avoid injuring or moving the pipe.

3.5 BACKFILL

A. All trenches shall be backfilled in accordance with this Section as soon as practicable after the pipe has been installed with the specified bedding condition:
1. Material: Backfill material immediately adjacent to the pipe or bedding material shall be the most granular material available from the excavated spoil bank. Material shall be free from rocks, boulders, or other unsuitable material.

2. Placement of Backfill:
   a. If embedment requirements do not require embedment zone material to the top or above the top of the pipe, the first lift of backfill material shall be placed carefully under and around the pipe and thoroughly compacted by means of mechanical tamps to the spring line of the pipe. When the first lift above the top of the pipe has been compacted as specified, the backfilling of the remainder of the trench shall be placed in the trench in layers not to exceed 8 inches, moistened or aerated as necessary to obtain optimum moisture, and compacted with approved mechanical compaction equipment until the required density is obtained.
   b. At Contractor option, backfill may be settled by ponding method. Jetting method of water tamping not allowed. When ponding method of water tamping is used, second lift shall be flooded until free water is evident on the surface for at least two hours. Approximately 1 foot of water shall then be placed in trench and subsequent lifts shall be started by depositing backfill material in the water until a maximum lift of 3 feet is placed. Additional water shall then be added to the backfill material until free water is again evident as before. This procedure shall be repeated until the entire trench is filled and thoroughly settled. Water ponding will not be allowed for bedding of the pipe or in areas to receive pavements.
   c. Density Requirements:
      1) For all backfill in areas to be paved, a density of not less than 90 percent ASTM D698 shall be obtained from bottom of subgrade to 15 inches below subgrade. A density of 90 percent ASTM D698 shall be obtained from 15 inches below subgrade to top of pipe embedment.
      2) For all backfill not in paved areas, density of not less than 90 percent ASTM D698 shall be obtained from top of pipe to ground surface.
      3) Density tests shall be taken as determined necessary by Engineer. A private geotechnical consultant shall perform density test under Contractor direction.
   d. Following the completion of the backfilling, Contractor will maintain trench surface in a satisfactory manner until final completion and acceptance of the finished Project. Maintenance shall include blading as necessary, filling depressions caused by settlement, and other work required to keep areas and roads in satisfactory condition.

3.6 FLANGED AND MECHANICAL JOINT CONNECTIONS

A. General: Fittings, meters, and valves shall be connected with flanged or mechanical joints as indicated on Drawings. Each joint shall include the flanged ends or gland retainer, gasket, and bolts required to complete the connection. Contractor shall perform all Work necessary to make the connections, and he shall be responsible for the quality and proper operation of those joints.

A. Procedures:
   1. Before making connections, pipe, fittings, or valves shall be properly supported but free to move as bolted. Flange faces shall be set so bolt holes are properly aligned, flange faces bear uniformly on gaskets, and so flanges will not be under strain after joint completion.
   2. To avoid strains upon flanges, gradually tighten bolts at uniform rates sequentially on opposite sides of flanges. To assure flanges are not under strain, Engineer may request
bolts to be loosened in any joint. Install mechanical joint fittings and valves in a similar fashion as previously described for flanged.

3. Buried ductile iron joints or cast iron will require polyethylene wrap with a 10 mils thickness.

3.7 PIPE CUTTING

A. Pipe cutting, where indicated on Drawings or approved/directed by Engineer, shall be done without damaging pipe. Cut by means of an approved type of mechanical cutter. Use wheel cutters where practicable. Cutter operators shall be experienced in use of cutting equipment. After cutting, bevel cut edge in accordance with manufacturers’ recommendations where necessary.

3.8 CONCRETE BLOCKING

A. All underground pressure piping shall be blocked with concrete, bearing solidly against the undisturbed trench bank, at all changes in direction and/or elevation. Concrete for blocking shall contain not less than three sacks of cement per cubic yard with a 28-day compressive strength of 3000 psi.

3.9 PIPE IDENTIFIERS

A. All pipes installed in an open trench will be identified with appropriate color and description of 3-inch wide pipe identification marking tape. Install tape parallel to pipe it identifies at 12-18 inches above pipe. Above non-metallic (PVC) pipe material, install a tape detectable with a metal detector from the top of finished grade. Install detectable tape as deep as it can be detected but no closer to the non-metallic pipe than 12 inches.

3.10 DISINFECTION (POTABLE WATER ONLY)

A. Contractors shall furnish all labor, equipment, and materials necessary for disinfection of all POTABLE water lines.

1. Before acceptance for operation, all portions of the water supply pipelines installed shall be disinfected as specified below or as prescribed by AWWA C651, latest revision. Prior to putting the lines in service and after pressure tests have been made, the unit to be disinfected shall be thoroughly flushed with water until all entrained dirt and mud have been removed before introducing the chlorinating material.

2. Chlorinating material shall be liquid chlorine conforming to Federal Specification BB-C-120, or hypochlorite conforming to Federal Specification G-C-114, type II, grade B, or Federal Specification G-S-602, grade 1 or 2. Chlorinating material should provide a dosage of not less than 50 ppm and shall be introduced into the waterline in an approved manner. Treated water shall be retained in the pipe long enough to destroy all non-spore-forming bacteria. Except where a shorter period is approved, retention time shall be at least 20 hours and produce not less than 10 ppm of chlorine at the extreme end of the line at the end of the retention period.

3. All valves on the lines being disinfected shall be opened and closed several times during the contact period. Flush line with clean water until the residual chlorine is reduced to no less than 0.5 ppm. Contractor will take one sample of water per 1,000 linear feet of water supply pipeline, with a minimum of one sample for each section disinfected, in properly sterilized containers and have bacterial examinations made by a laboratory certified by the Texas Department of Health. Repeat disinfection until three tests, the
second taken 24 hours after the first and the third taken 24 hours after the second, indicate the absence of coliform organisms. Unit will not be accepted until satisfactory bacteriological results have been obtained.

4. Contractor shall arrange for satisfactory disposal of water flushed from the lines, using pipe, dikes, or channels to an adequate drain so that no nuisance will be created.

5. Contractor shall include costs for disinfection in the unit cost for installing the pipe.

3.11 CLEAN UP

A. After the construction Work is completed, Contractor shall remove all rubbish, excess materials from excavations, and other debris from Work site. Cleanup cost shall be included in the bid prices for the various units of Work.

END OF SECTION
SECTION 02750 - PIPE INSTALLATION

PART 1 - GENERAL

1.1 SUMMARY
A. Section includes: Pipe bedding and installation procedures.
B. Related Sections:
   1. Division 01 Specification Sections apply to Work of this Section.

1.2 PIPE FITTINGS AND ACCESSORIES
A. Inspect pipe, fittings, and accessories upon delivery and during Work progress. Any material found defective will be rejected by Engineer and Contractor shall remove such defective material from Work site.
B. Contractor is responsible for all material furnished by him and shall replace, at his own expense, all such material found defective in manufacture or damaged after delivery.
C. All pipe, fittings, and other accessories shall, unless otherwise authorized, be unloaded at point of delivery, hauled to, and distributed at Work site by Contractor. In loading and unloading, materials shall be lifted by hoists with slings, slid, or rolled on skidways, to avoid shock or damage to the materials. Under no circumstances shall materials be dropped. Pipe handled on skidways must not be skidded or rolled against pipe already on the ground.

PART 2 - PRODUCTS (Not Used)

PART 3 - EXECUTION

3.1 PIPE BEDDING
A. Pipe bedding and classes of bedding conditions shall be as indicated on Plans and specified herein.

3.2 CLASS A
A. Class A bedding condition pertains to installation of all diameters of PVC, ductile iron bar-wrapped concrete steel cylinder, and steel pipe. For Class A bedding condition, bedding material shall be granular and consist of soil that conforms to these physical characteristics:

<table>
<thead>
<tr>
<th>Sieve Size (Square Openings)</th>
<th>Percent Passing by Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>3/8 inch</td>
<td>No. 200</td>
</tr>
<tr>
<td>3/8 inch</td>
<td>100</td>
</tr>
<tr>
<td>0 - 12</td>
<td>100</td>
</tr>
</tbody>
</table>

B. Granular bedding material shall be non-plastic as determined according to ASTM D4318. Material shall be free from roots, grass, other vegetable matter, clay, clay lumps, or other deleterious materials. Native site soil from cuts may be used for granular pipe bedding, provided it meets requirements. Bedding material shall be placed from 6 inches below pipe to 12 inches above pipe in 8-inch lifts and compacted to 90 percent ASTM D1557 with appropriate compaction equipment. No water flooding allowed. No backfill material larger than 3/8 inch shall be allowed from bottom of trench to 12 inches above pipe.

01277517  PIPE INSTALLATION  02750 - 1
03/17
C. If native material excavated from trench is unsuitable as pipe bedding material, or required compaction is unattainable for the particular spoil bedding material, Contractor shall, at his expense, import select material to mix with or use in place of spoil material. Select material shall meet the requirements for Class A.

3.3 PIPE INSTALLATION IN TRENCH

A. After trench is excavated and pipe bed properly fine-graded, lay pipe in accordance with manufacturer’s recommendations and Specifications. Inspect each length of pipe for defects immediately before laid. Any defective pipe damaged by mishandling or any other cause shall be replaced with satisfactory pipe by Contractor at his expense.

B. Pipe shall be laid true to line and to a uniform grade with no sharp changes in grade. All pipe shall rest on the bottom of trench or upon the prepared bedding throughout length of pipe and bell holes provided, where required, to assure this. Lay all pipe true to lines and depths shown on Plans. Remove and re-lay at Contractor expense any pipe not in true alignment or shows any undue settlement after laying.

C. Pipes shall be clean inside before jointed and maintained free of water, soil, and all other foreign matter. All openings to pipe shall be closed by suitable means at all times except as the actual progress of the Work may require the pipe to be open.

D. Work shall be watertight at all joints and any leaks or defects immediately repaired. Any pipe disturbed for any cause after laid in final position shall be taken up, joint cleaned, and pipe properly re-laid.

E. Contractor shall furnish a pipe inspection vehicle, adequate lighting, and ventilation for inspection of pipe.

F. Contractor shall provide a rigid gauge to measure vertical deflection in pipe after pipe is backfilled for a minimum of 30 days. Gauge shall measure 97 percent of inside diameter of pipe. All pipe sections shall be checked near center of pipe joint, in presence of Engineer’s representative.

G. Contractor shall make provisions not to drop bedding material directly on pipe.

3.4 CONFINED ENTRY SAFETY PLAN

A. Contractor shall submit safety plan for entering confined spaces. Plan shall include an adequate ventilation system provided by Contractor as well as take into account OSHA entry permit requirements for confined space entry. Contractor responsible to provide air monitoring in accordance with OSHA confined entry requirements.

B. Contractor shall have plan available to all personnel entering pipe. Ventilation system will utilize manhole access openings and open ends of pipe to facilitate air movement. Contractor holds responsibility to make adequate provisions to furnish ventilation to meet OSHA requirements. If features are needed to provide an adequate ventilation system other than manhole access openings and open ends of pipe, Contractor holds responsibility to provide additional manway openings or other features necessary, and include any cost in bid price.

C. These procedures apply to all pipe where work is performed on the interior of pipe that requires personnel to enter interior of pipe in the performance of the work and inspection.

D. Contractor shall furnish watertight plugs for pipe ends and/or other openings as required. Contractor shall install and maintain plugs during non-work hours, nighttime, weekends, and non-pipe laying operations, at each location where pipe is installed. Contractor shall provide temporary plugs for all pipe openings normally left open during construction. Information on proposed plugs furnished for use on Project shall be included as part of...
3.5 UTILITY RELOCATIONS

A. Water and Sewer:
   1. Existing water and sewer lines shall remain in service at all times during
      construction, unless otherwise noted on Plans. Existing utilities exposed during
      construction shall be shored or otherwise supported so no damage occurs to exposed
      lines. If leaks develop in any existing, exposed, water or sewer lines, Contractor
      shall immediately repair those leaks at no additional expense to Owner. Contractor
      shall not interrupt service or function or disturb support of any utility without
      written authority from utility owner. Where protection is required to ensure support
      of utilities, Contractor shall place and provide necessary protection and all cost
      associated with such shall be included in the unit price bid for the various sewer line
      items, unless a specific bid item is stated.
   2. Any existing lines requiring relocation by Contractor shall be relocated in
      accordance with these Specifications.
   3. All temporary or permanent relocation, and alteration of utilities requested by
      Contractor for convenience, shall be his responsibility and Contractor shall make all
      arrangements and bear all associated costs. Contractor is responsible for bypassing
      any existing sewer mains required for installation of pipeline.

B. Submittal of Bypass Plans: Submit a bypass plan for any and all utilities to Engineer for
   review and approval 21 calendar days prior to planned bypass. Submittal shall include: the
time the bypass is planned; how it will be accomplished; materials to use; Contractor
support personnel and equipment to use for bypass; Contractor contact during bypass; time
required for bypass; time of day bypass will be conducted; interruption time (if any);
bypass closedown procedures; and testing of bypass and disinfection procedures for water
lines, if applicable.

C. Submittal of Tie-In Plans: Submit plans for tie-ins of new facilities to existing facilities or
to other new facilities to Engineer for review and approval 30 calendar days prior to
ordering fabricated pipe. Plans shall include time when work will be performed, methods
and materials to use, any interruption of service time required, and testing and disinfection
procedures to follow, where applicable.

D. Sewer and Potable Water Separation: When installed parallel to existing potable water
   lines, sewer lines shall be separated from potable water lines by at least 9 feet. Where the
   9-foot separation distance cannot be achieved, observe the following separation
   requirements:
   1. When installed parallel to an existing potable water line, sewer piping shall be
      located lower than potable water line with at least 2 feet between outside diameters
      vertically, and at least 4 feet between outside diameters horizontally.
   2. When crossing an existing potable water line, a separation of 6 inches between
      outside diameters of potable and sewer lines shall be achieved. Additionally, one
      length of sewer pipe shall be centered on the potable water line.
E. Water and Sewer Separation: Per Texas Commission on Environmental Quality (TCEQ) requirements, where water and sewer lines are parallel, a minimum separation (outside-to-outside) of 9 feet shall be maintained in all directions. Sewers that parallel water lines must be installed in separate trenches. Where the 9-foot separation distance cannot be achieved, these guidelines apply:

1. Sewers need not be disturbed where a new waterline is to be installed parallel to an existing sewer that shows no evidence of leakage and the waterline is installed above the sewer a minimum of 2 feet vertically and 4 feet horizontally. Should excavation for the waterline produce evidence that the sewer is leaking, sewer must be repaired or replaced as described in part (C).

2. Sewers need not be disturbed where a new waterline is to cross over (by 2 feet or more) existing sewer showing no evidence of leakage. Should excavation for waterline produce evidence the sewer is leaking, sewer must be repaired or replaced as described in parts (D) or (E).

3. Where a sanitary sewer parallels a water line, sewer shall be constructed of PVC meeting ASTM specifications with a pressure rating for pipe and joints of 150 psi. Vertical separation between outside diameters and horizontal separation shall be a minimum of 4 feet between outside diameters. Sewer shall be located below water line.

4. Where a sewer crosses under a water line and the sewer is constructed of ABS truss pipe, similar semi-rigid plastic composite pipe, clay pipe or concrete pipe with gasketed joints, maintain a minimum 2-foot separation distance. Initial backfill shall be cement stabilized sand (two or more bags of cement per cubic yard of sand) for all sections of sewer within 9 feet of water line. This initial backfill shall be from one quarter diameter below centerline of pipe to one pipe diameter (but not less than 12 inches) above top of pipe.

5. Where a sewer crosses over a water line all portions of the sewer within 9 feet of water line shall be constructed of PVC pipe with a pressure rating of at least 150 psi using appropriate adapters. In lieu of this procedure, the new conveyance may be encased in a joint of 150 psi pressure class pipe at least 18 feet long and two nominal sizes larger than new conveyance. The space around the carrier pipe shall be supported at 5-foot intervals with spacers or filled to spring line with washed sand. Encasement pipe should be centered on crossing and both ends sealed with cement grout or manufactured seal.

6. Where a sanitary sewer crosses a water line and the sewer is constructed of ductile iron or PVC with a minimum pressure rating of 150 psi, maintain an absolute minimum distance of 6 inches between outside diameters. In addition, sewer shall be located below the water line where possible and one length of sewer pipe must be centered transversely on water line.

F. Water Line / Manhole Separation: Unless sanitary sewer manholes and connecting sewer can be made watertight and tested for no leakage, install to provide a minimum of 9 feet of horizontal clearance from an existing or proposed water line. Where 9-foot separation distance cannot be achieved, use a carrier pipe as described previously where appropriate.

G. Other Utilities: Facilities of utilities such as telephone, cable television, electric power, gas, etc., are indicated as nearly as possible on Drawings. Contractor holds responsibility of to determine locations of those, or any other facilities at job site, and arrange with respective utility owners for any necessary relocation of conflicting facilities. All utility owners shall be contacted by Contractor so respective utilities can be located prior to any excavation by Contractor. Contractor holds responsibility to coordinate all locating efforts with utility owners and reflect such efforts in construction schedule.
H. Water and Natural Gas Relocation and/or Bypass: Coordinate all water and/or natural gas line relocation or bypass work with owner of particular line relocated or bypassed, and per Contract Specifications requirements. Design of relocated lines and bypass lines is subject to specific conditions of each location, and approval by Engineer and respective line owner.

3.6 TESTING

A. Water Lines: All water lines shall be cleaned, sterilized, and pressure-tested. Contractor shall perform this work on completed sections of lines in accordance with procedures set forth herein.

B. Contractor needs to develop/provide a testing/disinfection plan indicating proposed procedures used for filling, flushing, testing, and disinfecting pipeline.

C. Contractor shall obtain a permit to discharge water into city storm system through Municipal Services Department Environmental Division before any water is discharged needed for line disinfections (replacement of broken water mains) and/or flushing. Provide proposed dewatering locations and plan or method to utilize. Contractor shall provide all means/methods necessary to safely/efficiently flush new pipeline at all low points in line or at the most appropriate locations relative to existing storm drainage facilities. This includes, but is not limited to, temporary ports, valves, and discharge lines, as well as signage and barricades that may be needed to accomplish this work.

D. Water for Testing:
   1. All water, within reason, needed for filling, flushing, and testing water lines, will be furnished by Owner to Contractor as water is available from existing distribution or supply systems. Wasting of water is not condoned and such actions may require Owner to withdraw use of such water.
   2. Contractor shall make provisions to provide potable water, by tank truck or other means, to points necessary to produce specified test pressure.
   3. Contractor shall take special care to keep interior of all pipe clean during storing, handling, and laying operations to reduce need for flushing to an absolute minimum. In addition, all open ends shall be tightly covered whenever unattended to prevent small animals and dirt from entering pipeline.

END OF SECTION
SECTION 03100 - CONCRETE FORMWORK

PART 1 - GENERAL

1.1 SUMMARY

A. Section Includes:
   1. Formwork for cast-in place concrete, with shoring, bracing and anchorage.
   2. Form accessories and stripping.
B. Related Sections:
   1. Division 01 Specification Sections apply to Work of this Section.
   2. Section 03200 - Concrete Reinforcement.
   3. Section 03300 - Cast-In-Place Concrete.

1.2 REFERENCES

A. ACI 347: Recommended Practice for Concrete Formwork.
B. PS-1: Construction and Industrial Plywood.

1.3 DESIGN REQUIREMENTS

A. Design, engineer, and construct formwork, shoring, and bracing to conform to code requirements; resultant concrete to conform to required shape, line and dimension.

1.4 SUBMITTALS

A. Shop Drawings: Indicate pertinent dimensions, materials, bracing, and arrangement of joints and ties.

1.5 QUALITY ASSURANCE

A. Perform Work in accordance with ACI 347.

1.6 DELIVERY, STORAGE, AND HANDLING

A. Deliver, store, protect, and handle products to site.
B. Store off ground, ventilated and protected, to prevent deterioration from moisture.

1.7 COORDINATION

A. Coordinate this with other Sections of work requiring attachment of components to formwork.
B. If formwork is placed after reinforcement resulting in insufficient concrete cover over reinforcement, request instructions from Engineer before proceeding.

PART 2 - PRODUCTS

2.1 WOOD FORM MATERIALS

A. Plywood: Douglas Fir species; medium density overlaid one side grade; sound undamaged sheets with clean, true edges.
B. Lumber: Douglas fir species; construction grade; with grade stamp clearly visible.
2.2 FORMWORK ACCESSORIES

A. Form Ties: Snap-off type, metal, fixed length, cone type, free of defects that could leave holes larger than 1 inch in concrete surface.
B. Form Release Agent: Colorless mineral oil which will not stain concrete, absorb moisture, or impair natural bonding or color characteristics of coating intended for use on concrete.
C. Nails, Spikes, Lag Bolts, Through Bolts, Anchorages: Sized as required, of sufficient strength and character to maintain formwork in place while placing concrete.
D. Waterstops: PVC, minimum 1,750 psi tensile strength, minimum 50 to 175 degrees F working temperature range, maximum possible lengths, ribbed profile, preformed corner sections, heat welded joinings.
E. Cold Joint Waterstops: Flexible strip, bentonite waterproofing compound equal to Vocaly Waterstop-RX by American Colloid Company.

PART 3 - EXECUTION

3.1 EXAMINATION

A. Verify lines, levels, and centers before proceeding with formwork. Ensure dimensions agree with Drawings.

3.2 EARTH FORMS

A. Verify with Engineer prior to the use of earth forms in lieu of specified form material.
B. Hand trim sides and bottom of earth forms. Remove loose soil prior to placing concrete.

3.3 ERECTION - FORMWORK

A. Erect formwork, shoring and bracing to achieve design requirements, in accordance with requirements of ACI 301.
B. Provide bracing to ensure stability of formwork. Shore or strengthen formwork subject to overstressing by construction loads.
C. Arrange and assemble formwork to permit dismantling and stripping. Do not damage concrete during stripping. Permit removal of remaining principal shores.
D. Align joints and make watertight. Keep form joints to a minimum.
E. Obtain approval before framing openings in structural members not indicated on Drawings.
F. Provide chamfer strips on external corners of beams, joists, columns and walls.

3.4 APPLICATION - FORM RELEASE AGENT

A. Apply form release agent on formwork in accordance with manufacturer's recommendations.
B. Apply prior to placement of reinforcing steel, anchoring devices, and embedded items.
C. Do not apply form release agent where concrete surfaces will receive applied coverings which are affected by agent. Soak inside surfaces of untreated forms with clean water. Keep surfaces coated prior to placement of concrete.

3.5 INSERTS, EMBEDDED PARTS, AND OPENINGS

A. Provide formed openings where required for items to embed in or pass through concrete work.
B. Locate and set in place items which will be cast directly into concrete.
C. Coordinate work of other Sections in forming and placing openings, slots, reglets, recuses, chases, sleeves, bolts, anchors, and other inserts.
D. Install accessories in accordance with manufacturer's instructions, straight, level, and plumb. Ensure items are not disturbed during concrete placement.
E. Install waterstops continuous without displacing reinforcement. Heat seal joints watertight.
F. Provide temporary ports or openings in formwork where required to facilitate cleaning and inspection. Locate openings at bottom of forms to allow flushing water to drain.
G. Close temporary openings with tight fitting panels, flush with inside face of forms, and neatly fitted so joints will not be apparent in exposed concrete surfaces.

3.6 FORM CLEANING
A. Clean and remove foreign matter within forms as erection proceeds.
B. Clean formed cavities of debris prior to placing concrete.
C. Flush with water or use compressed air to remove remaining foreign matter. Ensure water and debris drain to exterior through clean-out ports.
D. During cold weather, remove ice and snow from within forms. Do not use de-icing salts or water to clean out forms, unless formwork and concrete construction proceed within heat enclosure. Use compressed air or other means to remove foreign matter.

3.7 FORMWORK TOLERANCES
A. Construct formwork to maintain tolerances required by ACI 301.

3.8 FIELD QUALITY CONTROL
A. Inspect erected formwork, shoring, and bracing to ensure that work is in accordance with formwork design, and that supports, fastenings, wedges, ties, and items are secure.
B. Do not reuse wood formwork more than four times for concrete surfaces to be exposed to view. Do not patch formwork.

3.9 FORM REMOVAL
A. Do not remove forms or bracing until concrete has gained sufficient strength to carry its own weight and imposed loads.
B. Loosen forms carefully. Do not wedge pry bars, hammers, or tools against finish concrete surfaces scheduled for exposure to view.
C. Store removed forms in manner that surfaces to be in contact with fresh concrete will not be damaged. Discard damaged forms.

END OF SECTION
SECTION 03200 - CONCRETE REINFORCEMENT

PART 1 - GENERAL

1.1 SUMMARY

A. Section Includes:
B. Related Sections:
   1. Division 01 Specification Sections apply to Work of this Section.
   2. Section 03100 - Concrete Formwork.
   3. Section 03300 - Cast-In-Place Concrete.

1.2 REFERENCES

A. ACI 301: Structural Concrete for Buildings.
B. ACI 318: Building Code Requirements for Reinforced Concrete.
C. ACI SP-66: American Concrete Institute - Detailing Manual.
D. ANSI/ASTM A82: Cold Drawn Steel Wire for Concrete Reinforcement.
E. ANSI/ASTM A185: Welded Steel Wire Fabric for Concrete Reinforcement.
H. ASTM A615: Deformed and Plain Billet Steel Bars for Concrete Reinforcement.
I. AWS D12.1: Welding Reinforcement Steel, Metal Inserts and Connections in Reinforced Concrete Construction.
J. CRSI: Concrete Reinforcing Steel Institute Manual of Practice.
K. CRSI 63: Recommended Practice for Placing Reinforcing Bars.
L. CRSI 65: Recommended Practice for Placing Bar Supports, Specifications and Nomenclature.

1.3 SUBMITTALS

A. Shop Drawings: Indicate bar sizes, spacings, locations, and quantities of reinforcing steel, bending and cutting schedules, and supporting and spacing devices.
B. Manufacturer's Certificate: Certify that products meet or exceed specified requirements.

1.4 QUALITY ASSURANCE

A. Perform Work in accordance with CRSI 63, 65 and Manual of Practice, ACI 301, ACI SP-66, ACI 318.
B. Submit certified copies of mill test report of reinforcement materials analysis.

1.5 COORDINATION

A. Coordinate with placement of formwork, formed openings and other Work.

PART 2 - PRODUCTS

2.1 REINFORCEMENT

A. Reinforcing Steel: ASTM A615, 60 ksi yield grade; deformed billet steel bars, plain.
B. Welded Steel Wire Fabric: ASTM A185 Plain Type; in flat sheets; plain.

2.2 ACCESSORY MATERIALS
   A. Tie Wire: Minimum 16 gage annealed type.
   B. Chairs, Bolsters, Bar Supports, and Spacers: Sized and shaped for strength and support of reinforcement during concrete placement conditions including load bearing pad on bottom to prevent vapor barrier puncture.

2.3 FABRICATION
   A. Fabricate concrete reinforcing in accordance with CRSI Manual of Practice.
   B. Weld reinforcement when approved by the Engineer in accordance with ANSI/AWS D1.4.
   C. Locate reinforcing splices not indicated on Drawings, at point of minimum stress. Review location of splices with Engineer.

PART 3 - EXECUTION

3.1 PLACEMENT
   A. Place, support, and secure reinforcement against displacement. Do not deviate from required position.
   B. Do not displace or damage vapor barrier.
   C. Accommodate placement of formed openings.
   D. Conform to ACI 318 for concrete cover over reinforcement.

3.2 FIELD QUALITY CONTROL
   A. Field inspection will be performed.

END OF SECTION
SECTION 03300 - CAST-IN-PLACE CONCRETE

PART 1 - GENERAL

1.1 SUMMARY

A. Section Includes:
   2. Floors and slabs-on-grade.
   3. Control, expansion, and contraction joint devices associated with concrete work.
   4. Equipment pads.

B. Related Sections:
   1. Division 01 Specification Sections apply to Work of this Section.
   2. Section 03100 - Concrete Formwork: Formwork and accessories.
   3. Section 03200 - Concrete Reinforcement.

1.2 REFERENCES

A. ACI 301: Structural Concrete for Buildings.
B. ACI 302: Guide for Concrete Floor and Slab Construction.
C. ACI 304: Recommended Practice for Measuring, Mixing, Transporting and Placing Concrete.
D. ACI 305R: Hot Weather Concreting.
E. ACI 306R: Cold Weather Concreting.
F. ACI 308: Standard Practice for Curing Concrete.
G. ACI 318: Building Code Requirements for Reinforced Concrete.
H. ASTM C33: Concrete Aggregates.
I. ASTM C94: Ready-Mixed Concrete.
L. ASTM C494: Chemicals Admixtures for Concrete.
M. ASTM C618: Fly Ash and Raw or Calcined Natural Pozzolan for Use as a Mineral Admixture in Portland Cement Concrete.

1.3 SUBMITTALS

A. Product Data: Provide data on joint devices, attachment accessories, admixtures, and cement types to be used.
B. Samples: Submit two 1-inch long samples of expansion/contraction joint and control joint.
C. Manufacturer's Installation Instructions: Indicate installation procedures and interface required with adjacent Work.

1.4 QUALITY ASSURANCE

A. Perform Work in accordance with ACI 301.
B. Acquire cement and aggregate from same source for all work.
C. Conform to ACI 305R when concreting during hot weather.
D. Conform to ACI 306R when concreting during cold weather.
1.5 COORDINATION

A. Coordinate joint device placement with erection of concrete formwork and placement of form accessories.

PART 2 - PRODUCTS

2.1 CONCRETE MATERIALS

A. Cement: ASTM C150, Type I - Normal, Type II - Moderate, Portland type. All cement shall be from the same manufacturer unless approved by the Engineer.
C. Water: Clean and not detrimental to concrete.

2.2 ADMIXTURES

A. Air Entrainment: ASTM C260.
B. Chemical: ASTM C494, Type A - Water Reducing; Type B - Retarding; Type C - Accelerating; Type D - Water Reducing and Retarding; Type E - Water Reducing and Accelerating admixture.
C. Fly Ash: ASTM C618.

2.3 ACCESSORIES

A. Vapor Barrier: 6 mil thick clear polyethylene film, type recommended for below grade application.
B. Non-Shrink Grout: Premixed compound consisting of non-metallic aggregate, cement, water reducing and plasticizing agents; capable of developing minimum compressive strength of 2,400 psi in 48 hours and 7,000 psi in 28 days.
C. Epoxy Mortar Liner: 100 percent solids, three-component system, equal to FOSROC Epoxy Linner.

2.4 JOINT DEVICES AND FILLER MATERIALS

A. Joint Filler: ASTM D1751; Asphalt impregnated fiberboard or felt, 1/2 inch thick.
B. Construction Joint Devices: Integral galvanized steel; formed to tongue and groove profile, knockout holes spaced at 6 inches, ribbed steel spikes with tongue to fit top scored edge.

2.5 CONCRETE MIX

A. Mix and deliver concrete in accordance with ASTM C94, Alternative No. 2 and 3.
B. Select proportions for normal weight concrete in accordance with ACI 301 Methods 1, 2, and 3.
C. Provide concrete to the following criteria:
   1. Compressive Strength (seven days): 2,200 psi.
   2. Compressive Strength (28 days): 3,000 psi.
   3. Slump: 1 to 4 inches.
D. Use fly ash only when approved by Engineer.
E. Use set retarding admixtures during hot weather only when approved by Engineer.
F. Add air entraining agent to normal weight concrete mix for work exposed to exterior.
PART 3 - EXECUTION

3.1 EXAMINATION
A. Verify requirements for concrete cover over reinforcement.
B. Verify anchors, seats, plates, reinforcement, and other items to cast into concrete are accurately placed, positioned securely, and will not cause hardship in placing concrete.

3.2 PREPARATION
A. Prepare previously placed concrete by cleaning with steel brush and applying bonding agent in accordance with manufacturer's instructions.
B. In locations where new concrete is dowelled to existing work, drill holes in existing concrete, insert steel dowels and pack solid with non-shrink grout.

3.3 PLACING CONCRETE
A. Place concrete in accordance with ACI 304.
B. Notify Engineer minimum 24 hours prior to commencement of operations.
C. Ensure reinforcement, inserts, embedded parts, formed joint fillers are not disturbed during concrete placement.
D. Install vapor barrier under interior slabs on grade. Lap joints minimum 6 inches and seal watertight by taping edges and ends.
E. Repair vapor barrier damaged during placement of concrete reinforcing. Repair with vapor barrier material, lap over damaged areas minimum 6 inches and seal watertight.
F. Install joint fillers in accordance with manufacturer's instructions.
G. Separate slabs on grade from vertical surfaces with 1/2-inch-thick joint filler.
H. Extend joint filler from bottom of slab to within 1/4 inch of finished slab surface.
I. Install joint devices in accordance with manufacturer's instructions.
J. Install construction joint device in coordination with slab pattern placement sequence. Set top to required elevations. Secure to resist movement by wet concrete.
K. Place concrete continuously between predetermined expansion, control, and construction joints.
L. Do not interrupt successive placement; do not permit cold joints to occur.
M. Place floor slabs in pattern indicated.
N. Screed floors and slabs on grade level, maintaining surface flatness of maximum 1/4 inch in 10 feet.

3.4 CONCRETE FINISHING
A. Provide formed concrete surfaces to leave exposed with smooth rubbed finish as Scheduled.
B. Finish concrete floor surfaces in accordance with ACI 301.
C. Steel trowel surfaces scheduled to be exposed.
D. In areas with floor drains, maintain floor elevation at walls; pitch surfaces uniformly to drains at 1/8 in/ft nominal.
E. Where shown on drawings, trowel epoxy liner on all surfaces indicated to 1/8-inch minimum and 3/4-inch maximum thickness, and in accordance with manufacturer's instructions.

3.5 CURING AND PROTECTION
A. Immediately after placement, protect concrete from premature drying, excessively hot or cold temperatures, and mechanical injury.
B. Maintain concrete with minimal moisture loss at relatively constant temperature for period necessary for hydration of cement and hardening of concrete.
C. Cure floor surfaces in accordance with ACI 308.

3.6 FIELD QUALITY CONTROL
A. Field inspection and testing will be performed in accordance with ACI 301.
B. Provide free access to Work and cooperate with appointed firm.
C. Submit proposed mix design of each class of concrete to Engineer for review prior to commencement of Work.
D. Perform tests of cement and aggregates to ensure conformance with specified requirements.
E. Three concrete test cylinders will be taken for every 100 or less cubic yards of each class of concrete placed.
F. One additional test cylinder will be taken during cold weather concreting, cured on job site under same conditions as concrete it represents.
G. One slump test will be taken for each set of test cylinders taken.

3.7 PATCHING
A. Allow Engineer to inspect concrete surfaces immediately upon removal of forms.
B. Excessive honeycomb or embedded debris in concrete not acceptable. Notify Engineer upon discovery.
C. Patch imperfections as directed.

3.8 DEFECTIVE CONCRETE
A. Defective Concrete: Concrete not conforming to required lines, details, dimensions, tolerances, or specified requirements.
B. Repair or replacement of defective concrete will be determined by the Engineer.
C. Do not patch, fill, touch-up, repair, or replace exposed concrete except upon express direction of Engineer for each individual area.

3.9 SCHEDULE - CONCRETE TYPES AND FINISHES
A. All Structures: 3,000 psi 28-day concrete, Type II cement, rubbed finish.
B. Electrical Pads: 3,000 psi 28-day air entrained concrete, Type I cement, light broom finish.

END OF SECTION
APPENDIX A

OSHA 1926 SUBPART P
OSHA 1926 SUBPART P
For Information Only
§ 1926.606

If it is necessary or necessary to stand at the outboard or inboard edge of the deck or where less than 24 inches of bulwark, rail, or deck, all employees shall be provided with a suitable means of protection against falling from the deck or fall from the deck.

(4) Fire protection and lifesaving equipment: Facilities for providing fire protection and means of protection against falling from the deck shall be in accordance with paragraph (f) of this section.

(2) The employer shall ensure that:

(a) The equipment is in the vicinity of each harper in use at least one U.S. Coast Guard-approved 30-foot lifeline with not less than 60 feet of line attached, and at least one portable or permanent ladder which will reach the top of the harper to the surface of the water. If the above equipment is not available at the pier, the employer shall furnish it during the time that he is working the harper.

(b) The employer shall protect the unattended decks of harvesters with U.S. Coast Guard-approved work vests or buoyant vests.

(5) Commercial diving operations: Commercial diving operations shall be subject to subpart T of part 1910, §§1910.401-1910.441, of this chapter.

(20) FR 2891, June 28, 1974, as amended at 42 FR 28286, July 27, 1977

§ 1926.608 Definitions applicable to this subpart.

(a) Aisles—The area along the waterfront edge of the pier or wharf.

(b) Bulkhead—The side of a ship above the upper deck.

(c) Countertop—The raised frame, around a hatchway in the deck, to keep out water.

(d) Jacob's ladder—A marine ladder or rope or chain with wooden or metal rungs.

(e) Rail, for the purpose of §1926.608, means a light structure serving as a guard at the outer edge of a ship's deck.

Subpart P—Excavations

Authority: Sec. 107, Contract Work Performance Standards Act (Construction Safety Act); (3) U.S.C. 33; (2) I. O. C. 44, 5 I. O. C. 440, 446, 470; Secretary of Labor Order No. 12-71 (20 FR 780), 6-75 (31 FR 2093), or 8-75 (36 FR 4793), as applicable, and 29 CFR part 161.

Source: 36 FR 4829, Oct. 21, 1971, unless otherwise noted.

§ 1926.650 Scope, application, and definitions applicable to this subpart.

(a) Scope and application. This subpart applies to all open excavations made in the earth's surface. Excavations are defined to include trenches.

(b) Definitions applicable to this subpart.

Accepted engineering practices means those requirements which are consistent with standards of practice required by a registered professional engineer.

Aluminum Hydraulic Hoisting means a pre-engineered hoisting system comprised of aluminum hydraulic cylinders (crossbeams) used in conjunction with vertical rails (ascents) or horizontal rails (walkways). Such system is designed, specifically to support the sidewalls of an excavation and prevent cave-ins.

Bell-hose pier hole means a type of shaft or footing excavation, the bottom of which is made larger than the cross section above to form a bell shaped.

Beaching (Benching system) means a method of protecting employees from cave-ins by excavating the sides of an excavation to form one or a series of horizontal levels or steps, usually with vertical or near-vertical surfaces between levels.

Cross-cut means the separation of a mass of soil or rock material from the side of an excavation, or the loss of soil from under a trench shield or support system, and its sudden movement into the excavation, either by falling or sliding, in sufficient quantity so that it could entrap, bury, or otherwise injure and immobilize a person.

Competent person means one who is capable of identifying existing and predictable hazards in the surroundings or working conditions which are unhealthful, hazardous, or dangerous to employees, and who has authorization to take prompt corrective measures to eliminate them.

Cross beams mean the horizontal members of a shorting system installed perpendicular to the sides of the excavation, the ends of which bear against either uprights or walls.

386
Excavation means any man-made cut, cavity, trench, or depression in an earth surface, formed by earth removal.

Pit or shaft means the vertical or inclined earth surfaces formed as a result of excavation work.

Failure means the breakage, displacement, or permanent deformation of a structural member or connection so as to reduce its structural integrity and its supportive capability.

Hazardous atmosphere means an atmosphere which by reason of being explosive, flammable, poisonous, corrosive, oxidizing, irritating, oxygen deficient, toxic, or otherwise harmful may cause death, illness, or injury.

Exclosure means the accidental release or failure of a cross brace.

Protective system means a method or protection of employees from cave-ins from material that could fall or roll from an excavation face or from an excavation, or from the collapse of adjacent structures. Protective systems include support systems, sloping and benching systems, shield systems, and other systems that provide the necessary protection.

Ramp means an inclined walking or working surface that is used to gain access to one point from another, and is constructed from earth or from structural materials such as steel or wood.

Registered Professional Engineer means a person who is registered as a professional engineer in the state where the work is to be performed. However, a professional engineer, registered in any state is deemed to be a "registered professional engineer" within the meaning of this standard when approving designs for "manufactured protective systems" or "tabulated data" to be used in interstate commerce.

Shield means the members of a shoring system that retain the earth in position and in turn are supported by other members of the shoring system.

Shield (Shield system) means a structure that is able to withstand the force imposed on it by a cave-in and thereby protect employees within the structure. Shields can be permanent structures or can be designed to be portable and moved along as work progresses. Additionally, shields can be either premanufactured or job-built in accordance with §1926.632 (c)(3) or (c)(4). Shields used in trenches are usually referred to as "trench boxes" or "trench shields."

Shoring (Shoring system) means a structure such as a metal hydraulic, mechanical, or timber shoring system that supports the sides of an excavation and which is designed to prevent cave-ins.

Shore. See "Pans."

Sloping (Sloping system) means a method of protecting employees from cave-ins by excavating to form sides of an excavation that are inclined away from the excavation so as to prevent cave-ins. The angle of incline required to prevent a cave-in varies with differences in such factors as the soil type, environmental conditions of exposure, and application of surcharge loads.

Stable rock means natural solid mineral material that can be excavated with vertical sides and will remain intact while exposed. Unstable rock is considered to be stable when the rock material on the side or sides of the excavation is secured against caving-in or movement by rock bolts or by another protective system that has been designed by a registered professional engineer.

Structural ramp means a ramp built of steel or wood, usually used for vehicle access. Ramps made of soil or rock are not considered structural ramps.

Support system means a structure such as underpinning, bracing, or shoring, which provides support to an adjacent structure, underground installation, or the sides of an excavation.

Tabulated data means tables and charts approved by a registered professional engineer and used to design and construct a protective system.

Trench (Trench excavation) means a narrow excavation (in relation to its length) made below the surface of the ground. In general, the depth is greater than the width, but the width of a trench (measured at the bottom) is not greater than 15 feet (4.5 m). If forms or other structures are installed or constructed in an excavation so as to reduce the dimension measured from the forms or structure to the side of the excavation to 15 feet (4.5 m) or less.
§ 1926.651

(measured at the bottom of the excavation), the excavation is also consid-
ered to be a trench.

Fence bar, See “Shield.”

Fence shield: See “Shield.”

Uprights means the vertical members of a trench shoring system placed in
contact with the earth and usually po-

tioned so that individual members do
not contact each other. Uprights

placed so that individual members are
closely spaced, in contact with or
 interconnected to each other, are often
called “sheeting.”

Wafer means horizontal members of a
shoring system placed parallel to the

evacuation face whose sides bear
against the vertical members of the
shoring system or earth.

§ 1926.651 Specific excavation require-
m ents.

(a) Surface encompass. All surface

costs or changes that are located so as to

develop a hazard to employees shall be

removal or supported, as necessary, to

safeguard employees.
(b) Underground installations. (1) The

estimated location of utility installa-
tions, such as sewer, telephone, fuel,
eelectric, water lines, or any other un-
derground installations that reason-
ably may be expected to be encoun-
tered during excavation work, shall be
determined prior to opening an exca-

vation.

(2) Utility companies or owners shall

be contacted within established or cus-
tomary local response times, advised of

the proposed work, and asked to estab-

lish the location of the utility under-
ground installations prior to the start of

the actual excavation. When utility

companies or owners cannot respond to

a request to locate underground utility

installations within 24 hours (unless a

longer period is required by state or

local law) or cannot establish the

exact location of those installations,
the employ may proceed, provided the

employer does so with caution, and

provided detection equipment or other

acceptable means to locate utility in-

stallations are used.

(c) When excavation operations ap-

proach the estimated location of under-
ground installations, the exact loca-
tion of the installations shall be deter-

mined by safe and acceptable means.

(d) While the excavation is open, un-
derground installations shall be pro-
tected, supported or removed as nec-
cessary to safeguard employees.

(e) Access and egress—(1) Structural

ramps. (i) Structural ramps that are

used solely by employees as a means of

access or egress from excavations shall

be designed by a competent person.

Structural ramps used for access or

egress of equipment shall be designed

by a competent person qualified in

structural design, and shall be con-

structed in accordance with the design.

(ii) Ramps and runways constructed of

two or more structural members

shall have the structural members con-

nected together to prevent displace-

ment.

(iii) Structural members used for

ramps and runways shall be of uniform

thickness.

(iv) Clips or other appropriate

means used to connect runway struc-
tural members shall be attached to the

bottom of the runway or shall be at-

tached in a manner to prevent tripping.

(v) Structural ramps used in lieu of

steps shall be provided with cleats or

other surface treatments on the top

surface to prevent slipping.

(2) Means of egress from trench exca-
vations. A stairway, ladder, ramp or

other safe means of egress shall be lo-
cated in trench excavations that are 4

feet (1.22 m) or more in depth so as to

provide no more than 25 feet (7.62 m)
of lateral travel for employees.

(d) Exposure to vehicular traffic. Em-

ployees exposed to public vehicular

traffic shall be provided with, and shall

wear, warning vests or other suitable

garments marked with or made of

reflective or high-visibility materi-

als.

(e) Exposure to felling loads. No em-

ployee shall be permitted underneath

loads handled by lifting or digging

equipment. Employees shall be re-

quired to stand away from any vehicle

being loaded or unloaded to avoid being

struck by any spillage or falling mate-

rials. Operators may remain in the

case of vehicles being loaded or un-

loaded when the vehicles are equipped,

in accordance with §1926.61(b)(6), to

provide adequate protection for the op-

erator during loading and unloading

operations.
(f) Warning system for mobile equipment. Where mobile equipment is operated adjacent to an excavation, or when such equipment is required to approach the edge of an excavation, and the operator does not have a clear and direct view of the edge of the excavation, a warning system shall be utilized such as barricades, hand or mechanical signals, or stop logs. If possible, the grade should be away from the excavation.

(g) Hazardous atmospheres—(1) Testing and controls. In addition to the requirements set forth in subpart D and E of this part (29 CFR 1926.52-1926.117) to prevent exposure to harmful levels of atmospheric contaminants and to ensure acceptable atmospheric conditions, the following requirements shall apply:

(i) Where oxygen deficiency (atmosphere containing less than 19.5 percent oxygen) or a hazardous atmosphere exists or could reasonably be expected to exist, such as in excavations in landfill areas or excavations in areas where hazardous substances are stored nearby, the atmospheres in the excavation shall be tested before employees enter excavations greater than 4 feet (1.22 m) in depth.

(ii) Adequate precautions shall be taken to prevent employees' exposure to atmospheres containing less than 19.5 percent oxygen, and other hazardous atmospheres. These precautions include providing proper respiratory protection or ventilation in accordance with subparts D and E of this part respectively.

(iii) Adequate protection shall be taken such as providing ventilation, to prevent employee exposure to an atmosphere containing a concentration of a flammable gas in excess of 20 percent of the lower flammable limit of the gas.

(iv) When controls are used that are intended to reduce the level of atmospheric contaminants to acceptable levels, testing shall be conducted as often as necessary to ensure that the atmosphere remains safe.

(h) Emergency rescue equipment. (1) Emergency rescue equipment, such as breathing apparatus, a safety harness and line, or a basket stretcher, shall be readily available where hazardous atmospheric conditions exist or may reasonably be expected to develop during work in an excavation. This equipment shall be attended when in use.

(i) Employees entering bail-bottom pit holes, or other similar deep and confined footing excavations, shall wear a harness with a life-line securely attached to it. The lifeline shall be separate from any line used to handle materials, and shall be individually attended at all times while the employee wearing the lifeline is in the excavation.

(j) Protection from hazards associated with water accumulation. (1) Employees shall not work in excavations in which there is accumulated water, or in excavations in which water is accumulating, unless adequate precautions have been taken to protect employees against the hazards posed by water accumulation. The precautions necessary to protect employees adequately vary with each situation, but could include special support or shield systems to prevent from cave-ins, water removal to control the level of accumulating water, or use of a safety harness and lifeline.

(2) If water is controlled or prevented from accumulating by the use of water removal equipment, the water removal equipment and operations shall be monitored by a competent person to ensure proper operation.

(k) If excavation work intercepts the natural drainage of surface water (such as streams), diversion ditches, dikes, or other suitable means shall be used to prevent surface water from entering the excavation and to provide adequate drainage of the area adjacent to the excavation. Excavations subject to runoff from heavy rain will require an inspection by a competent person and compliance with paragraphs (i)(3) and (iv) of this section.

(l) Stability of adjoining structures. (1) Where the stability of adjoining buildings, walls, or other structures is endangered by excavation operations, support systems such as shoring, bracing, or underpinning shall be provided to ensure the stability of such structures for the protection of employees.

(2) Excavation below the level of the base or footing of any foundation or retaining wall that could be reasonably
§ 1926.652

expected to pose a hazard to employees shall not be permitted except when:
(i) A support system, such as underpinning, is provided to ensure the safety of employees and the stability of the structure; or
(ii) The excavation is in stable rock; or
(iii) A registered professional engineer has approved the determination that the structure is sufficiently removed from the excavation so as to be unaffected by the excavation activity; or
(iv) A registered professional engineer has approved the determination that such excavation work will not pose a hazard to employees.

(3) Sidewalks, pavements, and appurtenant structures shall not be undermined unless a support system or any other method of protection is provided to protect employees from the possible collapse of such structures.

(4) Protection of employees from holes, rock or soil. (i) Adequate protection shall be provided to protect employees from holes, rock or soil that could pose a hazard by falling or rolling from an excavation face. Such protection shall consist of scaling to remove loose materials; installation of protective barricades at intervals as necessary on the face to stop and contain falling materials; or other means that provide equivalent protection.

(ii) Employees shall be protected from excavated or other materials or equipment that could pose a hazard by falling or rolling into excavations. Protection shall be provided by placing and keeping such materials or equipment at least 2 feet (0.6 m) from the edge of excavations, or by the use of retaining devices that are sufficient to prevent materials or equipment from falling or rolling into excavations, or by a combination of both if necessary.

(b) Inspections. (1) Daily inspections of excavations, the adjacent areas, and protective systems shall be made by a competent person for evidence of a situation that could result in possible cave-ins, indications of failure of protective systems, hazardous atmospheres, or other hazardous conditions. An inspection shall be conducted by the competent person prior to the start of work and as needed throughout the shift. Inspections shall also be made after every rainfall or other hazard increasing occurrence. These inspections are only required when employee exposure can be reasonably anticipated.

(2) Where the competent person finds evidence of a situation that could result in a possible cave-in, indications of failure of protective systems, hazardous atmospheres, or other hazardous conditions exist, employees shall be removed from the hazardous area until the necessary precautions have been taken to ensure their safety.

(i) Walkways shall be provided where employees or equipment are required or permitted to cross over excavations. Simultaneously with the provision of walkways which comply with §1926.502(h) shall be provided where walkways are 6 feet (1.8 m) or more above lower levels.

§ 1926.652 Requirements for protective systems.

(a) Protection of employees in excavations. (1) Each employee in an excavation shall be protected from cave-ins by an adequate protective system designed in accordance with paragraph (b) or (c) of this section except when:

(i) Excavations are made entirely in stable rock; or

(ii) Excavations are less than 3 feet (1.0 m) in depth and examination of the ground by a competent person provides no indication of a potential cave-in.

(2) Protective systems shall have the capacity to resist without failure all loads that are intended or could reasonably be expected to be applied or transmitted to the system.

(b) Design of sloping and benching systems. The slopes and configurations of sloping and benching systems shall be selected and constructed by the employer or his designee and shall be in accordance with the requirements of paragraphs (b)(1); or, in the alternative, paragraphs (b)(2); or, in the alternative, paragraphs (b)(3); or, in the alternative, paragraphs (b)(4), as follows:

(1) Options (i)— Allowable configurations and slopes. (i) Excavations shall be sloped at an angle not steeper than one and one-half horizontal to one vertical.
(9) Slopes specified in paragraph (b)(1)(ii) of this section, shall be con-
verted to form configurations that are in accordance with the slopes shown
for Type C soil in Appendix B to this
subpart.

(2) Option (2)—Determination of slopes
and configurations using Appendices A
and B. Maximum allowable slopes, and
allowable configurations for sloping
and benching systems, shall be deter-
moved in accordance with the condi-
tions and requirements set forth in ap-
pendices A and B to this
subpart.

(3) Option (3)—Designs using other tab-
ulated data. (1) Designs of sloping or
benchng systems shall be selected
from and be in accordance with tab-
ulated data, such as tables and charts.

(2) The tabulated data shall be in
written form and shall include all of
the following:

(A) Identification of the parameters
that affect the selection of a sloping or
benchng system drawn from such data;

(B) Identification of the limits of use
of the data, to include the magnitude
and configuration of slopes determined
to be safe;

(C) Explanatory information as may
be necessary to aid the user in making
a correct selection of a protective sys-
tem from the data.

(4) At least one copy of the tab-
ulated data which identifies the reg-
istered professional engineer who ap-
proved the data, shall be maintained at
the job site during construction of the
protective system. After that time the
data may be stored off the job site, but
a copy of the data shall be made avail-
able to the Secretary upon request.

(5) Option (5)—Design by a registered
professional engineer. (1) Sloping and
benchng systems not utilizing Option
(1) or Option (2) or Option (5) under
paragraph (b) of this section shall be
approved by a registered professional
engineer.

(ii) Designs shall be in written form
and shall include at least the follow-

(A) The magnitude of the slopes that
were determined to be safe for the par-
ticular project;

(B) The configurations that were de-
termined to be safe for the particular
project; and

(C) The identity of the registered pro-
fessional engineer approving the de-
sign.

(iii) At least one copy of the design
shall be maintained at the job site
while the slope is being constructed.

(iv) After that time the design need not
be at the job site, but a copy shall be
made available to the Secretary upon
request.

(v) Design of support systems, shield
systems, and other protective systems.

A. The employer or his designee shall
be in accordance with the require-
ments of paragraph (c)(1); or, in the al-
ternative, paragraph (c)(2); or, in the al-
ternative, paragraph (c)(3); or, in the
alternative, paragraph (c)(4) as follows:

(i) Option (1)—Designs using appen-
dices A, C and D. Designs for timber
shoring in trenches shall be determined
in accordance with the conditions and
requirements set forth in appendices A
and C to this
subpart. Designs for
aluminuim hydraulic shoring shall be in
accordance with paragraph (c)(2) of this
section, but if manufacturer's tabu-
lated data cannot be utilized, designs
shall be in accordance with appendix D.

(ii) Option (2)—Designs Using Manufactu-
rer's Tabulated Data. (1) Design of sup-
port systems, shield systems, or other
protective systems that are drawn from
manufacturer's tabulated data shall be
in accordance with all speci-
fications, recommendations, and limi-
tations issued or made by the manufac-
turer.

(1) Deviation from the specifications,
recommendations, and limitations
issued or made by the manufacturer
shall only be allowed after the manufac-
turer issues specific written ap-

(ii) Manufacturer's specifications,
recommendations, and limitations,
and manufacturer's approval to deviate
from the specifications, recommenda-
tions, and limitations shall be in writ-
ten form at the job site during con-
struction of the protective system.

After that time the data may be
stored off the job site, but a copy shall
be made available to the Secretary upon request.

(3) Option (3)—Designs using other tabulated data. (1) Designs of support systems, shield systems, or other protective systems shall be selected from and be in accordance with tabulated data, such as tables and charts.

(ii) The tabulated data shall be in written form and include one of the following:

(A) Identification of the parameters that affect the selection of a protective system drawn from such data;

(B) Identification of the limits of use of the data;

(C) Explanatory information as may be necessary to aid the user in making a correct selection of a protective system from the data.

(iii) At least one copy of the tabulated data, which identifies the registered professional engineer who approved the data, shall be maintained at the job site during construction of the protective system. After that time the data may be stored off the job site, but a copy of the data shall be made available to the Secretary upon request.

(4) Option (4)—Design by a registered professional engineer. (1) Support systems, shield systems, and other protective systems not utilizing Option 1, Option 2 or Option 3, above, shall be approved by a registered professional engineer.

(ii) Designs shall be in written form and shall include the following:

(A) A plan indicating the sizes, types, and configurations of the materials to be used in the protective system; and

(B) The identity of the registered professional engineer approving the design.

(iii) At least one copy of the design shall be maintained at the job site during construction of the protective system. After that time, the design may be stored off the job site, but a copy of the design shall be made available to the Secretary upon request.

(5) Materials and equipment. (1) Materials and equipment used for protective systems shall be free from damage or defects that might impair their proper function.

(2) Manufactured materials and equipment used for protective systems shall be used and maintained in a manner that is consistent with the recommendations of the manufacturer and in a manner that will prevent employee exposure to hazards.

(3) When material or equipment that is used for protective systems is damaged, a competent person shall examine the material or equipment and evaluate its suitability for continued use. If the competent person cannot assure the material or equipment is able to support the intended load or is otherwise suitable for safe use, then such material or equipment shall be removed from service, and shall be evaluated and approved by a registered professional engineer before being returned to service.

(a) Installation and removal of support systems shall be securely connected to prevent slipping, falling, kickouts, or other predictable failure.

(b) Support systems shall be installed and removed in a manner that protects employees from cave-ins, structural collapses, or from being struck by members of the support system.

(3) Individual members of support systems shall not be subjected to loads exceeding those which those members were designed to withstand.

(4) Before temporary removal of individual members begins, additional precautions shall be taken to ensure the safety of employees, such as installing other structural members to carry the loads imposed on the support system.

(5) Removal shall begin at, and progress from, the bottom of the excavation. Members shall be released slowly as to avoid any indication of possible failure of the remaining members of the structure or possible cave-ins of the sides of the excavation.

(6) Backfilling shall progress together with the removal of support systems from excavations.

(2) Additional requirements for support systems for trench excavations. (1) Excavation of material to a level no greater than 2 feet (61 cm) below the bottom of the members of a support system shall be permitted, but only if the system is designed to resist the forces calculated for the full depth of the trench, and
there are no indications while the trench is open of a possible loss of soil from behind or below the bottom of the support system.

(3) Installation of a support system shall be closely coordinated with the excavation of trenches.

(4) Slope and benching systems. Employees shall not be permitted to work on the face of slopes or benches excavations at levels above other employees except when employees at the lower levels are adequately protected from the hazard of falling, rolling, or sliding material or equipment.

(c) Shield systems.—(1) General. (i) Shield systems shall not be subjected to loads exceeding those which the system was designed to withstand.

(ii) Shields shall be installed in a manner to restrict lateral or other hazardous movement of the shield in the event of the application of sudden lateral loads.

(iii) Employees shall be protected from the hazard of cava-ins when entering or exiting the areas protected by shields.

(iv) Employees shall not be allowed in shields when shields are being installed, removed, or moved vertically.

(2) Additional requirement for shield systems used in trench excavations. Excavations of earth material to a level not greater than 2 feet (61 cm) below the bottom of a shield shall be permitted, but only if the shield is designed to resist the forces calculated for the full depth of the trench, and there are no indications while the trench is open of a possible loss of soil from behind or below the bottom of the shield.

APPENDIX A TO SUBPART P OF PART 1926—SOIL CLASSIFICATION

(a) Scope and application.—(1) Scope. This appendix describes a method of classifying soil and rock deposits based on site and environmental conditions, and on the structure and composition of the earth deposits. The appendix contains definitions, sets forth requirements, and describes acceptable visual methods for the use in classifying soils.

(b) Application. This appendix applies when a slope or benching system, in accordance with the requirements set forth in 1926.755(b)(2), is a method of protection for employees in cava-ins. This appendix also applies when timber sheeting for excavation is designed as a method of protection from cava-ins in accordance with appendix C. to subpart P of part 1926, and when minimum hydraulic shoring is designed in accordance with appendix D. This appendix also applies if other protective systems are designed and selected for use from data prepared in accordance with the requirements set forth in 1926.755(b)(2), and the use of the data is predicated on the use of the soil classification system set forth in this appendix.

(2) Definitions. The definitions and explanations cited below are included in this appendix to clarify the meanings of the terms used in this appendix. The definitions are taken from the following:

- Soil Classification (USDA): USDA Natural Resources Conservation Service, Washington, D.C.
- Unified Soil Classification (USDA): USDA Natural Resources Conservation Service, Washington, D.C.
- Soil Classification (USDA): USDA Natural Resources Conservation Service, Washington, D.C.
Soil classification means, for the purpose of this subpart, a method of categorizing soil and rock deposits in a hierarchy of stable rock, Type A, Type B, and Type C, in decreasing order of stability. The categories are determined based on an analysis of the properties and performance characteristics of the deposits and the environmental conditions of exposure.

Stable rock means natural solid mineral formations with vertical sides and remains intact while exposed. Submerged soil means soil which is under water or is free seeping.

Type A means cohesive soils with an unconfined compressive strength of 1.5 kip per square foot (69.3 kPa) or greater. Examples of cohesive soils are: clay, silty clay, sandy clay, clay loam and, in some cases, silty clay loam and sandy clay loam. Cohesive soils such as calcic and harpoc are also considered Type A. However, no soil is Type A if:

(i) The soil is fissured; or
(ii) The soil is subject to vibration from heavy traffic, pile driving, or similar effects; or
(iii) The soil has been previously disturbed; or
(iv) The soil is part of a slope, layered system where the layers dip into the excavation on a slope of four horizontal to one vertical (4H:1V) or greater; or
(v) The material is subject to other factors that would require it to be classified as a less stable material.

Type B means:
(i) Cohesive soil with an unconfined compressive strength greater than 0.6 kip (2.7 kPa) but less than 1.5 kip (6.9 kPa); or
(ii) Granular soils including gravels, sand, and loamy sand; or
(iii) Submerged soil or rock from which water is freely seeping; or
(iv) Bedrock rock that is not stable, or
(v) Material in a sloped, layered system where the layers dip into the excavation on a slope of four horizontal to one vertical (4H:1V) or greater.

Unconfined compressive strength means the load per unit area at which a soil will fail in compression. It can be determined by laboratory testing, or estimated in the field using a pocket penetrometer, by churn penetration tests, or other methods.

Cohesive soil means a soil or rock deposit containing significantly more moisture than miscible soil, but in such a range of values that cohesive material will slump or begin to flow when vibrated. Granular material that would exhibit cohesive properties when moist will lose these cohesive properties when wet.

(i) Requirements—(1) Classification of soil and rock deposits. Each soil and rock deposit shall be classified by a competent person as Stable Rock, Type A, Type B, or Type C in accordance with the criteria set forth in paragraph (b) of this appendix.

(ii) Results of classification. The classification of the deposits shall be made based on the result of at least one visual and at least one manual analysis. Such analyses shall be conducted by a competent person using tests described in paragraph (d) below, or in other recognized methods of soil classification and testing such as those adopted by the American Society for Testing Materials, or the U.S. Department of Agriculture textural classification system.

(iii) Visual and manual analysis. The visual and manual analysis, as those tested as being acceptable in paragraph (d) of this appendix, shall be designed and conducted to provide sufficient quantitative and qualitative information as may be necessary to identify properly the properties, factors, and conditions affecting the classification of the deposit.

(2) Lateral systems. In a layered system, the system shall be classified in accordance with the criteria set forth in paragraph (b) of this appendix, in accordance with the criteria set forth in paragraph (b) of this appendix, the material shall be classified as Type A, Type B, or Type C as applicable.

Type C means:
(i) Cohesive soil with an unconfined compressive strength of 0.5 kip (2.2 kPa) or less; or
(ii) Granular soils including gravels, sand, and loamy sand; or
(iii) Submerged soil or soil which is not stable, or
(iv) Material in a sloped, layered system where the layers dip into the excavation on a slope of four horizontal to one vertical (4H:1V) or greater.
material is cohesive material. Soil composed primarily of coarser-grained sand or gravel is granular material.

(i) Observe soil as it is excavated. Soil that remains in clumps when excavated is cohesive. Soil that breaks up easily and does not stay in clumps is granular.

(ii) Observe the side of the opened excavation and the surface area adjacent to the excavation. Check that edges each ten linear feet for a distance of ten linear feet from the excavation. If clumps of soil fall off a vertical side, the soil could be feared. Small clumps are evidence of moving ground and are indicators of potentially hazardous situations.

(iii) Observe the area adjacent to the excavation and the excavation itself for evidence of existing utility and other underground structures, and to identify previously disturbed areas.

(iv) Observe the side of the excavation to identify the layers. Examine the layers to identify if the layers slope toward the excavation. Estimate the degree of slope of the layers.

(v) Observe the area adjacent to the excavation and the sides of the opened excavation for evidence of surface water, water seeping from the sides of the excavation, or the location of the level of the water table.

(vi) Observe the area adjacent to the excavation and the area within the excavation for pooling of water, rain, or water from aerial sources which may affect the stability of the excavation face.

(b) Mental test. Manual analysis of soil samples is conducted to determine quantitative as well as qualitative properties of soil and to provide more information in order to classify soil properties.

(i) Plastimetric. Mold a moist or wet sample of soil into a ball and attempt to roll it into threads as thin as 1/4 inch in diameter. Cohesive material can be successfully rolled into threads of 1/4 inch diameter. For example, if at least a two-inch (5.08 cm) length of a thread can be held without breaking, the soil is cohesive.

(ii) Dry strength. If the soil is dry and crumbles on its own or with moderate pressure into individual grains or fine powder, it is granular material. A combination of gravel, sand, or silt. If the soil is dry and falls into clumps which break up into smaller clumps, but the smaller clumps can be only broken up with difficulty, it may be dry in any combination with gravel, sand or silt. If dry soil breaks into clumps which do not break up into small clumps and which can be easily molded by manual pressure, the soil is cohesive.

(c) Thumb penetration. The thumb penetration test can be used to estimate the unconfined compressive strength of cohesive soils. This test is based on the thumb penetration test described in American Society for Testing and Materials (ASTM) Standard designation D5888-88. To perform the test, a 1/4-inch (0.64 cm) diameter nail with a chamfer on one side is used. The test is performed by driving the nail into the soil at a depth of 1 inch (2.54 cm) and measuring the force required to drive the nail into the soil. The force is recorded in pounds and is used to determine the unconfined compressive strength of the soil.

(d) Drying test. The basic purpose of the drying test is to differentiate between cohesive material with fines, unconsolidated cohesive material, and granular material. The procedure for the drying test involves drying a sample of soil that is approximately one inch thick (2.54 cm) and six inches (15.24 cm) in diameter until it is thoroughly dry.

(i) If the sample develops cracks as it dries, significant fines are indicated.

(ii) If the sample shrinks, cracking occurs, and no movement of soil mass is noted, the soil is cohesive material.

(iii) If the sample shrinks, cracking occurs, and movement of soil mass is noted, the soil is granular material.

APPENDIX B TO SUBPART P OF PART 1926—SLOPING AND SHORING

(a) Scope and application. This appendix contains limitations for sloping and shoring when used as methods of protecting workers employed in excavations from cave-ins. The requirements of this appendix are intended to provide a means for determining the safety of slopes and shoring. The installation of protective systems is to be performed in accordance with the requirements set forth in §1926.652(c).

(b) Definitions. Actual slope means the slope to which an excavation face is excavated. Diluvial means that the soil is in a condition where a cave-in is imminent or is likely
to occur. Distress is evidenced by such phenomena as the development of fissures in the face of or adjacent to an open excavation; the subsidence of the edge of an excavation; the slumping of material from the face or the heaving or bearing of material from the bottom of an excavation; the spalling of material from the face of an excavation; and swelling, i.e., small amounts of material such as pebbles or little clumps of material separating and moving along the face of an excavation and trickling or rolling down into the excavation.

Maximum allowable slope means the steepest incline of an excavation face that is acceptable for the most favorable site conditions as protection against cave-ins, and is expressed as the ratio of horizontal distance to vertical rise (H/V).

Short term exposure means a period of time less than or equal to 24 hours that an excavation is open.

(i) Requirements.—(1) Soil classification. Soil and rock deposits shall be classified in accordance with Appendix A to subpart P of part 520.

(2) Maximum allowable slope. The maximum allowable slope for a soil or rock deposit shall be determined from Table B-1 of this appendix.

(3) Actual slope. (i) The actual slope shall not be steeper than the maximum allowable slope.

(ii) The actual slope shall be less steep than the maximum allowable slope, when there are signs of distress, if that situation is not corrected before the excavation is completed.

(iii) When such excessive loads are not lifted, the vertical (H/V) less steep than the maximum allowable slope.

(4) Slope ratio. Configurations of sloping and backing systems shall be in accordance with Figure B-1.

Notes:
1. Numbers shown in parentheses next to maximum allowable slopes are angles expressed in degrees from the horizontal. Angles have been rounded off.
2. A short-term maximum allowable slope of 1:28(0.036) is allowed in excavations in Type A soil that are 12 feet (3.66 m) or less in depth.
3. Sloping or backing for excavations greater than 50 feet deep shall be designed by a registered professional engineer.
Figure B-1
Slopes Configurations
(All slopes stated below are in the horizontal to vertical ratio)

B-1.1 Excavations made in Type A soil.

1. All simple slope excavations 30 feet or less in depth shall have a maximum allowable slope of 1:1.

Simple Slope—General

Exception: Simple slope excavations which are open 24 hours or less (short term) and which are 12 feet or less in depth shall have a maximum allowable slope of 1:1.

Simple Slope—Short Term

2. All bench excavations 30 feet or less in depth shall have a maximum allowable slope of 1/3 to 1 and maximum bench dimensions as follows:

377
2. All excavations 8 feet or less in depth which have unsupported vertically sided lower portions shall have a maximum vertical side of 3½ feet.
Occupational Safety and Health Admin., Labor

Unsupported Vertically Shielded Lower Portion—Maximum 13 Feet in Depth

All excavations 30 feet or less in depth which have vertically sided lower portions that are supported or shielded shall have a maximum allowable slope of 1:1. The support or shield system must extend at least 18 inches above the top of the vertical side.

Supported or Shielded Vertically Shielded Lower Portion

6. All other simple slopes, compound slopes, and vertically sided lower portion excavations shall be in accordance with the other options permitted under (18CFR1926).

B.1.3 Excavations Made in Type B Soil

1. All simple slope excavations 30 feet or less in depth shall have a maximum allowable slope of 1:1.

Slopes Shall

2. All bench excavations 30 feet or less in depth shall have a maximum allowable slope of 1.3 and maximum bench dimensions as follows:

---

270
This bench allowed in cohesive soil only.

20' Max.

SINGLE BENCH

This bench allowed in cohesive soil only

20' Max.

MUTLIPLE BENCH

3. All excavations 20 feet or less in depth which have vertically sided lower portions shall be shielded or supported to a height at least 18 inches above the top of the vertical side. All such excavations shall have a maximum allowable slope of 1:1.

Support or shield system

20' Max.

8" Min.

VERTICALLY SIDED LOWER PORTION

4. All other sloped excavations shall be in accordance with the other options permitted in §1926.650(b).
2. All excavations 20 feet or less in depth which have vertically sided lower portions shall be shielded or supported to a height at least 18 inches above the top of the vertical side. All such excavations shall have a maximum allowable slope of 1:2.

3. All other sloped excavations shall be in accordance with the other options permitted in §1926.654(b).

B-1-4 Excavations Made in Layered Soils

1. All excavations 20 feet or less in depth made in layered soils shall have a maximum allowable slope for each layer as set forth below.
APPENDIX C TO SUBPART P OF PART 1926—TIMBER SHORING FOR TRENCHES

(a) Scope. This appendix contains information that can be used to determine if timber shoring is provided in a manner that is in accordance with the requirements set forth in §1926.653(c). Other timber shoring configurations, other systems of support such as hydraulic and pneumatic systems, and other protective systems such as sloping, benching, shoring, and framing systems must be designed in accordance with the requirements set forth in §1926.653(e) and §1926.653(f).

(b) Soil Classification. In order to use the data presented in this appendix, the soil type of the soil in which the excavation is made must first be determined using the soil classification method set forth in appendix A of subpart P of this part.

(c) Presentation of Information. Information is presented in several forms as follows:

1. Information is presented in tabular form in Tables C-1, C-2, and C-3, and Table C-21, C-22, and C-23 following paragraph (g) of the appendix. Each table presents the minimum size of timber members to use in a shoring system, and each table contains data only for the particular soil type in which the excavation or portion of
the excavation is made. The data are arranged to allow the reader the flexibility to select from among several acceptable configurations of members based on varying the horizontal spacing of the crossframes. Usually, frame sizes are not considered in selecting the frame spacing. Therefore, no data are presented for this condition.

(2) Information concerning the basis of the tabular data and the limitations of the data is presented in paragraph (c) of this appendix, and on the table itself.

(3) Information explaining the use of the tabular data is presented in paragraph (d) of this appendix.

(4) Information illustrating the use of the tabular data is presented in paragraph (e) of this appendix.

Miscellaneous notes regarding Table C-11 through C-13 and Tables C-21 through C-23 are presented in paragraph (f) of this appendix.

(f) Basis and limitations of the data—(1) Dimesions of members. (i) The sizes of the timber members listed in Tables C-1 through C-13 are taken from the National Bureau of Standards (NBS) report, “Recommended Technical Provisions for Construction Practice in Shoring and Shoring of Trenches and Excavations.” In addition, recommendations from the author and members of the design and construction community are used.

(ii) Dimensions of members, member sizes are based on an analysis of the sizes required for use by existing codes and on accepted practice.

(iii) The required dimensions of the members listed in Tables C-1 through C-13 refer to actual dimensions and not nominal dimensions of the timber. Employers wishing to use nominal sizes are directed to Tables C-1 through C-13, or have their choice under 1926.528(i)(1), and are referred to The Corps of Engineers. The Bureau is developing or data from other acceptable sources.

(2) Limitations of application. (i) It is not intended that the timber shoring specifications apply to every situation that may be experienced in the field. These data were developed to apply to situations that are most commonly experienced in current trenching practice. Shoring systems for use in situations that are not covered by the data in this appendix must be designed as specified in 1926.528(c).

(ii) When any of the following conditions are present, the members specified in the tables may be used: Where the loading on the crossframes to be used is expected to be largely horizontal, or where the height of the trench is not more than three horizontal to one vertical, the members are selected from the tables for use at a depth which is determined from the top of the overall trench, and not from the base of the sloped portion.

(iii) Use of Tables. The members of the shoring systems used to be selected using this information are the cross frames, the uprights, and the walls, where walls are required. Minimum lengths of members are specified for use in different types of soils. There are six tables of information, two for each soil type. The soil type must first be determined in accordance with the soil classification requirements of 1926.528(a). The selection of the size and spacing of the members is then made. The selection is based on the depth and width of the trench where the members are to be installed, and, in most instances, the selection is also based on the horizontal spacing of the crossframes. Instances where a choice of horizontal spacing of crossframes is available, the horizontal spacing of the crossframes must be chosen by the user before the size of any member can be determined. When the soil type is Type A, the horizontal spacing of the crossframes are known, the size and vertical spacing of the crossframes, the size and vertical spacing of the walls, and the size of horizontal spacing of the uprights can be read from the appropriate tables.

(g) Examples to Illustrate the Use of Tables C-11 through C-13.

(1) Example 1:

A trench dug in Type A soil is 13 feet deep and five feet wide. From Table C-11, for acceptable arrangements of timber can be used:

- Arrangement #3
  - Space 4 ft crossframes at six feet horizontally and four feet vertically.
  - Walls are not required.
  - Space 4 ft uprights at six feet horizontally.
  - This arrangement is commonly called “solid shoring.”

- Arrangement #32
  - Space 4 ft crossframes at eight feet horizontally and four feet vertically.
  - Space 6 ft walls at four feet vertically.

384
Space 34 ft. uprights at four feet horizontally.

Arrangement #22

Space 66 ft. cross braces at 10 feet horizontally and four feet vertically.
Space 34 ft. walls at four feet vertically.
Space 24 ft. uprights at five feet horizontally.

Arrangement #24

Space 66 ft. cross braces at 12 feet horizontally and four feet vertically.
Space 100 ft. walls at four feet vertically.
Space 34 ft. uprights at six feet horizontally.

Example 2
A trench dug in Type C soil is 12 feet deep and 11 feet wide. From Table C-1.2 three acceptable arrangements of members are listed.

Arrangement #21

Space 66 ft. cross braces at six feet horizontally and five feet vertically.
Space 34 ft. walls at five feet vertically.
Space 34 ft. uprights at two feet horizontally.

Arrangement #27

Space 60 ft. cross braces at eight feet horizontally and five feet vertically.
Space 100 ft. walls at five feet vertically.
Space 34 ft. uprights at two feet horizontally.

Arrangement #22

Space 60 ft. cross braces at 10 feet horizontally and five feet vertically.
Space 100 ft. walls at five feet vertically.
Space 34 ft. uprights at two feet vertically.

Example 3
A trench dug in Type C soil is 15 feet deep and five feet wide. From Table C-1.2 two acceptable arrangements of members can be used.

Arrangement #21

Space 60 ft. cross braces at six feet horizontally and five feet vertically.
Space 100 ft. walls at five feet vertically.
Position 34 ft. uprights as closely together as possible.

Example 4
A trench dug in Type C soil is 20 feet deep and 11 feet wide. The size and spacing of members for the section of trench that is over 15 feet in depth is determined using Table C-1.3. Only one arrangement of members is provided.

Space 66 ft. cross braces at six feet horizontally and five feet vertically.
Space 34 ft. walls at five feet vertically.

Example 5
Use of Table C-1.1 through C-1.3 would follow the same procedures.

Notes for all Tables:
1. Member sizes at spacings other than indicated are to be determined as specified in §1926.504(b) (1), "Design of Protective Systems."
2. When conditions are anticipated or subsumed use Tight Shoring, Tight Shoring is not permitted in the presence of water issues (e.g., torque and groove) at least three inches thick, steel sheet piling, or similar construction that when driven or placed in position prevents a tight wall to resist the lateral pressure of water and to prevent the use of backfill material. Close Shoring refers to the placement of planks side-by-side allowing as little space as possible between them.
3. All spacing indicated is measured center to center.
4. Walls to be installed with greater dimension horizontal.
5. If the vertical distance from the center of the lowest cross brace to the bottom of the trench, exceed two and one-half feet, the slope of the trench shall be down hill. When cross braces are connected, the vertical distance from the center of the lowest cross brace to the bottom of the trench shall not exceed 20 inches. When mudills are used, the vertical distance shall not exceed 20 inches. Mudills are walls that are installed at the toe of the trench side.
6. Trench jack may be used in line or in combination with timber cross braces.
7. Placement of cross braces. When the vertical spacing of cross braces is four feet, place the top cross brace no more than two feet below the top of the trench. When the vertical spacing of cross braces is five feet, place the top cross brace no more than 2 feet below the last top of the trench.

first be determined using the soil classification method set forth in appendix A of section 2049.

(c) Prevention of Rupture. Information is presented in tabular form as follows:

(1) Information is presented in tabular form in Tables D-1, D-2, D-3, and D-4. Each table presents the maximum vertical and horizontal spacing that may be used with various aluminum member sizes and various hydraulic cylinder sizes. Each table contains data only for the particular soil type in which the excavation or portion of the excavation is made. Table D-1 and D-2 are for vertical shores in Type A and B soils. Tables D-3 and D-4 are for horizontal shore systems in Type A and B soils.

(2) The data in the tables is based on the limitations of the tabular data and the limitations of the data is presented in paragraph (c) of this appendix.

(3) Information explaining the use of the tabular data is presented in paragraphs (d) of this appendix.

(4) Information illustrating the use of the tabular data is presented in paragraph (e) of this appendix.

(d) Miscellaneous notations (footnotes) referring to Tables D-1 through D-4 are presented in paragraph (d) of this appendix.

(e) Figures illustrating typical installations of hydraulic shoring, are included just prior to the Tables. The Illustrations page is entitled “Aluminum Hydraulic Shoring: Typical Installations.”

(f) Scope and limitations of the data (1) Vertical shore and horizontal walls are those that meet the Section Module requirements in the D-1 Tables. Aluminum members are of equivalent strength and properties.

(2) Hydraulic cylinder specifications. (i) The inch cylinders shall be a minimum 3-inch inside diameter with a maximum safe working capacity of no less than 66,000 pounds axial compressive load at maximum extension. Maximum extension is to include full range of cylinder extensions as recommended by product manufacturer.

(3) inch cylinders shall be a minimum 5-inch inside diameter with a maximum safe working capacity of no less than 160,000 pounds axial compressive load at maximum extension. Maximum extension is to include full range of cylinder extensions as recommended by product manufacturer.

(g) Limitation of application. (1) It is not intended that the aluminum hydraulic system specifications apply to every situation that may be experienced in the field.

(2) These data were developed to apply to the situations that are most commonly experienced in current trenching practice. Shoring systems for use in situations that are not covered by the data in this appendix may be otherwise designed as specified in §106-62(c).

(h) When any of the following conditions are present, the members specified in the tabular data are not considered adequate. In this case, an alternative aluminum hydraulic shoring system or other type of protective system must be designed in accordance with the following:

(1) When vertical lands imposed on cross slopes exceed 25 percent gravity load distributed on a one-foot section of the center of the hydraulic cylinder.

(2) When surcharge loads are present from equipment weighing in excess of 20,000 pounds.

(3) When only the lower portion of a trench is excavated and the remaining portion of the trench is slipped or bench cut. The slipped portion is slipped at an angle less than three horizontal to one vertical.

(4) When the top of the overall trench and not from the toe of the slipped portion.

(a) Use of Tables D-1, D-2, D-3, and D-4. The members of the shoring system that are to be selected using this information are the hydraulic cylinders, and either the vertical shores or the horizontal walls. When a water system is used the vertical timber sheeting to be used is also material from Tables D-1 through D-4. Vertical shores are used in Type A and B soils that do not require sheeting. Type B soils that may require sheeting, and Type C soils that always require sheeting are found in the horizontal wall Tables D-3 and D-4. The soil type must be determined in accordance with the soil classification system described in appendix A to subsection P of part 106.

(b) Use of the Tables. The selection of the size and spacing of the members is made. The selection is based on the depth and width of the trench, the member size, and the vertical spacing held constant at four feet on center. The tables show the maximum horizontal spacing of cylinders allowed for each size of wall in the water system tables, and in the vertical shore tables, the hydraulic cylinder horizontal spacing is the same as the vertical shore spacing.

(c) Example 1: A trench dug in Type A soil is 6 feet deep and 8 feet wide. From Table D-1, the 6-inch diameter cylinders spaced 5 feet on center (o.c.) horizontally and 4 feet on center (o.c.) vertically. (See Figures 1 & 3 for typical installations.)

(d) Example 2: A trench is dug in Type B soil that does not require sheeting, 12 feet deep and 5 feet wide. From Table D-2, find vertical shores and 3 inch diameter cylinders spaced 6 feet o.c. horizontally and 4 feet o.c. vertically. (See Figures 1 & 3 for typical installations.)

(e) A trench is dug in Type B soil that does not require sheeting, but does experience some minor swelling of the trench line. The
trench is 18 feet deep and 9 feet wide. From Table D-1.2, find vertical shores and 2 inch diameter cylinders with special overhoists, as designated by footnote (h) in Table D-1.2, shall be used behind the shores. See Figures 7 & 8 for typical installations.

(6) Example 4: A trench is dug in previously disturbed Type C soil, with characteristics of a Type C soil, and will require shoring. The trench is 18 feet deep and 33 feet wide. 8 feet horizontal spacing between cylinders is desired for working space. From Table D-1.3, find horizontal walls with a section modulus of 24 ksi spaced at 4 feet o.c. vertically and 8 inch diameter cylinder. See Figures 4 & 5 for typical installation. Bellevue timber sheeting is required at close spacing vertically. See Figure 5 for typical installation.

(7) Example 5: A trench in a Type C soil, 9 feet deep and 4 feet wide. Horizontal cylinder spacing in excess of 8 feet is desired for working space. From Table D-1.4, find horizontal walls with a section modulus of 7.2 and 2 inch diameter cylinders spaced at 6 feet o.c. horizontally. Or, find horizontal walls with a section modulus of 12 ksi spaced at 10 feet o.c. horizontally. Both walls are spaced 6 feet o.c. vertically. Bellevue timber sheeting is required at close spacing vertically. See Figure 6 for typical installation.

(8) Footnotes, and general notes, for Table D-1.1, D-1.2, D-1.3, and D-1.4.

(9) For applications other than those listed in the tables, refer to 1926.652(e)(2) for use of manufacturer’s labeled data. For trench depths in excess of 20 feet, refer to 1926.652(e)(2) and 1926.652(e)(3).

(10) 3 inch diameter cylinders, at this width, shall have structural steel tube (3.6x120 IN) overhoists, or structural overhoists of manufacturer’s specification, extending the full, collapsed height.

(11) Hydraulics cylinders capacities. (1) In any case, a cylinder shall be capable of 60 inch inside diameter with a safe working capacity of not less than 10,000 pounds axial compressive load at maximum extension. Maximum extension is to include full range of cylinder extensions as recommended by product manufacturer.

(12) 3 inch cylinders shall be a minimum 3 inch inside diameter with a safe working capacity of not less than 3,000 pounds axial compressive load at maximum extension. Maximum extension is to include full range of cylinder extensions as recommended by product manufacturer.

(13) All spacing indicated is measured center to center on the horizontal plane.

(14) Vertical shores shall have a minimum section modulus of 4.80 inch.

(15) When vertical shores are used, there must be a minimum of three shores spaced equally, horizontally. Also, a group.

(16) Plywood shall be 1/16 inch, thick solidwood or 0.05 inch, thick ply, arctic white birch (Finnish form). Please note that plywood is not intended as a structural member, but only for prevention of local wrinkling (buckling of the trench face) between shores.

(17) See appendix C for timber specifications.

(18) Wakes are calculated for simple span conditions.

(19) See appendix D, item (d), for basis and limitations of the data.

APPENDIX F TO SUBPART P OF PART 1926—SELECTION OF PROTECTIVE SYSTEMS

The following figures are a graphic summary of the requirements contained in subpart P for excavations 30 feet or less in depth. Protective systems for use in excavations more than 30 feet in depth must be designed by a registered professional engineer in accordance with §1926.652(b) and (c).
FIGURE 1 - PRELIMINARY DECISIONS
Sloping selected as the method of protection

Will soil classification be made in accordance with §1926.652 (a)(1)?

YES

Excavation must comply with one of the following three options:

Option 1: §1926.652 (b)(1) which requires Appendices A and B to be followed.

Option 2: §1926.652 (b)(3) which requires other tabulated data (see definition) to be followed.

Option 3: §1926.652 (b)(4) which requires the excavation to be designed by a registered professional engineer.

NO

Excavations must comply with §1926.652 (b)(1) which requires a slope of 1:1.5 (30°).

ORDINANCE NO. __________

AN ORDINANCE OF THE CITY OF LAMESA, TEXAS, AMENDING
ORDINANCE NO. 0-18-16 TO APPROPRIATE FUNDS IN THE CITY

On the 21st day of February, 2017, there came on and was held at the City Hall of
the City of Lamesa, Texas, an open meeting of the City Council of the City of Lamesa,
Texas, held pursuant to the provisions of the Texas Open Meetings Act (Government
Code, Chapter 551). There being a quorum present and acting throughout the meeting,
the following ordinance was formally submitted by motion and duly seconded for the
consideration and action of the meeting, to-wit:

WHEREAS, the City Council desires to amend Ordinance No. 0-18-16 to make
certain revisions to the 2016-2017 Budget of the City of Lamesa to authorize and
appropriate funds as listed below; and

NOW, THEREFORE, BE IT ORDEIGNED BY THE CITY COUNCIL OF THE CITY
OF LAMESA, TEXAS:

SECTION 1. That the City of Lamesa 2016-2017 Budget contained in Ordinance No. 0-
16-18 be, and same is hereby, amended to change the amount appropriated by the
following:

<table>
<thead>
<tr>
<th>Utility Fund (2)</th>
<th>Revenues</th>
<th>Expenditures</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>$ -6,250.00</td>
<td>$</td>
</tr>
<tr>
<td>Total of All Funds</td>
<td>$ -6,250.00</td>
<td>$</td>
</tr>
</tbody>
</table>

SECTION 2. Effective date: That this Ordinance shall become effective as of this March

SECTION 3. The City Secretary is hereby authorized and directed to cause
publication of this Ordinance as provided by law.

Upon being put to a vote, the foregoing ordinance was Passed, on First Reading
on February 21, 2017 by a majority vote; and on March 21, 2017, there will be held at the
regular meeting place, the City Hall, an open meeting of the City Council of the City of
Lamesa, Texas held pursuant to the provisions of the Texas Open Meetings Act
(Government. Code, Chapter 551); there being a quorum present and acting throughout
the meeting, the foregoing ordinance was formally submitted by motion and duly
seconded for the consideration and action of the meeting, and upon being put to a vote,
the foregoing ordinance was Passed on First Reading by a majority vote and ordered to
be spread upon the minutes of the City Council of the City of Lamesa, Texas and recorded
in the ordinance book thereafter.

CITY MANAGER'S MEMORANDUM

Recommend approval.
# Turf Equipment Schedule (Fair Market Value Purchase Option)

**The "Lease":** Equipment Schedule Number 098-0714136-101 Dated March 3, 2017 to Master Lease Number 7141361. Dated February 1, 2017

**"Lessor":** TCF Equipment Finance, a division of TCF National Bank, 1111 West San Marinan Dr, Suite A2 West, Waterloo, IA 50701-8926

**"Lessee":** City of Lamesa, Texas, 601 South First Street, Lamesa, TX 79331

**Contact:** Victor Dimas  
**Phone:** (806) 872-2124

This Equipment Schedule (this "Schedule") is entered into pursuant to and incorporates the terms of the Master Lease (except as expressly modified by this Schedule) identified above between Lessor and Lessee (the "Master Lease" and, together with this Schedule, this "Lease"). All capitalized terms not otherwise defined in this Schedule have the meanings assigned in the Master Lease. Upon execution and delivery of this Schedule by Lessor and Lessee, and Lessee's acceptance of the Equipment described below, Lessor leases to Lessee and Lessee leases from Lessor the Equipment on the terms and conditions of this Lease.

**SUMMARY OF TERM AND RENTAL PAYMENTS:**

<table>
<thead>
<tr>
<th>Commencement Date</th>
<th>Initial Term 60 Months</th>
<th>Rent Payment Period Monthly</th>
<th>Each Rent Payment $1,018.00 plus applicable taxes except financed sales tax included in the Final Cost</th>
<th>Advance Rent Payment(s) N/A For Installments(s): N/A</th>
<th>Interim Rent Daily Factor N/A</th>
<th>Security Deposit N/A</th>
</tr>
</thead>
</table>

Each Rent Payment shall be payable in accordance on the date that is one month after the Commencement Date and on the same day of each subsequent Rent Payment Period for the Initial Term and any renewal term.

The following additional provisions apply to the Equipment and this Lease only:

1. So long as this Lease has not been canceled or terminated early and no Event of Default exists, upon expiration of the Initial Term ("Lease End"), Lessee may purchase all, but not less than all, of the Equipment for the fair market value of the Equipment, as mutually determined by Lessor and Lessee, plus all sales and use taxes arising on the sale of the Equipment. To exercise the foregoing purchase option, Lessee must give written notice thereof to Lessor at least 90 days and no more than 120 days prior to Lease End. If Lessee fails to give such notice, or if the parties cannot agree on the Fair Market Value of the Equipment by 60 days before Lease End, then the purchase option shall lapse. If the purchase option lapses, then at least 30 days before Lease End or the end of any renewal term, Lessee must give Lessor notice of its intent to return the Equipment and request return location instructions. If Lessee fails to give such notice, or gives notice but refuses to return the Equipment in accordance with Section 5 of the Master Lease, this Lease will automatically renew, at the same rental and other terms set forth in this Lease, for additional successive non-cancellable 12-month terms after the Initial Term until timely written notice of return and proper return of the Equipment is made.

2. If Lessee gives timely notice of election to purchase the Equipment as provided in paragraph 1 and fails to timely pay the purchase price, then Lessor may, in its sole discretion, by written notice to Lessee (a) treat the Equipment as purchased and enforce payment of the purchase price, or (b) declare a failure to meet the purchase conditions whereupon Lessee's interest in the Equipment and Lessee shall automatically be canceled and Lessee shall return the Equipment in accordance with Section 5 of the Master Lease.

3. Upon Lessee's exercise of the purchase option and Lessor's receipt of the purchase price plus applicable sales and use tax and any rent or other amount owing under this Lease, the Equipment will be deemed transferred to Lessee at its then location and, on Lessee's request at such time, Lessor will deliver to Lessee a bill of sale for the Equipment, "WHERE IS, AS IS" WITHOUT ANY WARRANTY AS TO TITLE OR WITH RESPECT TO EQUIPMENT, EXPRESS OR IMPLIED.

4. If Lessor suffers a Tax Loss because, for federal or state income tax purposes, for any reason, this Lease is not a true lease or Lessor otherwise is not entitled to determine the Equipment in the manner Lessee anticipated when entering into this Lease, then Lessee shall pay Lessor, as additional rent hereunder, a lump-sum amount which, after payment of all federal, state, and local income taxes on the receipt of such amount, and using the same assumptions as to tax benefits and other matters Lessor used in originally evaluating and pricing this Lease, will in Lessor's reasonable opinion maintain Lessor's net after-tax rate of return with respect to this Lease at the same level it would have been had such Tax Loss not occurred. Lessor will notify Lessee of any claim that may give rise to indemnity hereunder and will make a reasonable effort to contest any such claim at the administrative level of the applicable taxing authority. Lessor shall control all aspects of any settlement and contest, and Lessee agrees to pay the legal fees and other out-of-pocket expenses thereof even if Lessor's defense is successful. Notwithstanding the foregoing, Lessee will not be obligated to indemnify Lessor for any Tax Loss caused solely by (a) a casualty Loss to the Equipment if Lessee pays the amount required under Section 8 of the Master Lease, (b) Lessor's sale of the Equipment other than on account of an Event of Default, (c) failure of Lessor to have sufficient income to utilize its anticipated tax benefits or to timely claim such tax benefits, and (d) tax law changes, including rates, effective after the Lease begins. Lessee's indemnity obligations hereunder shall survive cancellation and termination of this Lease. For purposes of this paragraph, the term "Tax Loss," means Lessor's loss of, or loss of the right to claim, or recapture of, all or any part of the federal or state income tax benefits Lessor anticipated as a result of entering into this Lease and owning the Equipment, and the term "Lessee" shall include any member of an affiliated group of which Lessor is (or may become) a member if consolidated tax returns are filed for such affiliated group for federal income tax purposes.

5. If this Lease terminates or is cancelled prior to the end of the Initial Term, then the Maximum Hours specified above shall be reduced pro rata based on the number of months remaining in the current year or Initial Term. If the Lease is renewed or extended, the Maximum Hours allowed during such renewal or extension shall be calculated pro rata based on the number of Maximum Hours specified above and the number of months of such extension or renewal.

6. This Schedule may, in Lessor's sole discretion, be delivered by facsimile or other electronic means ("e-copy"), and such e-copy or a printed version thereof shall be enforceable as an original and admissible as such in any court or other proceeding, provided that there shall be only one original of this Schedule and it shall bear the original signature of Lessor and be marked "Original." Lessee agrees to deliver to Lessor, on request, this Schedule bearing Lessor's original signature. If this Schedule constitutes a "copy" or facsimile, a security or ownership interest intended to be created through the transfer and possession of this Schedule can be done only by the transfer of the "Original" bearing the original signature of Lessor.

Title: ________________________________________
OPINION OF COUNSEL

(To be on Attorney's Letterhead)

Date:

Lessee: City of Lamesa, Texas
601 South First Street,
Lamesa, TX 79331

Lessor: TCF Equipment Finance, a division of TCF National Bank
1111 West San Mar nan Dr, Suite A2 West
Waterloo, IA 50701-8926

Re: Contract 008-0714136-101, dated as of March 3, 2017, by and between City of Lamesa, Texas and Lessor

Ladies and Gentlemen:

I have acted as counsel to Lessee with respect to the contract described above (the “Lease”) and various related matters, and in this capacity have reviewed a duplicate original or certified copy of the Lease and exhibit thereto. Based upon the examination of these and such other documents as I deem relevant, it is my opinion that:

1. Lessee is a public corporation and political subdivision of the State of Texas (the “State”) duly organized, existing and operating under the Constitution and laws of the State. The full, true and correct legal name of Lessee is _____________________________.

2. The Uniform Commercial Code, as adopted in the State (the “UCC”), and no other statute of the State, governs the creation, perfection, priority or enforcement of a security interest created by Lessee.

3. Lessee is authorized and has power under State law to enter into the Lease, and to carry out its obligations thereunder and the transactions contemplated thereby.

4. The Lease and the other documents described above have been duly authorized, approved, executed and delivered by and on behalf of Lessee, and the Lease is a valid and binding contract of Lessee enforceable in accordance with its terms, except to the extent limited by State and Federal laws affecting remedies and by bankruptcy, reorganization or other laws of general application relating to or affecting the enforcement of creditors’ rights.

5. The authorization, approval and execution of the Lease and all other proceedings of Lessee relating to the transactions contemplated thereby have been performed in accordance with all open meeting laws, public bidding laws and all other applicable State and Federal laws.

6. The execution of the Lease and the appropriation of moneys to pay the payments coming due under the Lease do not result in the violation of any constitutional, statutory or other limitation relating to the manner, form or amount of indebtedness which may be incurred by Lessee.

7. There is no litigation, action, suit, or proceeding pending or before any court, administrative agency, arbitrator or governmental body, that challenges the organization or existence of Lessee; the authority of the organization or existence of Lessee; the authority of its officers; the proper authorization, approval and execution of the Lease and the other documents described above; the appropriation of moneys to make Rental Payments under the Lease for the current fiscal year, or the ability of Lessee otherwise to perform its obligations under the Lease and the transactions contemplated thereby.
This opinion of counsel may be relied upon by Lessor and its successors and assigns.

Very truly yours,
RESOLUTION
LEASE NO. 008-0714136-101
DATED AS OF MARCH 3, 2017

A resolution authorizing the negotiation, execution, and delivery of Lease No. 008-0714136-101 dated March 3, 2017 (the "Lease"), between City of Lamesa, Texas, 601 South First Street, Lamesa, TX 79331 and TCF Equipment Finance, a division of TCF National Bank, 1111 West San Mar nan Dr, Suite A2 West, Waterloo, IA 50701-8926, and prescribing other details in connection therewith.

WHEREAS, City of Lamesa, Texas, (the "Lessee") is a political subdivision duly organized and existing pursuant to the Constitution and laws of the State of Texas; and

WHEREAS, Lessee is duly authorized by applicable law to acquire such items of personal property as are needed to carry out its governmental functions and to acquire such personal property by entering into lease-purchase agreements; and

WHEREAS, Lessee hereby finds and determines that the execution of a Lease for the purpose of leasing with the option to purchase the property designated and set forth in the Lease is appropriate and necessary to the function and operations of the Lessee; and

WHEREAS, TCF Equipment Finance, a division of TCF National Bank, (the "Lessor") shall act as Lessor under said Lease; and

WHEREAS, the Lease shall not constitute a general obligation indebtedness of the Lessee within the meaning of the Constitution and laws of the State;

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF City of Lamesa, Texas:

Section 1. The Lease, in substantially the form as presently before the governing body of the Lessee, is hereby approved, and the of the Lessee, is hereby authorized to negotiate, enter into, execute, and deliver the Lease and related documents in substantially the form as presently before the governing body of the Lessee, with such changes therein as shall be approved by such officer, and which Lease will be available for public inspection at the offices of Lessee.

Section 2. The Lessee shall, and the officers, agents and employees of the Lessee are hereby authorized and directed to take such further action and execute such other documents, certificates and instruments as may be necessary or desirable to carry out and comply with the intent of this Resolution, and to carry out, comply with and perform the duties of the Lessee with respect to the Lease.

Section 3. The Lessee's obligations under the Lease shall be expressly subject to annual appropriation by Lessee, and such obligations under the Lease shall not constitute a general obligation of Lessee or indebtedness of Lessee within the meaning of the Constitution and laws of the State of Texas.

Section 4. All other related contracts and agreements necessary and incidental to the Lease are hereby authorized, ratified and approved.

Section 5. This resolution shall take effect immediately upon its adoption and approval.

Subject  INSURANCE CERTIFICATE REQUEST  Date  March 3, 2017

Message:

Our mutual customer, City of Lamesa, Texas, is leasing equipment through TCF Equipment Finance, a division of TCF National Bank. We are in need of an INSURANCE CERTIFICATE for the equipment leased prior to us closing out their transaction. Please see below for specifics. Thanks!

Please include the following items on the certificate:

1. **INSURED**: City of Lamesa, Texas, 601 South First Street, Lamesa, TX 79331

2. **COVERAGES**:
   - Liability Insurance – Minimum $1,000,000.00 per occurrence in Combined Single Limit or such greater minimum as may be prescribed by any applicable state law specifying minimum insurance requirements.
     - Policy Number
     - Policy Effective Date & Policy Expiration Date
   - Property Damage – Cost: $60,190.09 or ACV
     - Comprehensive & Collision Deductibles (if applicable) or Physical Damage Deductible (Shall not exceed $10,000 or 10% of Total Cost)
     - Policy Number
     - Policy Effective Date & Policy Expiration Date

3. **DESCRIPTION OF EQUIPMENT**:
   (1) Toro Reelmaster 5510-D & Toro Protection Plus together with all attachments and accessories thereto
   Or reference: “Leased Equipment on TCF Contract Number 008-0714136-101”, if the description is too long

4. **TCF National Bank, its successors and assigns** needs to be listed as Loss Payee & Additional Insured on the Insurance Certificate.

If you have any questions, please feel free to contact me. Please send the certificate to my attention as soon as possible to mmeyers@financediv.com or fax to (866) 465-3149. Thank you!

Delivery and Acceptance agreement attached to and made a part of Lease 008-0714136-101 dated March 3, 2017 (the “Lease”).

This Certificate relates to the Equipment (the “Equipment”) that is described in the Lease.

Pursuant to the Lease, Lessee acknowledges that Lessor has acquired the Equipment in connection with the Lease and Lessee has either received a copy of the purchase agreement with the vendor of the Equipment on or before signing the Lease or has approved such purchase. Lessee hereby represents, warrants and certifies that (i) all of the Equipment has been delivered to Lessee at the Equipment Location set forth in the Lease and has been installed, tested and inspected by Lessee or duly authorized representatives of Lessee, (ii) the Equipment Description set forth in the Lease is complete and correct, (iii) the Equipment, together with any supporting documentation, is exactly what Lessee ordered, is in good working order, is satisfactory in all respects and has been accepted by Lessee under the Lease as of the Acceptance Date set forth below, and (iv) there has been no adverse change in the business or financial condition of Lessee or any guarantor of the Lease since the day the most recent financial statement of Lessee or any guarantor was submitted to Lessor. If Lessee has made a deposit to the Equipment vendor(s), by signing this Certificate, Lessee hereby transfers all of Lessee’s right, title and interest in and to the Equipment to Lessor, except to the extent set forth in the Lease, whether or not Lessee has been reimbursed for the deposit(s).

IMPORTANT: LESSEE SHOULD SIGN THIS CERTIFICATE ONLY AFTER LESSEE HAS RECEIVED AND IS COMPLETELY SATISFIED WITH THE EQUIPMENT. BY SIGNING THIS CERTIFICATE, LESSEE (1) IS IRREVOCABLY ACCEPTING THE EQUIPMENT, (2) BECOMES ABSOLUTELY AND IRREVOCABLY OBLIGATED TO LESSOR UNDER THE LEASE, AND (3) MAY NOT THEREAFTER REJECT THE EQUIPMENT, CANCEL OR TERMINATE THE LEASE OR DENY ANY STATEMENT MADE IN THIS CERTIFICATE, FOR ANY REASON WHATSOEVER.

| Use tax per Payment (estimated): | Total Payment Amount with Sales/ Use Taxes (estimated): |
| Security Deposit: |

TAXES

Sales/use tax has been estimated above to provide an approximation of the taxes and total Payment amount. The actual sales and use tax may vary and may be, depending on state law, collected at the time this Lease is entered into or added to each Payment on the terms of this Lease. Property tax will be billed annually and is due on invoice. If the use tax payment box above is empty or indicates $0, we anticipate receiving a valid exemption certificate. If such certificate is not received, Sales or use tax may be billed to you and/or added to the Payments.

PAYMENTS. You agree to make all Payments due under this Lease to Us at P.O. Box 14535, Des Moines, IA 50306 or at such other address as We may designate from time to time. Your Payments shall constitute a current expense and do not constitute a mandatory payment obligation of You in any fiscal year beyond Your current fiscal year. Your obligations hereunder shall not be construed to be a debt in contravention of any applicable constitutional or statutory limitation or requirement concerning the creation of indebtedness by You, nor shall anything contained herein constitute a pledge of Your general credit, tax revenues, funds, or moneys.

INSURANCE & TAXES. You are required to provide and maintain insurance related to the Equipment (defined below) and other items described in this Lease and to pay all license and registration fees assessed against this Lease or any Equipment. You agree to furnish Us with satisfactory evidence of Your tax exemption.

DELINQUENT PAYMENTS AND RETURNED CHECK CHARGE. Each Payment past due more than 10 days shall be subject to a late charge accrued at a rate equal to 1.75% per month from the due date until paid or $1, whichever is greater, but in no event shall any late charge exceed the maximum amount allowed by law. If any check or payment is returned or rejected for insufficient funds or any other reason, You shall pay to Us a fee of $25.00 or such other amount established by Us from time to time not to exceed the maximum amount permitted under applicable law. In Our discretion, such amount shall be paid on demand or added to the next Payment and You agree to pay such increased Payment amount.

TERMS AND CONDITIONS

1. Lease. We agree to lease to You and you agree to lease from Us, the equipment listed on the Equipment Schedule attached hereto and incorporated herein by reference, including all replacement parts, repairs, additions and accessories (the "Equipment") on the terms and conditions of this Lease and all exhibits, schedules and amendments hereto. You shall be deemed to have continued this Lease for the next Renewal Term unless You shall have terminated this Lease pursuant to Section 3. Payments under this Lease shall be due as set forth on the Payment Schedule until the balance of the Payments and any additional Payments or expenses chargeable to You are paid in full. Payment amounts and other amounts required to be paid under this Lease shall be referred to in this lease as "Payments." Unless otherwise indicated in the Payment schedule provided above, the first Payment under this Lease is due when this Lease is signed by You and the remaining Payments will be due on the first day of each subsequent month through the expiration of the Term. You agree to pay Us the amount of all search fees, filing fees and administration fees specified in this Lease at the time this Lease is executed and, in any event, upon demand by Us, and to reimburse Us for the amount of all search and filing fees incurred by Us in connection with this Lease upon demand by Us. EXCEPT AS PROVIDED IN SECTION

DILL 4833-2 (05/15) For municipal golf leases in all states except AR

Page 1 of 6
3. This Lease is NON-CANCELABLE and your OBLIGATION to PAY the RENT for ALL OR ANY OTHER AMOUNT DUE HEREUNDER is ABSOLUTE, IRREVOCABLE and UNCONDITIONAL, and is NOT SUBJECT to and SHALL NOT be AFFECTED by ANY ABATEMENT, SET-OFF, DISPUTE, CLAIM, COUNTERCLAIM, DEDUCTION, DEFENSE or OTHER RIGHT WHICH YOU May HAVE or ASSERT AGAINST the lessor or any other person or PARTY or ANY OTHER PARTY for ANY REASON WHATSOEVER, ALL OF WHICH YOU HEREBY EXPRESSLY WAIVE AS AGAINST US, YOU AGREE NOT to ASSERT ANY OF SUCH DEFENSES OR OTHER RIGHTS AGAINST US, YOU AGREE to PAY the SECURED RENT and all other amounts due under this Lease, whether such amounts are due from time to time to the lessor or any other person or PARTY or ANY OTHER PARTY whether or not based on your performance or non-performance of the terms or provisions of this Lease, REGARDLESS OF ANY DEFAULT OF YOU under this Lease or ANY OTHER Default of YOU, and in no event shall we be liable to you for any special, incidental or consequential damages based upon any legal theory, including, but not limited to, loss of profits, loss of use of the Equipment, the claims of third parties or any other cause.

3. Non-Appeal of Funds. Notwithstanding anything to the contrary contained herein, you warrant that you have funds available to pay all Payments that are to be paid hereunder or any other obligation that you owe us, and that you will not assert that there is not sufficient funds in your account to cover any Payment that is due or will be due to us, or that the payment of any Payment is otherwise not permissible. If you have not sufficient funds in your account to cover the Payment when due, you shall be liable to us for the full amount of the Payment, including any fees or charges we incur in attempting to collect the Payment from you. You agree to provide us prompt written notice in the event of any exigency in which your account balance is insufficient to cover the Payment when due. We reserve the right to terminate the Lease in the event of any exigency in which your account balance is insufficient to cover the Payment when due.

4. Delivery and Acceptance; DISCLAIMER of WARRANTIES. You agree to accept each item of Equipment in its as-is condition when delivered and, if requested by us, to execute the Delivery and Acceptance Certificate supplied by us as evidence thereof. You ACKNOWLEDGE THAT WE MAKE NO WARRANTY, EITHER EXPRESS or IMPLIED with respect to any Equipment, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTY OF MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. You also agree that neither the manufacturer nor the supplier of the Equipment is an agent of us, If the Equipment is covered by a manufacturer's warranty, that warranty is not extended to you and you agree to give us written notice of any defect in the Equipment for which you believe we should be responsible. You also agree that you have the sole responsibility for the repair or replacement of any Equipment that is covered by such warranty and that you will be fully responsible for all costs, charges, and expenses associated therewith. You further agree that we shall not be liable for any breach of warranty, express or implied, with respect to the Equipment or any part thereof.

5. Use, Maintenance and Return of Equipment. You agree that all Equipment is to be used for commercial purposes and that the Equipment will not be moved outside of the contiguous forty-eight states of the United States and to notify us of each change in the place where the Equipment is located or used, (i) as soon as practicable, but in any event within ten (10) days of each change in location, You further agree as follows: (a) to operate the Equipment in a careful manner; (b) to maintain the Equipment in good repair and repair any damage thereto; (c) to maintain the Equipment at all times in good working condition, (d) to use the Equipment only for the purposes for which it is intended, to use the Equipment in a manner which does not violate any law, rule or regulation, or any other agreement or obligation to which you are subject, (e) to pay all amounts payable hereby, whether or not due, whether or not incurred by us, and in the same condition as when delivered, ordinary wear and tear excepted, free of any lien, encumbrance or security interest claimed by any person, You will not in any event subject the Equipment to any abrasive, corrosive or abnormal working conditions or any conditions which may adversely affect the performance or use of the Equipment, or any part thereof, (f) to keep the Equipment in good repair and to replace any lost or damaged Equipment, and (g) to return the Equipment to us at the time and place specified in the Lease, if any such return is required.

6. Risk of Use, Damage and Destruction. You assume all risk arising from the use, care, operation, or possession of the Equipment and agree to indemnify and hold us harmless from all claims, demands, damages and losses, including reasonable attorneys' fees and expenses, arising therefrom. In the event of the theft, destruction or other loss with respect to any Equipment (each item of Equipment singularly referred to as a "Item") during the Term or thereafter, you shall immediately provide us prompt written notice of such event. We shall inspect the Equipment's existence, installation, condition and/or maintenance.

7. Maintenance, Service and Repairs. You warrant that the Equipment is in good working condition and in good repair and that the Equipment is complete and operable and is capable of performing all of the services for which it was intended. You also warrant that the Equipment is free from any and all defects, and that it is in a fit and acceptable condition for use.

8. Finishing, Cleaning, and Environmental Compliance. You agree to allow us reasonable access to the premises to inspect the Equipment and the premises at any time and for as long as we deem necessary. You agree to promptly and diligently comply with all laws, rules, and regulations, including all environmental laws, rules, and regulations, applicable to the premises and the Equipment, and to promptly and diligently take all actions necessary to cause the premises and the Equipment to be in compliance with all such laws, rules, and regulations. You also agree to promptly and diligently take all actions necessary to ensure that the premises and the Equipment are in compliance with all首次发了
EXTENT PERMITTED BY APPLICABLE LAW. You waive any and all rights and remedies conferred upon a lessee by UCC ARTICLE 2A, including without limitation, Section 2A-508 through 2A-522 of the UCC. You also represent and warrant that you are authorized under the constitution and laws of said state to enter into this Lease and the transaction contemplated hereby and to perform all of Your obligations hereunder; (c) You have been duly authorized to execute and deliver this Lease by proper action and approval of Your governing body at a meeting duly called, regularly held, or with the written consent of the necessary number of directors (if any) and/or other appropriate official approval; (d) this Lease constitutes Your legal, valid and binding obligation enforceable in accordance with its terms, except to the extent limited by applicable bankruptcy, insolvency, reorganization or other laws affecting creditors' rights generally; (e) there is no action, suit, proceeding, inquiry or investigation, at law or in equity, pending or threatened, to which You are a party which could adversely affect You or this Lease; (f) there is no material default by You under this Lease; (g) You do not know of any material default by any other party under any other Lease to which We are a party; (h) You have not been advised of any unauthorized, collateral or other lien or defect in title to or interest in any of the Equipment or any part of the Equipment, which would cause a default under, or result in the creation of any lien, charge, security interest or other encumbrance on any of Your assets or the Equipment pursuant to any Indenture, mortgage, deed of trust, bank agreement or other agreement; (i) You have not incurred, suffered or sustained any liability, loss, damage or injury, which may prevent or delay Your performance under this Lease or which would, in any manner, affect, restrict or limit Your rights hereunder. You also waive and assign to Us the right of any statutory exemption from execution or otherwise and further waive any rights to demand security for costs in the event of litigation. If the Equipment is sold, treated, or repossessed by You or by any other party, and any part of the proceeds of such sale, treatment or repossession is insufficient to pay the Obligations, You agree that the deficiency shall be Your responsibility and We shall not be liable therefor. Covenants shall survive beyond the Full Lease Term and the termination of this Lease.

15. Choice of Law and Jurisdiction; Waiver of Jury Trial. The law of the State of Your address shown on the front page hereof shall govern all matters relating to this Lease, and You hereby agree that all disputes or controversies relating to or arising out of this Lease, shall be subject to the exclusive jurisdiction of the courts and tribunals located in New York County, New York. You hereby consent to the personal jurisdiction of the courts in said county and state, and irrevocably waive any objections thereto. YOU WAIVE YOUR RIGHT TO A TRIAL BY JURY.

16. Waivers. You acknowledge receipt of an executed copy of this Lease. Where permitted by law, You waive Your right to receive a copy of any financing statement, financing change statement, verification statement or other similar instrument filed or issued at any time in respect of this Lease or any amendment hereof. To the extent permitted by law, You, being fully aware of the rights and benefits afforded to You by statute, hereby waive the benefits of all provisions of any applicable statute, including, without limitation, any statute relating to leases, conditional sales, or regulatory credit, in any or all of the Equipment, and all such rights, powers and remedies, which would, in any manner, affect, restrict or limit Our rights hereunder. You also waive and assign to Us the right of any statutory exemption from execution or otherwise and further waive any right to demand security for costs in the event of litigation.

THIS LEASE IS ENTERED INTO ON THE ASSUMPTION THAT YOU ARE THE OWNER OF THE EQUIPMENT FOR INCOME TAX PURPOSES AND ARE ENTITLED TO CERTAIN FEDERAL AND STATE TAX BENEFITS AVAILABLE TO AN OWNER OF EQUIPMENT UNDER SECTION 263A OF THE INTERNAL REVENUE CODE OF 1986, AS AMENDED (THE "CODE"). YOU REPRESENT, WARRANT AND COVENANT TO US THAT (A) THE EQUIPMENT IS TANGIBLE PERSONAL PROPERTY; (B) THERE ARE NO LEASE BENEFITS OR OTHER TAX BENEFITS AVAILABLE TO YOU OR ANY PERSON ON ACCOUNT OF THE LEASE; (C) YOU WILL USE THE EQUIPMENT SOLELY WITHIN THE UNITED STATES; AND (D) YOU WILL TAKE NO POSITION INCONSISTENT WITH THE ASSUMPTION THAT YOU ARE THE OWNER OF THE EQUIPMENT FOR ANY TAX PURPOSES. YOU AND US HEREBY ACKNOWLEDGE THAT THE TAX BENEFITS OF THE LEASE WILL BE TRANSMITTED TO YOU TO THE EXTENT THAT YOU COMPLETELY OWN THE UNITS OF EQUIPMENT, AND THAT WE SHALL NOT BE LIABLE TO YOU FOR RECEIVING AND RECUPING ANY OF THE TAX BENEFITS OTHERWISE AVAILABLE WITH RESPECT TO THE EQUIPMENT SUBJECT TO ANY LEASE (A "TAX LOSS"), THEN YOU WILL, PROMPTLY UPON DEMAND, PAY TO US AN AMOUNT SUFFICIENT TO PROVIDE US THE SAME AFTER-TAX RATE OF RETURN AND AGGREGATE AFTER-TAX CASH FLOW THROUGH THE END OF THE TERM OF SUCH LEASE THEN IN EFFECT THAT WE WOULD HAVE REALIZED BUT FOR SUCH TAX LOSS, YOU WILL BE RESPONSIBLE FOR AS AND WHEN DUE AND SHALL INDEMNIFY AND HOLD US HARMLESS FROM ALL TAXES (INCLUDING, BUT NOT LIMITED TO, LEASE Bcents, PROPERTY TACS, ALL TAXES MENTIONED OR REFERENCED IN SECTIONS 55, 1491, 6421 OR OTHER APPLICABLE INTERNAL REVENUE CODES, AND ALL TAXES OF ANY KIND, WHETHER OR NOT APPLICABLE TO LEASES OR OTHER TRANSACTIONS) IN ANY MANNER CONNECTED WITH OR RESULTING FROM THE LEASE, THE LEASING OF THE EQUIPMENT OR ANY PART THEREOF, OR THE USE OR POSSESSION OR USE OF THE EQUIPMENT, OR BASED UPON OR MEASURED BY THE PAYMENTS OR RECEIPTS WITH RESPECT TO THIS LEASE. YOU AGREE NOT TO PAY ANY OF THE TAXES, WE HAVE THE RIGHT, BUT NOT THE OBLIGATION, TO PAY THEM ON YOUR BEHALF. YOU ARE OBLIGATED TO TAKE ANY REASONABLE AND REASONABLE MEASURES TO MINIMIZE ANY Tax ASSESSMENTS. YOU WILL BE RESPONSIBLE FOR ANY TAXES, FINES OR PENALTIES, WHICH YOU ARE NOT RESPONSIBLE FOR, AND WE WILL NOT BE RESPONSIBLE FOR ANY TAXES, FINES OR PENALTIES FOR WHICH YOU ARE RESPONSIBLE. YOU WILL BE RESPONSIBLE FOR THE COLLECTION AND REMITTANCE OF ANY TAXES, FINES OR PENALTIES, WHICH YOU ARE NOT RESPONSIBLE FOR, AND WE WILL NOT BE RESPONSIBLE FOR THE COLLECTION AND REMITTANCE OF ANY TAXES, FINES OR PENALTIES, WHICH YOU ARE RESPONSIBLE FOR.
use or other Tax returns as required by law under this Lease. In such case, You will pay to Us on demand, as an additional Payment, the amount of the personal property tax We are required to pay. You agree to reimburse Us with the next Payment for any Taxes We pay, plus a fee to Us for collecting and administering any Taxes and remitting them to the appropriate authorities on which we may make a profit and interest thereon at the highest legal rate allowed, from the date due until fully paid. If You do not pay this reimbursement with the next Payment You agree to pay Us interest on those amounts at the highest legal rate allowed from the due date until paid in full. We make no recommendation, representation or warranty as to the treatment of this Lease for tax or accounting purposes. You acknowledge that You have consulted with Your tax and accounting advisors concerning the appropriate tax and accounting treatment of this Lease and have not relied on advice from Us; and You hold Us harmless for any adverse consequences resulting from Your tax and accounting treatment of this Lease.

18. Golf Cars. If the Equipment includes golf cars, with respect to the golf cars only, notwithstanding the limitations in Section 5, 8 and 10 You may rent the golf cars on a daily or per-round basis to Your patrons, in the ordinary course of Your business. To the extent You complete an exemption certificate relative to personal property taxes on the golf cars, You agree to indemnify Us from and against any Claims related to the failure to pay personal property taxes based on such representation and You agree that You are responsible for remitting any and all required sales, use or other tax required as a result of the rental of the golf cars to patrons.

19. Financial and Credit Information; Communication Methods. You authorize Us to obtain credit bureau reports and make other credit inquiries that We determine are necessary and agree that without further notice We may use or request additional credit bureau reports to update Our information so long as You have any outstanding indebtedness or obligations owed to Us. You further agree to provide Us, promptly after request therefor by Us, such income statements, balance sheets and other financial statements and information and such federal and state income tax returns concerning You that We determine are necessary. Providing Your email address and/or telephone number in Your credit application or otherwise is Your acknowledgment that We may retain Your email address and/or telephone number for further communication with You. You agree to allow Us to conduct business with You using email or by calling You, regardless of the purpose of Our communication, which may include, without limitation, collections and notices under Your agreements with Us. We reserve the right to use the method of communication We deem best in interacting with You.

20. Facsimile. This Lease may be executed by a party and transmitted by facsimile or electronic mail. You agree that a copy of this Lease bearing Your signature which was transmitted by facsimile or printed from an electronic file shall be admissible in any legal proceeding as evidence of its contents and its execution by the parties in the same manner as an original document. You further agree not to object to the admissibility of such copy into evidence under the business records to the hearsay rule or the best evidence rule or otherwise and expressly waive any right to do so. The original or a facsimile or electronic copy of this Lease which bears both a signature of Us and You and Our original signature shall be deemed the execution original of this Lease for the purposes of taking possession of this Lease for all other purposes.

21. Miscellaneous. You agree the terms and conditions contained in this Lease constitute the final agreement between You and Us and is the exclusive expression of our agreement regarding the lease of the Equipment. All earlier and contemporaneous negotiations and agreements between You and Us on the matters contained herein are expressly merged into and superseded by this Lease. Any modification or addition to the terms of this Lease must be in a written agreement identified as an amendment and signed by Us. You agree, however, We are authorized, without notice to You, to insert in this Lease and/or the Equipment Schedule any serial number, model numbers and/or make of any item of Equipment, correct any errors in such information reflected in this Lease and/or the Equipment Schedule and correct any other patent errors or omissions in the description of any item of Equipment reflected in the Equipment Schedule, to supply information missing from this Lease or the Equipment Schedule and to correct any obvious errors in this Lease or in the Equipment Schedule. Without limiting the foregoing. You agree we may insert the date and Number of this Lease after Your execution of the Lease. If We delay or fail to enforce any of Our rights under this Lease, We will still be entitled to enforce those rights at a later time and such rights shall not be waived. Any waiver by Us of any breach or default will not constitute a waiver by Us of any additional or subsequent breach of default nor shall it be a waiver of any of Our rights. Any waiver of a remedy, term or condition or change to the terms and conditions of this Lease must be in writing and signed by Us. All notices shall be given in writing by the party sending the notice and shall be effective when (a) deposited in the U.S. mail, with first class postage prepaid, or (b) sent by overnight courier of national reputation, in either case, addressed to the party receiving the notice at the address shown on the front of this Lease (or to any other address specified by that party in writing). All of Our rights and indemnities will survive the termination of this Lease. Our rights, privileges and indemnities, to the extent they are fairly attributable to events or conditions occurring or existing during the Term of this Lease, shall survive and be enforceable by Us and Our successors and assigns. Payments received may be applied at Our discretion to obligations hereunder or to any other indebtedness owed by You to Us despite directions, if any, appearing on the remittance or communicated to Us otherwise, and to late charges first and then to the amount owing. It is the express intent of the parties not to violate any applicable usury laws or to exceed the maximum amount of time price differential or interest, as applicable, permitted to be charged or collected by applicable law, and any such excess payment will be applied to Payments in inverse order of maturity, and any remaining excess will be refunded to You. If You do not perform or any of Your obligations under this Lease, We have the right, but not the obligation, to take any action or pay any amounts We believe are necessary to protect Our interest. You agree to reimburse Us immediately upon Our demand for any such amounts We pay. In the event any provision of this Lease shall be determined by a court of competent jurisdiction to be invalid, illegal, or unenforceable, the parties hereto agree such provision shall be ineffective and the remaining provisions of this Lease shall remain in full force if the essential provisions of this Lease for each party remain valid, legal, and enforceable. Any provision of this Lease which is, for any reason, unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such unenforceability without invalidating the remaining provisions hereof. This Lease and Equipment Schedule shall be binding upon and inure to the benefit of the parties and their permitted successors and assigns. You shall promptly execute and deliver to Us such further documents and take such further action as We may request to more effectively carry out the intent and purpose of this Lease and the Equipment Schedule. Words importing the singular include the plural and vice versa and words importing gender include all genders. If more than one lessee has signed this Lease, each of You agree Your liability is joint and several. Restrictive or similar endorsements contained on or provided in connection with any Payment You make shall not be binding on Us. Time is of the essence under this Lease.

By signing this agreement: (1) you acknowledge that you have read and understand the terms and conditions on each page of this agreement; (ii) you agree that this is a net lease, that you cannot terminate or cancel, that you have an unconditional obligation to make all payments due, and you cannot withhold, set off or reduce any such payments for any reason, including, without limitation, fundamental breach, (iii) you warrant that the person signing this lease for you has the authority to do so; (iv) you confirm that you have decided to enter into this lease rather than purchase the equipment for the total purchase price and (v) you agree that this lease will be governed by the laws of the state of your address on the front page hereof and you expressly waive any rights to a trial by jury.

In witness whereof, the parties have executed this lease effective as of the date set forth on the first page of this lease.

The undersigned hereby certifies that Lessee has leased all items described in (the "Equipment") pursuant to the Lease Agreement between DLL Finance LLC ("Lessor") and the Lessee identified below and in the Lease Agreement No. (the "Lease") and further certifies that:

(i) the Equipment has been delivered to and has been received by Lessee;
(ii) all installation or other work necessary prior to the use thereof has been completed;
(iii) all Equipment has been examined by Lessee, is in good operating order and condition, and is in all respects satisfactory to Lessee;
(iv) the Equipment is accepted by Lessee for all purposes under the Lease Agreement and the Lease.

Master Maintenance Agreement (Golf Cars - Municipal)

Lease Agreement Number: | Lessor: DLL Finance LLC

Lessee: 

Date: 

This Master Maintenance Agreement (the “Agreement”) relates to all Equipment, as defined in the Lease Agreement identified above between the Lessee and Lessor identified above (the “Lease”). All capitalized terms shall have the meanings ascribed to them in the Lease. Lessee agrees as follows with respect to each item of Equipment which is required to be returned:

1. RETURN OF EQUIPMENT. Notwithstanding anything to the contrary contained in the Lease and in addition to the terms and conditions contained therein and herein, Lessee shall, at Lessee’s sole cost and expense, return all, but not less than all, of the Equipment described the Lease to Lessor, or its designee immediately upon the expiration of the Term of the Lease pursuant to the terms and conditions contained in the Lease and with respect to each item of Equipment, as applicable, the following must be true:

   (A) All safety equipment must be in place and meet applicable federal, state and other governmental standards.

   (B) All windscreen, covers and guards must be in place with no sheet metal, plastic, or cowling damage.

   (C) All parts, pieces, components and optional equipment must be present, installed and operational. All accessories that accompanied the units and/or were subject to the Lease, including without limitation battery chargers, GPS equipment, diagnostic and tuning equipment shall be returned in proper order. Upon request of Lessor, all maintenance records and manuals related to the Equipment.

   (D) All motors shall operate smoothly without overheating and shall have good bearings and bushings.

   (E) All electronic controls shall operate per manufacturer’s specifications. Controls which bypass normal operations shall be repaired at Lessee’s expense.

   (F) All electrical systems shall be able to provide electrical output as specified by the manufacturer.

   (G) All batteries shall be in good, safe operating condition with no dead cells or cracked cases. Batteries should hold a charge and provide adequate power to operate the equipment.

   (H) All Equipment shall have serviceable brakes and tires (retaining proper air pressure, and without repair patches) and the wheels shall not be dented and/or bent.

   (I) All oil and grease seals must contain lubrication in the manufacturers designed reservoir.

   (J) All Equipment must have a relatively clean appearance.

   (K) All Equipment shall be free from excessive wear necessitating major component repair or replacement caused by lack of recommended maintenance as detailed in customer operating/maintenance manual furnished with each item of equipment.

   (L) All Equipment shall be free from structural damages and/or bent frames.

   (M) All Equipment attachments, if any, must be in good condition.

2. RETURN PERFORMANCE. Each item of Equipment must be able to complete the following tests:

   (A) Operate normally in forward and reverse directions through all the speed ranges or gears.

   (B) Steer normally both right and left in both forward and reverse.

   (C) Have all functions and controls work in normal manner.

   (D) Be able to stop with its service brakes in a safe distance in both forward and reverse.

   (E) Operates without leaking any fluids.

   (F) Perform its designed functions in a satisfactory manner.

Notwithstanding the above, if the total cost of the repairs for all items of Equipment subject to a Lease is less than $100, Lessor will not bill Lessee.

3. REPAIRS / REQUIRED PURCHASE. If, in the Lessor’s sole judgment, any item of Equipment is damaged or does not meet the standards set forth above, or if Lessee fails to discharge its obligations set forth above with regard to any item of Equipment, Lessee shall pay to Lessor, immediately upon demand, at Lessor’s election, (a) the amount which Lessor determines will be necessary to return the Equipment to its required condition and/or to replace missing, damaged or non-performing items or equipment, or (b) Payments due and to become due under the terms of the Lease, Taxes, fees and charges due and to become due under the terms of the Lease, plus the residual value as indicated in Lessor’s books and records associated with such item of Equipment.

4. MISCELLANEOUS. Lessee agrees that a copy of this Agreement bearing a signature of Lessee which was transmitted by facsimile or printed from an electronic file shall be admissible in any legal proceeding as evidence of its contents and its execution by the parties in the same manner as an original document.

In order to induce DLL Finance LLC ("Lessor") to enter into the Lease pursuant to which the Equipment will be leased to Lessee, the undersigned represents the following:

- The Lessee acknowledges and understands that Lessor will file all personal property tax returns and Lessee shall reimburse Lessor for property taxes related to the Equipment.
- Property taxes will be billed annually to Lessee and are due on invoice. Lessee acknowledges that property taxes may be billed to Lessee after the Term of the Lease.
- If Lessee does not pay property taxes, Lessor has the right, but not the obligation, to pay them on Lessee’s behalf and add to the amount of such taxes to the Lease Payments.

All capitalized terms not otherwise defined herein shall have the same meanings as in the Agreement. Lessee agrees that Lessor's emphasis of the provisions of the Agreement contained herein are for the convenience of the Lessee and shall not minimize or waive any remaining provisions of the Agreement, all of which remain in full force and effect. Lessor, its successors and assigns, and any counsel rendering an opinion on the tax-exempt status of the interest components of the Payments are entitled to rely on this acknowledgement. Lessee's facsimile signature shall be considered binding as an original.

In order to induce DLL Finance LLC ("Lessor") to enter into the Agreement pursuant to which the Equipment will be financed or leased to Lessee, the undersign represents the following:

As legal counsel of Lessee, I have examined (a) the Agreement and the corresponding documentation, which, among other things, provide for the financing or lease of the Equipment to Lessee; (b) an executed counterpart of the ordinance or resolution of Lessee which, among other things, authorizes Lessee to execute the Agreement; and (c) such other opinions, documents and matters of law as I have deemed necessary in connection with the following opinions.

Based on the foregoing, I am of the following opinions: (a) Lessee is a public body corporate and politic, duly organized and existing under the laws of the State of [State], and has substantial amount of one or more of the following sovereign powers (1) the power of eminent domain, and (2) police power; (b) Lessee has the requisite power and authority to purchase or lease the Equipment and to execute and deliver the Agreement and to perform its obligations under the Agreement; (c) the representative(s) of Lessee executing the Agreement has been duly authorized to do so; (d) the Agreement and the other documents either attached thereto or required therein have been duly authorized, approved and executed by and on behalf of Lessee and the Agreement is a valid and binding obligation of Lessee enforceable in accordance with its terms; (e) the authorization, approval and execution of the Agreement and all other documentation relating to the transactions contemplated thereby have been performed in accordance with all open meeting laws, public bidding laws and all applicable state and federal laws; (f) if applicable, a contract was properly awarded to the Supplier and there is no pending or threatened protest of such award or Lessee’s compliance with public bidding laws; and (g) there is no proceeding pending or threatened in any court or before any governmental authority or arbitration board or tribunal that, if adversely determined, would adversely affect the transactions contemplated by the Agreement or the security interest of Lessor or its assigns, as the case may be, in the Equipment.

All capitalized terms not otherwise defined herein shall have the same meanings as in the Agreement. Lessor, its successors and assigns, and any counsel rendering an opinion on the tax-exempt status of the interest components of the Payments are entitled to rely on this opinion.

Certificate of Incumbency (Golf)

By signing below, I hereby certify the following to DLL Finance LLC ("DLL"), its successors and assigns:

1. I am the [Print title] of [Print name of entity] (the "Company")
   and am familiar with the policies and the officers and authorized agents of the Company and am authorized to provide this Certificate of Incumbency (this "Certificate").

2. The individuals listed below, in addition to those persons possessing apparent authority under Iowa law (each an "Authorized Representative") are each fully authorized and empowered, acting alone and in accordance with the organizational documents and/or authorizations, resolutions or actions of the governing body of the Company to enter into, from time to time, such agreements, including without limitation lease agreement(s) and loan agreements with DLL and such other agreements in favor of or required by DLL in connection with the acquisition, lease or sale of equipment or the financing of the acquisition of equipment as any one or more of the undersigned Authorized Representatives shall approve (each a "Transaction Document").

* Attach additional pages if necessary.

3. DLL may conclusively rely on the accuracy, genuineness, and good faith of any written communication bearing the signature of any Authorized Representative listed above for purposes of entering into, modifying, providing funds for and/or relying on each Transaction Document. The Company shall indemnify and hold harmless DLL for any loss suffered or liability incurred by it in reliance on this Certificate.

4. The authority conferred herein is not inconsistent or in conflict with any organizational documents or other applicable agreements or documents of the Company and is within the Company's power and authority. Resolutions evidencing the authorizations contained in this Certificate appear in the Company's books and records.

5. Until DLL receives notice in writing of any change or limitation of the authority of any Authorized Representative as designated in this Certification, DLL is authorized to rely upon the authority and power of any Authorized Representative as set forth in this Certification. Such notice, to be effective, must be received by DLL at the following address: 8001 Birchwood Court, PO Box 2000, Johnston, IA 50131. Such notice shall only be effective as to transactions entered into after DLL's receipt of such notice and shall not have any effect on transactions entered into prior to the receipt of such notice.

6. A facsimile copy of this Certificate shall have the same force and effect as the original. This Certificate represents the entire agreement and understanding as to the subject matter hereof and supersedes all prior oral and written negotiations, agreements and understandings.

CUSTOMER AGREEMENT TO PROVIDE PHYSICAL DAMAGE INSURANCE

Lessee's Name ________________________________

Address ___________________________ City ______ State ______ ZIP ______

Lease Application # ____________ with DLL Finance LLC

I have entered into the above Lease agreement under which I am responsible for providing insurance against ALL RISKS of direct physical loss or damage for the actual cash value of the equipment described in the Lease Agreement, subject to common exclusions such as damage caused by corrosion, rust, mechanical or electrical breakdown, etc. The minimum amount of coverage required by DLL Finance LLC ("DLL") is $ ____________

I will be providing my own physical damage insurance coverage through:

Insurance Agent ____________________________ Phone: ____________________________

TO CUSTOMER'S INSURANCE AGENT

I hereby instruct you to add DLL Finance LLC as a payee through a Lender's Loss Payable Clause which is a clause that provides that any acts of the Lessee will not void the policy as to the Lender.

To my existing policy number ____________________________ with ____________________________

which now provides the coverage required, or

To a policy which you are authorized to issue in my name which will provide the coverage required.

DLL Finance LLC must be given written notice within 30 days of any cancellation or non-renewal. It is also understood and agreed that a breach of the insurance conditions by the Lessee, or any other person, shall not invalidate the insurance to DLL Finance LLC.

PLEASE FORWARD A COPY OF THE POLICY, ENDORSEMENT, OR CERTIFICATE EVIDENCING COVERAGE TO DLL FINANCE LLC, P.O. BOX 3000, JOHNSTON, IA 50131-0300. FAX: 515-334-5831 OR CALL 800-863-3660.

PLEASE ATTACH A COPY OF THIS NOTICE TO THE PROOF OF INSURANCE.

ACKNOWLEDGEMENT OF LESSEE: I acknowledge that copies of this document sent to DLL are for information purposes only. I am responsible for notifying my agent of my obligation to obtain physical damage insurance.

I understand I am responsible for insurance coverage for personal liability or property damage caused to others.

**Bank Qualification**

By checking the box below, YOU hereby designate this Lease as a "qualified tax-exempt obligation" as defined in Section 2510(20) of the Internal Revenue Code and represent that the aggregate face amount of all tax-exempt obligations (including private activity bonds other than qualified 501(c)(3) bonds) issued or to be issued by YOU and your affiliate entities during the calendar year in which WE fund this Lease is not reasonably expected to exceed $100,000,000.

☐ Bank Qualification Elected

**Terms and Conditions**

Please read YOUR copy of this State and Local Government Lease-Purchase Agreement ("Lease") carefully and feel free to ask US any questions YOU may have about it. Words "YOU" and "YOUR" refer to the "Lessee" and the words "WE," "US" and "OUR" refer to De Lage Landen Public Finance LLC, its successors and assigns, as the "Lessor" of the Equipment.

1. **LEASE.** WE agree to lease to YOU and YOU agree to lease from US, the equipment listed above (and on any attached schedule) including all replacement parts, repairs, additions and accessories ("Equipment") on the terms and conditions of this Lease and on any attached schedule.

2. **TERM.** This Lease is effective on the date when the term of this Lease and YOUR obligation to pay rent commence, which date shall be the date that funds are advanced by US to YOU, the vendor of the Equipment or an escrow agent for the purpose of paying or reimbursing all or a portion of the cost of the Equipment (the "Commencement Date") and continues thereafter for an original term ("Original Term") ending at the end of YOUR budget year in effect on the Commencement Date and may be continued by YOU for additional one-year renewal terms ("Renewal Terms") coinciding with YOUR budget year up to the total number of months indicated above as the Full Lease Term; provided, however, that at the end of the Original Term and at the end of each Renewal Term until the Full Lease Term has been completed, YOU shall be deemed to have continued this Lease for the next Renewal Term unless YOU shall have terminated this Lease pursuant to Section 5 or Section 17. Lease Payments will be due as set forth on Attachment 1 until the balance of the Lease Payments and any additional Lease Payments or expenses chargeable to YOU under this Lease are paid in full. As set forth in the Lease Payment Schedule, a portion of each Lease Payment is paid as, and represents payment of, interest. YOUR obligation to pay the Lease Payments and YOUR other Lease obligations are absolute and unconditional and are not subject to cancellation, reduction, setoff or counterclaim except as provided in Section 5. THIS LEASE IS NON-CANCELLABLE EXCEPT AS PROVIDED IN SECTION 5.

3. **LATE CHARGES.** If a Lease Payment is not made on the date when due, YOU will pay US a late charge at the rate of 18% per annum or the maximum amount permitted by law, whichever is less, from such date.

4. **CONTINUATION OF LEASE.** YOU currently intend, subject to Section 5, to continue this Lease through the Full Lease Term and to pay the Lease Payments hereunder. YOU reasonably believe that legally available funds in an amount sufficient to make all Lease Payments during the Full Lease Term can be obtained. YOUR responsible financial officer shall do all things lawfully within his or her power to obtain and maintain funds from which the Lease Payments may be made, including making provision for the Lease Payments to the extent necessary in each proposed annual budget submitted for approval in accordance with YOUR applicable procedures and to exhaust all available reviews and appeals if that portion of the budget is not approved. Notwithstanding the foregoing, the decision whether to budget or appropriate funds and to extend this Lease for any Renewal Term is solely within the discretion of YOUR governing body.

5. **NONAPPROPRIATION.** YOU are obligated only to pay such Lease Payments under this Lease as may lawfully be made from funds budgeted and appropriated for that purpose during YOUR then current budget year. If YOU fail to appropriate or otherwise make available funds to pay the Lease Payments required to be paid in the next occurring Renewal Term, this Lease shall be deemed terminated at the end of the then current Original Term or Renewal Term, YOU agree to deliver written notice to US of such termination at least 90 days prior to the end of the then current Original Term or Renewal Term, but failure to give such notice shall not extend the term of this Lease beyond the then current Original Term or Renewal Term. If this Lease is terminated in accordance with this Section, YOU agree, at YOUR cost and expense, to peaceably deliver the Equipment to US at the location or locations specified by US.

6. **WARRANTIES.** WE are leasing the Equipment to YOU as "AS-IS" and WE MAKE NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. WE transfer to YOU, without recourse, for the term of this Lease all warranties, if any, made by the manufacturer. WE ALSO ACKNOWLEDGE THAT NO ONE IS AUTHORIZED TO WAIVE OR CHANGE ANY TERM, PROVISION OR CONDITION OF THIS LEASE AND, EXCEPT FOR THE MANUFACTURER WARRANTIES, MAKE ANY REPRESENTATION OR WARRANTY ABOUT THIS EQUIPMENT OR THE MANUFACTURER. WE SHALL NOT BE LIABLE FOR SPECIAL, INDIRECT OR CONSEQUENTIAL DAMAGES OR LOSS OF PROFIT OCCASIONED BY ANY BREACH OF WARRANTY OR REPRESENTATION OR RESULTING FROM THE USE OR PERFORMANCE OF THE EQUIPMENT. YOUR OBLIGATION TO PAY IN FULL, ANY AMOUNT DUE UNDER THE LEASE WILL NOT BE AFFECTED BY ANY DISPUTE, CLAIM, COUNTERCLAIM, DEFENSE OR OTHER RIGHT WHICH YOU MAY HAVE OR ASSERT AGAINST THE SUPPLIER OR THE EQUIPMENT MANUFACTURER.

7. **DELIVERY AND ACCEPTANCE.** YOU are responsible, at YOUR own cost, to arrange for the delivery and installation of the Equipment (unless those costs are included in the costs of the equipment to US). IF REQUESTED, YOU will SIGN a separate DELIVERY EQUIPMENT AND ACCEPTANCE CERTIFICATE. WE MAY AT OUR DISCRETION CONFIRM BY TELEPHONE THAT YOU HAVE ACCEPTED THE EQUIPMENT AND THAT TELEPHONE VERIFICATION OF YOUR ACCEPTANCE OF THE EQUIPMENT SHALL HAVE THE SAME EFFECT AS A SIGNED DELIVERY AND ACCEPTANCE CERTIFICATE.

(Terms and Conditions continued on the reverse side of this Lease.)

**Lessee Signature**

YOU agree to all of the Terms and Conditions contained in both sides of this Lease, and in any attachments to same (all of which are included by reference) and become part of this Lease. YOU acknowledge to have read and agreed to all of the Terms and Conditions.

8. TITLE, PERSONAL PROPERTY, LOCATION, INSPECTION, NO MODIFICATIONS OR ALTERATIONS. You have title to the Equipment; provided that title to the Equipment will immediately and without any action by YOU in U.S. and YOU shall immediately surrender possession of the Equipment in U.S. (a) upon any termination of the Leasing Term, including termination pursuant to Section 17 or 18 of this Lease. It is the intent of the parties hereto that any transfer of title to US pursuant to this Section shall occur automatically without the necessity of any bill of sale, certificate of title or other instrument of conveyance. YOU will, nevertheless, execute and deliver such agreements, bills of lading and other documents as may be requested by US in connection with such transfer as security for your obligations hereunder, WE retain a security interest in the Equipment and all proceeds thereof. YOU have the right to use the Equipment during the term of this Lease, exclusive of any other express or implied restrictions contained herein. YOU shall remove all Equipment from the real estate that it remains personal property. YOU agree not to alter or modify the Equipment or permit a lien to be placed upon the Equipment or to remove the Equipment without our prior written consent. If we feel it is necessary, you can sell or lease the Equipment to any third party, and we will require a satisfactory payment for any such sale or lease. We will provide you with a notice of any such sale or lease. You are responsible for all damages to the Equipment that occur during your possession of the Equipment.

9. MAINTENANCE. You are required, at your own cost and expense, to keep the Equipment in good working condition and repair, at your expense and risk, except for any repairs that are the responsibility of US. If you fail to perform any of these repairs, we may do so and charge you for the cost of the repairs.

YOU ACKNOWLEDGE THAT WE ARE NOT RESPONSIBLE FOR PROVIDING ANY REQUIRED MAINTENANCE AND/OR SERVICE FOR THE EQUIPMENT. YOU WILL MAKE ALL CLAIMS FOR MAINTENANCE AND/OR SERVICE FOR THE EQUIPMENT SOLELY TO THE SUPPLIER AND/OR MANUFACTURER AND SUCH CLAIMS WILL NOT AFFECT YOUR OBLIGATION TO MAKE ALL REQUIRED LEASE PAYMENTS.

10. ASSIGNMENT. YOU AGREE NOT TO ASSIGN, TRANSFER, SELL, SUBLEASE, ASSIGN, PLEDGE OR ENCLOSE EITHER THE EQUIPMENT OR ANY RIGHTS UNDER THIS LEASE WITHOUT OUR PRIOR WRITTEN CONSENT. YOU agree that we may sell, assign or transfer this Lease and, if we do, the new owner will have the same rights and benefits that WE now have and will not be required to perform any of the duties or obligations of WE under this Lease. The rights of the new owner will not be subject to any claims by any of our defenses or set-offs that YOU may have against US. YOU hereby appoint Municipal Registrar Services (the "Registrar") as YOUR agent for the purpose of maintaining a written record of each assignment in accordance with Section 14(b)(3) of the Uniform Commercial Code ("UCC"). No such assignment shall be binding on YOU until the Registrar has received written notice from the assignor of the name and address of the assignee.

11. DAMAGE. You shall be responsible for the risk of loss or destruction of, or damage to, the Equipment. In the event of damage, YOU must notify US as soon as possible. Damages in excess of the limits of liability set forth herein shall be paid by YOU.

12. INDENITY. WE are not responsible for any losses or damages caused by the manufacture, acquisition, possession, use, leasing, installation, operation, maintenance, or repair of the Equipment or defects in the Equipment. To the extent permitted by law, YOU agree to reimburse US for any claims against US for losses or injuries relating to the Equipment.

13. TAXES. YOU agree to pay all applicable license and registration fees, sales and use taxes, personal property taxes and all other taxes and charges, related to the ownership, transfer, leasing, rental, sale, purchase, possession or use of the Equipment (except those based on OUR net income). YOU agree that if WE pay any taxes or charges, YOU will reimburse US for all such payments and will pay any interest and a late charge (as calculated in Section 8) on such payments with the next Lease Payment, plus a fee for OUR collection and administering any taxes, assessments or fees and remitting them to the appropriate authorities.

14. INSURANCE. During the term of this Lease, YOU will keep the Equipment insured against all risks of loss or damage in an amount not less than the replacement cost of the Equipment, without deductible and without co-insurance. YOU will also obtain and maintain for the term of this Lease, comprehensive public liability insurance covering bodily injury and property damage at least $100,000 per occurrence and $200,000 per policy year. You will also have liability insurance of at least $100,000 for personal injury and property damage. We will be the named insured party on the property insurance and named as an additional insured on the public liability insurance. YOU will pay all premiums for such insurance and must deliver to US a certificate of insurance to US. If WE do not provide evidence of your insurance, YOU agree that WE have the right, but not the obligation, to obtain such insurance and add an insurance fee to the amount due from YOU, on which We make a profit.

15. SUBLEASE. Subject to Section 6, YOU are in default of this Lease if any of the following occurs: (a) YOU fail to pay any Lease Payment or other sum when due; (b) YOU breach any warranty or other obligation under this Lease, or any other agreement with US; (c) YOU become insolvent or unable to pay YOUR debts when due; (d) YOU make an assignment for the benefit of creditors or YOU undergo a substantial deterioration in YOUR financial conditional, or (e) YOU file or have filed against YOU a petition for liquidation, reorganization, adjustment of debt or similar relief under the Federal Bankruptcy Code or any other present or future federal or state bankruptcy or insolvency law, or a trustee, receiver or liquidator is appointed for YOU or a substantial part of YOUR assets.

16. REMEDIES. WE have the remedies available to US under Illinois Law or federal law, or the then current Original Term or any renewal Term, including but not limited to: (a) payment of all damages, in the case of a default during the then current Original Term or any renewal Term, and not less than the maximum rate permitted by law; (b) denial of any rights or benefits under this Lease; (c) if WE are entitled to any remedies, WE may accelerate and demand payment in full of all payments due under this Lease; (d) WE may terminate this Lease and remove all Equipment, in which case WE may (but are not required to) sell the Equipment as if WE were the owner thereof; (e) WE may bring an action against YOU for a default under this Lease, in which case WE will be entitled to recover the entire amount of damages, including legal fees and costs, and WE may take such action in any court of competent jurisdiction. You must also pay us for any damages.

17. DEFAULT. If WE exercise any of the remedies set forth in Section 16 above, YOU must pay US all amounts due under this Lease and pay us five thousand dollars ($5,000) as liquidated damages for each day after the date of default.

18. REPRESENTATIONS AND WARRANTIES. YOU warrant and represent as follows: (a) YOU are a public body corporate and politic duly organized and existing under the constitution and laws of YOUR State with full power and authority to enter into this Lease and the transactions contemplated thereby and to perform all of YOUR obligations hereunder; (b) YOU have duly authorized the execution and delivery of this Lease by proper action by YOUR governing body at a meeting duly called, regularly convened and attended throughout by the requisite majority of the members thereof; (c) YOU have complied with such public bidding requirements as may be applicable to this Lease and the acquisition by YOU of the Equipment; (d) all authorizations, consents and approvals of governmental bodies or agencies required in connection with the execution and delivery by YOU of this Lease or in connection with the carrying out by YOU of YOUR obligations hereunder have been obtained; (e) this Lease contains the legal, valid and binding obligation of YOU enforceable in accordance with its terms, except to the extent limited by applicable bankruptcy, insolvency, reorganization or other laws affecting creditors’ rights generally; (f) YOU have, in accordance with the requirements of law, fully disclosed and approved of sufficient funds for the current budget year to make the Lease Payments scheduled to come due during the current budget year and to meet YOUR other obligations under this Lease for the current budget year, and the funds needed for this purpose have not been expanded for other purposes; (g) the Equipment is essential to YOUR functions or to the services YOU provide to YOUR citizens; (h) YOU have an immediate need for the Equipment and expect to make immediate use of the Equipment. YOUR need for the Equipment is not temporary and YOU do not expect the need for any item of the Equipment to diminish in the foreseeable future, including the Full Lease Term, and the Equipment will be used by YOU only for the purpose of performing one or more of YOUR governmental or proprietary functions consistent with the permissible scope of your authority and will not be used in the trade or business of a for-profit entity; (i) YOU have never failed to pay, or otherwise make available funds sufficient to pay rental or other payments coming due under any lease payment instalments or other similar agreements. You must also pay us for any damages.

19. UCC FILING AND FINANCIAL STATEMENTS. YOU authorize US to file a financing statement with respect to the Equipment. If WE feel it is necessary, YOU agree to submit financial statements (audited if available) on a quarterly basis.

20. UCC - ARTICLE 9A PROVISIONS. YOU agree that this Lease is a finance lease as that term is defined in Article 9A of the Uniform Commercial Code ("UCC"). YOU acknowledge that WE have given to YOU the written confirmation that the Equipment is a "Commercially Available Product" as defined in Section 14(b)(3) of the UCC. YOU agree to pay all taxes or other charges due on the Equipment.

21. TAX EXEMPTION. YOU will comply with all applicable provisions of the Internal Revenue Code of 1986, as amended, including without limitation Sections 133 and 148 thereof, and the applicable regulations thereunder to maintain the exclusion of the interest portion of the Lease Payments from inclusion for purposes of federal income taxation.

22. BANK QUALIFICATION. If YOU checked the "Bank Qualification Requested" box on the front page of this Lease, YOU and ALL your subordinates and agents authorize US to inspect and write about the parties. Any provision of this Lease which for any reason may be held unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective without invalidating the remainder of this Lease. THIS LESSOR IS NOT REQUIRED FOR TRANSACTIONS WITH AN EQUIPMENT COST OF LESS THAN $1,000.

23. FACSIMILE DOCUMENTATION. YOU agree that a facsimile copy of this Lease with facsimile signatures may be treated as an original and will be admissible as evidence of this Lease.

**SAMPLE DOCUMENT**
Instructions for Form 8038-G
(Rev. September 2011)
Information Return for Tax-Exempt Governmental Obligations

Section references are to the Internal Revenue Code unless otherwise noted.

General Instructions

Purpose of Form
Form 8038-G is used by issuers of tax-exempt governmental obligations to provide the IRS with the information required by section 149(e) and to monitor the requirements of sections 141 through 150.

Who Must File

If the issue price (line 21, column (b)) is...

$100,000 or more A separate Form 8038-G for each issue

Less than $100,000 Form 8038-G, Information Return for Small Tax-Exempt Governmental Bond Issues, Leases, and Installment Sales

For allbuild America bonds and recovery zone economic development bonds use Form 8038-B, Information Return for Build America Bonds and Recovery Zone Economic Development Bonds. For tax credit bonds and specified tax credit bonds use Form 8038-TC, Information Return for Tax Credit Bonds and Specified Tax Credit Bonds.

When To File
File Form 8038-G on or before the 15th day of the 2nd calendar month after the date of the first interest payment on the bond. Form 8038-G may not be filed before the due date and must be completed based on the facts as of the due date.

Late filing. An issuer may be granted an extension of time to file Form 8038-G under Section 3 of Rev. Proc. 2002-48, 2002-37 I.R.B. 531, if it is determined that the failure to file in time is due to the IRS's neglect. Type or print at the top of the form "Request for Relief under Section 3 of Rev. Proc. 2002-48 and attach a letter explaining why Form 8038-G was not submitted to the IRS on time. Also indicate whether the bond issue in question is under examination by the IRS. Do not submit copies of the trust indenture or other bond documents. See Where To File next.

Where To File
File Form 8038-G, and any attachments, with the Department of the Treasury, Internal Revenue Service Center, Ogden, UT 84201.

Private delivery services. You can use certain private delivery services designated by the IRS to meet the "timely mailing as timely filing paying" rule for tax returns and payments. These private delivery services include only the following:

• DHL Express (DHL), DHL Same Day Service.

Private delivery service can tell you how to get written proof of the mailing date.

Other Forms That May Be Required
For rebuilding arbitrage (or paying a penalty in lieu of arbitrage rebate) to the Federal government, use Form 8038-T, Arbitrage Rebate, Yield Reduction and Penalty in Lieu of Arbitrage Rebate.

For private activity bonds, use Form 8835, Information Return for Tax-Exempt Private Activity Bond Issues.

For build America bonds (Direct Pay), build America bonds (Tax Credit), and recovery zone economic development bonds, complete Form 8038-B, Information Return for Build America Bonds and Recovery Zone Economic Development Bonds.

For qualified forestry conservation bonds, new clean renewable energy bonds, qualified energy conservation bonds, qualified zone academy bonds, qualified school construction bonds, clean renewable energy bonds, Midwestern tax credit bonds, and all other qualified tax credit bonds (except build America bonds), file Form 8038-TC, Information Return for Tax Credit Bonds and Specified Tax Credit Bonds.

Rounding to Whole Dollars
You may show amounts on this return as whole dollars. To do so, drop amounts less than 50 cents and increase amounts from 50 cents through 99 cents to the next whole dollar.

Questions on Filing Form 8038-G
For specific questions on how to file Form 8038-G send an email to the IRS at TaxExemptBondQuestions@irs.gov and put "Form 8038-G Question" in the subject line. In your email, include a description of your question, a return address, the name of a contact person, and a telephone number.

Definitions

Tax-exempt obligation. This is any obligation, including a bond, installment purchase agreement, or financial lease, on which the interest is excluded from income under section 103.

Tax-exempt governmental obligation. A tax-exempt obligation that is not a private activity bond (see below) is a tax-exempt governmental obligation. This includes a bond issued by a qualified volunteer fire department under section 150(e).

Private activity bond. This includes an obligation issued as part of an issue in which:

• More than 10% of the proceeds are to be used for any private activity business use.
• More than 10% of the payment of principal or interest of the issue is either (a) secured by an interest in property to be used for a private activity business (or payments for such property) or (b) be derived from payments for property (or borrowed money) used for a private activity business use.

It also includes a bond, the proceeds of which are to be used directly or indirectly to make or finance loans (other than loans described in section 141(c)(2)) to persons other than governmental units and (b) exceeds the lesser of 3% of the proceeds or $5 million.

Issue price. The issue price of obligations is generally determined under Regulations section 1.148-1(b). Thus, when issued for cash, the issue price is the first price at which a substantial amount of the obligations are sold to the public. To determine the issue price of an obligation issued for property, see sections 1273 and 1274 and the related regulations.

Sep 20, 2011

Cat. No. 63774D
Issue. Generally, obligations are treated as part of the same issue if they are issued by the same issuer, on the same date, and in a single transaction, or a series of related transactions. However, obligations issued during the same calendar year under a loan agreement under which amounts are to be advanced periodically (a "draw-down loan") or (b) with a term not exceeding 270 days, may be treated as part of the same issue if the obligations are equally and ratably secured under a single indenture or loan agreement and are issued under a common financing arrangement (for example, under the same official statement periodically updated to reflect changing factual circumstances). Hence, for obligations issued under a draw-down loan that meet the requirements of the preceding sentence, obligations issued during different calendar years may be treated as part of the same issue if all of the amounts to be advanced under the draw-down loan are reasonably expected to be advanced within 3 years of the date of issue of the first obligation. Likewise, obligations (other than private activity bonds) issued under a single agreement that is in the form of a lease or installment sale may be treated as part of the same issue if all of the property covered by that agreement is reasonably expected to be delivered within 3 years of the date of issue of the first obligation.

Arbitrage rebate. Generally, interest on a state or local bond is not tax-exempt unless the issuer of the bond rebates to the United States arbitrage profits earned from investing proceeds of the bond in higher yielding nonpurpose investments. See section 148(f).

Construction issue. This is an issue of tax-exempt bonds that meets both of the following conditions:
1. At least 75% of the available construction proceeds are to be used for construction expenditures with respect to property to be owned by a governmental unit or a section 501(c)(3) organization, and
2. All the bonds that are part of the issue are qualified 501(c)(3) bonds, bonds that are not private activity bonds, or private activity bonds issued to finance property to be owned by a governmental unit or a section 501(c)(3) organization.

In lieu of rebating any arbitrage that may be owed to the United States, the issuer of a construction issue may make an irrevocable election to pay a penalty. The penalty is 1% of the amount of construction proceeds that do not meet certain spending requirements. See section 148(f)(4)(C) and the Instructions for Form 8338-7.

Specific Instructions

Part I—Reporting Authority

Amended return. An issuer may file an amended return to change or add to the information reported on a previously filed return for the same date of issue. If you are filing to correct errors or change a previously filed return, check the Amended Return box in the heading of the form.

The amended return must provide all the information reported on the original return, in addition to the new or corrected information. Attach an explanation of the reason for the amended return and write across the top, "Amended Return Explanation." Failure to attach an explanation may result in a delay in processing the form.

Line 1. The issuer's name is the name of the entity issuing the obligations, not the name of the entity receiving the benefit of the financing. For a lease or installment sale, the issuer is the lessor or the purchaser.

Line 2. An issuer that does not have an employer identification number (EIN) should apply for one on Form SS-4, Application for Employer Identification Number. You can get this form on the IRS website at IRS.gov or by calling 1-800-TAX-FORM (1-800-829-3676). You may receive an EIN by telephone by following the instructions for Form SS-4.

Line 3a. If the issuer wishes to authorize a person other than an officer or other employee of the issuer (including a legal representative or paid preparer) to communicate with the IRS and whom the IRS may contact about this return (including in writing or by telephone), enter the name of such person here. The person listed in line 3a must be an individual. Do not enter the name and title of an officer or other employee of the issuer here (see line 10a for that purpose).

Note: By authorizing a person other than an authorized officer or other employee of the issuer to communicate with the IRS and whom the IRS may contact about this return, the issuer authorizes the IRS to communicate directly with the individual entered on line 3a and consents to disclose the issuer's return information to that individual, as necessary, to process this return.

Lines 4 and 6. If you listed an individual on line 3a to communicate with the IRS and whom the IRS may contact about this return, enter the number and street (or P.O. box if mail is not delivered to street address), city, town, or post office, state, and ZIP code of that person. Otherwise, enter the issuer's number and street (or P.O. box if mail is not delivered to street address), city, town, or post office, state, and ZIP code.

Note: The address entered on lines 4 and 6 is the address the IRS will use for all written communications regarding the processing of this return, including any notices.

Line 5. This line is for IRS use only. Do not make any entries in this box.

Line 7. The date of issue is generally the date on which the issuer physically exchanges the bonds that are part of the issue for the underwriter's (or other purchaser's) funds. For a lease or installment sale, enter the date interest starts to accrue in a MM/DD/YYYY format.

Line 8. If there is no name of the issue, please provide other identification of the issue.

Line 9. Enter the CUSIP (Committee on Uniform Securities Identification Procedures) number of the bond with the latest maturity. If the issue does not have a CUSIP number, write "None."

Line 10a. Enter the name and title of the officer or other employee of the issuer whom the IRS may call for more information. If the issuer wishes to designate a person other than an officer or other employee of the issuer (including a legal representative or paid preparer) whom the IRS may call for more information about the return, enter the name, title, and telephone number of such person on lines 3a and 3b.

Complete lines 10a and 10b even if you complete lines 3a and 3b.

Part II—Type of Issue

Elections referred to in Part II are made on the original bond documents, not on this form.

Identify the type of obligations issued by entering the corresponding issue price (see Issue price under Definitions earlier). Attach a schedule listing names and EINs of organizations that are to use proceeds of these obligations, if different from those of the issuer, include a brief summary of the use and indicate whether or not such user is a governmental or nongovernmental entity.

Line 18. Enter a description of the issue in the space provided.

Line 19. If the obligations are short-term tax anticipation notes or warrants (TANs) or short-term revenue anticipation notes or warrants (RANs), check box 19a. If the obligations are short-term bond anticipation notes (BANs), issued with the expectation that they will be refunded with the proceeds of long-term bonds at some future date, check box 19b. Do not check both boxes.

Line 20. Check this box if property other than cash is exchanged for the obligation, for example, acquiring a police car, a fire truck, or telephone equipment through a series of monthly payments. (This type of obligation is sometimes referred to as a "municipal lease.") Also check this box if real property is directly acquired in exchange for an obligation to make periodic payments of interest and principal. Do not check this box if the proceeds of the obligation are received in the form of cash, even if the term “lease” is used in the title of the issue.
Part III—Description of Obligations

Line 21. For column (a), the final maturity date is the last date the issuer must redeem the entire issue.

For column (b), see Issue price under Definitions earlier.

For column (c), the stated redemption price at maturity of the entire issue is the sum of the stated redemption prices at maturity of each bond issued as part of the issue. For a lease or installment sale, write "N/A" in column (c).

For column (d), the weighted average maturity is the sum of the products of the issue price of each maturity and the number of years to maturity (determined separately for each maturity and by taking into account mandatory redemptions), divided by the issue price of the entire issue (from line 21, column (b)). For a lease or installment sale, enter instead the total number of years the lease or installment sale will be outstanding.

For column (e), the yield, as defined in section 148(h), is the discount rate that, when used to compute the present value of all payments of principal and interest to be paid on the obligation, produces an amount equal to the purchase price, including accrued interest. See Regulations section 1.148-4 for specific rules to compute the yield on an issue. If the issue is a variable rate issue, write "VR" as the yield of the issue. For other than variable rate issues, carry the yield out to four decimal places (for example, 5.3125%). If the issue is a lease or installment sale, enter the effective rate of interest being paid.

Part IV—Uses of Proceeds of Bond Issue

For a lease or installment sale, write "N/A" in the space to the right of the title for Part IV.

Line 22. Enter the amount of proceeds that will be used to pay interest from the date the bonds are dated to the date of issue.

Line 24. Enter the amount of the proceeds that will be used to pay bond issuance costs, including fees for trustees and bond counsel. If no bond proceeds will be used to pay bond issuance costs, enter zero. Do not leave this line blank.

Line 25. Enter the amount of the proceeds that will be used to pay fees for credit enhancement that are taken into account in determining the yield on the issue for purposes of section 149(b) (for example, bond insurance premiums and certain fees for letters of credit).

Line 26. Enter the amount of proceeds that will be allocated to such a fund.

Line 27. Enter the amount of the proceeds that will be used to pay principal, interest, or call premium on any other issue of bonds within 90 days of the date of issue.

Line 28. Enter the amount of the proceeds that will be used to pay principal, interest, or call premium on any other issue of bonds after 90 days of the date of issue, including proceeds that will be used to fund an escrow account for this purpose.

Part V—Description of Refunded Bonds

Complete this part only if the bonds are to be refunded to a prior issue of tax-exempt bonds. For a lease or installment sale, write "N/A" in the space to the right of the title for Part V.

Lines 31 and 32. The remaining weighted average maturity is determined without regard to the refunding. The weighted average maturity is determined in the same manner as on line 21, column (d).

Line 34. If more than a single issue of bonds will be refunded, enter the date of issue of each issue. Enter the date in an MM/DD/YYYY format.

Part VI—Miscellaneous

Line 35. An allocation of volume cap is required if the nonqualified amount for the issue is more than $15 million but is not more than the amount that would cause the issue to be private activity bonds.

Line 36. In any portion of the gross proceeds of the issue, it will be invested in a guaranteed investment contract (GIC), as defined in Regulations section 1.148-1(b), enter the amount of the gross proceeds so invested, as well as the final maturity date of the GIC and the name of the holder of such contract.

Line 37. Enter the amount of the proceeds of this issue used to make a loan to another governmental unit, the interest of which is tax-exempt.

Line 38. If the issue is a loan proceeds from another tax-exempt issue, check the box and enter the date of issue, B/I, and name of issuer of the master pool obligation.

Line 40. Check this box if the issuer is a constructive trustee and is an irrevocably elected to pay a penalty in lieu of arbitrage rebate has been made on or before the date the bonds were issued. The penalty is payable with a Form 8038-T for each 6-month period after the date the bonds are issued. Do not make any payment of penalty in lieu of arbitrage rebate with this form. See Rev. Proc. 92-22, 1992-1 C.B. 736 for rules regarding the "election document."

Line 41a. Check this box if the issuer has identified a hedge on its books and records according to Regulations sections 1.149-4(h)(2)(vii) and 1.149-4(h)(5) that permit an issuer of tax exempt bonds to identify a hedge for it to be included in yield calculations for computing arbitrage.

Line 42. In determining if the issuer has super-integrated a hedge, apply the rules of Regulations section 1.149-4(h)(4). If the hedge is super-integrated, check the box.

Line 43. If the issuer takes a "deliberate action" after the issue date that causes the conditions of the private business tests or the private loan financing test to be met, then such issue is also an issue of private activity bonds. Regulations section 1.149-2(d)(3) defines a deliberate action as any action taken by the issuer that is within its control regardless of whether there is intent to violate such tests. Regulations section 1.149-12 explains the conditions to taking remedial action that prevent an action that causes an issue to meet the private business tests or private loan financing test from being treated as a deliberate action. Check the box if the issuer has established written procedures to ensure timely remedial action for all nonqualified bonds according to Regulations section 1.149-12 or other remedial actions authorized by the Commissioner under Regulations section 1.148-1(h).

Line 44. Check the box if the issuer has established written procedures to monitor compliance with the arbitrage yield restriction, and rebate requirements of section 149.

Line 45a. Check the box if some part of the proceeds was used to reimburse expenditures. Figure and then enter the amount of proceeds that were used to reimburse the issuer for amounts paid for a qualified purpose prior to the issuance of the bonds. See Regulations section 1.150-2.

Line 45b. An issuer must adopt an official intent to reimburse itself for preissuance expenditures within 60 days after payment of the original expenditure unless excepted by Regulations section 1.150-2(f). Enter the date the official intent was adopted. See Regulations section 1.150-2(e) for more information about official intent.

Signature and Consent

An authorized representative of the issuer must sign Form 8038-G and any applicable certification. Also print the name and title of the person signing Form 8038-G. The authorized representative of the issuer signing this form must have the authority to consent to the disclosure of the issuer's return information, as necessary to process this return, to the person(s) that have been designated in Form 8038-G.

Note. If the issuer in Part I, lines 3a and 3b authorizes the IRS to communicate (including in writing and by telephone) with a person other than an officer or other employee of the issuer, by signing this form, the issuer's authorized representative consents to the disclosure of the issuer's return information, as necessary to process this return, to such person.

Paid Preparer

If an authorized officer of the issuer filled in this return, the paid preparer's space should remain blank. Anyone who prepares the return but does not charge the organization should not sign the return. Certain others who prepare the
return should not sign. For example, a regular, full-time employee of the issuer, such as a clerk, secretary, etc., should not sign.

Generally, anyone who is paid to prepare a return must sign it and fill in the other blanks in the Paid Preparer Use Only area of the return.

The paid preparer must:

- Sign the return in the space provided for the preparer’s signature (a facsimile signature is acceptable),
- Enter the preparer information, and
- Give a copy of the return to the issuer.

**Paperwork Reduction Act Notice.** We ask for the information on this form to carry out the Internal Revenue laws of the United States. You are required to give us the information. We need it to ensure that you are complying with these laws.

You are not required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long as their contents may become material in the administration of any Internal Revenue law. Generally, tax returns and return information are confidential, as required by section 6103.

The time needed to complete and file this form varies depending on individual circumstances. The estimated average time is:

CITY MANAGER’S MEMORANDUM

Recommend approval.
ORDINANCE NO. __________

On the 21st day of March, 2017, there came on and was held at the City Hall of the City of Lamesa, Texas, an open meeting of the City Council of the City of Lamesa, Texas, held pursuant to the provisions of the Texas Open Meetings Act (Government Code, Chapter 551). There being a quorum present and acting throughout the meeting, the following ordinance was formally submitted by motion and duly seconded for the consideration and action of the meeting, to-wit:

WHEREAS, the City Council desires to amend Ordinance No. 0-18-16 to make certain revisions to the 2016-2017 Budget of the City of Lamesa to authorize and appropriate funds as listed below; and

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF LAMESA, TEXAS:

SECTION 1. That the City of Lamesa 2016-2017 Budget contained in Ordinance No. 0-16-18 be, and same is hereby, amended to change the amount appropriated by the following:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Revenues</th>
<th>Expenditures</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Fund (1)</td>
<td>$13,833.65</td>
<td>$13,833.65</td>

<td>$49,290.00</td>
</tr>
<tr>
<td>Total of All Funds</td>
<td>$86,795.60</td>
<td>$86,795.60</td>
</tr>
</tbody>
</table>

SECTION 2. Effective date: That this Ordinance shall become effective as of this April 7, 2017.

SECTION 3. The City Secretary is hereby authorized and directed to cause publication of this Ordinance as provided by law.

Upon being put to a vote, the foregoing ordinance was Passed, on First Reading on March 21, 2017 by a majority vote; and on March 28, 2017, there will be held at the regular meeting place, the City Hall, an open meeting of the City Council of the City of Lamesa, Texas held pursuant to the provisions of the Texas Open Meetings Act (Government. Code, Chapter 551); there being a quorum present and acting throughout the meeting, the foregoing ordinance was formally submitted by motion and duly seconded for the consideration and action of the meeting, and upon being put to a vote, the foregoing ordinance was Passed on First Reading by a majority vote and ordered to
be spread upon the minutes of the City Council of the City of Lamesa, Texas and recorded in the ordinance book thereafter.

SUMMARY STATEMENT
City Council to approve a resolution authorizing TxDOT to extend Interstate 27 along the Ports-To-Plains Corridor south of Lubbock.

COUNCIL ACTION

DISCUSSION

Motion by Council Member ______ to approve a resolution authorizing TxDOT to extend Interstate 27 along the Ports-To-Plains Corridor south of Lubbock. Motion seconded by Council Member ______ and upon being put to a vote the motion ______.

VOTING: "AYE" _____ "NAY" _____ "ABSTAIN" _____

CITY MANAGER'S MEMORANDUM

Recommend approval.
RESOLUTION ________

A RESOLUTION SUPPORTING THE EXTENSION OF INTERSTATE 27 ALONG THE PORTS-TO-PLAINS CORRIDOR SOUTH OF LUBBOCK.

WHEREAS, Congress has already designated the Ports-to-Plains Corridor in Texas as a High Priority Corridor on the National Highway System; and

WHEREAS, the Texas Department of Transportation published an Initial Assessment Report on the Extension of 1-27/Ports to Plains Corridor in November, 2015 which stated: "The corridor will continue to be a critical link to state, national and international trade, growing population centers and critical energy and agricultural business sectors"; and

WHEREAS, according to the Texas Freight Mobility Plan, "By 2040 over 73 percent of Texas' population and 82 percent of the state's employment is projected to be located within five miles of an interstate"; and

WHEREAS, Texas has no major north-south interstate west of Interstate 35; and

WHEREAS, the Texas Freight Mobility Plan notes that further investment alone on 1-35 will not fix the problem saying, "The state must focus not only on improving existing facilities, but also on developing future freight corridors to move products to markets and exports"; and

WHEREAS, the Texas Freight Mobility Plan goes on to recommend that TxDOT, "give additional consideration to the extension or designation of other interstate routes. Examples include 1-27 and upgrades to portions of US Highway 190 to interstate standards"; and

WHEREAS, the proposed extension of Interstate 27 connects major West Texas population and economic centers including Amarillo, Lubbock, Midland- Odessa and San Angelo in addition to numerous smaller communities; and

WHEREAS, the proposed extension of Interstate 27 intersects with Interstate 40, Interstate 20 and Interstate 10; and
WHEREAS, the proposed extension of Interstate 27 will serve three border crossings with Mexico at Del Rio, Eagle Pass and Laredo; and

WHEREAS, the proposed extension of Interstate 27 will be a major backbone for the energy industry in Texas serving top oil and gas producing counties as well as the growing wind energy industry; and

WHEREAS, the proposed extension of Interstate 27 will also serve the agriculture industry including many of Texas top counties for the production of cotton, cattle, sheep and goats and other commodities; and

WHEREAS, extending Interstate 27 in Texas is also a cost-effective option. The Texas Department of Transportation's *Initial Assessment Report on the Extension of 1-27/Ports to Plains Corridor* estimated that it would cost about $7 billion to upgrade the nearly 1,000 miles of the Ports-to-Plains Corridor from the northern tip of Texas to Laredo. To extend Interstate-27 approximately 500 miles from Lubbock to Laredo is projected to cost $5.2 billion. Compare that to the $4.8 billion it cost to rebuild 28 mile section of Interstate 35 east from Interstate 635 to U.S. Highway 380 in Dallas County; and

WHEREAS, an additional cost saving option is associated with the primarily east-west, recently designated, Interstate 14 which includes a proposed segment that overlaps the Ports-to-Plains Corridor between Midland-Odessa and San Angelo, presenting an opportunity for that segment to be jointly designated as Interstate 14 and Interstate 27; and

WHEREAS, a future Interstate designation will be a significant new economic development tool for communities along the corridor. Site selectors for manufacturers, warehousing and distribution recommend sites along an interstate highway and travel services businesses such as hotels, truck stops, convenience stores and restaurants, which can have a dramatic impact on small communities will also expand. This will create much needed new jobs and expanded tax base in rural West Texas; and

WHEREAS, while designation as a future interstate is the first step in a very long process before the completion of an interstate highway, that does not lessen the importance of extending Interstate 27.
NOW THEREFORE, BE IT RESOLVED AND ORDERED BY THE CITY COUNCIL OF THE CITY OF LAMESA, TEXAS:

Section 1. That the City of Lamesa supports the extension of Interstate 27.

Section 2. This resolution to be in full force and effect from and after its passage and approval.

Section 3. If any portion or provision of this resolution shall for any reason be held to be invalid or unenforceable, the invalidity or unenforceability of such portion or provision shall not affect any of the remaining provisions of this Resolution, the intention being that the same are severable.

ADOPTED AND APPROVED this 21st day of March, 2017.

ATTEST:

Norma Garcia

Sample Press Release

Recognizing the long-term economic benefits for the region, the (Insert your entity's name here) passed a resolution supporting the extension of Interstate 27. The highway currently runs 124 miles between Lubbock and Amarillo. The Ports-to-Plains Corridor Coalition has created a committee of West Texas mayors and community leaders that is leading the effort to unite the region behind the initiative to extend I-27.

"Extending Interstate 27 is vitally important to the economic competitiveness of our region," said (Insert entity chief officer's name here). "Interstate highways are critical to connect our businesses to other markets, help our businesses grow and to create new jobs in our community."

According to the Texas Freight Mobility Plan, "By 2040 over 73 percent of Texas' population and 82 percent of the state's employment is projected to be located within five miles of an interstate." An extended Interstate 27 is critical for the economic competitiveness of West Texas.

Texas does not have a major North-South interstate west of Interstate 35. Where Interstate 69 can serve as an alternative for freight moving to the northeast, an extended I-27 can be an I-35 relief route to the northwest.

The proposed extension of Interstate 27 connects major West Texas population and economic centers including Amarillo, Lubbock, Midland-Odessa and San Angelo in addition to numerous smaller communities. It will cross I-40, I-20 and I-10 and serve three border crossings with Mexico at Del Rio, Eagle Pass and Laredo. An extended I-27 will be a major backbone for the energy industry in Texas serving top oil and gas producing counties as well as the growing wind energy industry. Furthermore, it will serve the agriculture industry including many of Texas top counties for the production of cotton, cattle, corn, grains, sheep and goats and other commodities.

Extending Interstate 27 in Texas is also a cost-effective option. A 2015 study from TxDOT estimated that it would cost about $7 billion to upgrade the nearly 1,000 miles of the Ports-to-Plains Corridor from the northern tip of Texas to Laredo. To extend I-27 approximately 500 miles from Lubbock to Laredo is projected to cost $5.2 billion. Compare that to the $4.8 billion it cost to rebuild 28 mile section of I-35 E from I-635 to US 380 in Dallas County. And even though the recently designated Interstate 14 is primarily an east-west route, there is a proposed segment that overlaps the Ports-to-Plains Corridor between Midland-Odessa and San Angelo, presenting an opportunity for that stretch to be jointly designated as I-14 and I-27.

A future Interstate designation will be a significant new economic development tool for communities along the corridor. Manufacturers, warehousing and distribution will be drawn to the new Interstate. Travel services businesses such as hotels, truck stops, convenience stores and restaurants, which can have a dramatic impact on small communities will also open. This will create much needed new jobs and expanded tax base in rural West Texas.
When the Ports-to-Plains Corridor Coalition originated in the mid-1990’s it envisioned extending Interstate 27 to serve as a major corridor for NAFTA trade. Conditions at the time did not warrant expansion to interstate standards, and the coalition has worked to upgrade the corridor to four-lane divided with truck relief routes where needed. Those efforts have led to more than $1 billion in upgrades to the corridor. NAFTA trade and freight has grown dramatically and congestion in Texas’ metropolitan areas has continued to increase. Considering the long-term proposal of upgrading the Ports-to-Plains Corridor in Texas to interstate standards, it is imperative to designate an extension of Interstate 27 to Laredo from its current end point in Lubbock.

Although completely upgrading the Ports-to-Plains Corridor to four-lane divided highway will be very beneficial, a full upgrade to interstate standards is important. According to the Texas Freight Mobility Plan, “By 2040 over 73 percent of Texas’ population and 82 percent of the state’s employment is projected to be located within five miles of an interstate.” An extended Interstate 27 is critical for the economic competitiveness of West Texas.

Texas does not have a major North-South interstate west of Interstate 35. Where Interstate 69 can serve as an alternative for freight moving to the northeast, an extended I-27 can be an I-35 relief route to the northwest.

Undoubtedly NAFTA and increased trade with Mexico have had a tremendous impact on freight movement through Texas. Data published by the Bureau of Transportation Statistics show that the value of U.S.–Mexico trade and Texas-Mexico trade increased by 99.2% and 90.9% respectively between 2004 and 2015. That report showed that in 2015 U.S.-Mexico trade amounted to almost $513 billion. The office of the U.S. Trade Representative reports that in 2015 U.S. goods and services trade with Mexico totaled $583.6 billion. The Bureau of Transportation Statistics reported in 2015 that on average more than 85.7% of US-Mexico trade is transported by surface modes, and trucks move 82.8% of the value of U.S.-Mexico surface trade. Furthermore approximately 60% of U.S.-Mexico trade crossed at a Texas land port in 2015, with Laredo being far and away the largest land port and Eagle Pass ranked third in Texas.

Much of that freight moves up I-35 and has led to a tremendous increase in congestion. The Interstate 35 segment through Travis County is the number 1 ranked corridor for truck congestion in the state. This truck congestion has a detrimental impact on the communities through which it passes.

Many of the counties through which I-35 passes experience higher frequencies of fatal and total crashes related to commercial motor vehicles than other counties. Several cities within the large metro regions served by the I-35 corridor do not currently abide with TCEQ and EPA 8-hour ozone standards.
The Texas Freight Mobility Plan notes that further investment alone on I-35 will not fix the problem. The Plan says, "The state must focus not only on improving existing facilities, but also on developing future freight corridors to move products to markets and exports." It goes on to recommend that TxDOT, "give additional consideration to the extension or designation of other interstate routes. Examples include I-27 and upgrades to portions of U.S. 1-90 to interstate standards."

**PROPOSED TEXAS I-27 EXTENSION**

The proposed extension of Interstate 27 connects major West Texas population and economic centers including Amarillo, Lubbock, Midland-Odessa and San Angelo in addition to numerous smaller communities. It will cross I-40, I-20 and I-10 and serve three border crossings with Mexico at Del Rio, Eagle Pass and Laredo. The Interstate will be a major backbone for the energy industry in Texas serving top oil and gas producing counties as well as the growing wind energy industry. Furthermore, it will serve the agriculture industry including many of Texas top counties for the production of cotton, cattle, corn, grains, sheep and goats and other commodities.

Extending Interstate 27 in Texas is also a cost-effective option. A 2015 study from TxDOT estimated that it would cost about $7 billion to upgrade the nearly 1,000 miles of the Ports-to-Plains Corridor from the northern tip of Texas to Laredo. To extend I-27 approximately 500 miles from Lubbock to Laredo is projected to cost $5.2 billion.

Compare that to the $4.8 billion it cost to rebuild 28 mile section of I-35 E from I-635 to U.S. 380 in Dallas County. And even though the recently designated Interstate 14 is primarily an east-west route, there is a proposed segment that overlaps the Ports-to-Plains Corridor between Midland-Odessa and San Angelo, presenting an opportunity for that stretch to be jointly designated as I-14 and I-27.

A future interstate designation will be a significant new economic development tool for communities along the corridor. Manufacturers, warehousing and distribution will be drawn to the new Interstate. Travel services businesses such as hotels, truck stops, convenience stores and restaurants, which can have a dramatic impact on small communities will also open. This will create much needed new jobs and expanded tax base in rural West Texas.

Designation as a future interstate is the first step in a very long process before the completion of an interstate highway. The original designation of the current 124 mile Interstate 27 came in 1968. Construction did not begin until 1975 and was completed in 1992 at a cost of $453 million, at a time that transportation funding was much more adequate to meet demands. Extending I-27 approximately 500 miles from Lubbock to Laredo will certainly take much more time and money. That is why it is so important to take that first step now and designate an extension of Interstate 27 to Laredo. The state has significant demands for a very limited transportation budget, but that does not lessen the importance of extending Interstate 27.
SUMMARY STATEMENT
City Council to approve a resolution authorizing Ranger Environmental working on behalf of TCEQ to place two monitoring wells in the City alley between S. 1st and S. 2nd between S. Lynn and S. Dallas.

COUNCIL ACTION

CITY MANAGER’S MEMORANDUM
Recommend approval.
February 22, 2017

Re: REQUEST FOR ACCESS TO CITY OF LAMESA RIGHT-OF-WAY

To Whom It May Concern:

Ranger Environmental Services, Inc. (Ranger) is currently under contract with the Texas Commission on Environmental Quality (TCEQ) to conduct site investigation activities in response to a historic gasoline release at the former fueling facility (SITE) listed below:

S&C Oil Company #211
211 S. Dallas Ave.
Lamesa, Texas 79331
LPST ID No.: 92112

As part of the site investigation activities to monitor this release, the TCEQ has requested that Ranger install five additional monitor wells. The purpose of the well installation is to collect representative groundwater samples in an attempt to delineate the extent of subsurface groundwater contamination. Attached to this letter is the approved TCEQ Work Order (Task 2) requesting the installation of the additional monitor wells.

If an effort to complete the monitor well installation requests, Ranger has attempted to secure private property access to install these five wells. We have secured access to install two of the five monitor wells; however, we were declined access to the other three private property locations. Due to the denial of access, Ranger is respectfully requesting your consent to access the City of Lamesa right-of-way (ROW) in order to install three monitor wells in accordance with Proposed Scope of Work listed further below. Please note that all costs associated with the below Proposed Scope of Work will be borne by the TCEQ (i.e. - State of Texas).

The three monitor wells that Ranger is requesting access to the City of Lamesa ROW would be placed at the following locations and approximate latitude/longitude:

**Proposed Monitor Well 17 (PMW-17)**
Located approximately 40 feet north of the South 2nd Street and South Main Avenue intersection, along the eastern side of Main Avenue. GPS coordinates are approximately (Latitude/Longitude) 32.731353°, -101.951144°.

**Proposed Monitor Well 20 (PMW-20)**
Located approximately 20 feet west of Highway 180 and along the northern side of the alley between South 2nd Street and South 3rd Street. GPS coordinates are approximately (Latitude/Longitude) at 32.731120°, -101.948760°.

**Proposed Monitor Well 21 (PMW-21)**
Located approximately 33 feet east of the South 3rd Street and South Dallas Avenue intersection, along the northern side of South 3rd Street. GPS coordinates are approximately (Latitude/Longitude) at 32.730453°, -101.949453°.
Find attached to this letter a Google Earth map which illustrates the following:

1) SITE location;
2) Proposed location for each monitor well Ranger is requesting in the City of Lamesa ROW;
3) Proposed location of the two monitor wells Ranger was able to secure site access from private property owners; and
4) Three properties Ranger was denied private property access.

PROPOSED SCOPE OF WORK

Monitor Well Installation

The presence of petroleum contamination has been documented in the soil and groundwater at the SITE. As part of the corrective action process, the TCEQ requires that the horizontal extent of impacted groundwater be defined.

Prior to any drilling activities, a utility one-call will be performed. In addition, we will meet with you or any of your representatives to ensure that no City of Lamesa utility lines are endangered by the drilling operations. Access to the drilling areas will be cordoned off with safety cones and/or warning tape. Ranger and the subcontracted State of Texas licensed drilling firm will be working under a site-specific health and safety plan. The well installation operations will be conducted in a manner so as to minimize any disruptions to City of Lamesa daily operations.

The proposed monitor wells will be drilled to approximately 90 feet below ground surface, and constructed of two-inch diameter schedule 40 PVC pipe. The wells are completed flush to the ground with a metal bolt down man-way cover to allow both pedestrian and vehicular crossings. Attached is a copy of a typical monitoring well construction diagram for the existing wells associated with the SITE as well as photographs of the monitor well installation process and completion.

Upon completion of the well installation process, all soils generated during the drilling process will be containerized in 55-gallon drums and properly disposed of. The area surrounding the wells will be swept to remove any remaining loose soil. The entire monitoring well installation process generally takes approximately 2 to 5 hours (barring no unforeseen issues). Copies of all testing reports, construction diagram and related documents for the wells to be installed will be provided to you upon request.

Groundwater Monitoring

Upon completion of the well installation activities, groundwater samples and water level measurements will be periodically collected from the installed monitoring wells, as required by the TCEQ. The TCEQ typically requires monitoring wells to be sampled on a quarterly basis (once every three months) until project closure. Thus, it is presently anticipated that the proposed monitoring wells will be accessed and sampled on a quarterly basis, until such time that the TCEQ issues a closure letter for the remediation project associated with the SITE.
Monitor Well Plugging and Abandonment

Upon TCEQ regulatory closure of the SITE leaking petroleum storage tank (LPST) case, the monitor wells in the City of Lamesa ROW will be properly plugged and abandoned by a licensed State of Texas well driller in accordance with the requirements of Texas Administrative Code, Chapter 76. Prior to conducting this activity, we will meet with you or your representative to discuss and schedule the well plugging operations.

Ranger sincerely appreciates your consideration of this request for access to the City of Lamesa ROW. Should you have any questions or need any additional information, please do not hesitate to contact me at 512-335-1785 ext. 28.

Sincerely,

RANGER ENVIRONMENTAL SERVICES, INC.

Max Cook, CAPM
Senior Program Manager

R.M. Airey, Jr., P.E., P.G.

GENERAL

This Work Order, which is a Fixed Unit Price Work Order, is entered into as of the date of the last signature on the Work Order Initiation Form by and between the independent contractor RANGER ENVIRONMENTAL SERVICES INC (herein termed the "CONTRACTOR") and the Texas Commission on Environmental Quality (herein termed "TCEQ"). This Work Order is subject to the CONTRACT for Work (herein termed the "CONTRACT") entered into by the CONTRACTOR and the TCEQ as of the effective date of the CONTRACT, and is a part of that CONTRACT and incorporated therein by reference for all purposes. This Work Order is subject to any amendments, modifications, or supplements to the CONTRACT, whether issued before or after this Work Order, and are incorporated as part of this Work Order for all purposes. Exhibits "A" & "B" of the Work Order are attached to this Work Order and incorporated as part of this Work Order for all purposes. Any amendments, modifications, supplements to the Agreement, whether issued before or after this Work Order. Exhibits "A" & "B" are attached to this Work Order and incorporated as part of this Work Order for all purposes. Any amendments, modifications or supplements issued to this Work Order shall be made a part of this Work Order as provided therein.

SCOPE OF SERVICES

The Scope of Services for this Work Order and the associated unit costs and extensions are listed in Exhibit A of this Work Order. The CONTRACTOR shall provide all services and the necessary personnel, materials, equipment, and facilities required to complete the tasks indicated in the Scope of Services according to the Specifications for those tasks which are listed in the CONTRACT.

CONFLICT OF INTEREST

If this is the first Work Order initiated at this site under this contract during the State fiscal year in which this Work Order is issued, then the completed CONFLICT OF INTEREST CERTIFICATION BY PERFORMING PARTY form shall be attached as Exhibit B of this Work Order.

SUBCONTRACTOR UTILIZATION

Each Work Plan for a Work Order or Work Order Amendment shall include a listing of all subcontractor(s) proposed to be utilized for Work. The Contractor shall notify the TCEQ Project
Manager of any subcontractor(s) proposed to be utilized which are not on the HUB Subcontracting Plan approved by TCEQ for this CONTRACT.

UNUSED FUNDS

Upon becoming aware that funding for pay items approved in this Work Order will not be used, the Contractor shall immediately notify the TCEQ Project Manager.

WORK ORDER CREATION

Saul Garza created the work order on 9/27/16 for facility S & C Oil Company Service Station with site number 092112 located at 211 S Dallas Ave, Lamesa.

PURPOSE

The purpose of this Work Order is to provide authorization to the contractor, Ranger Environmental, to conduct a receptor survey/water well inventory, offsite access, monitor well installation, groundwater gauging, groundwater monitoring, and mobile dual phase extraction (MDPE) at the above referenced Leaking Petroleum Storage Tank (LPST) site in accordance with the Work Order Proposal dated September 23, 2016.

SCHEDULE: Work should be initiated immediately upon receipt of this Work Order. All reports are to be submitted in final form within 45 days of the completion of the work.

PAYMENT: Payment for work may be requested following the submittal and approval of the Receptor Survey Report, Assessment Report Form Addendum, Annual Groundwater Monitoring Report, and MDPE Report. The reports must be accurate and complete to be considered acceptable. Signed copies of timesheets, complete with description of services performed, will be required for invoicing labor hours.

1 - Receptor Survey

SCOPE: This Work Order authorizes the Contractor to conduct an updated receptor survey in accordance with the Work Plan dated September 23, 2016.

SCHEDULE: The receptor survey will be completed by May 2017.

2 - Obtain Offsite Access and Install Five Monitor Wells

SCOPE: This Work Order Authorizes the Contractor to determine property ownership, obtain off-site access, and install five monitor wells in accordance with the Work Plan dated September 23, 2016.

SCHEDULE: The installation of the monitoring wells will be completed by February 2017.

Exhibit B
CONFLICT OF INTEREST
CERTIFICATION BY PERFORMING PARTY

Contract No.: 582-14-40651
Contract PCR No.: 40651
W.O. No.: 317-0020
W.O. PCR No.: 71149

Site No.: 092112
Site Name: S & C Oil Company Service Station
Site County: Dawson
TCEQ PM: Saul Garza

In accordance with the Conflict of Interest Article(s) of the above indicated CONTRACT, and 40 C.F.R. § 35.6559(b) where required, the PERFORMING PARTY hereby discloses by signing and submitting this Exhibit B, which is incorporated herein for all purposes:

1) information on the status of the PERFORMING PARTY, its parent companies, subsidiaries, affiliates, and subcontractors as potentially responsible parties at the above indicated Site; and

2) information on any past, present, or future services performed or anticipated to be performed at the above indicated Site by the PERFORMING PARTY, its parent companies, subsidiaries, affiliates, subcontractors or other agents or associates for any and all potentially responsible parties, or their parent companies, subsidiaries, affiliates, subcontractors and current clients or attorneys and agents; and

3) information on the past, present, or anticipated financial, legal, and business relationships (including services related to any proposed or pending litigation) of the PERFORMING PARTY, its parent companies, subsidiaries, affiliates, subcontractors or other agents or associates with any and all potentially responsible parties at the above Site, or their parent companies subsidiaries, affiliates, subcontractors and current clients or attorneys and agents.

The PERFORMING PARTY hereby certifies that to the best of its knowledge and belief, by signing and submitting this Exhibit B, all such conflict of interest information relating to the above described Site has been either:

1) disclosed in Attachment A by completing, signing and submitting Attachment A with this Exhibit B, or
2) certified that no such information exists by initializing the signature block line titled NONE, and completing, signing and submitting this Exhibit B.

The PERFORMING PARTY hereby further certifies that it will provide continuing disclosure of any such conflict of interest or potential conflict of interest information. Should there be a change in circumstance which would modify the information supplied herein, the PERFORMING PARTY shall modify such information in writing as a supplement to Attachment A to this Exhibit B and submitting such supplement within 10 days of such change.

Please Choose:

To: sburkhart@ci.lamesa.tx.us
Subject: Monitor Wells :: City of Lamesa ROW
Attachments: Installed Monitor Wells - City of Lamesa ROW.pdf; Proposed Monitor Wells - City of Lamesa ROW.pdf

Shawna,

Please find attached two maps to this email. The first map is the current location of the two monitor wells that were installed in the City of Lamesa ROW last year that were approved by Wayne. The second map notes the location of the three monitor wells that the TCEQ is requesting be installed in the City of Lamesa ROW.

Please let me know if you have any questions. I will get you exact Latitude/Longitude today of the proposed wells and the already installed wells.

512.335.1785 ext. 28 (o)
512.497.1556 (c)
NOTICE IS GIVEN THAT THE CITY COUNCIL OF THE CITY OF LAMESA, TEXAS, WILL MEET IN REGULAR SESSION AT 5:00 P.M. ON MONDAY, OCTOBER 1, 2001, 601 SOUTH FIRST STREET, FOR THE PURPOSE OF CONSIDERING AND TAKING OFFICIAL ACTION ON THE FOLLOWING ITEMS:

1. CALL TO ORDER:

2. INVOCATION:

3. APPROVAL OF THE MINUTES: Consider all matters incident and related to ratify and approve the minutes of the City Council concerning each of the matters listed on the agenda of the regular meeting of the City Council of the City of Lamesa, Texas held on September 17, 2001.

4. OPEN BIDS – CITY OWNED REAL PROPERTY: Open bids and consider passing an ordinance on first reading awarding the sale of the following city owned property described as Lots Nineteen (19) and Twenty (20), in Block One (1), of the Oakland Place Addition to the Town of Lamesa, Dawson County, Texas in accordance with the provisions of Section 253.001 of the Local Government Code of the State of Texas.

5. ARKANSAS RIVER SHINER: Consider all matters incident and related to passing resolution requesting the Department of Interior to reconsider the necessity of designating the Arkansas River Shiner as a threatened species and the designation of critical habitat in Texas for the Arkansas River Shiner.

6. AGREEMENT – LEAKING PETROLEUM STORAGE TANK SITE REMEDIATION: Consider all matters incident and related to passing a resolution authorizing the Mayor to enter into agreement with Grimes and Associates for remediation work at the leaking petroleum storage tank site (LPST).

7. APPOINTMENT – FAIR HOUSING ADMINISTRATOR: Consider all matters incident and related to approving the mayor's appointment of a fair housing administrator.

8. CITY COUNCIL REDISTRICTING: Consider all matters incident and related to developing a plan for City Council legislative redistricting.

9. CITY MANAGER’S REPORT: City Manager to report on current activities and answer questions from the City Council.

10. ADJOURNMENT:
DATE OF MEETING: October 1, 2001

SUBJECT: AGREEMENT – LEAKING PETROLEUM STORAGE TANK SITE REMEDIATION

PROCEEDING: Resolution

SUBMITTED BY: Staff

EXHIBITS: Resolution; agreement

AUTHORITY: State Law; Chapter 75, Local Government Code

SUMMARY STATEMENT

Consider all things incident and related to passing a resolution authorizing the Mayor to enter into agreement with Grimes and Associates for remediation work at the LPST.

COUNCIL ACTION

DISCUSSION:

Motion by Council Member ______________ to ___________________________

_____________________________________________________________________.

Motion seconded by Council Member __________ and upon being put to a vote the motion ________.

 VOTING: "AYE" _____ "NAY" _____ "ABSTAIN" _____

CITY MANAGER'S MEMORANDUM

We originally worked with Eugene Tuttle when the underground fuel tanks were removed and discovered to have leaked. Due to changing regulations, Gene turned that part of his business over to Bill Watkins. Now after several years, Bill wants to slow down due to health issues and has recommended Grimes and Associates of Lubbock.

We have always paid Bill and sought reimbursement from the State. Sometimes we were not totally successful in obtaining full reimbursement. The agreement with Grimes provides that they will do the work and submit reimbursement to the state, and we will assign those funds to Grimes. In other words, we won’t be the middleman funding the operation.

Recommend approval of a resolution authorizing the Mayor to enter into this agreement with Grimes and Associates. (PF)
RESOLUTION NO.: R-29-01

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF LAMESA, TEXAS, AUTHORIZING THE MAYOR TO ENTER INTO AGREEMENT WITH GRIMES AND ASSOCIATES CONSULTING FOR REMEDIATION AT THE CITY'S LEAKING PETROLEUM STORAGE TANK SITE.

On this the 1ST day of October, 2001, there came on and was held at the regular meeting place, the City Hall, an open meeting of the City Council of the City of Lamesa, Texas held pursuant to the provisions of the Texas Open Meetings Act; (Local Govt. Code, Chapter 551); there being a quorum present and acting throughout the meeting, the following resolution was formally submitted by motion and duly seconded for the consideration and action of the meeting, to wit:

WHEREAS, the City Council of the City of Lamesa is required by the Texas Natural Resources Conservation Commission to remediate a leaking petroleum storage tank site; and

WHEREAS, it is in the public interest and welfare that said remediation be performed;

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF LAMESA, TEXAS, that the City Council of the City of Lamesa hereby authorizes the Mayor to enter into agreement with Grimes and Associates Consulting for necessary remediation work at the site.

Upon being put to a vote, the resolution was Passed, Approved, and Adopted this 1st day of October, 2001 by a majority vote and ordered to be spread upon the minutes of the City Council of the City of Lamesa, Texas and recorded in the resolution book thereafter.

ATTEST: 

Maria Aguayo
City Secretary

APPROVED:

Mike C. Tyler
